WHAT: The public forum will begin with a brief presentation and then public comment will be heard. At least one representative from PG&E will be present throughout the forums to answer questions.

BACKGROUND: On December 14, 2021, PG&E submitted an Application related to funding the Nuclear Decommissioning Trust, and approval of costs expended towards decommissioning to-date. The Application requests the CPUC to review PG&E’s updated nuclear decommissioning cost studies and ratepayer contributions analyses in support of requests to fully fund the nuclear decommissioning master trusts to the level needed to decommission PG&E’s two nuclear plants, Diablo Canyon and Humboldt Bay Power Plant Unit 3, and for CPUC review of decommissioning projects completed since the last Nuclear Decommissioning Cost Triennial Proceeding (NDCTP).

The CPUC welcomes attendance and comments on PG&E's requests at the public forums, as public comments help the CPUC reach an informed decision. The Administrative Law Judge assigned to the proceeding is scheduled to issue a Proposed Decision in the case for consideration by the CPUC within a year.

While a quorum of Commissioners and/or their staff may attend the public forums, no official action will be taken on this matter.

If special accommodations are needed to attend, such as non-English or sign language interpreters, please contact the CPUC's Public Advisor's Office at public.advisor@cpuc.ca.gov or toll-free at 866-849-8390 at least five business days in advance of the public forums.

Further information on the public forums is available at www.cpuc.ca.gov/pph.
