**WILDFIRE SAFETY ADVISORY BOARD TO HOLD WORKSHOP ON  
PUBLICLY OWNED UTILITY WILDFIRE MITIGATION PLANS**

SAN FRANCISCO, November 6, 2020 - The Wildfire Safety Advisory Board (WSAB) will host a remote access (virtual) workshop on publicly owned utility wildfire mitigation plans.

**WHEN:** Wednesday, November 18, 2020, 1– 5 p.m.

**WHERE:** Remote access via webcast, WebEx, or conference line. Participation information is below.

Members of the public are encouraged to attend remotely and provide their input. The Wildfire Safety Advisory Board will hear presentations from representatives of publicly owned electric utilities and electrical cooperatives.

Assembly Bill 1054, signed into law in July 2019, created the California Wildfire Safety Advisory Board, a board of independent expert advisors, to advise a new Wildfire Safety Division within the California Public Utilities Commission (CPUC) on wildfire safety measures. The Wildfire Safety Advisory Board will also review and provide advisory opinions on the wildfire mitigation plans of publicly owned electric utilities and electrical cooperatives. The Wildfire Safety Advisory Board will serve as an additional forum for the public to provide input on the important topic of wildfire safety.
