

PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

ENERGY DIVISION

RESOLUTION O-0099

February 5, 2026

R E S O L U T I O N

Resolution O-0099. Phillips 66 Pipeline LLC Withdrawal of Lines 100, 200, 300, and 400 from Utility Service.

PROPOSED OUTCOME:

- Approves Phillips 66 Pipeline LLC's (Phillips 66) request for authorization to withdraw service on Lines 100, 200, 300, and 400.

SAFETY CONSIDERATIONS:

- Oil pipeline safety is the exclusive jurisdiction of the Office of the State Fire Marshal. Phillips 66 will comply fully with all regulations applicable to idle lines.
- Phillips 66 will continue to perform required maintenance, testing, and inspection activities as required by federal and state requirements and regulations.

ESTIMATED COST:

- This Resolution does not address or approve any costs.
- Costs for ongoing maintenance activities will be covered by Phillips 66. As there are no ratepayers using Lines 100, 200, 300, and 400, there is no cost recovery from ratepayers.

By Advice Letter 22-O, Filed on July 3, 2025.

SUMMARY

This Resolution O-0099 approves Phillips 66 Pipeline LLC's request for authorization to withdraw service on Lines 100, 200, 300, and 400.

BACKGROUND

Phillips 66 filed AL 22-O on July 3, 2025, requesting Commission approval to withdraw service on Lines 100, 200, 300, and 400.

Line 100 runs from the San Joaquin Valley to Line 200 at the Junction Station. Line 200 runs from Junction and Coalinga stations to the Rodeo Refinery in the Bay Area. Line 300 runs from the central coast to the Santa Maria Refinery. Line 400 runs from the Santa Maria Refinery to Junction Station.

On August 31, 2021, Phillips 66 filed AL 20-O, notifying the Commission of plans to close its Santa Maria Refinery. The Commission approved Resolution O-0076 on February 24, 2022, approving AL 20-O and Phillips 66's request to withdraw certain services on its system¹.

On May 10, 2023, Phillips 66 filed AL 21-O, requesting authorization to withdraw service on Line 300 and 400. AL 21-O was withdrawn on August 8, 2023, to explore other options for its crude pipeline system.

Phillips 66 completed conversion of its Rodeo Refinery in 2024. The Rodeo Renewable Energy Complex no longer refines crude oil and instead uses waste oils, fats, greases, and vegetable oils to produce renewable transportation fuels.

Phillips 66 filed AL 22-O as it has now decided to withdraw services on the remaining Lines in its system and to cancel its tariff.

NOTICE

Notice of AL 22-O was made by publication in the Commission's Daily Calendar on July 7, 2025. Phillips 66 states that a copy of the Advice Letter was distributed in accordance with Section 4 of General Order 96-B.

PROTESTS

Advice Letter 22-O was not protested.

DISCUSSION

Phillips 66 filed Tier 3 AL 22-O seeking authorization to withdraw service on Lines 100, 200, 300, and 400, and to cancel its tariff.

In AL 22-O, Phillips 66 states that it petitioned the Office of the State Fire Marshal to defer maintenance, inspection, and testing requirements. Energy Division confirmed with Phillips 66 that this deferment was granted on July 22, 2024².

Energy Division staff also inquired about costs associated with any remaining required maintenance activities. Phillips 66 explained that with the cessation of service, there will be no ratepayers utilizing the lines. Therefore, there would be no cost recovery from ratepayers. Ongoing maintenance activities will be covered by Phillips 66³.

According to AL 22-O, a copy of the advice letter was provided to parties listed on Attachment A. No parties contested Phillips 66's request to withdraw service. Per Phillips 66, all producers who were previously served by this system have established alternative means of transport⁴. With the closure of the Santa Maria refinery and conversion of the Rodeo Refinery, the pipeline system no longer serves a useful purpose.

COMMENTS

This is an uncontested matter in which the resolution grants the relief requested. Accordingly, pursuant to PU Code 311(g)(2), the otherwise applicable 30-day period for public review and comment is being waived.

FINDINGS AND CONCLUSIONS

1. Phillips 66 filed Tier 3 AL 22-O seeking authorization to withdraw service on Lines 100, 200, 300, and 400.
2. With the conversion of Phillips 66's Rodeo Refinery and closure of the Santa Maria Refinery, Lines 100, 200, 300, and 400 no longer serve a useful purpose.

3. Phillips 66 was granted deferment of maintenance, testing, and inspection requirements from the Office of the State Fire Marshal.
4. Costs of remaining maintenance activities will be covered by Phillips 66.

THEREFORE IT IS ORDERED THAT:

1. The request of the Phillips 66 Pipeline, LLC to withdraw services on Lines 100, 200, 300, and 400 as requested in Advice Letter 22-O is approved.
2. Phillips 66 shall fully comply with all state and federal regulations applicable to idled lines.

This Resolution is effective today.

The foregoing resolution was duly introduced, passed and adopted at a conference of the Public Utilities Commission of the State of California held on [DATE]; the following Commissioners voting favorably thereon:
