- 55 **Pacific Gas and Electric Company Exceptional Case Request Under Electric Rules 2, 15, and 16 for Electric Transmission Interconnection with Sunnyvale Technology Partners LLC c/o Menlo Equities**

[24047]

Res E-5433, Advice Letter 7667-E filed August 4, 2025 - Related matters.

PROPOSED OUTCOME:

- Approves, with modification, an agreement to facilitate the energization of a new 49 megawatt data center and computing lab for customer Menlo Equities.
- Modifies energization-related cost refund process, limiting refunds to 75 percent of net revenues received from Menlo Equities plus an adjustment for the Income Tax Component of Contribution (ITCC).
- Extends energization-related cost refund period to fifteen years.

SAFETY CONSIDERATIONS:

- There are no safety considerations associated with this resolution.

ESTIMATED COST:

- Facilitates the energization of a new Menlo Equities data center and computing lab, including both the associated costs of energization and the expected future revenues from Menlo Equities. Menlo Equities pays the upfront costs to connect to the grid and could then be refunded for these costs after sufficient revenue is generated. This Resolution limits refunds to 75 percent of the annual net revenue received by Pacific Gas and Electric Company from Menlo Equities plus an adjustment for the ITCC, thus reducing risks for ratepayers.
