**CPUC Invites You to Small and Diverse Business Expo and  
23<sup>rd</sup> Annual Supplier Diversity En Banc**

SAN FRANCISCO, Sept. 19, 2025 - The California Public Utilities Commission (CPUC) will host two free events in Carson Calif., to engage with the public about small business opportunities and the CPUC's Supplier Diversity Program.

The CPUC's Small Business Program hosts small and diverse business events to help connect businesses to utility companies and government procurement representatives. Additionally, the CPUC has promoted and monitored the diversification of utilities' supply chains for more than 35 years. The CPUC's Supplier Diversity Program encourages utilities to purchase at least 23 percent of their total procurement from women, minority, disabled veteran, LGBT, and persons with disabilities-owned businesses. In 2024, utilities spent \$13.1 billion, or 30.1 percent of their total procurement, with diverse suppliers.

## Background

These events provide a platform for CPUC Commissioners, utility executives, community based organizations, and suppliers to engage in discussions about the progress of the Small Business and Supplier Diversity Programs and ways that utilities can further expand opportunities for a wide range of suppliers.

The CPUC has consistently highlighted its commitment to supporting the state's economic vitality, recognizing the positive impact of small businesses and diverse suppliers in achieving this goal. Equalizing opportunities not only aligns with corporate responsibilities and CPUC goals, but also fosters heightened competition and reduced costs for ratepayers.

No official action will be taken at these events.
