

APPENDICES A through H

ATTACHMENT A

**BEFORE THE PUBLIC UTILITIES COMMISSION
OF THE STATE OF CALIFORNIA**

In the matter of the Application of the **GOLDEN STATE WATER COMPANY** (U 133 W) for an order (1) authorizing it to increase rates for water service by \$87,060,700 or 22.95% in 2025; (2) authorizing it to increase rates by \$20,699,200 or 4.42% in 2026, and increase rates by \$22,408,200 or 4.57% in 2027 in accordance with the Rate Case Plan; and (3) adopting other related rulings and relief necessary to implement the Commission's ratemaking policies.

Application No. 23-08-010
(Filed August 14, 2023)

**SETTLEMENT AGREEMENT

AT THE CALIFORNIA PUBLIC UTILITIES COMMISSION**

Table of Contents

INTRODUCTION AND OVERVIEW	1
Issue 1: Whether Golden State's proposed rate increases for the Test Year and Escalation years are just and reasonable.....	2
Issue 2. Whether Golden State's customer service and safety programs are adequate.....	7
Issue 3. Whether Golden State is compliant with all statutory and regulatory requirements	8
Issue 4. Whether the Application impacts the achievement of any goals of the Commission's Environmental and Social Justice Action Plan.....	8
Issue 5. Whether Golden State's request to deviate from the Rate Case Plan for estimating rate base, book depreciation, and income taxes in its 2027 attrition filing is reasonable	11
Issue 6. Whether Golden State's proposed overhead rate and its proposed methodology for allocating its overhead costs are reasonable	11
Issue 7. Special Request 1: Whether Golden State's report on the status of its authorized memorandum accounts and balancing accounts is accurate, and whether these accounts are reasonable and remain in the public interest.....	12
Issue 8. Special Request 2: Whether the Commission should authorize Golden State to implement a new revenue decoupling program, the Water Conservation Advancement Plan	12
Issue 9. Special Request 3: Whether Golden State's request to continue its current Sales Reconciliation Mechanism is reasonable	12
Issue 10. Special Request 4: Whether the Commission should find that Golden State's water quality meets all the applicable state and federal drinking water standards and the provisions of General Order 103-A.....	12
Issue 11. Special Request 5: Whether the Commission should authorize Golden State to consolidate its Arden Cordova and Clearlake ratemaking areas, and, if so, whether Golden State's calculations and proposals regarding the revenue requirements and rates in the consolidated ratemaking areas are reasonable	12
Issue 12. Special Request 6: Whether Golden State's request to continue its credit	

card payment program and recover the costs of the program through the Customer Assistance Program balancing account is reasonable	13
Issue 13. Special Request 7: Whether Golden State’s request to increase fire flow testing fees, reconnection fees, Cross Connection Control fees, and a new Tampering Fee is reasonable.....	13
Issue 14. Special Request 8: Whether Golden State’s request to modify its existing Polyfluoroalkyl Substances (PFAS) Memorandum Account to allow inclusion of carrying costs at Golden State’s adopted rate of return on all incremental plant investments to address treatment for PFAS is reasonable	13
Issue 15. Special Request 9: Whether the Commission should authorize Golden State’s proposed pilot Supply Mix Adjustment Mechanism in its Region 2 ratemaking area, which would adjust the adopted well production volumes in the escalation years if a threshold trigger is met	13
I. TERMS AND CONDITIONS - GENERAL	14
1.0 Settlement Agreement	14

**BEFORE THE PUBLIC UTILITIES COMMISSION
OF THE STATE OF CALIFORNIA**

In the matter of the Application of the **GOLDEN STATE WATER COMPANY** (U 133 W) for an order (1) authorizing it to increase rates for water service by \$87,060,700 or 22.95% in 2025; (2) authorizing it to increase rates by \$20,699,200 or 4.42% in 2026, and increase rates by \$22,408,200 or 4.57% in 2027 in accordance with the Rate Case Plan; and (3) adopting other related rulings and relief necessary to implement the Commission's ratemaking policies.

Application No. 23-08-010
(Filed August 14, 2023)

**SETTLEMENT AGREEMENT
BETWEEN GOLDEN STATE WATER COMPANY AND
THE PUBLIC ADVOCATES OFFICE
AT THE CALIFORNIA PUBLIC UTILITIES COMMISSION**

INTRODUCTION AND OVERVIEW

The Scoping Memo and Ruling of Assigned Commissioner identified fifteen issues to be evaluated in this proceeding. In accordance with ALJ Nojan's June 21, 2024 ruling, Golden State Water Company ("GSWC" or "Golden State") and the Public Advocates Office at the California Public Utilities Commission ("Cal Advocates"), identify in this Introduction and Overview where each of the issues identified in the Scoping Memo is addressed within the text of this Settlement Agreement ("Settlement Agreement" or "Agreement"). In instances where the resolution of a given Scoping Memo issue requires no further discussion in this Agreement, the resolution of such issue is described fully in this Introduction and Overview.

Issue 1: Whether Golden State’s proposed rate increases for the Test Year and Escalation years are just and reasonable, including:

1a. Whether Golden State’s estimates for its operation and maintenance expenses and administrative and general expenses are reasonable;

1b. Whether Golden State’s estimates of rate base are reasonable;

1c. Whether Golden State’s proposed additions to its plant budgets are accurate, reasonable, and justified;

1d. Whether Golden State’s proposed cost allocation from its General Office is reasonable;

1e. Whether Golden State’s proposed sales forecasts and rate designs are just and reasonable; and

1f. Whether Golden State’s proposed supply mix and supply costs are just and reasonable¹;

In its application, GSWC requested a company-wide 22.95% increase from the rates in effect at the time of filing its application in August 2023. In this Settlement Agreement, the settling parties (“Parties”) have resolved all disputed cost of service issues but two: the sales forecasts and supply expense costs. If GSWC’s positions prevail on both of these disputed issues, the result will be an 8.68% increase over 2024 rates in the 2025 test year, along with escalation year increases in 2026 and 2027. If Cal Advocates’ positions prevail on both of these disputed issues, the result will be a 4.98% increase over 2024 rates in the 2025 test year, along with escalation year increases in 2026 and 2027.²

¹ The Scoping Ruling does not include issue 1.f; this issue was identified by the parties in their Joint List of Stipulated Issues served on the service list for this proceeding on May 31, 2024 (and marked therein as “Not Stipulated”).

² Effective July 1, 2024, the Commission approved Advice Letter 1941-W (IRS Private Letter Ruling – Rate Base Adjustment, applicable in all ratemaking areas, and Advice Letter 1942-W (Supply Expense Offsets), applicable in Bay Point and Region 2. The

This Settlement, as a whole, addresses all operating expenses (excluding supply expenses and related uncollectibles and local taxes), and all capital costs used to determine the Test Year revenue requirements for each ratemaking area. As discussed in detail below, the agreed-upon values are within the range of values proposed by the Parties and reflect a fair and reasonable compromise of their litigation positions. The Parties believe that the settlement of the operating expenses (excluding supply expenses) and capital costs results in a just and reasonable range of test year revenue requirements that allow for the provision of safe and reliable water service for this GRC cycle.

Appendix A of the Revised Rate Case Plan for Class A water utilities, adopted in D.07-05-062, established the methodology to determine the revenue requirements for post-test years, which are 2026 and 2027 for this proceeding. The Parties have addressed exceptions to this issue fully in Section 18.2 of this Agreement.

This Scoping Memo Issue is addressed in the following sections of the Settlement Agreement, as listed below:

Issue 1a. Whether Golden State's estimates for its operation and maintenance expenses and administrative and general expenses are reasonable:

- 4.3 Water Loss
- 5.1 Regions 1, 2 & 3 Labor
- 5.2 General Office Labor

rate adjustments resulting from the implementation of these advice letters is not reflected in the increases described in this section. The net, companywide impact of Advice Letters 1941-W and 1942-W is to increase the 2024 rates. Incorporating these rate adjustments would lower the GSWC and Cal Advocates percentage increases referenced in this section to 8.18% and 4.50%, respectively.

- 6.1 Escalation Factors
- 6.2 Customer Growth Impact
- 6.3 Other Revenue
- 7.1 Office Supplies
- 7.2 Property Insurance
- 7.3 Injuries and Damages
- 7.4 Pensions and Benefits
- 7.5 Business Meals
- 7.6 Outside Services
- 7.7 Miscellaneous
- 7.8 Allocated General Office Expenses – Corporate Support
- 7.9 Allocated General Office Expenses – Centralized Operations Support
- 7.10 Allocated District Office Expense
- 7.11 Other Maintenance of General Plant
- 7.12 Rent
- 7.13 Depreciation Expense
- 8.1 Utility Support Services Allocated from General Office
- 8.2 Other Operating Expenses
- 8.3 Uncollectible Rates
- 8.4 Other Maintenance Expenses
- 8.5 Chemical Expenses
- 9.1 Property Taxes
- 9.2 Payroll Taxes
- 9.3 Local Taxes
- 9.4 Income Taxes
- 10.1 Supply Mix
- 10.2 Supply Expenses
- 11.1 Conservation Expenses
- 14.1 Escalation Factors
- 14.2 Other Revenues
- 14.3 Common Customer Account Expense

- 14.4 Postage
- 14.5 All Other Operating Expenses
- 14.6 All Other Maintenance Expenses
- 14.7 Office Supplies Expense
- 14.8 Property Insurance Expense
- 14.9 Injuries & Damages Expense
- 14.10 Pension & Benefits
- 14.11 Business Meals
- 14.12 Regulatory Expenses
- 14.13 Outside Services
- 14.14 Miscellaneous Expenses
- 14.15 Maintenance of General Plant
- 14.16 Rent Expense
- 14.17 A&G Capitalized
- 14.18 General Office Labor
- 14.19 Depreciation Expense
- 14.20 Local Taxes
- 14.21 Property Taxes
- 14.22 Payroll Taxes
- 15.1 Rates Charged for Purchased Water and Pump Taxes
- 15.2 Present Rates
- 15.3 Private Fire Service Charge
- 15.4 Rate Design
- 16.1 Return on Rate Base
- 18.1 Customer Assistance Program ("CAP")

Issue 1b. Whether Golden State's estimates of rate base are reasonable:

- 3.6 Depreciation Accrual Rates
- 3.7 Working Cash
- 7.13 Depreciation Expense

- 12.1 General Office Plant Corporate Support, Utility Support and Centralized Operations Support
- 12.2 Depreciation Accrual Rates

Issue 1c. Whether Golden State's proposed additions to its plant budgets are accurate, reasonable, and justified:

- 3.2 Region 1, 2 and 3 Capital Budgets
- 3.3 Contingency
- 3.4 Construction Work in Progress
- 3.5 Regions 1, 2 and 3 New Capital Budgets

Issue 1d. Whether Golden State's proposed cost allocation from its General Office is reasonable:

- 13.1 Structure of the Allocation of Costs to American States Utility Services
- 13.2 Allocation of Corporate Support Function
- 13.3 Allocation of Utility Support Function
- 13.4 Allocation of Centralized Operations Support Function

Issue 1e. Whether Golden State's proposed sales forecasts and rate designs are just and reasonable:

- 4.1 Customers (Connections)
- 4.2 Sales per Customer
- 4.3 Water Loss

Issue 1f. Whether Golden State's proposed supply mix and supply costs are just and reasonable³:

- 10.1 Supply Mix

³ This item was not separately articulated in the Scoping Memo.

Issue 2. Whether Golden State's customer service and safety programs are adequate

Cal Advocates evaluated GSWC's compliance with the Commission's General Order ("GO") 103-A standards, complaints received by the Commission's Consumer Affairs Branch and Customer inquiries to GSWC. GO 103-A adopts standards and reporting requirements for six customer service quality metrics: 1) telephone performance standards; 2) billing performance standards; 3) meter reading performance standard; 4) work completion performance standards; 5) response to customer and regulatory complaints performance standard; and 6) service interruptions. GSWC reports its compliance with these standards in its annual reports submitted to the CPUC. Cal Advocates reviewed GSWC's performance for customer service from 2019 to September 2023 and noted that GSWC did not meet performance standards for GO 103-A, Appendix E, Section 1A (Call Answering Service Level) for years 2019, 2022 and 2023, Section 1B (Abandoned Call Rate) for years 2022 and 2023, and GO 103-A Section 4A (Scheduled Appointment performance measure) for 2023, and recommended that the Commission require GSWC to develop and implement a plan to bring GSWC in compliance with all GO-103A customer service standards.

As Cal Advocates acknowledges, GSWC has addressed the circumstances that resulted in missing the identified GO 103-A performance standards that included staff shrinkage by 29% and an increase in the call handling time (3.5 minutes to 5 minutes) during the pandemic. GSWC anticipates continued compliance with customer service standards as staffing levels have increased. In terms of the Scheduled Appointment performance, GSWC does not need to address any deficiencies as the standard was met by year end 2023. Cal Advocates testimony was based on partial 2023-year data that was made available by GSWC during discovery.

Cal Advocates evaluated GSWC's Emergency Preparedness and Response Plan ("EPRP"). Cal Advocates' reviewed whether GSWC's EPRP complies the America's Water Infrastructure Act, where GSWC is required to provide proof of submitting a Risk and Resilience Assessment Certification to the United States Environmental Protection Agency for systems serving more than 3,300 people. After completing its review, Cal Advocates recommends that the Commission find GSWC's safety program meets regulatory requirements.

(See Exhibit GSW-PR-084/GSW-PR-84C, pages 23 to 28 and PUBADV-AS-004, Chapter 1 as corrected by PUBADV-AS-004A.)

Issue 3. Whether Golden State is compliant with all statutory and regulatory requirements

Cal Advocates reviewed GSWC's compliance with statutory and regulatory requirements and does not assert that GSWC violates any applicable statutory and regulatory requirements.

Issue 4. Whether the Application impacts the achievement of any goals of the Commission's Environmental and Social Justice Action Plan

The Parties support the goals contained in the Commission's Environmental and Social Justice ("ESJ") Action Plan ("Plan"). The Parties agree that GSWC's proposals in this proceeding and the provisions of this Settlement Agreement meet the Commission's ESJ objectives and ensures continued access to high-quality water for ESJ Communities in accordance with the ESJ Plan. Information relevant to this determination is presented immediately below, and in the Parties' opening and rebuttal testimonies. (See Exhibit GSW-EG-021, Volume 1 of 13, pages 13, and PUBADV-AS-004, Chapter 2.)

GSWC has proposed fourteen (14) initiatives related to Environmental and Social Justice such as 1) Reducing Greenhouse Gas Emissions, 2) Mitigating climate change and weather effects, 3) Water conservation and customer communication/education, 4) Providing safe and reliable service to all customers, 5) Ensuring water supply, 6) Uninterrupted water supply, 7) Public Safety, 8) Supplier Diversity, 9) Engaging with communities, 10) Diversity & Inclusion, 11) Affordable access to water, 12) Low income or disadvantaged assistance program, 13) Providing economic benefits to low income and disadvantaged communities, and lastly 14) Water quality for all customers.

Public Participation Hearings – The public was able to provide valuable comments and feedback regarding potential impacts of a Commission decision. This achievement through virtual public participation hearings and the public comments section on the proceeding docket on the Commission’s website allowed for timely, meaningful participation from customers as desired in Goal 5 of the ESJ Plan.

Meaningful Consolidations – Cal Advocates supports GSWC’s proposal in this proceeding to undertake a phased-in rate consolidation of the Clearlake ratemaking area with the Arden Cordova ratemaking area. The Clearlake ratemaking area is considered an ESJ disadvantaged community as identified by the CalEnviroScreen 4.0 tool. The base rates in the Clearlake area will be frozen for the 2025 to 2027 rate case cycle, furthering the Commission’s objective of access to high-quality water as stated in Goal 3. (See Exhibits GSW-JP-076, pages 20 to 22, and PUBADV-MA-001, pages 34 to 35.)

Rate Impact on Low-Income Customers – As discussed further in Section 18.1 of this Agreement, low-income customers eligible for CAP assistance will see a significant discount to their water bills. The impact of this reduction demonstrably aids in Goal 3 of the ESJ Plan concerning

access to high-quality water for ESJ Communities. (See Exhibits GSW-HW-089, pages 15 to 17, PUBADV-HM-007, pages 2-14 to 2-17, as corrected by PUBADV-HM-007A.)

Capital Improvement Planning – Through specific projects reflected in this rate case, GSWC continues to provide capital improvements in traditionally disadvantaged communities (e.g. Clearlake, Bay Point, Barstow, Pomona, Compton, Norwalk, Hawthorne, Huntington Park, Lynwood) reflecting the commitment to providing all customers across the Utility’s service territory access to reliable, clean, and affordable water and water service. In many of these locations, GSWC, through proposals adopted by the Commission in prior GRCs, has already put in place regionalized rates so that these disadvantaged communities do not have to shoulder the full costs of the capital projects that directly benefit them in providing safe and reliable service. More specifically, in this GRC, GSWC has proposed a number of projects that achieve other ESJ goals besides affordability, including reducing GHG emission and enhancing conservation and customer communication/education.

Cal Advocates evaluated GSWC’s projects in relation to the Commission’s environmental and social justice goals 2 and 3. Cal Advocates asserted that certain of GSWC’s ESJ initiatives are generic in nature and not necessarily targeted to ESJ communities, but for purposes of settlement, the parties agree that overall GSWC’s ESJ goals have been met.

Multilingual Notices and Forms – GSWC maintains many of its regulatory and operational notices and forms in multiple languages in order to reach the ESJ communities it serves. All of these efforts to ensure all customer have equal access to important information are pursued with Goals 1 and 5 of the ESJ Plan in mind. GSWC’s website, gswater.com, which contains information about the GRC, includes a translation feature that will convert the website into over 100 languages.

Increased Outreach and Customer Protections – GSWC has implemented several emergency customer protections as part of its Disaster Relief Plan. GSWC continues to work with customers who can benefit from alternate payment arrangements and other assistance as necessary. Service will not be discontinued for nonpayment for any customer who complies with an alternate payment arrangement entered into with GSWC, as long as the customer also keeps current on his or her account for water service as charges accrue in each subsequent billing period. These efforts reflect the aim of Goal 3 of the ESJ Plan to ensure water customer resilience and access to high-quality water.

Transparency – The Parties have made available for public review on the Commission’s website all public versions of opening and rebuttal testimony that were submitted in connection with GSWC’s Application in this proceeding. Customers were notified of the Application’s filing and the proposed rate increases by individual customer notices. These efforts reflect the core of Goal 5 of the ESJ Plan.

Issue 5. Whether Golden State’s request to deviate from the Rate Case Plan for estimating rate base, book depreciation, and income taxes in its 2027 attrition filing is reasonable

This issue is addressed in Section 18.2 below.

Issue 6. Whether Golden State’s proposed overhead rate and its proposed methodology for allocating its overhead costs are reasonable

This issue is addressed in Section 3.1 below.

Issue 7. Special Request 1: Whether Golden State’s report on the status of its authorized memorandum accounts and balancing accounts is accurate, and whether these accounts are reasonable and remain in the public interest

This issue is addressed in Section 17.1 below.

Issue 8. Special Request 2: Whether the Commission should authorize Golden State to implement a new revenue decoupling program, the Water Conservation Advancement Plan

This issue is addressed in Section 17.2 below.

Issue 9. Special Request 3: Whether Golden State’s request to continue its current Sales Reconciliation Mechanism is reasonable

This issue is addressed in Section 17.3 below.

Issue 10. Special Request 4: Whether the Commission should find that Golden State’s water quality meets all the applicable state and federal drinking water standards and the provisions of General Order 103-A

This issue is addressed in Section 17.4 below.

Issue 11. Special Request 5: Whether the Commission should authorize Golden State to consolidate its Arden Cordova and Clearlake ratemaking areas, and, if so, whether Golden State’s calculations and proposals regarding the revenue requirements and rates in the consolidated ratemaking areas are reasonable

This issue is addressed in Section 17.5 below.

Issue 12. Special Request 6: Whether Golden State's request to continue its credit card payment program and recover the costs of the program through the Customer Assistance Program balancing account is reasonable

This issue is addressed in Section 17.6 below.

Issue 13. Special Request 7: Whether Golden State's request to increase fire flow testing fees, reconnection fees, Cross Connection Control fees, and a new Tampering Fee is reasonable

This issue is addressed in Section 17.7 below.

Issue 14. Special Request 8: Whether Golden State's request to modify its existing Polyfluoroalkyl Substances (PFAS) Memorandum Account to allow inclusion of carrying costs at Golden State's adopted rate of return on all incremental plant investments to address treatment for PFAS is reasonable

This issue is addressed in Section 17.8 below.

Issue 15. Special Request 9: Whether the Commission should authorize Golden State's proposed pilot Supply Mix Adjustment Mechanism in its Region 2 ratemaking area, which would adjust the adopted well production volumes in the escalation years if a threshold trigger is met

This issue is addressed in Section 17.9 below.

I. TERMS AND CONDITIONS – GENERAL

1.0 This Settlement Agreement is entered into by Golden State Water Company and the Public Advocates Office at the California Public Utilities Commission, collectively referred to as the “Parties.”

1.1 This Agreement resolves most of the issues in GSWC’s General Rate Case (“GRC”) Application (“A.”) 23-08-010 for an increase in its general rates for water service in its Region 1 (comprising the Arden Cordova, Bay Point, Clearlake, Los Osos, Santa Maria and Simi Valley Customer Service Areas (“CSAs”)), Region 2, and Region 3. The unresolved issues are discussed further in Sections 4.2 (Sales per Customer), 10.1 (Supply mix), 15.4 (Rate Design), 17.2 (Special Request #2 – Water Conservation Advancement Plan), 17.3 (Special Request #3 – Sales Reconciliation Mechanism), 17.8 (Special Request #8 – Modification to PFAS Memorandum Account), and 17.9 (Special Request #9 – Supply Mix Adjustment Mechanism).

1.2 In accordance with the Commission’s Rules of Practice and Procedure, Rule 12.5, the Parties agree that the Commission’s adoption of this Agreement should not be construed as an admission or waiver by any Party regarding any fact, matter of law, or issue thereof that pertains to the subject of this Agreement. The Parties also agree that the Agreement is not to be used as any statement of precedent or policy of any kind for any purpose against any Party in any other current or future proceedings, and the Parties commit to not use the Agreement or any part of the Agreement as any statement of the Commission’s precedent or policy in any future proceeding.

In accordance with the Commission’s Rules of Practice and Procedure,

Rule 12.5, the Parties intend that the Commission's adoption of this Agreement: be binding on each Party, including its legal successors, predecessors, assigns, partners, joint ventures, shareholders, members, representatives, agents, attorneys, parent or subsidiary companies, affiliates, officers, directors, and/or employees.

- 1.3** The Parties agree that no Party to this Agreement, or any Party's legal successors, predecessors, assigns, partners, joint ventures, shareholders, members, representatives, agents, attorneys, parent or subsidiary companies, affiliates, officers, directors, and/or employees thereof, assumes any personal liability as a result of this Agreement.
- 1.4** The Parties agree that the Commission has primary jurisdiction over any interpretation, enforcement, or remedy pertaining to this Agreement, as provided by the California Constitution, Article XII, Section 8. No Party may bring an action pertaining to this Agreement in any local, State, or Federal court, or administrative agency, without having first exhausted its administrative remedies at the Commission.
- 1.5** If any Party fails to perform its respective obligations under this Agreement, the other Party/ies may come before the Commission to pursue a remedy including enforcement.
- 1.6** The Parties agree that this Agreement is an integrated agreement and the provisions of the Agreement are not severable. Therefore, if the Commission rejects any term or portion of this Agreement, the Parties shall convene a conference within fifteen (15) days thereof and engage in good faith negotiations to determine whether some or all of the remainder of the Agreement is acceptable to the Parties. In the event an agreement is reached, all Parties must consent in writing to any changes or the Agreement is void. If the Parties cannot agree to resolve any issue raised by the Commission's actions within thirty (30) days of their conference,

this Agreement shall be rescinded, the Parties shall be released from any obligation, representation, or condition set forth in this Agreement, including their obligation to support this Agreement, and the Parties shall be restored to their positions prior to having entered into this Agreement. Thereafter, the Parties may pursue any action they deem appropriate.

- 1.7** The Parties acknowledge and stipulate that they enter this Agreement freely, voluntarily, and without any fraud, duress, or undue influence by any other Party. Each Party hereby states that it has read and fully understands its rights, privileges, and duties under this Agreement, including each Party's right to discuss this Agreement with its legal counsel, and has exercised those rights, privileges, and duties to the extent deemed necessary.
- 1.8** The Parties have determined that this Agreement is in their best interests, and more cost-effective than undertaking the expenses, delays, and uncertainties of litigation. In executing this Agreement, each Party declares that the terms and conditions herein are reasonable, consistent with the law, and in the public interest. Therefore, the Parties jointly request that the Commission accept and adopt this proposed Agreement as reasonable, consistent with the law, and in the public interest.
- 1.9** The Parties acknowledge and agree that this Agreement has been jointly negotiated and drafted. The language of this Agreement shall be construed as a whole according to its plain meaning and not in favor of any Party.
- 1.10** This Agreement constitutes the entire agreement and understanding between the Parties as to the subject of this Agreement, and supersedes any prior agreements, commitments, representations, or discussions between the Parties.

- 1.11** This Agreement may not be amended or modified without the express written and signed consent of each Party hereto.
- 1.12** No Party has relied or relies upon any statement, promise, or representation by any other Party, except as specifically set forth in this Agreement. Each Party expressly assumes the risk of any mistake of law or fact made by such Party or its authorized representative.
- 1.13** This Agreement and each covenant and condition set forth herein shall be binding upon the respective Parties hereto.
- 1.14** This Agreement may be executed in counterparts by each Party hereto with the same effect as if all Parties had signed one and the same document. Any such counterpart shall be deemed to be an original and shall together constitute one and the same Agreement.
- 1.15** This Agreement shall become effective and binding on the Parties as of the date it is fully executed by all Parties.
- 1.16** This Agreement represents a compromise from the litigation positions of the Parties, resulting from the fully developed evidentiary record on the issues settled herein, and extensive negotiations between the Parties. The Parties have evaluated the impacts of the various proposals in this proceeding and desire to resolve all issues addressed herein, beginning with a Commission decision adopting this Agreement, in accordance with the terms of the Agreement.
- 1.17** The Parties shall jointly request Commission approval of this Agreement and shall actively support its prompt approval. The Parties agree that, subject to the confidentiality restrictions under Rule 12.6, they shall make witnesses available to answer any questions by the Commission regarding the Agreement.

II. FACTUAL BACKGROUND

2.0 GSWC is a Class A water company regulated by the Commission. GSWC divides its service territory into three geographical regions: Region 1, Region 2, and Region 3. Region 1 incorporates CSAs in Northern California and California's Central Coast. Regions 2 and 3 encompass areas of Southern California. GSWC's headquarters is located in San Dimas, in Southern California.

2.1 GSWC's GRC, A.23-08-010, was filed on August 14, 2023. In support of its Application, GSWC submitted detailed testimony, Results of Operations Reports, and Water Master Plans. GSWC also prepared responses to the Minimum Data Requirements, as mandated by Appendix A of D.07-05-062.

On September 20, 2023, Cal Advocates filed a timely protest to which GSWC filed a reply on October 2, 2023.

On October 27, 2023, the assigned Administrative Law Judge (ALJ) Amin Nojan held a Prehearing Conference to address preliminary scope of issues, schedule, categorization and need for hearing.

On January 4, 2024, the assigned Commissioner Genevieve Shiroma issued a Scoping Memo and Ruling (Scoping Memo) that set forth the scoping issues and proceeding schedule.⁴

Cal Advocates analyzed GSWC's Application, and supporting documents, conducted discovery, and made field tours of the water systems. On February 27, 2024, Cal Advocates served its Reports. On March 12,

⁴ The proceeding was reassigned from Commissioner Genevieve Shiroma to Commissioner Darcie L. Houck per Chief ALJ's Notice dated April 2, 2024.

California Water Association served two (2) testimonies and National Association of Water Companies served one (1) testimony, in response to Cal Advocates' reports. Cal Advocates issued errata reports on April 12, 2024. On April 30, 2024, GSWC served its rebuttal testimony to Cal Advocates' February 27, 2024 reports, as corrected on April 12, 2024. GSWC served errata to one of its rebuttal testimonies on June 12, 2024⁵.

In support of the Application GSWC introduced well over 100 documents into the record, including prepared direct and rebuttal testimony, water system master plans, stipulated exhibits and one errata exhibit. Cal Advocates introduced into the record twenty-seven (27) documents, including prepared direct testimony, errata and stipulated exhibits. California Water Association introduced two (2) testimonies and National Association of Water Companies introduced one (1) testimony. A detailed list of the Parties' exhibits is presented in Appendix K.

Commencing on May 9, 2024, the Parties began to engage in settlement negotiations. A formal settlement conference was held pursuant to Rule 12.1(b) on July 10, 2024.

The assigned ALJ held an evidentiary hearing on June 13, 2024. The Parties waived cross examination of all witnesses and the ALJ admitted documents into the record at the hearing.

On June 21, 2024, the assigned ALJ issued an E-Mail Ruling setting deadlines for motion for settlement adoption and providing guidance on briefs.

The Parties' agreed upon terms and conditions regarding the specific issues in A.23-08-010 are set forth below.

⁵ Exhibit GSW-RM-073A

- 2.2** This Agreement is comprised of this Agreement document itself and the following appendices attached hereto:
- Appendix A – Comparison Exhibit
 - Appendix B – Settled Advice Letter Projects
 - Appendix C - Advice Letter Projects Memorandum Account Preliminary Statement
 - Appendix D – Settled Construction Work in Progress
 - Appendix E – Settled New Capital Projects
 - Appendix F – Settled General Office New Capital Projects
 - Appendix G – Settled General Office Construction Work in Progress
 - Appendix H – Clearlake Water Loss Control Plan
 - Appendix I – General Office Allocation Percentages
 - Appendix J – Balancing Account and Memorandum Account Balances
 - Appendix K – Exhibit List

III. TERMS AND CONDITIONS OF THE SETTLEMENT

Except as discussed in Section 1.1 above, the Parties have resolved all revenue requirement issues. Because the Parties did not agree on the sales forecasts, or the source of supply mix in Regions 2 and 3, there is a difference in the final rate impacts between the Parties' positions, as shown in Tables 3.1 and 3.2 below, and Appendix A (Comparison Exhibit). The increases for 2025 are incremental to 2024 rates, as described in Section 15.2.

Parties agree that the information shown in Tables 3.1 and 3.2 are the governing results of parties' settlement efforts. Therefore, any technical errors subsequently discovered in any part of this settlement will be addressed so as to not conflict with the total results shown in these tables.

Table 3.1 Reflecting Golden State's Sales Forecast and Supply Mix						
Rate increases for Test Year 2025 and estimated increases for the Escalation Years 2026 and 2027* (\$000)

* Actual increases for escalation years 2026 and 2027 will be determined at the time the advice letters to implement the increases are approved by the Commission, and will be calculated pursuant to the Rate Case Plan methodology adopted in D.04-06-018 and D.07-05-062.

⁶ Arden Cordova and Clearlake consolidated

⁷ Arden Cordova and Clearlake consolidated

The agreed-upon rate increases reflect a reasonable compromise between the Parties' litigation positions, and provide Golden State with a reasonable budget to manage its water systems to assure safe and reliable service for customers. The increases allow Golden State to prioritize within this agreed-upon budget, its various projects and expenses. Thus, to the extent certain issues presented below differed from one or both Parties' litigation positions, it is often a reflection of allowing Golden State to prioritize the projects and expenses deemed necessary, within the Party's overall agreed-upon budget.

3.0 Plant – Regions 1, 2 and 3

3.1 Capital Overhead Rate

GSWC's Request and Cal Advocates' Position:

GSWC requested a capital overhead rate of 12.20% in 2024, 2025 and 2026 for Regions 1, 2 and 3 and the General Office ("GO") with the exception of the GO Corporate Support and Utility Support segments. For the GO Corporate Support and Utility Support segments, GSWC requested a capital overhead rate of 2.52% in 2024, 2025 and 2026. All overhead rates were calculated using the methodology set forth in Exhibit GSW-SL-65. As described therein, the overhead rates were calculated based on (1) the estimated charges to be booked to GSWC's overhead pool; and (2) GSWC's requested Capital Budgets. GSWC included the overhead rates as a fixed input in its Application workpapers. (See Exhibit GSW-SL-065.)

While Cal Advocates did not contest GSWC's methodology in calculating the capital overhead rate, Cal Advocates did recommend using a lower inflation factor in the overhead rate calculation workpapers. Cal Advocates also recommended recalculating the overhead rate based on revised capital budgets. (See Exhibit PUBADV-JM-008, pages 1-6 to 1-8.)

Resolution:

This issue is resolved by the Parties' agreement to the total capital budget as provided in Section 3.2 and Section 12.1.

3.2 Region 1, 2 and 3 Capital Budgets

GSWC's Request and Cal Advocates' Position:

For Regions 1, 2 and 3, GSWC requested a 2024-2026 capital budget (including Construction Work in Progress ("CWIP") Closed to Plant) total of \$578.0 million and Cal Advocates recommended \$166.2 million.

Resolution:

The Parties settled on a 2024-2026 capital budget of \$524.9 million, as shown in table 3.3 below.

Table 3.3				
Region 1, 2 and 3 Total Capital Budgets by Region (\$)				
		GSWC	Cal Advocates	Settlement
Region 1	2024	34,799,063	10,740,661	27,047,944
	2025	27,212,984	7,514,073	25,580,205
	2026	52,771,566	11,379,909	53,309,221
Region 2	2024	79,384,572	18,977,538	61,996,809
	2025	85,413,573	20,869,362	80,288,759
	2026	63,339,447	19,674,602	64,056,021
Region 3	2024	96,940,933	21,096,203	78,720,737
	2025	80,557,756	27,928,511	75,724,291
	2026	57,613,648	28,059,481	58,225,391
Total		578,033,542	166,240,340	524,949,378

Table 3.4 below shows the impact of the settled capital budget on rate base for the years 2025-2027. As discussed above, since the Parties have not settled the issues related to sales revenue, rate design and supply mix expenses, the litigation outcome will impact the rate base values. Accordingly, table 3.4 shows the expected value of rate base under the

potential outcome in favor of each party on the litigated issues.

Table 3.4					
Region 1, 2 and 3 Total Rate Base by Region (\$)					
		GSWC	Cal Advocates	GSWC Stipulation	Cal Advocates Stipulation
Region 1	2025	247,937,044	204,914,931	233,324,031	233,391,965
	2026	280,735,425	208,364,840	265,850,321	265,918,255
	2027	313,533,806	211,814,749	297,616,887	297,684,821
Region 2	2025	671,909,812	527,614,797	622,863,934	622,732,279
	2026	727,237,726	529,686,401	676,708,000	676,576,344
	2027	782,565,639	531,758,005	729,350,052	729,218,397
Region 3	2025	650,167,399	523,911,145	600,303,093	599,824,350
	2026	700,770,261	532,867,001	649,702,868	649,224,125
	2027	751,373,123	541,822,857	697,785,904	697,307,161
Total	2025	1,570,014,254	1,256,440,873	1,456,491,058	1,455,948,593
	2026	1,708,743,412	1,270,918,242	1,592,261,190	1,591,718,725
	2027	1,847,472,569	1,285,395,610	1,724,752,843	1,724,210,379

In addition to the above, the Parties agreed to 75 additional capital projects that GSWC may treat as Advice Letter projects totaling \$75,887,649 for costs incurred subsequent to December 31, 2022. The total Advice Letter projects amount include \$58,233,087 in 2023 and \$17,654,562 in 2024. See Appendix B for a listing of these Advice Letter projects. A memorandum account (see Appendix C) will track accrued interest during the construction period for each Advice Letter project at GSWC's adopted cost of debt until the assets are in service, and the full rate of return and applicable components of revenue requirement, such as depreciation and property taxes, for the projects from the period the assets are in service to the date GSWC files its attrition year filings for 2026 and 2027. At that time, the completed assets and the associated amounts in the memorandum account will be added to the adopted rate base, subject to Commission confirmation that the amounts were appropriately recorded in the memorandum account. Projects remaining

incomplete at the time of filing GSWC's 3rd year (2027) attrition filing will not be afforded memorandum account treatment.

For the purpose of settlement, the Parties agree to the 2024-2026 capital budgets for Regions 1, 2 and 3 (and amounts for CWIP) as shown in Sections 3.4 and 3.5 below. The Parties agree that actual capital spending for the three years addressed in this proceeding (2024-2026), and the 2023 transition year, may vary from any forecast adopted by the Commission and that variances between adopted amounts and those that actually occur would not necessarily demonstrate imprudence or unreasonableness. The Parties also agree that it is the utility's responsibility to manage the overall capital budget to assure safe and reliable service for customers.

The Parties agree that the budgets provide a pool of funds for capital projects that is less than the amount originally requested by GSWC but sufficient for GSWC to provide safe and reliable water service during the GRC period. Within this overall capital budget, GSWC will have the flexibility to prioritize capital projects, including those not listed in the appendices to this Settlement Agreement, in order to best serve its customers.

See Appendix D for a complete listing of the CWIP projects and Appendix E for a complete listing of new capital projects.

3.3 Contingency Rate

GSWC's Request and Cal Advocates' Position:

GSWC requested a contingency rate of 5% for pipeline projects and Blankets, and a contingency rate of 10% for non-pipeline projects included in the Region 1, 2 and 3 capital budgets. (See Exhibit GSW-EG-021, pages 25-26.) Cal Advocates contested GSWC's request to apply a contingency rate to any capital project. Cal Advocates recommended

removing the contingency rate from all capital projects requested by GSWC. (See Exhibit PUBADV-JM-008, pages 1-2 to 1-3.)

Resolution:

The Parties resolve the issue of contingency rate by agreeing to the total capital budget as provided in Section 3.2 and Section 12.1.

3.4 Region 1, 2 and 3 Construction Work in Progress

GSWC's Request and Cal Advocates' Position:

GSWC requested to include in rate base its CWIP budget, which includes the 2022 recorded CWIP amounts plus estimated additional expenditures in 2023-2026 to complete the CWIP projects. For Regions 1, 2 and 3, GSWC requested a total 2023-2026 CWIP budget of \$272.6 million, while Cal Advocates recommended \$140.1 million. (See Exhibit GSW-EM-068 and Exhibit PUBADV-CS-005.)

Cal Advocates recommended that the Commission deny all of GSWC's requests for additional CWIP funding for 2024-2026 as the CWIP projects are related to the prior GRC and no new funding should be allowed.

Cal Advocates also recommended that the following CWIP proxy amounts be included in rate base: \$23,253,223, \$30,526,084, and \$32,155,058 for 2024, 2025, and 2026 respectively. This contrasted with GSWC's request of a constant CWIP proxy amount of \$141,001,936 for each year, which reflects the December 31, 2022 recorded CWIP balance. Cal Advocates' recommendation would result in the removal of various amounts of CWIP from amounts already included in rate base each year: \$117,748,713 (\$141,001,936 minus \$23,253,223), \$110,475,852 (\$141,001,936 minus \$30,526,084), and \$108,846,878 (\$141,001,936 minus \$32,155,058) in 2024, 2025, and 2026, respectively. (See Exhibit GSW-BP-082, page 16.)

Resolution:

For Regions 1, 2 and 3, the Parties settled on a total CWIP capital budget for the years 2023-2026 of \$190.4 million, as shown in the table 3.5 below.

Table 3.5

The Parties agree that no adjustment should be made to 2022 CWIP proxy balance requested by GSWC.

Refer to Appendix D for a listing of the CWIP projects.

3.5 Regions 1, 2 and 3 New Capital Projects/Budgets

GSWC's Request and Cal Advocates' Position:

For Regions 1, 2 and 3, GSWC requested to include in rate base new capital projects with total estimated expenditures in 2024-2026 of \$443.6

million. Cal Advocates disputed the need for various capital projects and recommended adjustments to the amounts included in GSWC's proposed capital budgets for Regions 1, 2, and 3. Cal Advocates recommended total expenditures in 2024-2026 of \$159.2 million. Further, Cal Advocates recommended that GSWC use a condition-based approach to develop its pipeline replacement rates in the next GRC application. (See Exhibits GSW-EG-021 to GSW-EG-0059, Exhibit GSW-SL-065, Exhibit PUBADV-SN-012, Exhibits PUBADV-CS-013/013A, Exhibits PUBADV-SI-011/011A, Exhibits PUBADV-KE-009/009A, Exhibits PUBADV-DG-06/06A, and Exhibit PUBADV-JM-008.)

Resolution:

The Parties settled on total expenditures for new capital projects in 2024-2026 in Regions 1, 2 and 3 of \$414.5 million as shown in the table 3.6 below.

A listing of GSWC's requested new capital projects that are accepted in the settlement are provided in Appendix E.

3.6 Depreciation Accrual Rates

GSWC's Request and Cal Advocate's Position:

GSWC prepared separate depreciation studies for each of its ratemaking areas and the district offices in its operating regions. Prior to its 2020 GRC (A.20-07-012) GSWC included the Central and Southwest District Offices in the consolidated Region 2 study and the Orange County, Foothill, and Mountain Desert District Offices in the consolidated Region 3 study. In this proceeding, as in A.20-07-012, GSWC created separate studies for these district offices using the same survivor curves and asset lives as previously approved by the Commission for each plant account. GSWC created separate studies for these district offices to more accurately reflect the depreciation activity in these offices and be consistent with the separate studies already being performed for the district offices in Region 1.

Cal Advocates disagreed with GSWC on the depreciation accrual rates for Region 2, Region 3, Central District Headquarters, Southwest District Headquarters, Orange County District, Mountain Desert District Headquarters, and Foothill District Headquarters. Cal Advocates recommended that GSWC maintain consolidated depreciation studies for the Central and Southwest District Offices within the Region 2 study, and for the Orange County, Foothill, and Mountain Desert District Offices within the Region 3 study, consistent with GSWC's prior rate cases and the Commission's Rulemaking 11-11-008. (See Exhibit GSW-MW-91, GSW-MW-92, and PUBADV-JB-003, pages 5-1 to 5-3.)

Resolution:

While the Parties disagreed on the depreciation accrual rates to be used in the Region 2 and Region 3 District Offices, they agree to the following composite depreciation rates as part of the entire settlement.

Operating Area	Composite Depreciation Rate
Northern District Office	8.92%
Coastal District Office	6.98%
Arden Cordova	2.04%
Bay Point	1.76%
Clearlake	2.10%
Los Osos	2.43%
Santa Maria	2.24%
Simi Valley	1.95%
Central District Office	6.78%
Southwest District Office	13.04%
Region 2 (CSAs)	1.77%
Foothill District Office	8.64%
Mountain/Desert District Office	10.25%
Orange County District Office	12.54%

Operating Area	Composite Depreciation Rate
Region 3 (CSAs)	1.91%

3.7 Working Cash

GSWC's Request and Cal Advocate's Position:

In calculating working cash, GSWC and Cal Advocates only disagreed on whether to adjust working cash revenue lag days for the Water Revenue Adjustment Mechanism ("WRAM") balancing account net of the Modified Cost Balancing Account ("MCBA"). (See Exhibit GSW-BP-081, pages 58-64, Exhibit GSW-BP-082, pages 38-41, and Exhibit PUBADV-JB-003, pages 6-1 to 6-3.)

Resolution:

While the Parties disagreed over the inclusion of the WRAM, net of MCBA, amounts in the working cash revenue lag days, the Parties agree to use the following revenue lag days to estimate working cash in this GRC as part of the overall settlement.

CSA	Settlement
Arden Cordova	56.5
Bay Point	34.4
Clearlake	32.9
Los Osos	47.7
Santa Maria	54.0
Simi Valley	45.0
Region 2	49.3
Region 3	44.2

Cal Advocates did not contest the methodology used by GSWC in calculating expense lag days. Accordingly, the final expense lag days and working cash amounts should be calculated based on adopted expenses in the final decision.

4.0 Sales and Number of Customers

4.1 Number of Customers (Connections)

GSWC's Request and Cal Advocates' Position:

GSWC and Cal Advocates used the methodology prescribed in the Rate Case Plan ("RCP") D.07-05-062 to forecast customer growth within each customer class with the exception of Arden Cordova and Clearlake. The RCP methodology is based on the five-year average increase by customer class. In Arden Cordova, where GSWC switched customers from flat rate to metered billing, the historical change in customers is adjusted to account for the conversion of customers from flat services to metered services. In Clearlake, GSWC adjusted the forecast to include 24 customers that were acquired from the Crescent Bay acquisition⁸, which occurred in 2023.

Cal Advocates did not contest GSWC's customers forecast methodology in all RMAs. However, in Region 3, Cal Advocates recommended to increase the customers count in Region 3 by one to reflect the addition of the Desert View Mobile Home Park to the Barstow Water System customer count, which occurred in 2024.⁹

(See GSW-HW-089, pages 3 to 5, GSW-HW-090, page 39 and PUBADV-HM-007, Pages 1-1 to 1-3.)

Resolution:

GSWC agrees to add one customer to Region 3's Commercial Class customer count as recommended by Cal Advocates.

The Parties agree to the following Number of Customers forecasts.

4.2 Sales per Customer

GSWC's Request and Cal Advocates' Position:

GSWC utilized econometric models for Residential, Commercial, Public Authority, and Irrigation customer classes to forecast the average water usage per customer. Additionally, GSWC utilized a four-year average (2019-2022) to forecast industrial usage per customer and a five-year (2018-2022) average for forecasting Other usage per customer.

Cal Advocates used a five-year (2018-2022) average to forecast the average usage per customer for all customer classes.

GSWC and Cal Advocates have not resolved this issue, and it remains in dispute and will be litigated.

(See GSW-DM-070, Attachment 2, GSW-DM-071, pages 1-19, and PUBADV-HM-007, Pages 1-4 to 1-8.)

Resolution:

The Parties did not reach a settlement regarding the sales per customer.

Below are the sales forecasts per customer for both parties.

The following table 4.7 presents the combined average usage per customer throughout Region 3 for 2025. The combined average usage for some customer classes changes for each year of the rate cycle due to the different rates of customer growth in each CSA. Because the sales forecast is a litigated item, the Region 3 average usage per customer for 2026 and 2027 is not presented in this document.

4.3

Water Loss

GSWC's Request:

GSWC uses a five-year average methodology for non-revenue water

volumes and non-revenue water percentage. GSWC uses non-revenue water in its supply forecast methodology to derive the total water supply forecasts in each ratemaking area.

Cal Advocates' Position:

Cal Advocates did not oppose GSWC's methodology. Cal Advocates interprets GSWC's non-revenue water percentage as water loss percentage in a CSA. Cal Advocates noted the high non-revenue volume of water in the Clearlake CSA. For more details on this issue see Section 10.2.

(See Exhibits PUBADV-MA-001 at pages 27 to 29.)

Resolution:

Cal Advocates did not oppose or propose alternative non-revenue water percentages. The Parties agree to use the rates proposed and used by GSWC, as presented below.

	Five-year average Non-Revenue Water (%)
Arden Cordova CSA	18.74%
Bay Point CSA	8.59%
Clearlake CSA	50.39%
Los Osos CSA	8.32%
Santa Maria CSA	13.50%
Simi Valley CSA	3.67%
Region 2 CSA	5.87%
Region 3 CSAs:	
Region 3-Apple Valley	13.65%
Region 3-Barstow	16.49%
Region 3-Claremont	6.61%
Region 3-Calipatria	25.36%
Region 3-Morongo Valley	18.51%
Region 3-Los Alamitos	6.63%
Region 3-Placentia	8.93%
Region 3-San Dimas	6.08%

	Five-year average Non-Revenue Water (%)
Region 3-San Gabriel	7.61%
Region 3-Wrightwood	21.51%

5.0 Labor

5.1 Regions 1, 2 & 3 Labor

GSWC's Request and Cal Advocates' Position:

GSWC's Region 1, 2, and 3 forecasts for total labor were based on its 2023 organizational structure and actual annual salaries. Within the 2023 organizational structure, GSWC requested the following new positions – Eight (8) Water Distribution Operators (#645 to #652) in its Region 2 ratemaking area.

To centralize the customer service function, GSWC requested to eliminate eight (8) customer service positions from the operating regions (#271, #287, #318, #363, #364, #561, #562, #575), and transfer the other twenty-three (23) customer service positions (#294, #309, #317, #331, #362, #377, #378, #388, #415, #416, #417, #420, #421, #466, #467, #480, #481, #534, #545, #568, #571, #578, #601), plus four (4) positions with title changes (#418, #521, #535, #544) to the General Office.

The Regions 1, 2 and 3 proposed headcounts for 2025 total 271. GSWC then added to this base cost adjustments for inflation, overtime, merit (equity) increases, stand-by and call-out pay, and then adjusted for vacancies to derive the forecast for the Test Year. Instead of removing vacant positions, GSWC applied an average vacancy factor to its labor analysis. GSWC also included a customer growth factor to derive its forecasts for the 2025 Test Year in the operating districts.

Cal Advocates contested GSWC's requested eight new positions but did not dispute the Customer Service function position eliminations and

transfers from the operating regions to the General Office.

Cal Advocates also disagreed with inclusion of the customer growth factors used by GSWC in 2025 to escalate salary levels to derive the 2025 labor expense.

(See Exhibits GSW-JDL-003, pages 2-8, GSW-PR-083, pages 1-10, GSW-PR-084/084C, pages 2-10, and PUBADV-LC-010, Chapters 4 and 6.)

Resolution:

The Parties agree to the following labor expense forecasts for 2025, which reflect all of GSWC's requested organizational changes and additions. While the Parties in their testimony disagreed over GSWC's operating regions' labor expense forecasts, they agree that the amounts in the table below achieve a reasonable compromise as part of the entire settlement.

Region 3 - Total Labor	8,921,682	8,897,959	8,921,682
Total Operating District Labor	22,066,333	21,439,851	22,066,333

5.2 General Office Labor

GSWC's Request and Cal Advocates' Position:

GSWC based its forecast for total General Office labor expense on its 2023 organizational structure and actual annual salaries. Within the 2023 organizational structure, GSWC requested to add fifteen (15) new positions, eliminate seven (7) positions, and add eight (8) new customer service positions as part of the centralizing of the customer service function, which resulted in a net reduction of one customer service position (see also Section 5.1, above). The proposed changes brings the proposed General Office headcount to 334.

New Positions (including Customer Service (*))		
Position #	Location	Title
633	Regulated Activities (GO-COPS)	Public Policy & Gov Affairs Manager
634	Procurement Admin (GO-COPS)	Supply Chain Management Analyst
635	Technology Services (GO-COPS)	Sr. Digital Transform Analyst
636*	Customer Service Center (GO-COPS)	Customer Service Center Supervisor
637*	Customer Service Center (GO-COPS)	Customer Service Specialist
638*	Customer Service Center (GO-COPS)	Customer Service Specialist
639*	Customer Service Center (GO-COPS)	Customer Service Specialist
640*	Customer Service Center (GO-COPS)	Customer Service Specialist
641	Environmental Matters (GO-COPS)	Learn & Dev Administrator
642	Information Services (GO-Corp Support)	Cybersecurity Analyst
643	Service Desk Support (GO-Corp Support)	Service Desk Support Analyst, Sr.
644	Network Service (GO-Corp Support)	Systems Administrator
653	Environmental Matters (GO-COPS)	Security Administrator
654	Water Quality (GO-COPS)	Treatment/WQ Engineer
655	Technology Services (GO-COPS)	SCADA Manager
656	Procurement Admin (GO-COPS)	Procurement Coordinator
657*	Customer Service Center (GO-COPS)	Field Customer Service Supervisor
658*	Customer Service Center (GO-COPS)	CS Business Systems Analyst
659*	Customer Service Center (GO-COPS)	CS Business Systems Analyst
660	Capital Program Management (GO-COPS)	Inspector II
661	Capital Program Management (GO-COPS)	Inspector II
662	Technical Services (GO-COPS)	EAM Manager
663	Water Quality (GO-COPS)	Grant Administrator

GSWC also requested to reclassify the following positions:

Position #	New Title	Old Title
166	Payroll Analyst (GO Corporate Support)	Property Accountant (GO COPS)

GSWC requested to eliminate eight (8) adopted positions:

Eliminated Positions including Customer Service (*)		
Position #	Location	Title
9	Regulated Activities- Senior Executive (GO-COPS)	Executive Support Associate
84	Cash Processing (GO-Utility)	General Clerk III
87	Cash Processing (GO-Utility)	General Clerk II
89	Cash Processing (GO-Utility)	General Clerk II
90	Cash Processing (GO-Utility)	General Clerk II
113	Asset Management (GO-COPS)	Executive Support Associate
203*	Customer Service (GO-COPS)	Customer Service Rep I
262	Environmental Matters (GO-COPS)	Environ Quality Support Analyst

After identifying the expensed portion of each position's base pay, GSWC then added inflation, overtime and merit (equity) increases, and then adjusted for vacancies to derive the forecast for the Test Year. Instead of removing vacant positions, GSWC applied an average vacancy factor to its labor analysis.

Cal Advocates agreed with GSWC's proposed forecasting methodology, but disagreed with GSWC's request for new positions #633, #634, #641, #643, #644, #653, #654, #656, #660, #661, and #663, and to full recovery of executive labor costs in the General Office.

(See Exhibits GSW-JDL-003, pages 2 to 9, GSW-JDL-013, pages 26 to 28, GSW-DD-016/GSW-DD-016C, pages 51 to 60, GSW-DD-017, pages 8 to 12, GSW-GF-019, pages 23 to 25, GSW-PR-083, pages 1 to 37, GSW-PR-084/GSW-PR-84C, pages 2 to 23, and PUBADV-SL--002/PUBADV-SL-002C, pages 3-3 to 3-11.)

Resolution:

The Parties agree to the following General Office labor expense forecasts for 2025, which reflect all of GSWC's requested organizational changes and additions. While the Parties in their testimony disagreed over GSWC's General Office labor expense forecasts, they agree that the amounts in the table below achieve a reasonable compromise as part of the entire settlement.

General Office – 2025 Labor Expenses \$			
	GSWC	Cal Advocates	Settlement
Corporate Support			
Operations Labor	(10)	(10)	(10)
Maintenance Labor	0	0	0
A&G Labor	10,393,267	10,004,041	10,393,267
Total GO-Corporate	10,393,256	10,004,032	10,393,256
Utility Support			
Operations Labor	510,870	493,166	510,870
Maintenance Labor	0	0	0
A&G Labor	1,310,245	1,264,839	1,310,245
Total GO-Utility	1,821,115	1,758,005	1,821,115
Centralized Operations Support			
Operations Labor	2,295,916	2,159,096	2,295,916
Maintenance Labor	0	0	0
A&G Labor	7,309,373	6,873,788	7,309,373
Total GO-COPS	9,605,289	9,032,884	9,605,289
Total General Office	21,819,660	20,794,920	21,819,660

6.0 Expenses – Common Issues

6.1 Escalation Factors

GSWC utilized the annual inflation (escalation) factors from the Cal Advocates Water Branch’s May 2023 “Estimates of Non-Labor and Wage Escalation Rates” and “Summary of Compensation per Hour” memoranda (“Cal Advocates Memos”), and the May 2023 CPI-U index to develop inflation-adjusted (escalated) estimates for A&G and O&M expenses. GSWC requested that these factors be updated to the most current information available at the time of the Commission’s final decision in this proceeding. (See Exhibit GSW-MG-060, pages 5-6 & 14-15.)

In developing its expense estimates, Cal Advocates also used the factors from the same May 2023 Cal Advocates Memos. However, Cal Advocates opposed using the May 2023 CPI-U index and recommends using the November 2023 CPI-U index.

Resolution:

The Parties agree to the expense levels identified in this document, and which are addressed in sections 5.0, 7.0, 8.0, 10.0, 11.0 and 14.0. The Parties also agree that 2026 and 2027 expense escalations will be calculated in accordance with the Rate Case Plan guidelines. The agreed expense levels reflect concessions by both GSWC and Cal Advocates, and result in total expense levels that are between the values originally proposed by GSWC and Cal Advocates.

6.2 Customer Growth Impact

GSWC’s Request and Cal Advocates’ Position:

For its Other Operations, Other Maintenance, Office Supplies, Business Meals, Outside Services, Miscellaneous, Other Maintenance of General Plant, and Labor expense estimates, GSWC included an annual customer growth impact calculation, in addition to the annual escalation factors from

the Cal Advocates Memos and CPI-U index, to escalate inflation-adjusted recorded costs in the ratemaking areas to develop Test Year forecast amounts. (See Exhibit GSW-MG-060, pages 6 & 15, and Exhibit GSW-MG-061, pages 22 to 25.)

Cal Advocates opposed GSWC’s inclusion of customer growth impacts to Test Year forecasts. (See Exhibit PUBADV-LC-010, Chapter 6.)

Resolution

The Parties agree to the A&G and O&M expense amounts set forth in Sections 5.0, and 7.0 through 8.0, which resolves the Parties’ disagreement over this issue in their testimony.

6.3 Other Revenue

GSWC’s Request and Cal Advocates’ Position:

To forecast Other Revenue for all regions except Region 2, GSWC used the five-year average of recorded Other Revenue across all RMAs. For Region 2, GSWC also used the five-year average of recorded Other Revenue but made further adjustments to exclude revenue from ABC roofing.

Cal Advocates used the five-year average of recorded Other Revenue across all RMAs.

Resolution

The Parties agree to the following estimates for Other Revenue, which reflect Cal Advocates’ recommendation to include revenues from ABC roofing in Region 2.

Other Revenue	2025 (\$)		
	GSWC	Cal Advocates	Settlement
CSA Arden Cordova	40,824	40,824	40,824

Other Revenue	2025 (\$)		
	GSWC	Cal Advocates	Settlement
CSA			
Bay Point	36,380	36,380	36,380
Clearlake	10,132	10,132	10,132
Los Osos	7,762	7,762	7,762
Santa Maria	38,618	38,618	38,618
Simi Valley	46,334	46,334	46,334
Region 2	473,019	478,023	478,023
Region 3	281,668	281,668	281,668

(See Exhibits GSW-HW-089, page 7, GSW-HW-090, page 40 and PUBADV-HM-007, page 1-10 to 1-12.)

7.0 Administrative and General Expenses

7.1 Office Supplies

GSWC's Request and Cal Advocates' Position:

To forecast Office Supplies expenses, GSWC used an inflation-adjusted five-year average, further adjusted (1) to remove any historical costs tracked in memorandum accounts, (2) to forecast new cellular service fees in Bay Point, Clearlake, Northern District Office and Region 3, (3) to increase SCADA cell connection expense forecast in relation to new capital projects, (4) to increase forecasted expenses related to cloud migration in Santa Maria, Simi Valley, Foothill District Office and Region 3 (5) to increase forecasted expenses related to building expenses in Arden Cordova and Orange County District Office, (6) to increase forecasted expenses for garbage disposal expenses in Arden Cordova. (See Exhibit GSW-MG-060, pages 17 to 18 and Exhibit GSW-MG-061, pages 18 to 21.)

In addition to the issues addressed in Sections 6.1 and 6.2, Cal Advocates recommended a decrease in the adjustment for the new cellular service fees, a decrease in the adjustment for the SCADA cell connection fees in relation to new capital projects, denial of the building expense adjustment

and to adjust all Office Supplies and Expense to be based on a three-year inflation adjusted historical average of the years 2020-2022. (See Exhibit PUBADV-LC-010, Chapter 2 and PUBADV-LC-010A page 2-3.)

Resolution:

The Parties agree to the following estimates for Office Supplies expense.

Office Supplies	2025 (\$)		
	GSWC	Cal Advocates	Settlement
CSA			
Arden Cordova	109,857	94,847	109,857
Bay Point	71,710	55,885	60,332
Clearlake	81,594	72,496	81,594
Los Osos	83,153	76,030	83,153
Santa Maria	132,811	112,219	132,811
Simi Valley	95,408	89,024	95,408
Northern Dist.	52,470	37,038	52,470
Coastal Dist.	25,910	21,981	25,910
Region 2	544,249	519,478	544,249

Southwest Dist.	262,018	258,411	262,018
Region 3	903,309	843,901	903,309
Foothill Dist.	138,512	140,982	138,512
Mountain/Desert Dist.	71,391	61,368	71,391
Orange County Dist.	98,248	66,500	98,248

7.2 Property Insurance

See Section 14.8 – Property Insurance Expense for General Office.

7.3 Injuries and Damages

GSWC's Request and Cal Advocates' Position:

Injuries and Damages expenses are forecasted at the General Office and then allocated to the CSAs and District Offices. The detailed information and description of the Parties' positions regarding the forecast is presented in the Section 14 - General Office Revenues and Expenses.

(See Exhibit GSW-MG-060, page 40.)

Cal Advocates did not contest GSWC's estimates, any differences are due to different non-capitalized percentage forecasts.

Resolution:

To ensure that GSWC has sufficient funding for this expense across the rate cycle, the Parties agree to the following estimates for Injuries and Damages expenses.

Injuries and Damages	2025 (\$)		
	GSWC	Cal Advocates	Settlement
CSA			
Arden Cordova	141,716	141,407	167,381
Bay Point	52,347	52,233	61,828
Clearlake	52,533	52,418	62,047
Los Osos	55,320	55,200	65,339
Santa Maria	129,470	129,188	152,917
Simi Valley	61,264	61,131	72,359
Northern Dist.	80,233	80,058	94,764
Coastal Dist.	72,087	71,930	85,142
Region 2	710,945	703,912	839,702

Region 3	841,714	839,882	994,154
Foothill Dist.	108,277	108,041	127,887
Mountain/Desert Dist.	64,072	63,932	75,675
Orange County Dist.	123,456	123,188	145,815

7.4 Pensions and Benefits

See General Office Section 14.10 – Pension & Benefits.

7.5 Business Meals

GSWC's Request and Cal Advocates' Position:

To forecast Business Meals, GSWC used an inflation adjusted five-year

average. (See Exhibit GSW-MG-060, page 19.)

Other than the issue addressed in Section 6.2, Cal Advocates did not contest GSWC's estimates. (See Exhibit PUBADV-LC-010, pages 1-2 to 1-3.)

Resolution:

The Parties agree to the following estimates for Business Meals expense.

Business Meals	2025 (\$)		
	GSWC	Cal Advocates	Settlement
CSA			
Arden Cordova	1,549	1,542	1,549
Bay Point	396	395	396
Clearlake	1,032	1,041	1,032
Los Osos	1,302	1,301	1,302
Santa Maria	1,637	1,627	1,637
Simi Valley	861	856	861
Northern Dist.	4,009	4,009	4,009
Coastal Dist.	2,232	2,232	2,232
Region 2	7,813	7,791	7,813
Central Dist.	1,869	1,869	1,869
Southwest Dist.	4,162	4,162	4,162
Region 3	6,854	6,831	6,854
Foothill Dist.	1,684	1,684	1,684
Mountain/Desert Dist.	1,316	1,316	1,316
Orange County Dist.	1,265	1,265	1,265

7.6 Outside Services

GSWC's Request and Cal Advocates' Position:

To forecast Outside Services expenses, GSWC used an inflation-adjusted five-year average, further adjusted (1) to remove any historical costs tracked in memorandum accounts, (2) to forecast costs related to newly regulated water loss audit standards (See Exhibit GSW-KN-074, pages 1-7.), and (3) to increase forecasted expenses related to consulting in Arden Cordova (See Exhibit GSW-MG-060, page 20 and Exhibit GSW-MG-061,

page 20.)

In addition to the issues addressed in Sections 6.1 and 6.2, Cal Advocates opposed the adjustment for costs related to water loss audit standards (See Exhibit PUBADV-LC-010, pages 2-4 to 2-6.) and the adjustment for consulting fees in the Arden Cordova CSA. (See Exhibit PUBADV-AS-004, pages 3-4 to 3-5.)

Resolution:

The Parties agree to the following estimates for Outside Services expense.

Outside Services	2025 (\$)		
	GSWC	Cal Advocates	Settlement
CSA			
Arden Cordova	97,853	85,508	97,853
Bay Point	6,805	6,618	6,805
Clearlake	10,480	10,303	10,480

Mountain/Desert Dist.	108,631	63,189	108,631
Orange County Dist.	87,761	29,836	87,761

7.7 Miscellaneous

GSWC's Request and Cal Advocates' Position:

To forecast Miscellaneous expenses, GSWC used an inflation-adjusted five-year average, further adjusted to remove any historical costs tracked in memorandum accounts. (See Exhibit GSW-MG-060, pages 20 to 21.)

Other than the issue addressed in Section 6.2, Cal Advocates did not contest GSWC's estimates. (See Exhibit PUBADV-LC-010, pages 1-2 to 1-3.)

Resolution:

The Parties agree to the following estimates for Miscellaneous expenses.

Miscellaneous	2025 (\$)		
	GSWC	Cal Advocates	Settlement
CSA			
Arden Cordova	48,408	48,192	48,408
Bay Point	669	668	669

Region 3	9,791	9,757	9,791
Foothill Dist.	1,525	1,525	1,525
Mountain/Desert Dist.	290	290	290
Orange County Dist.	718	718	718

7.8 Allocated General Office Expenses – Corporate Support

GSWC's Request and Cal Advocates' Position:

The Allocated General Office Expenses–Corporate Support are forecasted at the General Office and then allocated to the ratemaking areas. Detailed information and description of the Parties' positions regarding the forecast are presented in Section 13 – General Office Allocation and Section 14 – General Office Revenues and Expenses. (See Exhibit GSW-MG-060, page 21.)

Resolution:

The Parties agree to the following estimates for Allocated General Office Expenses – Corporate Support.

Allocated General Office Expenses – Corporate Support	2025 (\$)		
CSA	GSWC	Cal Advocates	Settlement
Arden Cordova	1,910,044	1,425,273	1,697,272

Clearlake	120,190	88,916	106,264
Los Osos	211,144	159,526	188,914
Santa Maria	1,078,460	805,475	959,328
Simi Valley	1,062,218	792,399	944,569
Region 2	9,897,797	7,385,266	8,799,251
Region 3	9,741,875	7,262,352	8,657,565

7.9 Allocated General Office Expenses – Centralized Operations Support

GSWC's Request and Cal Advocates' Position:

The Allocated General Office Expenses – Centralized Operations Support are forecasted at the General Office and then allocated to the ratemaking areas. Detailed information and description of the Parties' positions regarding the forecast are presented in Section 13 – General Office Allocation and Section 14 – General Office Revenues and Expenses. (See Exhibit GSW-MG-060, page 21.)

Resolution:

The Parties agree to the following estimates for General Office Expenses – Centralized Operations Support expense.

Allocated General Office Expenses – Centralized Operations Support	2025 (\$)		
CSA	GSWC	Cal Advocates	Settlement
Arden Cordova	2,095,392	1,811,573	1,994,823

Allocated General Office Expenses – Centralized Operations Support	2025 (\$)		
CSA	GSWC	Cal Advocates	Settlement
Bay Point	420,149	363,240	399,984
Clearlake	131,129	113,368	124,836
Los Osos	232,821	201,286	221,647
Santa Maria	1,182,839	1,022,625	1,126,069
Simi Valley	1,164,107	1,006,430	1,108,235
Region 2	10,854,290	9,384,088	10,333,335
Region 3	10,677,667	9,231,389	10,165,189

7.10 Allocated District Office Expense

GSWC's Request and Cal Advocates' Position:

GSWC used equivalent customer data to develop the factors for allocating District Office Expenses to individual ratemaking areas (Appendix I). Cal Advocates did not contest GSWC's allocation factors. (See Exhibit GSW-MG-060, page 21.)

Resolution:

The Parties agree to the following estimates for Allocated District Office expense.

Allocated District Office Expense	2025 (\$)		
CSA	GSWC	Cal Advocates	Settlement
Arden Cordova	912,831	744,228	850,232
Bay Point	182,751	148,996	170,218
Clearlake	56,692	46,221	52,804
Los Osos	93,119	76,792	89,500
Santa Maria	473,759	390,695	455,345
Simi Valley	466,628	384,814	448,491
Region 2	5,466,536	4,073,470	5,364,224
Region 3	5,567,629	4,391,727	5,348,923

7.11 Other Maintenance of General Plant

GSWC's Request and Cal Advocates' Position:

To forecast Other Maintenance of General Plant expenses, GSWC used an inflation-adjusted five-year average further adjusted (1) to account for a permit fee reimbursement in Los Osos. (See Exhibit GSW-MG-060, page 22 and Exhibit GSW-MG-061, page 19.)

Along with the issue addressed in Section 6.2, Cal Advocates recommended a decrease to the adjustment for permit fees. (See Exhibit PUBADV-LC-010, pages 2-6 to 2-7.)

Resolution:

The Parties agree to the following estimates for Other Maintenance of General Plant expense.

Other Maintenance General Plant	2025 (\$)		
	GSWC	Cal Advocates	Settlement
CSA			
Arden Cordova	14,618	14,552	14,618

Foothill Dist.	16,584	16,584	16,584
Mountain/Desert Dist.	1,563	1,563	1,563
Orange County Dist.	11,174	11,174	11,174

7.12

Rent

GSWC's Request and Cal Advocates' Position:

To forecast Rent expense, GSWC used cost data from its lease agreements. (See Exhibit GSW-MG-060, page 23.) Cal Advocates did not oppose GSWC's estimates.

Resolution:

The Parties agree to the following estimates for Rent expense. There is no difference in the Parties' positions for these estimates.

Rent	2025 (\$)
CSA	Settlement
Arden Cordova	60,725
Bay Point	30,093
Clearlake	15,959
Los Osos	0
Santa Maria	110,537
Simi Valley	75,882
Northern Dist.	42,040
Coastal Dist.	0
Region 2	488,735
Central Dist.	126,777
Southwest Dist.	94,426
Region 3	346,664
Foothill Dist.	0
Mountain/Desert Dist.	25,542
Orange County Dist.	120,357

7.13 Depreciation Expense

GSWC's Request and Cal Advocates' Position:

The differences between GSWC's and Cal Advocates' estimates for Depreciation Expense are due to differences in the Parties' Capital Budget estimates for each area, and differences in depreciation accrual rates, addressed in Section 3.6.

Resolution:

The Parties agree that Depreciation Expense should be updated to reflect the settled Capital Budget in each area, as follows.

Depreciation Expense	2025 (\$)		
CSA	GSWC	Cal Advocates	Settlement
Arden Cordova	2,338,433	2,169,848	2,308,366
Bay Point	607,366	573,652	603,869
Clearlake	389,403	376,687	354,432
Los Osos	866,439	740,761	829,989
Santa Maria	2,518,084	2,180,884	2,374,611
Simi Valley	1,010,283	955,751	990,452
Northern Dist.	26,498	26,360	26,308
Coastal Dist.	40,000	33,069	39,502
Region 2	15,435,336	13,469,959	14,749,722
Central Dist.	208,390	(53,348)	205,083
Southwest Dist.	669,707	(19,031)	665,293
Region 3	16,402,794	14,301,528	15,563,038
Foothill Dist.	225,453	27,007	221,178
Mountain/Desert Dist.	23,786	(18,411)	23,258
Orange County Dist.	242,324	13,791	236,980

8.0 Operations and Maintenance

8.1 Utility Support Services Expenses Allocated from General Office

GSWC's Request and Cal Advocates' Position:

Utility Support Services expenses are forecasted at the General Office and then allocated to the ratemaking areas. Detailed information and the Parties' positions regarding the forecast are presented in Section 13 – General Office Allocation and Section 14 – General Office Revenues and Expenses. (See Exhibit GSW-MG-060, page 4.)

Resolution:

The Parties agree to the following estimates for Utility Support Services expense allocated from the General Office.

Allocated GO – Utility Support Services	2025 (\$)		
CSA	GSWC	Cal Advocates	Settlement
Arden Cordova	521,205	473,281	503,509
Bay Point	104,840	94,931	101,280
Clearlake	32,950	29,580	31,831
Los Osos	57,662	52,281	55,704

Allocated GO – Utility Support Services	2025 (\$)		
	GSWC	Cal Advocates	Settlement
CSA			
Santa Maria	294,301	266,908	284,309
Simi Valley	289,808	262,781	279,968
Region 2	2,701,128	2,451,705	2,609,418
Region 3	2,657,694	2,411,806	2,567,459

8.2 Other Operation Expenses

GSWC's Request and Cal Advocates' Position:

To forecast Other Operation expenses, GSWC used an inflation-adjusted five-year average, further adjusted (1) to remove any historical costs tracked in memorandum accounts, (2) for a forecasted increase in brine disposal costs in Region 3, (3) for forecasted increases in State Water Resources Control Board ("SWRCB") drinking water fees, (4) for accounting changes for brine removal expenses in Los Osos, (5) to normalize equipment expense in Simi Valley RMA and Southwest CSA, (6) for accounting changes to filter media change outs in San Gabriel CSA, (7) for a forecasted increase in NO-DES filter replacements in Region 3, (8) for forecasted increased costs for oxygen tank rentals in Southwest CSA, (9) for SCADA equipment costs in Santa Maria and Orange County District Office and (10) for forecasted increased expenses for generator and analyzer maintenance in Region 3. (See Exhibit GSW-MG-060, pages 4 to 12, and Exhibit GSW-MG-061, pages 2 to 15.)

In addition to the issue addressed in Section 6.2, Cal Advocates recommended reductions to forecasted brine disposal costs, generator and analyzer maintenance costs and SCADA equipment costs. Cal Advocates also opposed the expense adjustments for NO-DES filter replacements and equipment expense normalization. (See Exhibit PUBADV-LC-010, Chapter 1.)

Resolution:

The Parties agree to the following estimates for Other Operation Expense. Conservation expenses, which are included in the numbers in the table below, are discussed in Section 11.0. The amounts in the table below, which represent a reasonable compromise, also include an adjustment related to brine disposal costs in Region 3.

Other Operation Expenses (including conservation)	2025 (\$)		
	GSWC	Cal Advocates	Settlement
CSA			
Arden Cordova	518,920	517,189	518,920
Bay Point	157,228	156,982	157,228
Clearlake	136,915	138,121	136,915
Los Osos	499,275	498,790	499,275
Santa Maria	636,108	626,833	636,108
Simi Valley	240,421	231,381	240,421
Northern Dist.	6,981	6,981	6,981
Coastal Dist.	1,408	1,408	1,408
Region 2	2,442,033	2,410,220	2,442,033
Central Dist.	284,479	284,479	284,479
Southwest Dist.	238,816	238,816	238,816
Region 3	4,975,987	3,936,233	4,303,726
Foothill Dist.	250,807	250,807	250,807
Mountain/Desert Dist.	153,205	153,205	153,205
Orange County Dist.	196,134	183,059	196,134

8.3 Uncollectible Rates

GSWC's Request and Cal Advocates' Position:

To forecast Uncollectible Rates, GSWC used a five-year average rate, based on actual amounts expensed. The forecasted amounts were increased to reflect expected increases in the uncollectibles rate due to new legislation, adopted under California Senate Bill 998 (Dodd 2018), limiting customer service disconnections. The new legislation increases by over 50% the number of days a customer is allowed to defer payment prior to having water service discontinued. (See Exhibit GSW-MG-060,

pages 4 to 5, and GSW-MG-061, pages 2 to 5.)

Cal Advocates did not agree with GSWC's application of an adjustment to account for anticipated higher uncollectible rates stemming from the new legislation, arguing that the effects of this new legislation have yet to be seen. (See Exhibit PUBADV-LC-010, pages 1-3 to 1-5 and PUBADV-LC-010A, page 1-4.)

Resolution:

The Parties agree to the following Uncollectible Rates. While the parties disagreed over this in their testimony, they agree that this is reasonable as part of the entire settlement.

Uncollectible Rate	2025		
	GSWC	Cal Advocates	Settlement
CSA			
Arden Cordova	0.412%	0.275%	0.412%
Bay Point	0.856%	0.571%	0.856%
Clearlake	1.164%	0.776%	1.164%
Los Osos	0.156%	0.104%	0.156%
Santa Maria	0.198%	0.132%	0.198%
Simi Valley	0.359%	0.239%	0.359%
Region 2	0.470%	0.313%	0.470%
Region 3	0.321%	0.214%	0.321%

8.4 Other Maintenance Expenses

GSWC's Request and Cal Advocates' Position:

To forecast Other Maintenance Expenses, GSWC used an inflation-adjusted five-year average, further adjusted (1) to remove any historical costs tracked in memorandum accounts, (2) to forecast the additional maintenance costs pertaining to the Robbins System in Arden Cordova and (3) to forecast the increased maintenance costs in the Los Alamitos and Placentia CSAs. (See Exhibit GSW-MG-060, page 13, and GSW-MG-061, pages 10 to 11.)

In addition to the issue addressed in Section 6.2, Cal Advocates recommended a decrease in the adjustment related to maintenance costs for the Robbins System and opposed the adjustment for increased maintenance costs in the Los Alamitos and Placentia CSAs. Cal Advocates also recommended a decrease in expenses related to pump efficiency tests. (See Exhibit PUBADV-AS-004, pages 3-1 to 3-4, Exhibit PUBADV-LC-010, pages 1-10 to 1-11 and Exhibit PUBADV-LC-010, pages 3-4 to 3-6.)

Resolution:

The Parties agree to the following estimates for Other Maintenance expense.

Other Maintenance Expenses	2025 (\$)		
	GSWC	Cal Advocates	Settlement
CSA			
Arden Cordova	296,460	256,956	296,460
Bay Point	103,596	101,450	103,596
Clearlake	76,756	73,060	76,756
Los Osos	179,089	170,011	179,089
Santa Maria	328,165	302,729	328,165
Simi Valley	156,002	144,295	156,002
Northern Dist.	29,390	29,390	29,390
Coastal Dist.	113	113	113
Region 2	3,518,344	3,456,136	3,518,344
Central Dist.	34,665	34,665	34,665
Southwest Dist.	3,644	3,644	3,644
Region 3	4,823,237	4,677,040	4,823,237
Foothill Dist.	38,639	38,639	38,639
Mountain/Desert Dist.	1,463	1,463	1,463
Orange County Dist.	4,516	4,516	4,516

8.5 Chemical Expenses

GSWC's Request:

To forecast Chemical expenses, GSWC used inflation-adjusted

methodologies to calculate unit costs per acre-foot of water. Forecasted volume of water supply needing treatment is applied to the unit costs to obtain chemical expense forecasts. GSWC used the 2022 recorded unit cost in Arden Cordova, Bay Point, Clearlake, Los Osos, Santa Maria, Simi Valley, Region 2 except Southwest district, and all CSAs in Region 3 except San Dimas. (See Exhibit GSW-ZZ-093 pages 14 to 15.)

In Region 2, GSWC adjusted its forecast to account for increased installation and usage of Dissolved Oxygen (“DO”) treatment for pumped water in the Southwest District.

In Region 3, GSWC added the cost of media change out that GSWC is expected to incur in the rate cycle for its San Dimas CSA.

Cal Advocates’ Position:

Cal Advocates did not contest GSWC’s forecasting methodology for Chemical expenses. (See Exhibit PUBADV-LC-010 page 3-4 and page 3-6; see Exhibit PUBADV-LC-010A page 3-6.)

Cal Advocates, did however, recommend a reduction to Clearlake Customer Service Area’s forecasted chemical expenses as part of its recommendation to reduce Clearlake supply expenses due to high non-revenue water volumes. For more details on this issue see Section 10.2.

Resolution:

Cal Advocates did not contest GSWC’s forecasting methodology or GSWC’s unit costs.

Although there is no dispute over chemical expenses, GSWC and Cal Advocates have different forecasted chemicals expenses. The differences in chemical expenses are due to differences in forecast supply volumes. Cal Advocates did not agree with GSWC’s forecasted supply volumes and

GSWC's forecasted sales volume. This results in different forecasted supply volumes subject to chemical expenses. For additional details, see Section 10.1 and Section 10.2.

Chemical Unit costs (\$/CCF)	
	2025 Unit Costs
Arden Cordova	0.04054
Bay Point	0.09490
Clearlake	0.40102
Los Osos	0.07756
Santa Maria	0.02574
Simi Valley	0.00000
Region 2	
Central Basin-East	0.12422
Central Basin-West	0.10698
Culver City	0.00000
Southwest	0.13551
Region 3	
Los Alamitos	0.01391
Placentia	0.00973
Claremont	0.02549
San Dimas	0.06635
San Gabriel	0.00672
Barstow	0.13174
Calipatria	0.76103
Morongo	0.06326
Apple Valley	0.02312
Wrightwood	0.01877

Lastly, Cal Advocates withdrew its recommendation to reduce Clearlake's chemical expense by 43.39% as a result of this overall settlement. See Section 10.2.

9.0 Taxes

9.1 Property Taxes

GSWC's Request and Cal Advocates' Position:

GSWC calculated Property Taxes as a percentage of modified rate base (rate base excluding working cash and common utility allocations). The property tax expense has been forecasted by applying a rate to the forecasted rate base. This Property Tax rate is determined by considering: (i) the historical correlation between property tax expense and rate base, and (ii) anticipated increases in the ad valorem rate that will be applied to upcoming assessed values. The finalized property tax expense is determined based on a two-year weighted average¹⁰. Cal Advocates found this forecasting methodology to be reasonable. (See Exhibit GSW-WM, pages 17 to 21, and Exhibit PUBADV-JB-003, Chapter 3.)

Resolution:

The Parties agree to use the following estimated Property Tax percentages and amounts, and that these amounts are reasonable as part of the entire settlement. Below are the Property Tax rates for 2025.

Property Taxes Rate %	
	2025
CSA/Region	
Arden Cordova	1.1619%
Bay Point	1.0279%
Clearlake	1.1289%
Los Osos	0.9005%
Santa Maria	1.0764%
Simi Valley	1.0906%
Northern Dist.	1.2760%
Coastal Dist.	0.9578%
Region 2	1.1243%
Central Dist.	1.1117%
Southwest Dist.	1.0261%
Region 3	1.1371%
Foothill Dist.	1.0627%
Mountain/Desert Dist.	1.1075%
Orange County Dist.	1.2945%

¹⁰ (Previous Year Property Tax Expense/2) + (Current Year Property Tax Expense/2)

Property Taxes Expense (\$)	
	2025
CSA/Region	
Arden Cordova	712,247
Bay Point	189,784
Clearlake	127,873
Los Osos	208,214
Santa Maria	789,194
Simi Valley	281,740
Northern Dist.	4,424
Coastal Dist.	4,976
Region 2	6,499,166
Central Dist.	26,341
Southwest Dist.	17,878
Region 3	6,499,166
Foothill Dist.	17,202
Mountain/Desert Dist.	1,936
Orange County Dist.	18,736

9.2

Payroll Taxes

GSWC and Cal Advocates both applied a Payroll Tax rate of 7.6% to all labor (payroll) expenses. The differences in the Parties' initial estimates were due to the differences in payroll estimates. The payroll estimates have been settled as described in Section 5.0. (See Exhibits GSW-JDL-003, page 9, and PUBADV-LC-10, Pages 7-1 to 7-2.)

Resolution:

The Parties agree to the following estimated Payroll Taxes, which reflect the settled labor expenses.

Payroll Taxes	2025 (\$)		
	GSWC	Cal Advocates	Settlement
CSA			
Arden Cordova	92,657	92,705	92,657
Bay Point	31,038	31,141	31,038
Clearlake	26,936	27,317	26,936
Los Osos	30,581	30,704	30,581

Payroll Taxes	2025 (\$)		
CSA	GSWC	Cal Advocates	Settlement
Santa Maria	90,673	90,566	90,673
Simi Valley	45,013	44,992	45,013
Northern Dist.	38,093	38,284	38,093
Coastal Dist.	39,938	40,139	39,938
Region 2	463,119	421,452	463,119
Central Dist.	68,948	68,878	68,948
Southwest Dist.	68,691	68,618	68,691
Region 3	530,325	531,179	530,325
Foothill Dist.	54,393	54,666	54,393
Mountain/Desert Dist.	29,573	29,721	29,573
Orange County Dist.	61,513	61,821	61,513

9.3

Local Taxes

GSWC's Request and Cal Advocates' Position:

GSWC and Cal Advocates used the same methodology of applying the five-year average recorded rate of Local Taxes on all revenues. (See Exhibit GSW-GE-018, page 2, and Exhibit PUBADV-LC-010, Chapter 7, page 7-2.)

Resolution:

The Parties agree to the following Local Tax amounts. The revenue requirement adopted in the final decision should reflect these rates.

Local Taxes	2025
CSA/Region	Rate
Arden Cordova	1.165%
Bay Point	1.143%
Clearlake	1.020%
Los Osos	0.000%
Santa Maria	0.001%
Simi Valley	1.056%
Northern Dist.	0.000%
Coastal Dist.	0.000%
Region 2	1.393%
Central Dist.	0.000%
Southwest Dist.	0.000%
Region 3	1.048%
Foothill Dist.	0.000%

Local Taxes	2025
CSA/Region	Rate
Mountain/Desert Dist.	0.000%
Orange County Dist.	0.000%

9.4

Income Taxes

GSWC's Request and Cal Advocates' Position:

The differences in the Parties' estimates for income taxes are primarily due to differences in the Parties' estimates for revenues, expenses, and rate base.

The Parties also differed in the methodology used to determine the prior-year California Corporate Franchise Taxes ("CCFT") deduction for Federal Income Tax ("FIT") purposes in 2025. To calculate prior-year CCFT, GSWC used the most readily available prior-year CCFT for forecasting purposes. (See Exhibit GSW-WM-067, page 7.) Cal Advocates recommended using the adopted 2024 CCFT amounts for calculating the forecasted Test Year 2025 federal income tax deductions. (See Exhibit PUBADV-JB-003, Chapter 4.)

Resolution:

The Parties agree that income tax calculations should be updated to reflect the level of revenues and expenses adopted in the final decision, and the latest rate of return and income tax rates. The Parties also agree to use the adopted 2024 CCFT expense to determine the CCFT deduction for FIT in 2025. The 2025 CCFT deduction amounts agreed upon by the Parties are shown in the following table:

Federal Income Tax CCFT Deduction	2025 (\$)
CSA/Region	Settlement
Arden Cordova	134,915
Bay Point	72,740
Clearlake	61,427

Federal Income Tax CCFT Deduction	2025 (\$)
CSA/Region	Settlement
Los Osos	120,934
Santa Maria	375,342
Simi Valley	75,892
Region 2	3,149,628
Region 3	2,709,781

10.0 Water Supply

10.1 Supply Mix

GSWC's Request:

GSWC's forecast is based on recorded historical five-year (2018 – 2022) average with adjustments as appropriate based on current and anticipated operational conditions. To determine its forecasted water supply mix and volumes (i.e., production from wells and purchased water), GSWC analyzed historical usage, operational needs, regulatory and water quality requirements, and constraints on the water systems. (See Exhibit GSW-ZZ-093 at pages 1 to 13.)

GSWC and Cal Advocates do not agree on the forecasted sales forecasts, which are addressed in Section 4.0 and related supply volumes forecast. In addition to not agreeing on the supply volumes, the Parties did not agree on the supply mix ratios in Region 2 and Region 3.

The total supply volumes are still in dispute. GSWC proposed the following supply mix volumes in 100 cubic feet ("CCF"), which reflect its proposed sales forecasts.

GSWC Water Supply Volume Forecast (100 cubic feet "CCF")			
Arden Cordova CSA	2025	2026	2027

GSWC Water Supply Volume Forecast (100 cubic feet “CCF”)			
Wells Production	1,577,733	1,683,401	1,789,065
Purchased	2,178,000	2,178,000	2,178,000

Company Wide Total	59,834,659	60,089,224	60,342,409
---------------------------	-------------------	-------------------	-------------------

Cal Advocates' Position:

Cal Advocates did not agree with GSWC's supply mix volume forecasting methodology. Cal Advocates recommended the forecasting be solely based on the five-year average. Specifically, Cal Advocates recommended denial of GSWC's adjustments to historical pumped water and purchased water in Region 2 and parts of Region 3. (See Exhibits PUBADV-LC-010 at page 3-1 to page 3-2, and page 3-6.)

The total supply volumes are still in dispute. Cal Advocates recommended the following volumes in 100 CCF.

Cal Advocates Water Supply Volume Forecast (100 cubic feet "CCF")			
Arden Cordova CSA	2025	2026	2027
Wells Production	2,320,395	2,436,811	2,553,227

Company Wide Total	62,503,576	62,779,787	63,054,568
---------------------------	-------------------	-------------------	-------------------

Resolution:

As discussed above, the Parties do not agree on supply volumes forecast; and the Parties do not agree on adjustments to supply mix volumes. These issues are in dispute and are being litigated.

10.2 Supply Expenses

GSWC’s Request:

GSWC’s methodology for forecasting supply expenses is described in Exhibit GSW-ZZ-093 at pages 13 to 15.

GSWC’s supply mix and supply volumes are disputed. GSWC requested that supply expenses (purchased water, pump tax, lease water, chemical expense, and purchased power) should be updated as part of the final decision based on latest available tariffs at the time of issuance of the A.23-08-010 Decision.

Cal Advocates’ Position:

While the parties have not agreed on the supply volumes, the Parties

agree with GSWC's request to use the latest available purveyor rates, when preparing the final decision in this proceeding. Cal Advocates did not contest GSWC's unit costs for chemical expenses as discussed in Section 8.5. Cal Advocates did not agree with GSWC's supply expenses due to disputed supply mix and supply volumes. (See Exhibits PUBADV-LC-010 at pages 3-1 to 3-6.)

Due to concerns regarding the non-revenue water volumes in Clearlake, Cal Advocates recommended adjustments to Clearlake supply expense. Cal Advocates recommended a proposed 43.39% across the board reduction to Clearlake's supply expenses – purchased water, purchased power, and chemicals. (See Exhibits PUBADV-MA-001 at pages 27 to 29.)

Resolution:

As a result of the disputed supply mix and supply volumes, supply expenses are disputed and will be litigated

Cal Advocates withdraw their recommended reduction in Clearlake's supply expense in light of the settled water loss reduction plan for Clearlake, which is attached as Appendix H.

The Parties agree that the final decision should use the latest available purveyor rates for purchased water and pump taxes to calculate purchased water and pump tax related expenses.

The Parties agree to GSWC's methodology to forecast purchased power costs using the latest available rates.

The parties agree to GSWC's chemical expense forecast methodology's unit costs. For additional details please refer to Section 8.5.

11.0 Conservation

11.1 Conservation Expenses

GSWC's Request and Cal Advocates' Position:

GSWC's conservation expense forecast was based on the authorized level from D.23-06-024. Cal Advocates agrees with GSWC's expense forecast. However, Cal Advocates recommends allocating more monies to conservation measures that directly impact water-use efficiency, track and measure water usage of customers participating in various conservation programs and to present post conservation program participation data in GSWC's next GRC. (See Exhibit GSW-ED-014, Exhibit GSW-ED-015 and Exhibit PUBADV-SL-002, Chapter 1.)

Resolution:

The Parties agree on the following estimates for Conservation Expenses. In addition to the CPUC annual conservation E-3 reporting, GSWC plans to explore the programming capabilities in its Customer Care and Billing System (CC&B) to better identify and track customers participating in the water conservation rebate programs. There is no difference in the Parties' positions for these estimates.

Conservation Expenses (Included in Other Operation Expenses)	2025 (\$)
CSA	Settlement
Arden Cordova	132,488
Bay Point	12,252
Clearlake	4,143
Los Osos	13,964
Santa Maria	72,830
Simi Valley	47,047
Region 2*	389,511
Region 3*	443,954

*Conservation amounts are included in District Office Expenses in Section 8.2.

12.0 General Office Plant

12.1 General Office Plant Corporate Support, Utility Support and Centralized Operations Support

GSWC's General Office is separated into three functions: Corporate Support ("Corp"), Utility Support Services ("USS") and Centralized Operations Support ("COPS"). GSWC requested a capital contingency rate of 5% for all new General Office Capital budget items. GSWC requested an escalation rate of 6% based on the February 2023 CPI-U for all new General Office Capital Budget items. Below in Table 12.1 is a summary of GSWC's capital budget and CWIP requests for the GO. (See Exhibit GSW-BP-081 pages 21 to 58, Exhibit GSW-DD-016 pages 2 to 50, and Exhibit GSW-MJ-063.)

Table 12.1				
GSWC GO Plant Capital Request (\$)				
Capital Budget	2023	2024	2025	2026
Corporate Support	0	7,323,400	9,646,300	3,192,400
COPS	0	4,615,400	2,776,500	3,304,600
Utility Support Serv.	0	462,700	0	1,959,200
CWIP	2023	2024	2025	2026
Corporate Support	2,146,951	0	0	0
COPS	2,363,332	111,028	0	0
Utility Support Serv.	0	0	0	0
Total	4,510,283	12,512,528	12,422,800	8,456,200

CWIP projects consist of previously authorized projects that are still open or not started as of December 31, 2022, and require additional funds to complete and close the projects in years 2023 through 2026.

Cal Advocates disputed the need for various capital projects and recommended adjustments to the amounts included in GSWC's proposed capital budgets for the GO. Cal Advocates also contested GSWC's request to apply a contingency rate to any capital project. Cal Advocates recommended removing the contingency rate from all capital projects requested by GSWC. (See Exhibit PUBADV-JM-008.)

Resolution:

The Parties agree to the GO capital additions and CWIP budgets by GO segment shown in Table 12.2 below. The Parties also agree that it is the utility's responsibility to manage the overall capital budget to assure safe and reliable service for customers.

The Parties agree that the budgets provide a pool of funds for capital projects that is less than the amount originally requested by GSWC. Within this overall capital budget, GSWC will have the flexibility to prioritize capital projects, including those not listed in the appendices to this Settlement Agreement, in order to best serve its customers.

Table 12.2				
GSWC GO Plant Settled Capital Budgets (\$)				
Capital Budget	2023	2024	2025	2026
Corporate Support	0	6,005,190	9,067,520	3,229,110
COPS	0	3,784,630	2,609,910	3,342,600
Utility Support Serv.	0	379,410	0	1,981,730
CWIP	2023	2024	2025	2026
Corporate Support	2,146,951	0	0	0
COPS	2,363,332	104,366	0	0
Utility Support Serv.	0	0	0	0

Table 12.2				
GSWC GO Plant Settled Capital Budgets (\$)				
Total	4,510,283	10,273,596	11,677,430	8,553,440

A listing of GSWC's requested new capital projects for the GO (including all segments) that are accepted in the settlement are provided in Appendix F. See also Appendix G for a complete listing of the GO (including all segments) CWIP projects that are accepted in the settlement.

12.2 Depreciation Accrual Rates

GSWC's Request and Cal Advocate's Position:

GSWC prepared separate depreciation studies for each of its General Office areas. Cal Advocates did not object to GSWC's proposed composite depreciation rates for General Office plant. (See Exhibit GSW-MW-91, GSW-MW-92, and PUBADV-JB-003, pages 5-1 to 5-3.)

Resolution:

For this GRC, the Parties agree to use the following composite depreciation rates for General Office plant:

General Office Operating Area	Composite Depreciation Rate
Corporate Support	6.32%
Utility Support	8.11%
COPS	13.57%

13.0 General Office Allocation

13.1 Structure of the Allocation of Costs to American States Utility Services ("ASUS")

GSWC's Request and Cal Advocates Position:

For purposes of allocating General Office costs, GSWC separated the GO into three separate categories or functional areas: (1) Corporate Support;

(2) Utility Support; and (3) Centralized Operations Support Department. Cal Advocates did not oppose this approach. (See GSW-JDL-003, pages 25 to 41, and PUBADV-SL-002, Chapter 5 - General Office Allocation, pages 5-1 through 5-5.)

13.2 Allocation of Corporate Support Function

GSWC's Request and Cal Advocates' Position:

With regard to the allocation of the Corporate Support function, GSWC recommended the following four categories be used in the four-factor calculation: (1) gross plant; (2) operating expenses; (3) number of customers; and (4) direct operating labor expenses. GSWC's proposal resulted in 15.57% of Corporate Support being allocated to ASUS, 9.34% to Bear Valley Electric Service ("BVES"), and 75.09% to GSWC. (See Exhibit GSW-JDL-003, page 37.)

Cal Advocates recommended using three factors: (1) gross plant; (2) operating expenses; and (3) direct operating labor expenses. Cal Advocates' recommendation resulted in 20.8% of Corporate Support being allocated to ASUS, 9.6% to BVES, and 69.6% to GSWC. (See Exhibit PUBADV-SL-002, Chapter 5. General Office Allocation, page 5-1.)

Resolution:

For this GRC, the Parties agree to the following allocation percentages for the Corporate Support function: 17.17% to ASUS, 9.34% to BVES, and 73.49% to GSWC. Refer to Appendix I – General Office Allocation Percentages for a listing of settled allocation percentages by GSWC's ratemaking area.

13.3 Allocation of Utility Support Function

GSWC's Request and Cal Advocates Position:

GSWC allocated the costs of Utility Support between GSWC and BVES

using the four-factor methodology. This resulted in 11.06% of GO Utility Support costs being allocated to BVES and 88.94% to GSWC. (See Exhibit GSW-JDL-003, page 37.)

Cal Advocates used the three-factor methodology 1) gross plant; (2) operating expenses; and (3) direct operating labor expenses. (See Exhibit PUBADV-SL-002, Chapter 5. General Office Allocation, page 5-1.)

Resolution:

For Utility Support, the Parties agree to use GSWC's allocation percentage of 11.06% to BVES and 88.94% to GSWC. Refer to Appendix I – General Office Allocation Percentages for a listing of settled allocation percentages by GSWC's ratemaking area.

13.4 Allocation of Centralized Operations Support Function

GSWC's Request and Cal Advocates Position:

GSWC proposed to allocate Centralized Operations Support to its ratemaking areas using an equivalent number of customers methodology. Cal Advocates did not contest GSWC's methodology. (See Exhibit GSW-JDL-003, pages 25-41, and Exhibits PUBADV-SL-002, Chapter 5. General Office Allocation, page 5-1 through 5-5.) Refer to Appendix I – General Office Allocation Percentages for a listing of settled allocation percentages by ratemaking area.

14.0 General Office Revenues and Expenses: Corporate Support, Utility Support and Centralized Operations Support

14.1 Escalation Factors

Resolution:

GSWC's General Office is separated into three functions, or Business Segments: Corporate Support, Utility Support Services, and Centralized Operations Support, as discussed in Section 13.1 above.

The Parties agree that the escalation factors used to develop GO revenue and expense forecasts in 2026 and 2027 should be handled in accordance with Section 6.1. (See Exhibit GSW-MG-060, pages 35 to 36.)

14.2 Other Revenues

GSWC's Request and Cal Advocates' Position:

To forecast Other Revenues, GSWC used an inflation-adjusted five-year average. However, in accordance with D.10-10-019, Rule X, Section X.C.5, the first \$100,000 of revenues plus a certain percentage of revenues in excess of \$100,000 are required to be allocated to GSWC ratepayers. (See Exhibit GSW-GE-018, pages 2 to 5.)

Cal Advocates did not contest GSWC's estimates for Other Revenues in the General Office. (See Exhibit PUBADV-HM-07, Chapter 1.D.)

Cal Advocates recommended disallowance of the proposed new Tampering Fee, which would have generated additional revenues.

Resolution:

GSWC agreed to withdraw its request for the new Tampering Fee. The Parties agree to the following estimates of Other Revenues:

Other Revenues	2025 (\$)		
	GSWC	Cal Advocates	Settlement
GO Segment			
Corporate Support	95,674	95,674	95,674
Utility Support	0	0	0
COPS	686,621	649,452	649,452
Total GO	782,295	745,126	745,126

14.3 Common Customer Account Expense

GSWC's Request and Cal Advocates' Position:

To forecast Common Customer Account expense, GSWC used an inflation-adjusted five-year average, further adjusted (1) to remove any

historical costs tracked in memorandum accounts, and (2) to forecast ongoing annual expenses that will be incurred following the full transition of remaining bi-monthly billed customers to monthly billing.

Cal Advocates opposed the inclusion of adjustments to account for the ongoing annual expenses that will be incurred following the full transition of remaining bi-monthly billed customers to monthly billing.

(See Exhibit GSW-MG-060, pages 36 to 37, Exhibit GSW-MG-061, pages 25 to 26, and Exhibit PUBADV-SL-002, Chapter 4.)

Resolution:

The Parties agree to the following estimates of Common Customer Account expense.

Common Customer Account	2025 (\$)		
	GSWC	Cal Advocates ¹¹	Settlement
GO Segment			
Corporate Support	0	0	0
Utility Support	282,430	282,430	282,430
COPS	135,522	135,522	135,522
Total GO	417,952	417,952	417,952

14.4

Postage

GSWC's Request and Cal Advocates' Position:

To forecast Postage expense, GSWC used an inflation-adjusted five-year average further adjusted to reflect forecasted increases related to ongoing annual expenses that will be incurred following the full transition of remaining bi-monthly billed customers to monthly billing. (See Exhibit GSW-MG-060, pages 37 to 38 and Exhibit GSW-MG-061, pages 25 to

¹¹ While Cal Advocates opposed adjustments to Common Customer Account expenses, the adjustments for Cal Advocates' position are reflected in Section 14.14 Miscellaneous expenses.

26.)

Cal Advocates opposes GSWC's estimates for this account and recommended denial of expense adjustments related to on-going annual expenses that will be incurred following the full transition of remaining bi-monthly billed customers to monthly billing. (See Exhibit PUBADV-SL-002, Chapter 4.)

Resolution:

The Parties agree to the following estimates for Postage expense.

Postage	2025 (\$)		
GO Segment	GSWC	Cal Advocates ¹²	Settlement
Corporate Support	0	0	0
Utility Support	9	9	9
COPS	1,214,940	1,214,940	1,214,940
Total GO	1,214,949	1,214,949	1,214,949

14.5 All Other Operating Expenses

GSWC's Request and Cal Advocates' Position:

To forecast All Other Operating expenses, GSWC used an inflation-adjusted five-year average, further adjusted (1) to remove any historical costs tracked in memorandum accounts, (2) to reflect forecasted increases related to on-going annual expenses that will be incurred following the full transition of remaining bi-monthly billed customers to monthly billing. (See Exhibit GSW-MG-060, pages 38 to 39.)

Cal Advocates did not contest GSWC's estimates for this account. (See Exhibit PUBADV-SL-002, Chapter 4 and Exhibit PUBADV-SL-002A, Chapter 4.)

¹² While Cal Advocates opposed adjustments to Postage expenses, the adjustments for Cal Advocates' position are reflected in Section 14.14 Miscellaneous expenses.

Resolution:

The Parties agree to the following estimates for All Other Operating expenses. There is no difference in the Parties' positions for these estimates.

All Other Operating Expenses	2025 (\$)
GO Segment	Settlement
Corporate Support	206
Utility Support	490,285
COPS	257,291
Total GO	747,782

14.6 All Other Maintenance Expenses

GSWC's Request and Cal Advocates' Position:

To forecast All Other Maintenance expenses, GSWC used an inflation-adjusted five-year average. (See Exhibit GSW-MG-060, pages 38 to 39.)

Cal Advocates did not contest GSWC's estimates for this account. (See Exhibit PUBADV-SL-002, Chapter 4 and Exhibit PUBADV-SL-002A, Chapter 4.)

Resolution:

The Parties agree to the following estimates for All Other Maintenance Expenses. There is no difference in the Parties' positions for these estimates.

All Other Maintenance Expenses	2025 (\$)
GO Segment	Settlement
Corporate Support	0
Utility Support	0
COPS	143
Total GO	143

14.7 Office Supplies & Expenses

GSWC's Request and Cal Advocates' Position:

To forecast Office Supplies expenses, GSWC used an inflation-adjusted five-year average, further adjusted to remove any historical costs tracked in memorandum accounts. (See Exhibit GSW-MG-060, page 39.)

Cal Advocates recommended to adjust all Office Supplies and Expense to be based on a three-year inflation adjusted historical average of the years 2020-2022. (See Exhibit PUBADV-LC-010, Chapter 2 and PUBADV-LC-010A page 2-3.)

Resolution:

The Parties agree to the following estimates for Office Supplies & Expense.

Office Supplies & Expenses	2025 (\$)		
	GSWC	Cal Advocates	Settlement
GO Segment			
Corporate Support	1,323,397	1,231,163	1,323,397
Utility Support	147,152	94,054	147,152
COPS	628,033	561,104	628,033
Total GO	2,098,582	1,886,321	2,098,582

14.8 Property Insurance Expense

GSWC's Request and Cal Advocates' Position:

In projecting Test Year 2025 Property Insurance expenses, GSWC escalated the 2023 GSWC water operations' specific property insurance costs based upon its insurance broker's projection of insurance cost escalation. In particular, GSWC escalated the 2023 premium amounts by 10% in 2024 and 12.5% annually for years 2025-2027. (See Exhibit GSW-MG-060, page 40 and Exhibit GSW-MC-001, pages 2 to 20.)

Cal Advocates did not oppose GSWC's estimates for this account.

Resolution:

To ensure that GSWC has sufficient funding for this expense across the rate cycle, the Parties agree to the following estimates for Property Insurance expense.

Property Insurance	2025 (\$)		
GO Segment	GSWC	Cal Advocates	Settlement
Corporate Support	11,458	11,484	12,445
Utility Support	0	0	0
COPS	364,542	365,384	395,958
Total GO	376,000	376,868	408,404

14.9 Injuries & Damages Expense

GSWC's Request and Cal Advocates' Position:

The Injuries and Damages expenses are General Liability, Excess Liability, Umbrella Liability, General Liability Reserves, Excess Workers' Compensation, Workers' Compensation Reserves, Professional Liability, Cyber Liability, Environment Liability, Directors & Officers ("D&O") Liability, D&O Excess, D&O Excess Side A, D&O Travel, Fiduciary Liability, Crime, Employment Practices, Wage & Hour, Business Auto, Broker Fee, and Self-Insurance Fee.

GSWC estimated these expenses, other than General Liability Reserves, by escalating the recorded 2023 premiums by factors provided by GSWC's insurance broker. The General Liability Reserve was forecasted to be 16.5% of the combined premium for General, Umbrella, and Excess Liability policies. Workers' Compensation Reserve was forecasted using five-year average.

Cal Advocates did not oppose GSWC's estimates for this account.

Resolution:

To ensure that GSWC has sufficient funding for this expense across the rate cycle, the Parties agree to the following estimates for Injuries and Damages expense.

Injuries and Damages	2025 (\$)		
	GSWC	Cal Advocates	Settlement
GO Segment			
Corporate Support	2,594,727	2,592,632	3,052,584
Utility Support	280,739	279,760	331,583
COPS	1,057,047	1,055,463	1,267,051
Total GO	3,932,513	3,927,855	4,651,218

14.10 Pension & Benefits

GSWC's Request and Cal Advocates' Position:

Pension and Benefits are forecasted at the General Office and then allocated to the CSAs and District Offices. The pension and benefits costs for GSWC include the costs associated with each of the following: employee training costs; annual cash incentive bonuses; restricted stock units; discretionary bonuses; employee relocation costs; other miscellaneous employee benefits; 401(k) plan employer contribution; group health insurance benefits including medical, dental and vision; co-paid life insurance; employee assistance program; pension plan (defined benefit); supplemental executive retirement plan ("SERP"); voluntary employees' beneficiary association plan ("VEBA"); and the defined contribution plan.

The estimates for other miscellaneous employee benefits are forecasted by escalating the inflation-adjusted five-year average using the labor inflation factor from Cal Advocates' "Estimates of Non-Labor and Wage Escalation Rates" memorandum.

GSWC used actuarial estimates from its broker to forecast costs for the

defined benefit pension plan, SERP and VEBA. Pension, SERP and VEBA costs are expensed by applying the recorded 2022 expensed percentage to the broker's forecasts. GSWC requested expensed amounts for the Pension Plan of \$5,790,565, \$5,851,924, and \$6,040,474 for years 2025, 2026, 2027, respectively. The requested GSWC expensed amounts for SERP were \$1,852,146, \$1,892,894 and \$1,934,537 for years 2025, 2026, 2027, respectively. The requested GSWC expensed amounts for VEBA were -\$502,539, -\$513,595 and -\$524,894 for years 2025, 2026, 2027, respectively.

For the Defined Contribution Plan and the 401(k) Plan, GSWC's forecasts were based on 2022 recorded amounts escalated using the same factors as the labor forecast. In addition to the inflation factors used in the labor forecast, the Defined Contribution forecast had an additional inflation factor (15.9% in 2023, 7.0% in 2024, 6.5% in 2025) to adjust for increased participation in the new plan resulting from either employee retirements or turnovers.

GSWC forecasted health care insurance costs by escalating the 2023 premium amounts by 13.8% annually for years 2024-2027 for medical, 6.2% annually for years 2024-2027 for dental, and 2.0% and 2.2% for years 2024 and 2025, respectively, for vision.

The annual cash incentive bonuses (also known as Short-Term Incentive Program, or "STIP") portion of executive compensation and manager and director bonuses were forecasted by GSWC using the projected base salaries for the individual GSWC officers, managers and directors, and applying to them the target STIP award percentages in effect at the time of filing the general rate case application in 2023 of 31.2% for the Vice Presidents, 37.1% for the Senior Vice Presidents, 100% for the President, and 12.5% for managers and directors. GSWC escalated salaries to the 2025 level using the same factors used in the labor forecast.

The restricted stock units (also known as the Long-Term Incentive Program, or “LTIP”) is a stock-based compensation. GSWC based the forecasted LTIP cost on 2023 target grant awards inflated by the same factors used in the labor forecast.

Cal Advocates contested the Healthcare, Defined Benefit Pension Plan, and Defined Contribution Plan expense levels. Cal Advocates recommended disallowing executive and manager STIP and LTIP from the expense forecast. Cal Advocates also disagreed with the inclusion of the customer growth factors used by GSWC in 2025 to escalate salary levels to derive the 2025 labor expense.

(See GSW-MC-001, pages 21 to 25, GSW-JDL-003, pages 9 to 13, GSW-GF-019, pages 1 to 21, GSW-JP-076, pages 2 to 27, GSW-MC-002, pages 1 to 10, GSW-GF-020, pages 2 to 16, GSW-JP-078/GSW-JP-078C, pages 2 to 27, PUBADV-SL-002/PUBADV-SL-002C, Chapter 2, and Chapter 3, pages 3-11 to 3-14, as corrected by PUBADV-SL-002A.)

Resolution:

The Parties agree to the following:

- To ensure that GSWC has sufficient funding across the rate cycle for group health care expense (medical, dental, and vision insurance), the Parties agree to an expense level of \$7,672,146 in 2025.

Health Insurance (\$)	2025
Medical	7,215,880
Dental	419,424
Vision	36,842

- Employee Assistance Program (“EAP”) and Co-Paid Life Insurance expense will be funded at GSWC’s requested level.
- Pension Plan expense for 2025, 2026 and 2027 will be \$2,751,193.

The 2025 expense level will not be escalated in the attrition years, in compliance with the Rate Case Plan, because GSWC has a two-way Pension and Benefits Balancing Account that tracks this item.

- SERP expense in 2025 will be funded at GSWC's requested level.
- VEBA Plan expense in 2025 will be funded at GSWC's requested level.
- 401(k) Plan expense for 2025 will be calculated using GSWC's forecasting methodology.
- Defined Contribution Plan expense will be funded in 2025 based on GSWC's forecasting methodology.
- Manager and Director annual incentive bonuses will be funded in 2025 based on GSWC's forecasting methodology.
- Manager and Director restricted stock units will be funded in 2025 at GSWC's requested level.
- Executive compensation programs will be funded in 2025 at the following levels:

Executive Compensation Programs (\$)	GSWC	Cal Advocates	Settlement
Base Salary (included in labor expense section 5.2)	2,821,906	2,480,305	2,821,906
Executive bonuses: STIP and LTIP	3,947,933	0	1,620,012
Total	6,769,839	2,480,305	4,441,917

GSWC's Pension and Benefits costs (expensed portion) for the 2025 Test Year are set forth in the table below (\$). While the parties disagreed over this in their testimony, they agree that this is reasonable as part of the entire settlement.

Table 14.1

Pension & Benefits Components (\$)	GSWC	Cal Advocates	Settlement
Bonus (LTIP & STIP)	5,159,731	0	2,831,809
Other Misc. Emp. Benefits	1,122,849	1,122,119	1,122,849

14.11 Business Meals

GSWC's Request and Cal Advocates' Position:

To forecast Business Meals expense, GSWC used an inflation-adjusted five-year average further adjusted to remove any historical costs tracked in memorandum accounts. (See Exhibit GSW-MG-060, page 42.)

Cal Advocates did not contest GSWC's estimates for this account.

Resolution:

The Parties agree to the following estimates for Business Meals expenses:

Business Meals	2025 (\$)
GO Segment	Settlement
Corporate Support	11,628
Utility Support	6,028
COPS	25,004

Business Meals	2025 (\$)
GO Segment	Settlement
Total GO	42,660

14.12 Regulatory Expenses

GSWC's Request and Cal Advocates' Position:

GSWC's regulatory expenses include legal, consultant, and noticing costs (printing, postage, and newspaper publication) for the Cost of Capital and General Rate Case applications scheduled for filing in 2025, 2026, and 2027.

GSWC estimated its legal and consultant costs by escalating legal and consulting costs from recent Cost of Capital and General Rate Case filings.

GSWC estimated its printing and newspaper publication costs by using the prior rate case cycle's expenses and escalated to arrive at an average annual amount. GSWC estimated its postage cost by using the forecasted number of customers multiplied by the number of notices and the 2023 postage rate, and then escalating the total to arrive at the Test Year amount. (See Exhibit GSW-MG-060, page 45.)

Other than the issue addressed in Section 6.1, Cal Advocates did not contest GSWC's estimates for this account.

Resolution:

The Parties agree to the following estimates for Regulatory Expenses.

Regulatory Expenses	2025 (\$)		
	GSWC	Cal Advocates	Settlement
GO Segment			
Corporate Support	0	0	0
Utility Support	0	0	0

Regulatory Expenses	2025 (\$)		
		Cal	
GO Segment	GSWC	Advocates	Settlement
COPS	1,318,700	1,278,900	1,318,700
Total GO	1,318,700	1,278,900	1,318,700

14.13 Outside Services

GSWC's Request and Cal Advocates' Position:

To forecast Outside Services expenses, GSWC used an inflation-adjusted five-year average, further adjusted (1) to remove any historical costs tracked in memorandum accounts, (2) to forecast lock box service costs, (3) to forecast costs related to a new workforce management system, (4) to forecast a study that will research and weigh the benefits of owning offices as opposed to leasing and (5) various technology service projects. (See Exhibit GSW-MG-060, pages 43 to 44.)

In addition to the issue addressed in Section 6.1, Cal Advocates opposed the study that will research and weigh the benefits of owning offices as opposed to leasing. (See Exhibit PUBADV-SL-002, pages 3-14 to 3-15.)

Resolution:

The Parties agree to the following estimates for Outside Services reflecting the removal of the expenses related to the real estate ownership study.

Outside Services	2025 (\$)		
		Cal	
GO Segment	GSWC	Advocates	Settlement
Corporate Support	4,958,689	4,831,985	4,958,689
Utility Support	964,738	942,061	964,738
COPS	3,520,317	2,937,569	3,020,317
Total GO	9,443,744	8,711,615	8,943,744

14.14 Miscellaneous Expenses

GSWC's Request and Cal Advocates' Position:

To forecast Miscellaneous expenses, GSWC used an inflation-adjusted five-year average, further adjusted to remove any historical costs tracked in memorandum accounts. (See Exhibit GSW-MG-060, pages 44 to 45.)

Cal Advocates did not contest GSWC's estimates for this account.

Resolution:

The Parties agree to the following estimates for Miscellaneous expense.

Miscellaneous	2025 (\$)		
	GSWC	Cal Advocates ¹³	Settlement
GO Segment			
Corporate Support	2,317,337	1,952,538	2,317,337
Utility Support	1,395	1,395	1,395
COPS	471,880	471,880	471,880
Total GO	2,790,612	2,425,813	2,790,612

14.15 Maintenance of General Plant

GSWC's Request and Cal Advocates' Position:

To forecast Maintenance of General Plant expense, GSWC used an inflation-adjusted five-year average. However, GSWC removed expenses relating to IT (computer software and hardware) from historical data before escalating the inflation adjusted five-year average of historical data. The IT portion of Maintenance of General Plant expense was forecasted separately to be \$3,371,493 for Test Year 2025. Additional costs were added to the account for expense items related to various technology service projects including ArcGIS annual maintenance, ParcelQuest

¹³ While Cal Advocates did not oppose any GSWC's estimates for Miscellaneous Expenses, the deviation in Cal Advocates' position relates to their opposition to adjustments for Section 14.3 Common Customer Account and Section 14.4 Postage expenses.

subscription, Aveva Flex subscription and Aveva PI system subscription.
(See Exhibit GSW-MG-060, page 44 to 45.)

Cal Advocates did not contest GSWC's estimates for this account.

Resolution:

The Parties agree to the following estimates for Maintenance of General Plant expense. There is no difference in the Parties' positions for these estimates.

Maintenance of General Plant	2025 (\$)
GO Segment	Settlement
Corporate Support	2,221,225
Utility Support	1,385,506
COPS	720,783
Total GO	4,327,514

14.16 Rent Expense

GSWC's Request and Cal Advocates' Position:

To forecast Rent expense, GSWC used cost data from its lease agreements. (See Exhibit GSW-MG-060, page 23.)

Cal Advocates did not oppose GSWC's estimates.

Resolution:

The Parties agree to the following estimates for Rent expense. There is no difference in the Parties' positions for these estimates.

Rent	2025 (\$)
GO Segment	Settlement
Corporate Support	0
Utility Support	0
COPS	464,149

Rent	2025 (\$)
GO Segment	Settlement
Total GO	464,149

14.17 **A&G Capitalized**

GSWC's Request and Cal Advocates' Position:

GSWC's A&G Capitalized amounts are comprised of 25.9% of Office Supplies & Expense, Outside Services Expense and Corporate Expenses. Cal Advocates did not oppose GSWC's methodology, reflecting the final adopted expenses in those line items. (See Exhibit GSW-MG-060, page 45.)

Resolution:

The Parties agree to the A&G Capitalized expense estimates shown below. These values reflect the capitalized ratio of 25.9% and amounts for Office Supplies & Expense, Outside Services Expense and Corporate Expenses.

A&G Capitalized	2025 (\$)		
	GSWC	Cal Advocates	Settlement
GO Segment			
Corporate Support	(2,207,076)	(2,136,103)	(2,207,076)
Utility Support	(288,439)	(267,010)	(288,439)
COPS	(1,077,024)	(902,500)	(947,318)
Total GO	(3,572,539)	(3,305,613)	(3,442,832)

14.18 **General Office Labor**

See Section 5.2 above.

14.19 **Depreciation Expense**

GSWC's Request and Cal Advocates' Position:

The differences between GSWC's and Cal Advocates' estimates for Depreciation Expense are due to differences in the Parties' Capital Budget

estimates for the GO.

Resolution:

The Parties agree that Depreciation Expense should be updated to reflect the settled Capital Budget for the GO and the depreciation accrual rates addressed in Section 12.1, as follows.

Depreciation Expense	2025 (\$)		
	GSWC	Cal Advocates	Settlement
GO Segment			
Corporate Support	698,937	580,614	646,781
Utility Support	1,115,461	1,111,041	1,113,210
COPS	2,763,404	2,322,891	2,709,850
Total GO	4,577,802	4,014,546	4,469,841

14.20 Local Taxes

GSWC's Request and Cal Advocates' Position:

GSWC calculated Local Taxes as a percentage of revenues, and its projected Local Tax expense is based on a five-year average percentage multiplied by the General Office Other Revenues forecasted in this proceeding. Cal Advocates did not contest GSWC's methodology. (See Exhibit GSW-GE018, page 2, and Exhibit PUBADV-LC-010, See Chapter 7, page 7-2.)

Resolution:

The Parties agree to the following Local Taxes amounts.

Local Taxes	2025	2025 (\$)
GO Segment	Rate	Expense
Corporate Support	9.120%	8,725
Utility Support	0.000%	0
COPS	0.200%	1,285
Total GO	n/a	10,010

14.21 Property Taxes

GSWC calculated Property Taxes as a percentage of modified rate base

(rate base excluding working cash and common utility allocations). The property tax expense has been forecasted by applying a rate to the forecasted rate base. This Property Tax rate is determined by considering: (i) the historical correlation between property tax expense and rate base, and (ii) anticipated increases in the ad valorem rate that will be applied to upcoming assessed values. The finalized property tax expense is determined based on a two-year weighted average¹⁴. Cal Advocates found this forecasting methodology to be reasonable. (See Exhibit GSW-WM, pages 17 21, and Exhibit PUBADV-JB-003, Chapter 3.)

Resolution:

The Parties agree to use the following estimated Property Tax percentages and amounts, and that these amounts are reasonable as part of the entire settlement. Below are the Property Tax rates for 2025.

Property Taxes %	
	2025
GO Segment	
Corporate Support	1.1645%
Utility Support	1.3443%
COPS	1.2974%

Property Taxes Expense (\$)	
	2025
GO Segment	
Corporate Support	169,662
Utility Support	47,043
COPS	193,735
Total GO	410,441

¹⁴ (Previous Year Property Tax Expense/2)+ (Current Year Property Tax Expense/2)

14.22 Payroll Taxes

GSWC's Request and Cal Advocates' Position:

GSWC and Cal Advocates both applied a Payroll Tax rate of 7.6% to all labor (payroll) expenses in the General Office. The differences in the Parties' initial estimates were due to the differences in payroll estimates. The payroll estimates have been settled as described in Section 5.2. (See Exhibit GSW-JDL-003, page 9, and PUBADV-LC-10, Pages 7-1 to 7-2.)

Resolution:

The Parties agree to the following estimated 2025 Payroll Taxes, which reflect the settled labor expenses (\$).

Payroll Taxes (\$)			
	GSWC	Cal Advocates	Settlement
Corporate Support	787,274	761,591	787,274
Utility Support	137,947	133,834	137,947
COPS	727,587	687,659	727,587

15.0 Common Issues

15.1 Rates Charged for Purchased Water, Purchased Power, and Pump Taxes

Resolution:

The Parties recommend that the latest available purveyor rates for purchased water, purchased power, and pump taxes be updated in the final decision as described in Section 10.2.

15.2 Present Rates

Resolution:

Both GSWC and Cal Advocates used GSWC's tariff rates that were in effect on the date the Application was filed (August 2023 "present rates") to estimate the revenue increase or decrease impacts resulting from this

GRC. The Parties agree that the present rates used to determine the revenue increases or decreases should be the rates in effect at the time the final decision is prepared, to reflect accurately the revenue changes adopted in the decision. The appendices to this document reflect this change and use the rates in effect at the time this document was prepared to calculate the present rates.¹⁵

(See Exhibits GSW-HW-089, Revenue section and PUBADV-HM-007, page 1-9.)

15.3 Private Fire Service Charge

GSWC proposed to increase its Private Fire service charge from \$6.50 to \$8.00 per inch of diameter of service connection, which is billed under tariff Schedule AA-4. Cal Advocates does not oppose the increase.

Resolution:

The Parties agree that GSWC's Private Fire service charge should be increased to \$8.00 per inch of diameter of service connection for this GRC cycle.

(See Exhibits GSW-HW-089, page 10 and GSW-HW-090, page 38.)

15.4 Rate Design

GSWC's Request and Cal Advocates' Position:

GSWC did not propose any changes to its current rate design or its tier

¹⁵ Effective July 1, 2024, the Commission approved Advice Letter 1941-W (IRS Private Letter Ruling – Rate Base Adjustment, applicable in all ratemaking areas, and Advice Letter 1942-W (Supply Expense Offsets), applicable in Bay Point and Region 2. The rate adjustments resulting from the implementation of these advice letters are not reflected in the Settlement Agreement or the Appendices. For more information see footnote 2 above.

breaks if its Special Request #2 for a revenue decoupling mechanism is adopted. GSWC proposed that if Special Request #2 is rejected that GSWC would require recovery of at least 45% of the revenue requirement, and not less than 50% of fixed costs, in the monthly service charges, in order to offset the resulting revenue instability resulting from the recoupling of revenues to sales volumes.

Cal Advocates proposed changes to the rate design, tier breaks and the incremental rate increase between the tiers. For example, GSWC proposes to either maintain a 30/70 split of its service charges and the quantity charges or increase the service charges if the Commission does not authorize its newly proposed WCAP. Cal Advocates not only opposes such a new water revenue decoupling mechanism, but also proposes that no shift is needed in the service/quantity rate structure when water utilities are transitioning to the Monterey-style WRAM.

The Parties did not reach agreement on this and it will be litigated.

(See Exhibits GSW-HW-090, pages 3 to 33 and PUBADV-HM-007, Chapter 2.)

16.0 Cost of Capital

16.1 Return on Rate Base

Resolution:

GSWC filed its GRC request on August 14, 2023 utilizing the most recently adopted Cost of Capital, with a return on rate base (“ROR”) of 7.53%. Cal Advocates used the same Cost of Capital and ROR.

The Parties recommend that the final decision in this proceeding reflect the most recently adopted Cost of Capital. The Summary of Earnings Tables, which are in Appendix A – Comparison Exhibit of this settlement

document, present the settlement positions of the Parties at the 7.93% ROR, which is the rate in effect at the time that this settlement is submitted to the Commission for approval.

17.0 Special Requests

17.1 Special Request 1. Balancing Accounts and Memorandum Accounts

Special Request 1 of GSWC's Application is a request for amortization and continuation of various existing balancing and memorandum accounts ("BAMAs"); when the Application was filed in August of 2023, GSWC had 31 active BAMAs.

Appendix J of this Agreement presents a summary of the BAMA balances agreed to by the Parties. It is worth noting that GSWC states that it monitors all BAMA amortizations quarterly and discontinues surcharges/surcredits early when the balance approaches zero.

Cal Advocates reviewed GSWC's workpapers, general ledger and discovery responses pertaining to the accounts submitted by GSWC. Cal Advocates did not recommend any changes to GSWC's balances or proposed actions except as noted below.

(See Exhibits GSW-RM-072, GSW-RM-073, as corrected by GSW-RM-073A, and PUBADV-JB-003 (Special Request #1, Pages 1-1 to 1-17.)

Item 1: M. Santa Maria Water Rights Memorandum Account ("SMWRMA") **GSWC's Request and Cal Advocates' Position:**

D.07-05-041 authorized the SMWRMA to track the litigation costs incurred after December 31, 2005 associated with GSWC's efforts to protect its water rights in the Santa Maria Groundwater Basin due to the adjudication by the superior court. The recovery will be over a ten-year period (commencing from the effective date of Advice Letter 1244-WA). The

surcharge is re-calculated annually. In D.23-06-024, GSWC was authorized to continue this account until December 2024. In this Application, GSWC requested to continue the account and its recalibration until December 2027.

The balance in the SMWRMA, as of May 31, 2023, is \$281,939.

Cal Advocates does not oppose GSWC's request.

Resolution:

The Parties agree the account shall continue and the surcharge continue to be recalculated annually until December 31, 2027.

Item 2: Q. Customer Assistance Program Balancing Accounts ("CAPBA")

GSWC's Request and Cal Advocates' Position:

These balancing accounts track the differences between the CAP discounts and program costs, and the CAP surcharge-generated revenue. These amounts are recorded in separate subaccounts for the Region 1, Region 2, and Region 3 service areas. In this Application, GSWC requested to recalibrate the CAP surcharges in each region for years 2025-2027 and to continue the account until December 31, 2027.

The cumulative balance in the CAPBAs as of May 31, 2023 is an undercollection of \$4,180,841.

The May 31, 2023 balance, broken down by Region, is as follows:

Region 1: \$603,047

Region 2: \$1,519,124

Region 3: \$2,058,670

Cal Advocates does not oppose GSWC's request.

Resolution:

The surcharges are recalibrated by GSWC in every GRC based on the stipulated sales volumes and forecasted CAP costs plus the balances in the CAPBAs. The surcharges to fund the program will be calculated in the final decision, based on the CAP discounts adopted in this proceeding, which are discussed in Section 18.1 below. The implementation of these surcharges should be concurrent with or as part of the revised tariff schedules adopted in this proceeding. The Parties recommend that the final decision contain an Ordering Paragraph authorizing GSWC to include these surcharges in its Tier 1 advice letter implementing tariff schedules resulting from the final decision.

Item 3: W. Water Revenue Adjustment Mechanism (“WRAM”) and Modified Cost Balancing Account (“MCBA”)

GSWC’s Request and Cal Advocates’ Position:

The purpose of the WRAM/MCBA Balancing Account is to track the difference between Commission approved water revenue and actual water revenues along with Commission approved supply expenses vs. actual supply expenses. GSWC files to amortize the WRAM/MCBA balances that are above 2% of adopted revenues by March 31st every year. If the balance is less than 2%, it is left to the discretion of the Company to file or not to file. In this Application, GSWC did not request any action from the Commission for the account.

The Parties agree that this account is not intended for GRC audit, GSWC is acknowledging the account’s existence in its Preliminary Statement for transparency. There was no requested Commission action in this proceeding.

Resolution:

N/A

Item 4: MM. Omega Chemical Corporation Superfund Site Memorandum Account (“OCCSSMA”)

GSWC’s Request and Cal Advocates’ Position:

The OCCSSMA was established via Advice Letter 1413-W on September 29, 2010 to track incremental administrative costs GSWC incurs in connection with the investigation by the U.S. Environmental Protection Agency into the groundwater contamination that began at the Omega Chemical Corporation in Whittier, California. In this Application, GSWC requested to continue this account until December 31, 2027.

The balance in the OCCSSMA as of May 31, 2023 is \$10,059.

Cal Advocates does not oppose GSWC’s request.

Resolution:

The Parties agree that the OCCSSMA shall continue through December 31, 2027.

Item 5: OO. Pension and Benefits Balancing Account (“PBBA”)

GSWC’s Request and Cal Advocates’ Position:

The purpose of the PBBA is to track the difference between authorized pension costs included in rates (based on the Employment Retirement Income Security Act’s minimum funding levels) and actual pension costs based on Accounting Standard Codification 715-10, Compensation - Retirement Benefits (formerly known as FAS 87). In this Application, GSWC requested to continue this account until December 31, 2027.

The balance in the PBBA as of May 31, 2023 is (\$1,236,744).

Cal Advocates opposes GSWC’s request to delay refunding the \$1,236,744 over-collection in this account to customers and recommend that the balance should be amortized. Cal Advocates does not oppose continuing the account until December 31, 2027.

Resolution:

The Parties agree that this account shall continue through December 31, 2027 and GSWC shall refund the May 31, 2023 over-collection of \$1,236,744 to customers through surcredits. Refer to Appendix J in this Agreement for a summary of all the BAMA balances. The implementation of the surcredit should be concurrent with or as part of the revised tariff schedules adopted in this proceeding. The Parties recommend that the final decision contain an Ordering Paragraph authorizing GSWC to include this surcredit in its Tier 1 advice letter implementing tariff schedules resulting from the final decision.

Item 6: TT. Los Osos Groundwater Adjudication Memorandum Account (“LOAMA”)

GSWC’s Request and Cal Advocates’ Position:

LOAMA tracks legal expenses related to the adjudication of the Los Osos Groundwater Basin, pursuant to the Stipulation Agreement approved in D.10-12-059.

GSWC forecasted ongoing Los Osos Basin Management Committee and legal costs in its expense forecast beginning in 2022. In this Application, GSWC requested to amortize the expenses post-September 30, 2020 until May 31, 2023 and continue the account until December 31, 2027.

The balance in the LOAMA as of May 31, 2023 is \$431,642.

Cal Advocates does not oppose GSWC’s request.

Resolution:

The Parties agree that GSWC should be authorized to amortize the balance incurred in this account from post-September 30, 2020 until May

31, 2023, which totals \$370,274. Refer to Appendix J in this Agreement for a summary of all the BAMA balances. The implementation of the surcharge should be concurrent with or as part of the revised tariff schedules adopted in this proceeding. The Parties recommend that the final decision contain an Ordering Paragraph authorizing GSWC to include this surcharge in its Tier 1 advice letter implementing tariff schedules resulting from the final decision.

The Parties agree that the memorandum account should continue through December 31, 2027 to track ongoing litigation expenses regarding these issues.

Item 7: UU. Santa Maria Steelhead Recovery Plan Memorandum Account (“SMSRPMA”)

GSWC’s Request and Cal Advocates’ Position:

The SMSRPMA was authorized in D.10-12-059 to track legal expenses related to the Steelhead Recovery Plan, pursuant to the Stipulation Agreement adopted in D.10-12-059. In this Application, GSWC requested to have the expenses incurred post-September 30, 2020 until May 31, 2023 reviewed and amortized. GSWC requested the account continue until December 31, 2027.

The balance in the SMSRPMA as of May 31, 2023 is \$511,676.

Cal Advocates does not oppose GSWC’s requests to amortize the expenses incurred post-September 30, 2020 until May 31, 2023, which totals \$150,926, in this account and to continue the account until December 31, 2027.

Resolution:

The Parties agree that GSWC should be authorized to amortize the expenses incurred post-September 30, 2020 until May 31, 2023 in the

account. Refer to Appendix J in this Agreement for a summary of all the BAMA balances. The implementation of the surcharge should be concurrent with or as part of the revised tariff schedules adopted in this proceeding. The Parties recommend that the final decision contain an Ordering Paragraph authorizing GSWC to include this surcharge in its Tier 1 advice letter implementing tariff schedules resulting from the final decision. Further, the Parties agree that the SMSRPMA shall continue through December 31, 2027.

Item 8: GGG. Tangible Property Regulations Collateral Consequences Memorandum Account (“TPRCCMA”)

GSWC’s Request and Cal Advocates’ Position:

As set forth in the 2011 GRC settlement adopted in D.13-05-011, the purpose of the TPRCCMA is to recover or refund costs, including taxes, that are impacted as a consequence of adopting the tangible property regulations (“TPR” or “repair regulations”). In this Application, GSWC did not request any CPUC action. The amortization for the TPRCCMA already began, pursuant to D.23-06-024. Once the amortization expires, GSWC will close the account.

The balance in the TPRCCMA as of May 31, 2023 is \$842,952.

Cal Advocates does not oppose GSWC’s request.

Resolution of TPRCCMA:

The Settlement Agreement adopted in D.23-06-024 authorizes GSWC to amortize the September 30, 2020 balance of \$838,700 over a 12-month period. The amortization will expire on July 30, 2024. Any residual balance after the amortization period expires is to be transferred to the General Ratemaking Area Balancing Account (“GRABA”) and the memo account shall be closed and its reference removed from GSWC’s Preliminary Statement.

Item 9: HHH. CEMA- Emergency Disaster Relief Customer Outreach (“CEMA-EDRCO”)

GSWC’s Request and Cal Advocates’ Position:

The CEMA-EDRCO was activated on September 9, 2019 to extend the applicability section of the CEMA to include costs for implementing customer protections for all disasters in which the Governor of California or the President of the United States has declared a state of emergency. GSWC informed its customers of the protections afforded to them in the event of a catastrophic event. In this Application, GSWC requested to continue the account until December 31, 2027.

The balance in the CEMA-EDRCO account as of May 31, 2023 is \$41,545.

Cal Advocates recommends that GSWC should remove the recorded cost of \$9,537 on May 12, 2023 from the balance, amortize the undercollection and close the account.

Resolution:

The Parties agree that \$9,537 should be removed from the May 31, 2023 balance, resulting in an adjusted balance of \$32,008. Refer to Appendix J in this Agreement for a summary of all the BAMA balances. The implementation of the surcharge should be concurrent with or as part of the revised tariff schedules adopted in this proceeding. The Parties recommend that the final decision contain an Ordering Paragraph authorizing GSWC to include this surcharge in its Tier 1 advice letter implementing tariff schedules resulting from the final decision. The account shall continue through December 31, 2027, because this is a CPUC mandated account.

Item 10: HHH. CEMA- COVID-19 (“CEMA-COVID-19”)

GSWC’s Request and Cal Advocates’ Position:

The CEMA-COVID-19 was activated on March 4, 2020 as a result of the State of Emergency Declaration by Governor Gavin Newsom for COVID-19. In this Application, GSWC is seeking review and amortization (recovery) of the non-arrearage-related costs recorded in the CEMA-COVID-19, which totals \$1,245,729. Additionally, GSWC acknowledges that recovery of CEMA- COVID 19-related unpaid bills shall not occur until state and federal funding appropriated has been disbursed and applied to customer accounts.

The balance in the CEMA-COVID-19, for non-arrearage-related expenses, as of May 31, 2023 is \$1,245,729.

Cal Advocates recommend GSWC be allowed to recover the requested \$1,245,729 undercollection of non-arrearage-related expenses for the CEMA-COVID 19 Memorandum Account, as of May 31, 2023.

Additionally, Cal Advocates recommend GSWC close this account by June 2026, after the amortization of the requested \$1,245,729. The remaining \$2,472,226 recorded in this account is Account Receivable (AR) reserve, which should be offset by incoming state and federal funding.

Resolution:

The Parties agree that GSWC should be allowed to recover the requested \$1,245,729 undercollection of non-arrearage-related expenses for the CEMA-COVID-19, as of May 31, 2023. Refer to Appendix J in this Agreement for a summary of all the BAMA balances. The implementation of this surcharge should be concurrent with or as part of the revised tariff schedules adopted in this proceeding. The Parties recommend that the final decision contain an Ordering Paragraph authorizing GSWC to include this surcharge in its Tier 1 advice letter implementing tariff schedules resulting from the final decision. When the amortization expires, GSWC

shall transfer any residual balance to the GRABA, close this account and remove its reference from GSWC's Preliminary Statement.

The parties further agree that the AR balance in this account, in the amount of \$2,472,226, should be offset by incoming state and federal funding before GSWC seeks a request for amortization.

Item 11: JJJ. American Recovery and Reinvestment Act Balancing Account ("ARRABA")

GSWC's Request and Cal Advocates' Position:

The purpose of the ARRABA is to 1.) track revenues collected through the American Recovery and Reinvestment Act of 2009 ("ARRA") surcharge in GSWC's Arden Cordova District and 2.) track payments of principal, interest, and any fiscal agent or loan-related fees associated with the repayment of a \$4.3 million loan, pursuant to an agreement between GSWC and the California Department of Public Health Services ("CDPHS") under the Safe Drinking Water State Revolving Fund Law of 1997 ("SDWSRF") and the ARRA. The ARRABA expires in March 2033.

This account was authorized in Resolution No. W-4810.

GSWC did not seek any CPUC actions in this application for the ARRABA. The surcharge schedule is pursuant to Resolution No. W-4810.

The balance in the ARRABA as of May 31, 2023 is (\$24,275).

Cal Advocates does not oppose GSWC's request.

Resolution:

The Parties agree that the account's current amortization schedule should continue and that the account should remain open. Additionally, GSWC will continue to monitor and adjust the ARRABA surcharges, as prescribed

in Resolution W-4810.

Item 12: MMM. Los Osos Basin Management Committee Memorandum Account (“LOBMCMA”)

GSWC’s Request and Cal Advocates’ Position:

The LOBMCMA records the expenses GSWC incurs as a member of the Basin Management Committee (“BMC”), which was formed in accordance with the October 14, 2015 Stipulated Judgement in the San Luis Obispo County Superior Court, Case No. CV 040126 (“Stipulated Judgment”).

The BMC’s purpose is to implement the Stipulated Judgment and the Basin Plan for the Los Osos Groundwater Basin, and to engage in such other activities as may be necessary or appropriate to ensure their successful implementation, once a designated source(s) of funding has been established in accordance with all constitutional and statutory requirements, including Article 13 of the California Constitution. In this Application, GSWC requested the amortization of expenses incurred post-September 30, 2020 until May 31, 2023 and to continue this account until December 31, 2027.

The balance in the LOBMCMA as of May 31, 2023 is \$466,559.

Cal Advocates does not oppose GSWC’s request.

Resolution:

The Parties agree that GSWC should be authorized to amortize the expenses incurred post-September 30, 2020 until May 31, 2023 in this account, which is \$234,977. Refer to Appendix J in this Agreement for a summary of all the BAMA balances. The implementation of the surcharge should be concurrent with or as part of the revised tariff schedules adopted in this proceeding. The Parties recommend that the final decision contain an Ordering Paragraph authorizing GSWC to include this surcharge in its Tier 1 advice letter implementing tariff schedules resulting

from the final decision. Further, the account shall be continued through December 31, 2027.

Item 13: NNN. Basin Pumping Rights Litigation Memorandum Account (“OCBPRLMA”)

GSWC’s Request and Cal Advocates’ Position:

The Commission approved GSWC’s Advice Letter 1667-W, effective September 29, 2016, to establish the OCBPRLMA. The purpose of the OCBPRLMA is to track the costs associated with GSWC’s efforts to protect its water rights in the Orange County Groundwater Basin from injury due to the lawsuit filed by Irvine Ranch Water District on June 17, 2016 against the Orange County Water District. In this Application, GSWC requested the amortization of the May 31, 2023 balance and to continue this account until December 31, 2027.

The balance in the OCBPRLMA as of May 31, 2023 is \$2,024,414.

Cal Advocates does not oppose GSWC’s request.

Resolution:

The Parties agree that GSWC should be authorized to amortize the expenses incurred post-September 30, 2020 until May 31, 2023 for this account, which is \$704,426. Refer to Appendix J in this Agreement for a summary of all the BAMA balances. The implementation of the surcharge should be concurrent with or as part of the revised tariff schedules adopted in this proceeding. The Parties recommend that the final decision contain an Ordering Paragraph authorizing GSWC to include this surcharge in its Tier 1 advice letter implementing tariff schedules resulting from the final decision. Further, the account shall be continued through December 31, 2027.

Item 14: RRR. Aerojet Water Litigation Memorandum Account (“AEROJET”)

GSWC’s Request and Cal Advocates’ Position:

The AEROJET account was authorized on July 21, 2005 in D.05-07-045. The purpose of the account is to record costs incurred by GSWC associated with water contamination in the Arden-Cordova CSA. GSWC was permitted to recover the balance over a 20-year period. D.05-07-045 directs recalculation of the surcharges in each subsequent GRC. In this application, GSWC requested to continue the Aerojet amortization until August 2025, as ordered in D.05-07-045, and keep the account open to track any residual balance and any Water Availability Fees (“WAF”) received from developers, pursuant to D.05-07-045, that will be credited to customers in the future.

The balance in the AEROJET account as of May 31, 2023 is \$3,614,317.

Cal Advocates recommends that GSWC continue the authorized amortization until August 2025, close the account by June 2026, remove the account from its Preliminary Statement, and future WAF payments should be recorded in the GRABA.

Resolution:

The Parties agree that GSWC shall amortize the AEROJET until August 2025. Refer to Appendix J in this Agreement for a summary of all the BAMA balances. The implementation of the surcharge should be concurrent with or as part of the revised tariff schedules adopted in this proceeding. The Parties recommend that the final decision contain an Ordering Paragraph authorizing GSWC to include this surcharge in its Tier 1 advice letter implementing tariff schedules resulting from the final decision. GSWC shall recalibrate the AEROJET surcharge concurrently with the rates adopted in this application and the amortization will expire in August 2025. Further, GSWC agrees when the amortization expires, the

account shall be removed from GSWC's preliminary statement and any residual balance will be transferred to the GRABA. GSWC will track WAF payments (if any) in the GRABA once the AEROJET account is closed.

Item 15: TTT. Clearlake Supply Expense Balancing Account ("CSEBA")

GSWC's Request and Cal Advocates' Position:

The CSEBA tracks the incremental difference between the actual purchased water costs per Ccf and purchased electricity costs per kWh and the adopted purchased water costs per Ccf and purchased electricity per kWh, respectively. Since the Clearlake CSA does not have a Modified Cost Balancing Account ("MCBA"), this balancing account tracks purchased water and purchased power rate fluctuations in the Clearlake CSA on an ongoing basis. In this Application, GSWC is seeking authority to include Clearlake supply expenses in the proposed Water Conservation Advancement Plan. If granted, then GSWC will amortize and close the CSEBA, via a Tier 1 advice letter, and remove reference to the CSEBA from its Preliminary Statement.

The residual balance in the CSEBA account as of May 31, 2023 is \$36,906.

Cal Advocates recommend amortizing the May 31, 2023 balance recorded in the CSEBA and to close the account, regardless of the outcome of GSWC's request to include Clearlake supply expenses in the Water Conservation Advancement Plan.

Resolution:

The Parties agree to the amortization recorded in the CSEBA, which is \$36,906, by implementing a surcharge in the applicable ratemaking area. Refer to Appendix J in this Agreement for a summary of all the BAMA balances. The implementation of the surcharge should be concurrent with or as part of the revised tariff schedules adopted in this proceeding. The Parties recommend that the final decision contain an Ordering Paragraph

authorizing GSWC to include this surcharge in its Tier 1 advice letter implementing tariff schedules resulting from the final decision. When the amortization expires, GSWC shall transfer any residual balance to the GRABA, close this account and remove its reference from GSWC's Preliminary Statement.

Further, the Parties agree that the outcome of Special Request #2 will determine if the Clearlake supply expenses will be tracked in the consolidated Arden Cordova/Clearlake ratemaking area's Full Cost Balance or part of the consolidated Arden Cordova/Clearlake ratemaking area's Incremental Cost Balancing Account.

Item 16: IIII. General Ratemaking Area Balancing Account ("GRABA")
GSWC's Request and Cal Advocates' Position:

The GRABA was established via Advice Letter 1774-W on June 8, 2019 to aggregate small residual dollar amounts from expired authorized amortizations and other authorized dollar amounts (e.g., intervener compensation awards) for subsequent amortization at the ratemaking area level. A small residual balance would encompass any balance less than 2% of gross adopted revenues by ratemaking area. In this Application, GSWC requested to have the expenses incurred post-September 30, 2020 until May 31, 2023 reviewed and amortized. GSWC also requested to continue the account until December 30, 2027.

The balance in the GRABA as of May 30, 2023 is (\$307,495).

Cal Advocates does not oppose GSWC's request.

Resolution:

The Parties agree that GSWC shall amortize the expenses recorded in this account post-September 30, 2020 until May 31, 2023, which totals (\$12,519). Refer to Appendix J in this Agreement for a summary of all

the BAMA balances. The implementation of the surcharge/surcredit should be concurrent with or as part of the revised tariff schedules adopted in this proceeding. The Parties recommend that the final decision contain an Ordering Paragraph authorizing GSWC to include this surcharge in its Tier 1 advice letter implementing tariff schedules resulting from the final decision. Further, the account shall be continued through December 31, 2027.

Item 17: JJJJ. San Luis Obispo Valley Groundwater Basin Memorandum Account (“SLOVGBMA”)

GSWC’s Request and Cal Advocates’ Position:

GSWC expects to continue to incur costs through 2027 related to the development, review and implementation of a Groundwater Sustainability Plan (“GSP”) for the San Luis Obispo Valley Groundwater Basin. Expected costs are related, but not limited, to the following activities: Groundwater Sustainability Commission Administration, legal and consultant support costs to assist with negotiations and development of the GSP as well as customer outreach and implementation activities. GSWC’s position in the basin is located in the most depressed area in respect to groundwater levels and may as a result have one of the highest cost impacts during implementation. In this Application, GSWC requested to amortize the expenses incurred post-September 30, 2020 until May 31, 2023 and continue the account until December 31, 2027.

The balance in the SLOVGBMA as of May 31, 2023 is \$67,202.

Cal Advocates does not oppose GSWC’s request.

Resolution:

The Parties agree to amortizing the expenses incurred post-September 30, 2020 until May 31, 2023 in the SLOVGBMA, which is \$25,400. Refer to Appendix J in this Agreement for a summary of all the BAMA balances.

The implementation of the surcharge should be concurrent with or as part of the revised tariff schedules adopted in this proceeding. The Parties recommend that the final decision contain an Ordering Paragraph authorizing GSWC to include this surcharge in its Tier 1 advice letter implementing tariff schedules resulting from the final decision. Further, the account shall continue until December 31, 2027.

Item 18: KKKK. Public Safety Power Shut-Off Memorandum Account (“PSPSMA”)

GSWC’s Request and Cal Advocates’ Position:

The purpose of the PSPSMA is to record the incremental Operation and Maintenance (O&M) expenses and carrying costs of the new facilities costs, that are not otherwise covered in GSWC’s revenue requirement, to address public safety needs in the event of a proposed or declared Public Safety Power Shut-off (PSPS) event by any of the electric utilities that provide electric service to GSWC’s ratemaking areas, including advanced preparation costs. In this Application, GSWC requested to amortize the expenses incurred post-September 30, 2020 until May 31, 2023 and to continue this account until December 31, 2027.

The balance in the PSPSMA as of May 31, 2023 is \$1,546,802.

Cal Advocates object to continuance of the account and recommends closing it by June 2026. Further, Cal Advocates recommend GSWC forecast the PSPS expenses in its next GRC.

Resolution:

The Parties agree to the amortization of the balance incurred in the PSPSMA post-September 30, 2020 until May 31, 2023, which is \$961,139, by implementing surcharges in the applicable ratemaking areas. Refer to Appendix J in this Agreement for a summary of all the BAMA balances. The implementation of the surcharge should be

concurrent with or as part of the revised tariff schedules adopted in this proceeding. The Parties recommend that the final decision contain an Ordering Paragraph authorizing GSWC to include this surcharge in its Tier 1 advice letter implementing tariff schedules resulting from the final decision. Further, the account shall continue until December 31, 2027. In its next GRC, GSWC shall forecast expenses related to PSPS events and close the memorandum account.

Item 19: LLLL. Polyfluoroalkyl Substances Memorandum Account (“PFASMA”)

GSWC’s Request and Cal Advocates’ Position:

The purpose of the PFASMA is to record incremental expenses that are not otherwise covered in GSWC’s revenue requirement, to comply with the regulatory standards set by the State Water Control Board, to detect, monitor and report per-and polyfluoroalkyl substances (PFAS) in drinking water. GSWC requested to amortize the May 31, 2023 balance and continue the account until December 31, 2027.

The balance in the PFASMA as of May 31, 2023 is \$161,302.

Cal Advocates does not oppose GSWC’s request to amortize the PFASMA and continue the account.

Resolution:

The Parties agree to the amortization of the PFASMA balance. Refer to Appendix J in this Agreement for a summary of all the BAMA balances. The implementation of the surcharge should be concurrent with or as part of the revised tariff schedules adopted in this proceeding. The Parties recommend that the final decision contain an Ordering Paragraph authorizing GSWC to include this surcharge in its Tier 1 advice letter implementing tariff schedules resulting from the final decision. Further, the account shall continue until December 31, 2027.

Item 20: RRRR. 2022 Interim Rates Memorandum Account (“2022IRMA”)
GSWC’s Request and Cal Advocates’ Position:

This account tracks the revenue differential between interim rates and the final rates, subject to refund, adopted in GSWC’s General Rate Case (GRC), A.20-07-012. GSWC filed ALs 1908-W and 1909-W to amortize the 2022IRMA in each of its ratemaking areas. In this Application, GSWC requested no CPUC action, because D.23-06-024 authorized the amortization of the amounts recorded in the 2022IRMA.

The balance in the 2022IRMA as of May 31, 2023 is \$0.

Cal Advocates does not oppose GSWC’s requested action.

Resolution:

The Parties agree that there is no CPUC action required for this account in this application.

Item 21: SSSS. Lead and Copper Rule Revisions Memorandum Account (“LCRRMA”)

GSWC’s Request and Cal Advocates’ Position:

The purpose of the LCRRMA is to track and recover any incremental expenses and carrying costs on capital investments incurred by GSWC that are required to comply with the United States Environmental Protection Agency’s Lead and Copper Rule Revisions that are not otherwise covered in GSWC’s authorized rates. GSWC did not request any CPUC action in this application for this account.

The balance in the LCRRMA as of May 31, 2023 is \$0.

Resolution:

The Parties agree that there is no CPUC action required for this account in this application. This account will be open until one year after the

completion of the Lead and Copper Rule Revisions.

Item 22: HHH. CEMA-Extreme Heat Event (“CEMA-EHE”)

GSWC’s Request and Cal Advocates’ Position:

The CEMA-EHE tracks extraordinary and incremental costs incurred during a declared emergency. These costs include, but are not limited to 1.) restoring utility service to the utility customers, 2.) repairing, replacing, or restoring damaged utility facilities, 3.) complying with governmental agency orders, and 4.) emergency customer protection activities resulting from the declared catastrophic event. GSWC activated the CEMA-EHE on August 31, 2022, due to Governor Gavin Newsom’s State of Emergency as a result of a significant heat wave in California, bringing temperatures in excess of 100 degrees throughout the State.

The balance in the CEMA-EHE as of May 31, 2023 is \$27,113. GSWC requested to amortize and close this account.

Cal Advocates does not oppose GSWC’s request.

Resolution:

The Parties agree to the amortization of the CEMA-EHE balance. Refer to Appendix J in this Agreement for a summary of all the BAMA balances. The implementation of the surcharge should be concurrent with or as part of the revised tariff schedules adopted in this proceeding. The Parties recommend that the final decision contain an Ordering Paragraph authorizing GSWC to include this surcharge in its Tier 1 advice letter implementing tariff schedules resulting from the final decision. When the amortization expires, GSWC shall transfer any residual balance to the GRABA, close this account and remove its reference from GSWC’s Preliminary Statement.

Item 23: OOOO. 2021 Water Conservation Memorandum Account
("2021WCMA")

GSWC's Request and Cal Advocates' Position:

The purpose of the 2021WCMA is to record the extraordinary expenses and penalties associated with the activation of Schedule No. 14.1 and the implementation of Rule No.14.1. In this application, GSWC is requesting to amortize and close the 2021WCMA.

The balance in the 2021WCMA as of May 31, 2023 is \$891,471.

Cal Advocates does not oppose GSWC's request.

Resolution:

The Parties agree to the amortization of the 2021WCMA balance. Refer to Appendix J in this Agreement for a summary of all the BAMA balances. The implementation of the surcharge should be concurrent with or as part of the revised tariff schedules adopted in this proceeding. The Parties recommend that the final decision contain an Ordering Paragraph authorizing GSWC to include this surcharge in its Tier 1 advice letter implementing tariff schedules resulting from the final decision. When the amortization expires, GSWC shall transfer any residual balance to the GRABA, close this account and remove its reference from GSWC's Preliminary Statement.

Item 24: PPPP. Sutter Pointe General Rate Case Memorandum Account
("SPGRCMA")

GSWC's Request and Cal Advocates' Position

The purpose of the SPGRCMA is to track the costs associated with preparing, filing, processing and litigating its initial stand-alone General Rate Case (GRC) for Sutter Pointe. Any costs recorded in this account will be addressed in the final decision for the Sutter Pointe General Rate Case, which will be filed as a separate application in the future.

The Parties agree that this account is not intended for GRC audit, GSWC is acknowledging the account's existence in its Preliminary Statement for transparency. There was no requested Commission action in this proceeding.

Resolution:

N/A

Item 25: QQQQ. Drinking Water Fees Balancing Account ("DWFBA")
GSWC's Request and Cal Advocates' Position

The purpose of the DWFBA is to track the difference between actual drinking water fees charged by the State Water Resources Control Board (State Board) based upon the revised fee schedule adopted by the State Board on September 22, 2021 and on September 20, 2022 and the drinking water fees authorized in rates.

Note: The Drinking Water Fees Memorandum Account was changed to the Drinking Water Fees Balancing Account on December 14, 2023, via Advice Letter 1912-WA.

The balance in the DWFBA as of May 31, 2023 is \$734,170. GSWC requested to amortize and close this account.

Cal Advocates does not oppose GSWC's request.

Resolution:

The Parties agree to the amortization of the DWFBA balance. Refer to Appendix J in this Agreement for a summary of all the BAMA balances. The implementation of the surcharge should be concurrent with or as part of the revised tariff schedules adopted in this proceeding. The Parties recommend that the final decision contain an Ordering Paragraph

authorizing GSWC to include this surcharge in its Tier 1 advice letter implementing tariff schedules resulting from the final decision. When the amortization expires, GSWC shall transfer any residual balance to the GRABA, close this account and remove its reference from GSWC’s Preliminary Statement.

TWO ACCOUNTS WITH ZERO BALANCES THAT SHALL REMAIN OPEN DURING THIS RATE CASE CYCLE (2025- 2027)

Resolution:

The Parties agree that the following accounts should be addressed in GSWC’s next GRC or by Advice Letter as determined by Commission guidelines:

	Balance as of
<u>Preliminary Statement</u>	<u>May 31, 2023</u>
G. Contaminant Remediation Memorandum Account (“CRMA”)	\$0
ZZ. Low Income Customer Data Sharing Memo Account (“LICDSMA”)	\$0

ONE ACCOUNT THAT REMAINS OPEN AT ALL TIMES FOR CATASTROPHIC EVENTS

Resolution:

The Parties agree the following account is an “umbrella” account that allows GSWC to respond immediately to unforeseen catastrophic events or declared disasters and will remain open. This account never carries a balance, but simply allows sub-accounts to be created to record incremental expenses related to restoration of service, among other things, after an emergency:

Preliminary Statement

HHH. Catastrophic Event Memorandum Account (“CEMA”)

**TWO ACCOUNTS WITH A ZERO BALANCE WERE CLOSED IN
ADVICE LETTER 1940-W**

Resolution:

The Parties agree the following accounts were closed, have zero balances and their references were removed from GSWC’s Preliminary Statement, via Advice Letter 1940-W, effective April 30, 2024:

Preliminary Statement

EEE. Credit Card Payment Program Memorandum Account
 (“CCPPMA”)

QQQ. First 5 Sacramento Memorandum Account (“F5SACMA”)

**THREE ACCOUNTS THAT WERE CLOSED IN ADVICE LETTER 1936-
W**

Resolution:

The Parties agree the following accounts were closed, have zero balances and their references were removed from GSWC’s Preliminary Statement, via Advice Letter 1936-W, effective March 1, 2024:

Preliminary Statement

OOO. School Lead Testing Memorandum Account (“SLTMA”)

DDDD. Catastrophic Event Memorandum Account – Emergency
Consumer Protection (“CEMA-ECP”)

FFFF. 2018 Cost of Capital Interim Rate True-up Memorandum
Account (“2018COCIRTMA”)

FOUR ACCOUNTS THAT WERE CLOSED IN ADVICE LETTER 1907-W

Resolution:

The Parties agree the following accounts were closed, have zero balances and their references were removed from GSWC’s Preliminary Statement,

via Advice Letter 1907-W, effective September 26, 2023:

Preliminary Statement

VV. Randall-Bold Balancing Account (“RBBA”)

KKK. 2016 Interim Rates Memorandum Account (“2016IRMA”)

AAAA. Bay Point Hill Street Water Treatment Plant (“HSWTP”)

GGGG. 2019 Interim Rates Memorandum Account (“2019IRMA”)

17.2 Special Request 2. Water Conservation Advancement Plan

GSWC’s Request and Cal Advocates’ Position:

Golden State requested authorization to implement a new revenue decoupling program, the Water Conservation Advancement Plan (“WCAP”). The WCAP includes two new balancing accounts: the Water Consumption Revenue Balancing Account (“WCRBA”) and the Water Consumption Cost Balancing Account (“WCCBA”). The WCAP is designed to accommodate fully decoupled revenues and sales and track differences between recorded and Commission-authorized supply-related expenses. The WCRBA will track differences in total volumetric revenues received and total adopted volumetric revenues. The WCCBA will track differences between actual supply-related costs (including the cost incurred for purchased water, purchased power, and groundwater assessment fees (i.e., pump taxes)). If the Commission does not adopt the proposed WCAP, Golden State requested that it (i) employ a traditional Monterey-style WRAM, (ii) increase the amounts collected in its service charges, and (iii) implement the proposed full cost balancing account for supply related costs (the WCCBA).

Cal Advocates recommended GSWC transition to a Monterey-style WRAM and recommended against the approval of this request. The Monterey-style WRAM tracks the difference in billed quantify-rate revenues at actual sales over a calendar year period between the adopted tiered rate design and a revenue-neutral uniform rate. The Incremental

Cost Balancing Account (“ICBA”) tracks the differences in the authorized prices of water production components and actual water production price components.

Resolution:

The parties did not reach agreement on this special request and it will be litigated.

(See Exhibit GSW-KS-087, pages 2 to 75, GSW-DM-070, pages 3 to 32, GSW-KS-088, GSW-DM-071, pages 19 to 50, and PUBADV-SL-002/PUBADV-SL-002C, Chapter 6.)

17.3 Special Request 3. Sales Reconciliation Mechanism

GSWC’s Request and Cal Advocates’ Position:

GSWC requested to maintain its Sales Reconciliation Mechanism (“SRM”) in ratemaking areas with a Water Revenue Adjustment Mechanism (“WRAM”), with three additional modifications, (i) the adjustment would be made to all adopted sales forecasts in a ratemaking area, if the trigger is met; (ii) a semi-annual evaluation of the difference between recorded and adopted sales, in addition to the current annual evaluation; and (iii) no upward adjustment in adopted sales would occur if Schedule 14.1 is active in the ratemaking area.

Cal Advocates opposes this request and recommended that the SRM should be discontinued beginning in 2025, for the reasons stated in its testimony.

Resolution:

The parties did not reach agreement on this special request and it will be litigated.

(See Exhibits GSW-JDL-003, pages 3 to 20, GSW-JDL-013, pages 12 to

19, and PUBADV-SL-002/PUBADV-SL-002C, page 6-16.)

17.4 Special Request 4. Finding on Water Quality

GSWC's Request and Cal Advocates' Position:

GSWC requested that, based upon the Company's operational data and results, the Commission make an explicit finding that, with the exception of the Robbins system, the Company is in compliance with all pertinent and necessary state and federal water quality standards. With respect to the Robbins system, GSWC is in compliance with EPA's Administrative Order on Consent and is in progress to bring the system into compliance by June 2025.

Cal Advocates reviewed GSWC's Consumer Confidence Reports, Annual Reports, and discovery responses, coordinated with the State Water Resources Control Board and recommended that the Commission should grant GSWC's Special Request #4. All GSWC's systems, except the Robbins system, meet the applicable water quality standards. GSWC has a plan to bring the Robbins system into compliance with the arsenic MCL by June 2025. GSWC has also entered into an Administrative Order on Consent with the United States Environmental Protection Agency to bring the Robbins system arsenic MCL running average into compliance by June 2026 by adhering to the Compliance Plan.

Resolution:

The Commission should grant GSWC's Special Request 4. All GSWC's systems, except the Robbins system, meet the applicable water quality standards. GSWC has a plan to bring the Robbins system into compliance with the arsenic MCL running average by June 2026 by adhering to the Compliance Plan.

(See Exhibits GSW-SP-079, pages 2 to 5, and PUBADV-CS-005, Chapter 1.)

17.5 Special Request 5. Consolidation of Arden Cordova and Clearlake for Ratemaking Purposes

GSWC's Request and Cal Advocates' Position:

Golden State requests approval to consolidate its Arden Cordova and Clearlake areas for ratemaking purposes. Golden State's goal is to implement, after a transition period, a single, combined set of rates for these two areas in the new, consolidated Northern District ratemaking district. Golden State proposes to freeze the metered rates for the existing Clearlake district for the instant GRC cycle as part of its transition to the fully combined rates.

Cal Advocates does not oppose GSWC's request.

Resolution:

The Parties agree that Golden State's proposal to consolidate its Arden Cordova and Clearlake areas for ratemaking purposes should be approved by the Commission. The metered rates in the Clearlake area will be fixed at their current level for the 2025 through 2027 rate cycle.

GSWC will continue to report water losses on a stand-alone basis for both the Arden Cordova and Clearlake CSAs.

(See Exhibits GSW-JP-076, pages 20 to 22, and PUBADV-MA-001, pages 34 to 35.)

17.6 Special Request 6. Customer Assistance Program and Credit/Debit Card Bill Payment Expense Recovery

GSWC's Request and Cal Advocates' Position:

Golden State requests approval to continue its credit card payment program and to recover the costs of the program through the Customer

Assistance Program (CAP) Balancing Account, so that the cost will not be recovered from customers who participate in the CAP, as required by California Assembly Bill 1180.

Cal Advocates agrees with GSWC's request.

(See Exhibits GSW-HW-089, pages 15 to 20, and PUBADV-LC-010, Chapter 5.)

17.7 Special Request 7. Special Fees

GSWC's Request and Cal Advocates' Position:

Golden State requested approval to increase fire flow testing fees from \$300 to \$375 per test, reconnection fees from \$40 to \$45 during regular working hours, and from \$120 to \$130 after working hours and Cross Connection Control fees from \$1.98 to \$2.42 per month. Additionally, Golden State requested approval to implement a new Tampering Fee.

Cal Advocates support GSWC's request to increase fire flow testing fees, reconnection fees and Cross Connection Control fees. However, Cal Advocates does not agree with the implementation of the new Tampering Fee.

Resolution:

The Parties agree to increase fire flow testing fees, reconnection fees and Cross Connection Control fees only as recommended by GSWC. GSWC withdraws its request to establish a Tampering Fee.

(See Exhibits GSW-HW-089, pages 21 to 27, GSW-GE-018, pages 4 to 5, GSW-KN-074, pages 7 to 10, GSW-KN-075, pages 6 to 9 and PUBADV-KE-009, Chapter 2.)

17.8 Special Request 8. Modification to PFAS Memorandum Account

GSWC's Request and Cal Advocates' Position:

GSWC requested to modify its existing PFAS Memorandum Account to allow for the inclusion of carrying costs at Golden State's adopted rate of return on all incremental plant investments to address treatment for PFAS, once a maximum contaminant level has been set.

Cal Advocates opposes this request for the reasons stated in its testimony.

Resolution:

The parties did not reach agreement on this special request and it will be litigated.

(See Exhibits GSW-SP-079, pages 5 to 12, GSW-SP-080, pages 19 to 24, and PUBADV-JB-003, Chapter 2.)

17.9 Special Request 9. Supply Mix Adjustment Mechanism

GSWC's Request and Cal Advocates' Position:

Golden State requested approval of a pilot Supply Mix Adjustment Mechanism ("SMAM"), applicable to its Region 2 ratemaking area that will adjust the adopted well production volumes in the escalation years if a threshold trigger is met. Under the SMAM pilot mechanism, if the recorded well production volume in GSWC's Region 2 deviates from the adopted production level by more than 5%, the adopted well production volume will be adjusted by 50% of the deviation, with an offsetting increase or decrease, as appropriate, in other adopted production sources, consistent with the forecasting methodology originally used to set the adopted supply mix. Adopted chemical costs would also be adjusted to reflect adjustments to the well production volume. The trigger for the SMAM would be evaluated annually, based on twelve-month ended

recorded well production volumes in the test year and first escalation year, September 2025 and September 2026 respectively, to adjust the adopted sales for the 2nd and 3rd years of the rate cycle, if the trigger threshold is met.

Cal Advocates opposes this request for the reasons stated in its testimony.

Resolution:

The parties did not reach agreement on this special request and it will be litigated.

(See Exhibits GSW-JDL-003, pages 20 to 25, GSW-JDL-013, pages 19 to 26, and PUBADV-HM-07, Chapter 3.)

18.0 Other Issues

18.1 Customer Assistance Program (“CAP”)

GSWC’s Request and Cal Advocates’ Position:

GSWC proposed to maintain CAP discounts equivalent to 20% of the average bill for CAP customers. Additionally, GSWC proposed updating the CAP surcharge paid by non-CAP customers and including the Private Fire customers to fund the program. GSWC proposed calculating the CAP discount based on a usage of 10 Ccf per month in Region 1’s CSAs and Region 3, and 9 Ccf per month in Region 2, reflecting the average 2022 usage by CAP customers in each region. Additionally, GSWC proposed recovering the program costs through the Customer Assistance Program (CAP) Balancing Account, as discussed in Section 17.6 - Special Request 6.

Cal Advocates did not dispute GSWC’s CAP customer forecasts, the methodology for calculating the CAP discounts for eligible customers, the

surcharge to fund the CAP program or recovering the program costs through the Customer Assistance Program (CAP) Balancing Account.

Resolution:

The Parties agree that CAP monthly discounts adopted in this GRC will be calculated based on monthly usage of 10 Ccf for Region 1 CSAs and Region 3 and 9 Ccf for Region 2. Private Fire customers will fund the CAP program, in addition to the existing customer classes.

The table below sets forth the Test Year 2025 CAP customer forecasts agreed to by the Parties.

Table 18.1 – CAP Customer Forecast

Ratemaking Area	No. of CAP Customers
Arden Cordova	1,286
Bay Point	1,131
Clearlake	510
Los Osos	352
Santa Maria	1,947
Simi Valley	1,634
Region 2	19,345
Region 3	12,669
Total	38,874

The Parties agree that the cost of the CAP in each Region will be calculated using the settled forecasted number of CAP customers, forecasted administrative costs, CAP residual balance estimates and Credit Card cost. Additionally, the CAP surcharge will be funded by non-CAP customers, including Private Fire customers. Furthermore, the CAP credit will be calculated to reflect the final adopted revenue requirement and rates for the Test Year 2025.

(See Exhibits GSW-HW-089, pages 18 to 20; and PUBADV-LC-010, Chapter 10.)

18.2 Determination of Rate Base for Third Year Rates – Tax Normalization Issue

GSWC's Request and Cal Advocates' Position:

In A.20-07-012, GSWC requested a deviation from Decision 04-06-018 (interim order adopting rate case plan ("RCP")) for setting the third year ("Year-3") rates to the extent necessary to ensure consistency of the components used to compute Year-3 rate base and Year-3 cost-of-service. GSWC expressed concerns that the prescribed computational method in the RCP¹⁶ ("RCP Method") results in an inconsistency between (a) the amounts of Year-3 depreciation and income tax expenses recovered in cost of service revenue requirement, and (b) the Year-3 depreciation reserve and deferred income tax activities used to compute Year-3 rate base. The Internal Revenue Code requires consistency in order to satisfy tax normalization requirements. Per D.23-06-024, GSWC requested a Private Letter Ruling ("PLR") from the Internal Revenue Service to determine if implementing Year-3 rates under the RCP Method is permissible or would violate the normalization consistency requirement. For the purpose of determining Year-3 rates in this proceeding, Year-3 rate base was initially computed in the filing using the RCP Method. (See Exhibit GSW-WM-067, pages 2 to 3.)

Cal Advocates maintains its previously established position that GSWC should only deviate from the RCP if directed to do so in the PLR. (See Exhibit PUBADV-KE-009, pages 3-12 to 3-14.)

Resolution:

As GSWC received a PLR after the filing of its Application in this

¹⁶ For example, D.04-06-018, footnote 6 at 15 states: "The attrition allowance methodology provides for rate base additions in year 3 by adding the difference between test year 1 and test year 2 rate base to test year 2 rate base. Depreciation expense is handled in the same way."

proceeding confirming GSWC's concern that implementation of rates under the RCP Method would result in a normalization violation, the Year-3 (i.e. 2027) depreciation-reserve and deferred-income-tax components of rate base should be calculated to make an appropriate adjustment necessary to achieve consistency with the Year-3 (i.e. 2027) cost-of-service depreciation and income-tax expenses.

19.0 TERMS AND CONDITIONS - APPROVAL BY THE COMMISSION

19.1 The Parties agree that within three days of their execution of this Agreement they will jointly file this Agreement for Commission approval by motion under Commission Rule 12.1(a). In their joint motion, the Parties will ask that the Commission expeditiously consider and approve this Agreement.

19.2 The Parties agree to support this Agreement and use their reasonable efforts to secure the Commission's approval of this Agreement in its entirety and without condition or modification.

19.3 The Parties agree to defend this Agreement before the Commission if the Commission's adoption of this Agreement is opposed by anyone else.

20.0 GOVERNING LAW

20.1 This Agreement shall be governed by the laws of the State of California as to all matters, including validity, construction, effect, performance, and remedy.

21.0 CONCLUSION

21.1 The Parties mutually believe that the record in this proceeding has been

fully developed to allow the Commission to determine that this Agreement is just and reasonable, consistent with the law, in the public interest, and should be adopted by the Commission.

21.2 Each Party to this Agreement represents that his or her signature to this Agreement binds his or her respective Party to the terms of this Agreement.

"GSWC 2025" and "Cal Advocates 2025" columns represent GSWC's and Cal Advocates' original positions. "GSWC Stipulation 2025" and "Cal Advocates Stipulation 2025" columns represent the outcome if the settlement is adopted and the named party prevails on its litigation positions. The "Change" columns represent the difference between the original and stipulated positions for each party. The "Difference" column represents the difference between the "GSWC Stipulation" and "Cal Advocates Stipulation" columns. To the extent the amount in the "Difference" column is zero, the parties have settled all issues related to that specific account. The accounts that are not settled are represented by an amount in the "Difference" column.

"GSWC 2025" and "Cal Advocates 2025" columns represent GSWC's and Cal Advocates' original positions. "GSWC Stipulation 2025" and "Cal Advocates Stipulation 2025" columns represent the outcome if the settlement is adopted and the named party prevails on its litigation positions. The "Change" columns represent the difference between the original and stipulated positions for each party. The "Difference" column represents the difference between the "GSWC Stipulation" and "Cal Advocates Stipulation" columns. To the extent the amount in the "Difference" column is zero, the parties have settled all issues related to that specific account. The accounts that are not settled are represented by an amount in the "Difference" column.

"GSWC 2025" and "Cal Advocates 2025" columns represent GSWC's and Cal Advocates' original positions. "GSWC Stipulation 2025" and "Cal Advocates Stipulation 2025" columns represent the outcome if the settlement is adopted and the named party prevails on its litigation positions. The "Change" columns represent the difference between the original and stipulated positions for each party. The "Difference" column represents the difference between the "GSWC Stipulation" and "Cal Advocates Stipulation" columns. To the extent the amount in the "Difference" column is zero, the parties have settled all issues related to that specific account. The accounts that are not settled are represented by an amount in the "Difference" column.

"GSWC 2025" and "Cal Advocates 2025" columns represent GSWC's and Cal Advocates' original positions. "GSWC Stipulation 2025" and "Cal Advocates Stipulation 2025" columns represent the outcome if the settlement is adopted and the named party prevails on its litigation positions. The "Change" columns represent the difference between the original and stipulated positions for each party. The "Difference" column represents the difference between the "GSWC Stipulation" and "Cal Advocates Stipulation" columns. To the extent the amount in the "Difference" column is zero, the parties have settled all issues related to that specific account. The accounts that are not settled are represented by an amount in the "Difference" column.

"GSWC 2025" and "Cal Advocates 2025" columns represent GSWC's and Cal Advocates' original positions. "GSWC Stipulation 2025" and "Cal Advocates Stipulation 2025" columns represent the outcome if the settlement is adopted and the named party prevails on its litigation positions. The "Change" columns represent the difference between the original and stipulated positions for each party. The "Difference" column represents the difference between the "GSWC Stipulation" and "Cal Advocates Stipulation" columns. To the extent the amount in the "Difference" column is zero, the parties have settled all issues related to that specific account. The accounts that are not settled are represented by an amount in the "Difference" column.

"GSWC 2025" and "Cal Advocates 2025" columns represent GSWC's and Cal Advocates' original positions. "GSWC Stipulation 2025" and "Cal Advocates Stipulation 2025" columns represent the outcome if the settlement is adopted and the named party prevails on its litigation positions. The "Change" columns represent the difference between the original and stipulated positions for each party. The "Difference" column represents the difference between the "GSWC Stipulation" and "Cal Advocates Stipulation" columns. To the extent the amount in the "Difference" column is zero, the parties have settled all issues related to that specific account. The accounts that are not settled are represented by an amount in the "Difference" column.

"GSWC 2025" and "Cal Advocates 2025" columns represent GSWC's and Cal Advocates' original positions. "GSWC Stipulation 2025" and "Cal Advocates Stipulation 2025" columns represent the outcome if the settlement is adopted and the named party prevails on its litigation positions. The "Change" columns represent the difference between the original and stipulated positions for each party. The "Difference" column represents the difference between the "GSWC Stipulation" and "Cal Advocates Stipulation" columns. To the extent the amount in the "Difference" column is zero, the parties have settled all issues related to that specific account. The accounts that are not settled are represented by an amount in the "Difference" column.

"GSWC 2025" and "Cal Advocates 2025" columns represent GSWC's and Cal Advocates' original positions. "GSWC Stipulation 2025" and "Cal Advocates Stipulation 2025" columns represent the outcome if the settlement is adopted and the named party prevails on its litigation positions. The "Change" columns represent the difference between the original and stipulated positions for each party. The "Difference" column represents the difference between the "GSWC Stipulation" and "Cal Advocates Stipulation" columns. To the extent the amount in the "Difference" column is zero, the parties have settled all issues related to that specific account. The accounts that are not settled are represented by an amount in the "Difference" column.

GOLDEN STATE WATER COMPANY (U 133 W)
630 E. FOOTHILL BLVD. – P.O. BOX 9016
SAN DIMAS, CALIFORNIA 91773-9016

Original Cal. P.U.C. Sheet No. xxxx-W

Preliminary Statement 2023 GRC Capital Memorandum Account

xxxx. 2023 GRC Capital Memorandum Account

(N)

1. Purpose

The purpose of the 2023 GRC Capital Memorandum Account (2023GRCCAPMA) is to record and recover (i) accrued Interest During Construction (IDC) at the adopted Cost of Debt until the applicable capital projects are placed in service, and (ii) the full adopted rate of return and all applicable components of the revenue requirement after the assets are placed in service, which will include the other capital related expenses such as property taxes, federal and state income taxes and depreciation, etc. This is applicable to the capital projects, for investments made after December 31, 2022, as authorized by the Commission in Decision No. xx-xx-xxx in Application No. 23-08-010.

2. Applicability

GSWC shall maintain the 2023GRCCAPMA by making entries at the end of each month as follows:

- a. A debit entry equal to GSWC's incremental capital-related costs incurred for the capital project.

Capital-related costs include (i) accrued IDC at the adopted cost of debt during the construction period, and (ii) the full adopted rate of return and other applicable components of the revenue requirement including capital related expenses (property taxes, federal and state income taxes and depreciation, etc.) after the project is in service.

3. Effective Date

The 2023GRCCAPMA shall go into effect on the effective date of Advice Letter No. xxxx-W.

4. Disposition

At the time GSWC files its attrition year filings for Years 2026 and 2027, the completed assets and the associated amounts in the 2023GRCCAPMA will be added to the adopted rate base for that respective year.

* Capital requested amounts shown in this appendix reflect GSWC's originally requested amounts for each capital project; however, GSWC and Cal Advocates agreed on an overall (i.e. not project specific) total capital budget as part of the entirety of the Settlement Agreement. GSWC's originally requested amounts for capital projects presented in this appendix are estimates made at the time of the filing of the General Rate Case. Final capital project costs may vary from the estimates provided in this appendix due to numerous variables (e.g., increases in materials and construction costs, additional permitting requirements, unforeseen conditions, supply chain impacts, etc.) unknown at the time the estimates were created.

* Capital requested amounts shown in this appendix reflect GSWC's originally requested amounts for each capital project; however, GSWC and Cal Advocates agreed on an overall (i.e. not project specific) total capital budget as part of the entirety of the Settlement Agreement. GSWC's originally requested amounts for capital projects presented in this appendix are estimates made at the time of the filing of the General Rate Case. Final capital project costs may vary from the estimates provided in this appendix due to numerous variables (e.g., increases in materials and construction costs, additional permitting requirements, unforeseen conditions, supply chain impacts, etc.) unknown at the time the estimates were created.

APPENDIX H

GOLDEN STATE WATER COMPANY

A.23-08-010

Clearlake Water Loss Control Plan – 2024

The Clearlake Water Loss Control Plan will consist of four areas of focus:

- **Leak Detection:**

Each year, the entire Clearlake water system will undergo a leak detection survey. All leaks detected will be promptly mitigated through either replacement of the leaking asset or by temporarily patching the leak until the replacement can be scheduled.

In addition, a pilot project using acoustic loggers will be conducted in the Clearlake system to determine their effectiveness in identifying unauthorized water use as well as leaks in areas with older mains.

- **Main and Service Replacements:**

Mains and services that are found leaking will be promptly replaced or repaired.

Historically the main replacement program was approximately 30% of what is recommended by KANEW due to rate constraints. The intent is to increase the rate of main replacement in future years (assuming rate consolidation is approved) as this will result in reduced losses.

The below graphic is from the Pipeline Management Plan¹ and depicts the length of main that should be replaced each year in Clearlake:

¹ A.23-08-010, Exhibit GSW-EG-021 (Vol 2 of 13), Attachment H, Page 100 of 217 (GSWC PMP 2023, page 7-18)

CLEARLAKE AVERAGE ASSUMPTION REPLACEMENT NEEDS

- Aged Meter Replacement Program:**

The Clearlake system will continue to replace aged meters in a timely manner. It is estimated that 340 meters will be replaced during the next three years (2024-2026).

- Water Used in Operations:**

In 2023 the total “Water Used in Operation” (36,299 CCF) was 33.8% of the “Unbilled Non-Revenue Water” (107,300 CCF) or 15.1% of the Water Supply (240,056 CCF)². Of the “Water Used in Operation”, the metered water used for the surface water treatment plant operations was 35,975 CCF. This was approximately 33.5% of the “Unbilled Non-Revenue Water”. A lesser amount is estimated water flushed from hydrants during fire flow tests, hydrant maintenance and dead-end flushing.

While these losses are unavoidable and necessary, optimization of the water used in the treatment process will be completed by 2026.

We will also utilize a hydrant meter for hydrant flushing and dead end flushing where possible. This will provide a higher degree of accuracy of reporting water used in operations for these activities.

- Reporting**

GSWC will submit a copy of the annual Clearlake Water Audit report, which is submitted annually to the California Department of Water Resources, for three years beginning in 2025 to the CPUC’s Water Division and a copy provided to the Public Advocates Office.

² See Table 1 for 2023 amounts.

Water Loss Reduction Goal

Table 1								
Golden State Water Company - Northern District Clearlake System								
	A	B	C		D		E	
Year Ending	Supply (CCF)	Sales (CCF)	Water Used in Operation (CCF)		Water Loss (CCF) (A - B - C)		Unbilled Non-Revenue Water (CCF) (C+D)	
2017	269,532	142,098	20,099	7.46%	107,335	39.82%	127,434	47.28%
2018	259,378	130,240	18,436	7.11%	110,703	42.68%	129,138	49.79%
2019	284,442	129,581	33,069	11.63%	121,792	42.82%	154,861	54.44%
2020	316,443	145,786	33,392	10.55%	137,265	43.38%	170,657	53.93%
2021	324,843	145,517	31,800	9.79%	147,527	45.41%	179,326	55.20%
2022	220,804	135,622	39,739	18.00%	45,443	20.58%	85,182	38.58%
2023	240,056	132,756	36,299	15.12%	71,001	29.58%	107,300	44.70%

Achieving significant reduction in the “Real Losses”³, (which, along with “Apparent Losses”⁴, makes up total “Water Loss”) will require an increase in the length of water main replaced each year. In 2022 the “Real Losses” per the AWWA Water Audit was 44,126 CCF while the total Water Loss from Table 1 for the same year was 45,443 CCF. There is currently 39,090 feet of steel main, of which 25,402 feet is 2-inch diameter⁵. At the historical replacement level of approximately 1,584 feet per year (0.3 miles) it will take approximately 24.5 years to replace the aged steel main. Rate consolidation will significantly improve the ability to increase the main replacement program in future GRC cycles but not in this current (2023) GRC.

A reduction in Water Used in Operations will be addressed more aggressively with the primary focus of reducing the metered system water used at the surface water treatment plant. As mentioned above, this will be completed by 2026 and reflected in the submittal of the annual Water Audit report under “Unbilled Metered Consumption”.

In 2023, the total “Unbilled Non-Revenue” water totaled 44.7% of the total water supply, as shown in the table above. By performing the activities listed above, and an increase in the annual length of main replacements, we could see a reduction in “Unbilled Non Revenue” water by up to 5% per year. Also, conducting leak detection every year of the entire system will result in an increase in emergency service and main replacements with a corresponding reduction in Water Loss. The average Water Loss over the last seven years (2017-2023) is 105,854 CCF which is significantly higher than years 2022 (45,443 CCF) and 2023 (71,011 CCF).

³ Real Losses are defined by AWWA as “Physical water losses from the pressurized system (water mains and customer service connections) and the utilities storage tanks, up to the point of customer consumption. In metered systems this is the customer meter, in unmetered situations this is the first point of consumption (stop tap/tap) within the property. The annual volume lost through all types of leaks, breaks and overflows depends on frequencies, flow rates, and average duration of individual leaks, breaks and overflows.”

⁴ Apparent Losses are defined by AWWA as “Apparent Losses include all types of inaccuracies associated with customer metering (worn meters as well as improperly sized meters or wrong type of meter for the water usage profile) as well as systematic data handling errors (meter reading, billing, archiving and reporting), plus unauthorized consumption (theft or illegal use).”

⁵ Refer to A.23-08-010, Exhibit GSW-EG-031 Attachment F-10 Clearlake Master Plan, Section 2.2.7

ATTACHMENT B

REQUESTED FINDINGS, CONCLUSIONS AND ORDERING PARAGRAPHS

The following is a list of findings, conclusions and ordering paragraphs requested by Golden State Water Company (“Golden State”) and the Public Advocates Office at the California Public Utilities Commission in the Settlement Agreement between such parties in Application 23-08-010 (“Settlement Agreement”).

REQUESTED FINDINGS OF FACT

1. The Settlement Agreement resolves all but the following issues in Golden State’s Application 23-08-010:
 - a. Whether Golden State’s proposed sales forecasts and rate design are just and reasonable
 - b. Whether Golden State’s proposed supply mix and supply costs are just and reasonable
 - c. Special Request No. 2, under which Golden State would be authorized to implement a new revenue decoupling program, the Water Conservation Advancement Plan
 - d. Special Request No. 3, under which Golden State would continue its current Sales Reconciliation Mechanism with three minor modifications
 - e. Special Request No. 8, under which Golden State would be permitted to track carrying costs at its adopted rate of return on all incremental plant investments to address treatment for polyfluoroalkyl substances (“PFAS”)
 - f. Special Request No. 9, under which Golden State would be authorized to implement a pilot Supply Mix Adjustment Mechanism in its Region 2 ratemaking area.
2. Other than in connection with the Robbins System in the Arden Cordova CSA, Golden State’s water quality meets all applicable state and federal drinking water standards and the provisions of General Order 103, and its water systems comply with the State Water Resources Control Board’s Division of Drinking Water standards for water quality standards.
3. Golden State’s Emergency Response Plan complies with the requirements of the America’s Water Infrastructure Act.

REQUESTED CONCLUSIONS OF LAW

1. The Settlement Agreement is reasonable, consistent with the law, and in the public interest.

REQUESTED ORDERING PARAGRAPHS

1. With respect to each of the accounts listed in Table 1 below, Golden State is authorized to (i) impose a surcharge or surcredit, as the case may be, concurrent with or as part of the revised rate schedules adopted in this proceeding, and (ii) file a Tier 1 advice letter implementing this surcharge, concurrent with or as part of the revised tariff schedules adopted in this proceeding. At the time the relevant surcharge expires, Golden State is authorized to continue or dispose of the account as follows, in each case as set forth in the Settlement Agreement: (a) continue the account, or (b) file a Tier 1 advice letter to transfer any small residual balance to the GRABA, close the account, and remove the reference to the account from Golden State's Preliminary Statement.

Table 1		
Account	Preliminary Statement Part	Authorized Surcharge or Surcredit Amount
Customer Assistance Program Balancing Accounts	Q	The surcharges to fund the program will be calculated in the final decision, based on the CAP discounts adopted in this proceeding.
Pension and Benefits Balancing Account	OO	The implementation of the surcredit shall be concurrent with or as part of the revised tariff schedules adopted in this proceeding.
Los Osos Groundwater Adjudication Memorandum Account	TT	The implementation of the surcharge shall be concurrent with or as part of the revised tariff schedules adopted in this proceeding.
Santa Maria Steelhead Recovery Plan Memorandum Account	UU	The implementation of the surcharge shall be concurrent with or as part of the revised tariff schedules adopted in this proceeding.
CEMA- Emergency Disaster Relief Customer Outreach	HHH	The implementation of the surcharge shall be concurrent with or as part of the revised tariff schedules adopted in this proceeding.
CEMA- COVID-19	HHH	The implementation of this surcharge shall be concurrent with or as part of the revised tariff schedules adopted in this proceeding
Los Osos Basin Management Committee Memorandum Account	MMM	The implementation of the surcharge shall be concurrent with or as part of the revised tariff schedules adopted in this proceeding.
Basin Pumping Rights Litigation Memorandum Account	NNN	The implementation of the surcharge shall be concurrent with or as part of the revised tariff schedules adopted in this proceeding.
Aerojet Water Litigation	RRR	The implementation of the surcharge shall be concurrent with or as part of the revised tariff

Memorandum Account		schedules adopted in this proceeding, and Golden State shall recalibrate this surcharge concurrently with the rates adopted in this proceeding.
Clearlake Supply Expense Balancing Account	TTT	The implementation of the surcharge shall be concurrent with or as part of the revised tariff schedules adopted in this proceeding.
General Ratemaking Area Balancing Account	III	The implementation of the surcharge/surcredit shall be concurrent with or as part of the revised tariff schedules adopted in this proceeding.
San Luis Obispo Valley Groundwater Basin Memorandum Account	JJJ	The implementation of the surcharge shall be concurrent with or as part of the revised tariff schedules adopted in this proceeding.
Public Safety Power Shut-Off Memorandum Account	KKKK	The implementation of the surcharge shall be concurrent with or as part of the revised tariff schedules adopted in this proceeding.
Polyfluoroalkyl Substances Memorandum Account	LLLL	The implementation of the surcharge shall be concurrent with or as part of the revised tariff schedules adopted in this proceeding.
CEMA-Extreme Heat Event	HHH	The implementation of the surcharge shall be concurrent with or as part of the revised tariff schedules adopted in this proceeding.
2021 Water Conservation Memorandum Account	OOOO	The implementation of the surcharge shall be concurrent with or as part of the revised tariff schedules adopted in this proceeding.
Drinking Water Fees Balancing Account	QQQQ	The implementation of the surcharge shall be concurrent with or as part of the revised tariff schedules adopted in this proceeding.
