## **SUMMARY**

This Resolution certifies Help Central Inc. as the 2-1-1 Service Provider for Colusa County. On February 11, 2026, the California Public Utilities Commission (CPUC) received Help Central Inc.'s application to provide 2-1-1 services in Colusa County, building upon their existing services in Butte and Glenn Counties through a combined service center. Help Central Inc. will also collaborate with Nevada-Sierra Regional In-Home Supportive Services (IHSS), Connecting Point, to provide after-hours call center services.

The certification allows Help Central Inc. to use the 2-1-1 dialing code for information and referral services in Colusa County, enhancing public safety during non-emergencies, emergencies, and disasters with 24/7 web-based and call-in support. This authority is granted indefinitely and can be reviewed by the CPUC upon request with sufficient grounds for revision or rescission.

## **BACKGROUND**

For individuals seeking non-emergency community information and support, the 2-1-1 telephone number serves as a crucial lifeline. The public may call the 2-1-1 telephone number to access non-emergency community information and referral (I&R) providers. When dialing 2-1-1, callers are connected to a call center referral specialist who links them to the appropriate public agencies or organizations that can offer the needed social services, including housing, utility bill aid, food assistance, elder care, childcare, and other non-emergency information, currently not provided through 9-1-1 or 3-1-1 services.

On July 31, 2000, the Federal Communications Commission (FCC) issued its *N11 Third Report and Order* assigning the 2-1-1 code as the national abbreviated dialing code for I&R services.<sup>1</sup> The FCC concluded the assignment is in the public interest, recognizing that the public need for social service could be met through the implementation of a 2-1-1 dialing program. The FCC encouraged the states to implement 2-1-1 programs<sup>2</sup> and

directed that “states will be allowed to continue to make local [N11] assignments that do not conflict with [FCC] national assignments.”<sup>3</sup>

On January 23, 2002, the California Public Utilities Commission (CPUC or Commission) initiated Rulemaking (R.) 02-01-025 to establish the framework for 2-1-1 dialing implementation in California. The Commission's Decision (D.) 03-02-029 outlined the policies for 2-1-1 dialing.<sup>4</sup> This decision mandated that I&R service providers seeking authorization for 2-1-1 services must submit a formal letter to the Commission's Executive Director.<sup>5</sup> These letters are subject to review and certification, along with a service rollout plan. According to the decision, the Commission's staff evaluate the proposals using the guidelines outlined in Appendix A and prepare a resolution for the Commission's consideration. The decision did not specify fixed deadlines for reviewing certification requests but indicated an approximate six-month timeframe for the Commission to approve a specific 2-1-1 proposal, encompassing I&R provider certification and service commencement.<sup>6</sup>

On June 3, 2010, the Commission instituted R.10-06-002 to authorize disaster-only 2-1-1 service in counties unserved by full-service 2-1-1 (unserved counties). In D.11-09-016, the Commission adopted the regulatory policies and procedures needed to implement disaster-only 2-1-1 dialing.<sup>7</sup>

In 2016, Governor Jerry Brown signed Senate Bill (SB) 1212 into law. The legislation authorized the Commission to spend \$1.5 million from the California Teleconnect Fund Administrative Committee Fund to implement disaster-only 2-1-1 service in the unserved counties in California. This authority expired on January 1, 2023.<sup>8</sup>

On November 12, 2019, the Commission adopted Resolution (Res.) T-17679, granting Interface Children and Family Services (Interface) the authority to use the 2-1-1 dialing code to provide disaster-only 2-1-1 service to twelve unserved counties,<sup>9</sup> and authorizing the expenditure of funds for the implementation of disaster-only 2-1-1 service in the unserved counties in accordance with SB 1212.<sup>10</sup>

On February 11, 2026, the CPUC received via email the application letter submitted by Help Central Inc. requesting certification as the 2-1-1 service provider in Colusa County. The Communications Division published a notice of the application in the Commission Daily Calendar for five business days from 3/25/2026 to 4/1/2026.

## **DISCUSSION**

Colusa County was established in 1850 and once included all of Glenn County and parts of Tehama County.<sup>11</sup> It is located in Northern California and neighbors Glenn County, Butte County, Sutter County, Yolo County, and Lake County. Areas in Colusa County have been identified by CalFire to be in Fire Hazard Safety Zones of Very High, High, and Moderate.<sup>12</sup> The County's climate has been identified by CalFire as creating a pronounced seasonal fire risk.<sup>13</sup> Colusa County has previously had disaster-only 2-1-1 services.<sup>14</sup> Help Central Inc. currently provides 2-1-1 services for Butte and Glenn Counties. In this application, Help Central Inc. applies to provide 2-1-1 services to the County of Colusa through a combined service center with Butte-Glenn 2-1-1.

### **Help Central Inc.'s Application**

Consistent with D. 03-02-029, Help Central Inc.'s application is organized into four sections: Organizational Structure, Background and Experience, Terms and Conditions of Service, AIRS Standards, and Documentation of Community Support.
