The Commission’s policy is to schedule hearings (meetings, workshops, etc.) in locations that are accessible to people with disabilities.

The CPUC encourages all Californians to participate in its meetings, hearings, workshops, and proceedings. We try to hold our public meetings only in places that are wheelchair accessible and which can accommodate specialized equipment and other services useful to people with disabilities. Please see the notice of the meeting you wish to attend for more specifics.

If you plan to attend and need specialized accommodations for a particular meeting that are not listed in the notice, request them from the Public Advisor’s Office at least three business days in advance of the meeting. Contact the Public Advisor’s Office by any one of the following:

Details about location and remote access options for each meeting will be posted in advance at [www.cpuc.ca.gov/vgi](http://www.cpuc.ca.gov/vgi).

AGENDA

The Vehicle-Grid Integration (VGI) Communication Protocol working group, which is designed to inform the Commission’s rulemaking under R.13-11-007 and related proceedings, will meet according to the above schedule.

Any changes to the schedule will be noticed on the Daily Calendar, including updates on locations for the all-day meetings. A current schedule will also be available at [www.cpuc.ca.gov/vgi](http://www.cpuc.ca.gov/vgi).

Background

The California Public Utilities Commission, California Energy Commission, and other State agencies convened this working group to assess how and whether the adoption of a communications protocol is necessary to enable Plug-In Electric Vehicle-Grid Integration (VGI) resources to more economically participate in electricity markets at scale.

Participants of the working group will identify and assess opportunities in which VGI can create value from multiple market participants’ perspectives, communication protocols needed to deliver that value, and concepts for how utilities, automakers, electric vehicle service providers, aggregators, and others can develop pathways to market for a VGI resource.

The working group will allow participants to review, understand, and discuss the technical details of existing communication protocols. The recommendations of the working group will be considered and incorporated in CPUC’s Rulemaking 13-11-007 (and/or the SB 350 Transportation Electrification applications A.17-01-020, A.17-01-021 and A.17-01-022) and the Energy Commission’s Integrated Energy Policy Report (IEPR) proceeding for future policy decisions. Anyone interested in participating in the VGI Working Group should contact Amy Mesrobian ([amy.mesrobian@cpuc.ca.gov](mailto:amy.mesrobian@cpuc.ca.gov) or 415-703-3175) or Carrie Sisto ([cs8@cpuc.ca.gov](mailto:cs8@cpuc.ca.gov) or 415-703-2872).

AGENDA

On July 10, 2017, the California Public Utilities Commission will host two public meetings to provide information about its recently opened Rulemaking to implement the Dairy Biomethane Pilots required by Senate Bill 1383. You may access the rulemaking at: [http://docs.cpuc.ca.gov/PublishedDocs/Published/G000/M191/K136/191136501.PDF](http://docs.cpuc.ca.gov/PublishedDocs/Published/G000/M191/K136/191136501.PDF). The purpose of the rulemaking is to establish how dairy biomethane pilots will be selected to demonstrate interconnection to the pipeline system, the definition of pipeline infrastructure that will be eligible for cost recovery from utility customers, the cost recovery
framework, and data gathering requirements. These pilot projects (which will process manure using anaerobic digestion and produce useable methane gas) are part of the state’s efforts to reduce emissions of short-lived climate pollutants, including reducing methane emissions 40% by 2020.

At the public meetings, the California Public Utilities Commission staff will present a brief overview of the proposed framework for selecting pilots, the proposed definition of recoverable pipeline infrastructure, the cost recovery framework, and the data gathering requirements. The majority of the time will be set aside to hear from the public and potential stakeholders about the proposed implementation framework. We encourage you to review the Rulemaking and the Proposed Implementation Framework described in its Appendices in preparing your comments.

The public meetings will be convened by the Administrative Law Judge assigned to the Rulemaking who will describe how interested individuals and organizations can formally participate in the Rulemaking. The staff presentation and public comments will be recorded and available for review by the CPUC as part of the public input to the proceeding. Although a quorum of Commissioners and/or their staff may be in attendance, no official CPUC action will be taken at this event.

For questions about the public meetings, please contact Dorris Chow at dorris.chow@cpuc.ca.gov.

If you require special accommodations, please notify the Public Advisor's Office at toll free 1-866-849-8390 or public.advisor@cpuc.ca.gov, at least 3 business days before the hearing.

AGENDA
Pursuant to Decision (D.) 16-12-036 issued on December 15, 2016, the Energy Division of the California Public Utilities Commission (CPUC) will hold a workshop to discuss advice letters filed by Pacific Gas and Electric Company, San Diego Gas & Electric Company, and Southern California Edison Company (collectively herein as “Utilities”) requesting approval to procure distributed energy resources solution for projects selected for the Competitive Solicitation Framework and Utility Regulatory Incentive Pilot. The high level objective of the workshop will be to allow the Utilities to explain the solicitation in detail so that stakeholders can understand the products and/or services the utility is soliciting and will be afforded the opportunity to suggest alternatives. The CPUC will also establish a schedule to allow for protests or responses to the advice letters and issue proposed resolution for Commission consideration. The Utilities will also be providing discussions including lessons learned from their locational energy efficiency and demand response pilot(s).

A detailed agenda will be issued to the R. 14-10-003 service list in advance of the workshop. For more information, please contact Chari Worster at 415.703.1585 or at chari.worster@cpuc.ca.gov.

AGENDA

In 2014, Governor Edmund G. Brown, Jr. signed Assembly Bill (AB) 2672 into law, directing the California Public Utilities Commission to provide options for affordable energy in communities in the San Joaquin Valley that may lack access to natural gas. West Goshen and Ducor are on the list of prioritized communities. Meetings are scheduled in West Goshen and Ducor to engage in dialogue with residents and other stakeholders about what types of affordable energy options might be best suited to the community. The agenda includes presentations from Southern California Edison Company (SCE) and Southern California Gas (SoCalGas), as well as from other stakeholders, followed by open discussion with community members and bill assistance for residents of the community from SCE staff. Discussion may be in English or Spanish, with translation headsets available. Please contact Commission staff lead Lola Odunlami if you have further questions, at Lola.Odunlami@cpuc.ca.gov or (415) 703-1893.

AGENDA
California Public Utilities Commission staff will host a public workshop to discuss the standard review transportation electrification proposals included in the investor owned utilities’ (IOUs) applications filed pursuant to requirements established in Senate Bill 350 to accelerate widespread transportation electrification.

On January 20, 2017, Pacific Gas and Electric Company, San Diego Gas & Electric Company, and Southern California Edison Company submitted applications proposing programs designed to reduce dependence on petroleum, meet air quality standards, lower greenhouse gas emissions, achieve the goals set forth in the Charge Ahead California Initiative, and be in the interest of ratepayers, as required under D.16-11-005. The utilities’ applications can be found at www.cpuc.ca.gov/sb350te. The focus of this workshop will be the utilities’ proposals for standard review projects, which would install nearly $1 billion in infrastructure aimed at accelerating transportation electrification across the three IOUs’ service territories. A more detailed agenda for the workshop will be made available closer to the event. Though a quorum of commissioners may be present, no decisions will be made. For more information contact: Amy Mesrobian (amy.mesrobian@cpuc.ca.gov or 415-703-3175) or Carrie Sisto (cs8@cpuc.ca.gov or 415-703-2872).

AGENDA

The Vehicle-Grid Integration (VGI) Communication Protocol working group, which is designed to inform the Commission’s rulemaking under R.13-11-007 and related proceedings, will meet according to the above schedule. Any changes to the schedule will be noticed on the Daily Calendar, including updates on locations for the all-day meetings. A current schedule will also be available at [www.cpuc.ca.gov/vgi](http://www.cpuc.ca.gov/vgi).

**Background**

The California Public Utilities Commission, California Energy Commission, and other State agencies convened this working group to assess how and whether the adoption of a communications protocol is necessary to enable Plug-In Electric Vehicle-Grid Integration (VGI) resources to more economically participate in electricity markets at scale. Participants of the working group will identify and assess opportunities in which VGI can create value from multiple market participants’ perspectives, communication protocols needed to deliver that value, and concepts for how utilities, automakers, electric vehicle service providers, aggregators, and others can develop pathways to market for a VGI resource. The working group will allow participants to review, understand, and discuss the technical details of existing communication protocols. The recommendations of the working group will be considered and incorporated in CPUC’s Rulemaking 13-11-007 (and/or the SB 350 Transportation Electrification applications A.17-01-020, A.17-01-021 and A.17-01-022) and the Energy Commission’s Integrated Energy Policy Report (IEPR) proceeding for future policy decisions. Anyone interested in participating in the VGI Working Group should contact Amy Mesrobian ([amy.mesrobian@cpuc.ca.gov](mailto:amy.mesrobian@cpuc.ca.gov) or 415-703-3175) or Carrie Sisto ([cs8@cpuc.ca.gov](mailto:cs8@cpuc.ca.gov) or 415-703-2872).

**NOTICE OF RESOLUTION RATIFYING EMERGENCY HEALTH AND SAFETY DIRECTIVE**

Resolution ESRB-7 ratifies Commission Executive Director Timothy J. Sullivan’s May 31, 2017 health and safety directive granting the Southern California Edison Company (SCE) a temporary deviation from the climbing space requirements in General Order 95, Rule 54.7, due to emergency conditions in the City of Compton, California.

On June 16, 2017, the draft resolution was mailed to the attached service list, pursuant to California Public Utilities Code § 311(g) and Rule 14.5 of the Commission’s Rules of Practice and Procedure. Comments must be filed by July 3, 2017, and reply comments must be filed by July 10, 2017.

Resolution ESRB-7 will be on the agenda at the July 13, 2017 Commission meeting. The Commission may then vote on this draft resolution, or it may postpone a vote.
When the Commission acts on the draft resolution, it may adopt all or part of it as written, amend or modify it, or set it aside and prepare its own order. Only when the Commission acts does the resolution become binding on the parties.

Finally, an original and two copies of the comments, with a certificate of service should be submitted to:

ADVICE LETTER FILINGS

To inquire about a filing, call the Energy Division (703-1093), Communications Division (703-3052) or Water Division (703-1133).

To protest a filing, mail the original letter/telegram to the Chief of the appropriate division (i.e., "Chief, [Energy, Communications or Water] Division"), to be received no later than 20 days after the date the Advice Letter was filed.

"Effective TBD" means that the date is to be determined by further Commission action. A date listed as "anticipated effective" may be subject to change. An Advice Letter Supplement is not a new filing, and there is no protest period unless indicated.
