**CPUC to Hold Public Forums on
San Gabriel Valley Water's Application to Increase Rates**

SAN FRANCISCO, June 30, 2025 – The California Public Utilities Commission (CPUC) will hold virtual and in-person Public Forums on July 8 and 9, respectively, to gather public comments directly from customers regarding San Gabriel Valley Water Company's application to increase rates for its Los Angeles County and Fontana Divisions. The CPUC invites members of the public to attend and provide their comments.

About the Proceeding

In January 2025, San Gabriel Water filed its General Rate Case application for CPUC consideration. In its application, San Gabriel Water requests an increase in revenue for both its Los Angeles County Division and Fontana Water Company Division over a three-year period beginning in July 2026.

For Los Angeles County Division customers, San Gabriel is requesting an increase in revenue of:

- \$14.78 million (14.3%) in 2026-2027
- \$4.56 million (3.8%) in 2027-2028
- \$4.89 million (4%) in 2028-2029

For Fontana Division customers, San Gabriel is requesting an increase in revenue of:

- \$12.79 million (13.2%) in 2026-2027
- \$4.45 million (3.9%) in 2027-2028
- \$4.53 million (3.9%) in 2028-2029

If approved, these increases would impact monthly bills for residential customers. For example:

- An average Los Angeles County Division residential customer using 10 centum cubic feet (CCF) with a 5/8” meter would see a monthly bill increase from \$74.47 to \$86.02 in 2026 and up to \$93.66 by 2028.
- An average Fontana Division residential customer using 12 CCF with a 5/8” meter would see a monthly bill increase from \$75.74 to \$86.15 in 2026 and up to \$93.13 by 2028.

San Gabriel Water cites rising costs for common expenses, water purchases, assessments, and insurance as key reasons for the proposed increases.
