WC Docket No. 25-311 , WC Docket No. 25-208 - Related matters.

Staff seeks authorization from the Commission to file Reply Comments on a Notice of Proposed Rulemaking (NPRM) in the above two Federal Communications Commission (FCC) dockets.

The FCC's NPRM states that it is proposing comprehensive reform of the regulatory framework for voice telecommunications rates. Among other things, it proposes to change the current model of intercarrier compensation charges to a bill-and-keep framework, including the detariffing of intercarrier access charges. The CPUC Reply Comments state that the FCC is wrong to equate competition in broadband services with competition in voice services, and that capping intrastate access charges and eliminating the Connect America Fund Intercarrier Compensation will impact small, rate-of-return carriers and California's High Cost Funds. The Reply Comments also agree with Opening Comments filed by the National Association of Regulatory Utility Commissioners arguing that the FCC lacks statutory authority to take some of the actions proposed in the NPRM.
