|                                                  | Per AL 614    | <u>2026-2027</u> | <u>2027-2028</u> | <u>2028-2029</u> |
| For each inch of diameter of service connection: | \$19.11       | \$21.66          | \$22.02          | \$22.49          |

Special Conditions

1. The customer will pay, without refund, the entire cost of the private fire service facilities.
2. The private fire service facilities shall be installed by the utility or under the utility's direction and shall be the sole property and subject to the control of the utility, with the right to alter, repair, replace and the right to remove upon discontinuance of service.
3. The minimum diameter for the private fire service connection will be 4 inches. The maximum diameter shall not be larger than the diameter of the water main to which the private fire service facilities are attached unless said main is circulating, in which case with the approval of the utility the maximum diameter may be larger by not more than 2 inches than the diameter of said circulating main.
4. If a water main of adequate size is not available adjacent to the premises to be served, then a new main from the nearest existing main of adequate size will be installed by the utility at the cost of the customer. Such cost shall not be subject to refund.
5. The private fire service facilities will include a detector check valve or other similar device acceptable to the utility which will indicate the use of water. The facilities may be located within the customer's premises or within public right of way adjacent thereto. Where located within the premises, the utility and its duly authorized agents shall have the right of ingress to and egress from the premises for all purposes related to said facilities. In the event the installation is solely a private fire hydrant facility, the requirement for a detector check valve or other similar device may be waived.
6. No structure shall be built over the private fire service facilities and the customer shall maintain and safeguard the area occupied by the private fire service facilities from traffic and other hazardous conditions. The customer will be responsible for any damage to the private fire service facilities whether resulting from the use or operation of appliances and facilities on customer's premises or otherwise.
7. Subject to the approval of the utility, any change in the location or construction of the private fire service facilities as may be requested by public authority or the customer will be made by the utility following payment to the utility of the entire cost of such change.
8. The customer's installation must be such as to separate effectively the private fire service facilities from that of the customer's regular domestic water service. Any unauthorized use of water from the private fire service facilities will be charged for at the applicable tariff rates and may be grounds for the utility's discontinuing private fire service without liability to the utility.
9. There shall be no cross connection between the systems supplied by water through the utility's private fire service facilities and any other source of supply without the specific approval of the utility. The specific approval, if given, will at least require at the customer's expense, a special double check valve installation or other backflow prevention device acceptable to the utility. Any unauthorized cross connection may be grounds for immediately discontinuing private fire service without liability to the utility.
10. The utility will supply only such water at such pressure as may be available from time to time as a result of its operation of the system. The customer shall indemnify the utility and save it harmless against any and all claims arising out of service under this schedule and shall further agree to make no claims against the utility for any loss or damage resulting from service under this schedule. Section 774 of the Public Utilities Code limits the liability of the utility resulting from a claim regarding adequacy of pressure or supply for fire protection service.
11. The customer shall be responsible for the periodic testing of any backflow prevention devices as required by public authority or the utility. Any repair or replacement of such devices or of any other facilities installed to provide private fire service shall be done at the customer's expense. Any refusal to comply with the above requirements may be grounds for the utility's discontinuing private fire service without liability to the utility.
12. All bills are subject to the reimbursement fee set forth on Schedule No. AA-UF.

The Service Charge is a readiness-to-serve charge which is applicable to all metered service and to which is added the charge for reclaimed water used computed at the Quantity Rates.

Special Conditions

1. The Quantity Rate is set at 85% of the Quantity Rate of Schedule LA-1.
2. The customer is responsible for compliance with all local, state, and federal rules and regulations that apply to the use of reclaimed water on the customer's premises.
3. The utility will supply only such reclaimed water at such pressure as may be available from time to time from the reclaimed water system. The customer shall indemnify the utility and save it harmless against any and all claims arising out of service under this schedule and shall further agree to make no claims against the utility for any loss or damage resulting from service under this schedule.
4. All bills are subject to the reimbursement fee set forth on Schedule No. AA-UF.
5. All bills are subject to the applicable surcharges and surcredits set forth on Schedule No. LA-AS.

Rate Schedule: LA-9 (Construction Service)  
Applicability: Applicable to temporary water service furnished for construction purposes and for water delivered to tank trucks from fire hydrants or other outlets.  
Territory: Portions of Arcadia, Baldwin Park, City of Commerce, El Monte, City of Industry, Irwindale, La Puente, Montebello, Monterey Park, Pico Rivera, Rosemead, San Gabriel, Santa Fe Springs, South El Monte, West Covina, Whittier and vicinity, Los Angeles County.

Present Rates Effective 1/1/2025 Per AL 614

Service under this rate schedule shall be billed at the rates listed on Schedule LA-1, General Metered Service (including surcharges and surcredits).

Adopted Rates Effective July 1, 2026:

Service under this rate schedule shall be billed at the rates listed on Schedule LA-1, General Metered Service (including surcharges and surcredits).

Adopted Rates Effective July 1, 2027:

Service under this rate schedule shall be billed at the rates listed on Schedule LA-1, General Metered Service (including surcharges and surcredits).

Adopted Rates Effective July 1, 2028:

Service under this rate schedule shall be billed at the rates listed on Schedule LA-1, General Metered Service (including surcharges and surcredits).

Special Conditions

1. An applicant wishing to obtain water deliveries under this schedule must first obtain a written permit from the utility.
2. Where water is to be obtained from public fire hydrants, a permit must be obtained from the fire protection district or other public agency having jurisdiction.
3. For other temporary uses the quantity of water used shall be estimated or metered by the utility. Charges for such water shall be at the quantity rate for General Metered Service applicable to the tariff area within which the water is delivered.
4. An applicant for service under this schedule must pay the utility in advance the net cost of installing and removing any facilities necessary to provide such service.
5. If water is taken from a fire hydrant or other outlet without written permission from the utility, the utility shall estimate the amount taken and render a bill under this schedule. The bill may include the cost of removing any facilities or repairing any damage connected with such unauthorized use.
6. An applicant using a fire hydrant must use a gate wye assembly approved by the fire department and must operate the fire hydrant using an appropriate spanner wrench. Any repairs to the fire hydrant resulting from the use of unapproved attachments, improper wrenches, or otherwise shall be paid for by the applicant.
7. All bills are subject to the reimbursement fee set forth in Schedule No. AA-UF.

| 8                              | (amount determined annually by CPUC) |

For households with more than eight persons, add [amount determined annually by CPUC] annually for each additional person residing in the household.

2. Application and Eligibility Declaration: An application and eligibility declaration on a form authorized by the Commission is required for each request for service under this schedule. Renewal of a customer's eligibility declaration will be required every two years and may be required on an annual basis. Customers are only eligible to receive service under this rate schedule at one residential location at any one time, and the rate applies only to the customer's permanent primary residence. The schedule is not applicable where, in the opinion of the Utility, either the accommodation or the occupancy is transitory.
3. Commencement of Rate: Eligible customers shall be billed on this schedule commencing no later than one billing period after receipt and approval of the customer's applicability by the Utility.
4. Verification: Information provided by the applicant is subject to verification by the Utility. Refusal or failure of a customer to provide documentation of eligibility acceptable to the Utility, upon the request of the Utility, shall result in removal from this rate schedule.
5. Notice from Customer: It is the customer's responsibility to notify the Utility if there is a change in the customer's eligibility status.
6. Customers may be re-billed for periods of ineligibility under the applicable rate schedule.
7. All bills are subject to the reimbursement fee set forth on Schedule No. AA-UF.
8. All bills are subject to the applicable surcharges and surcredits set forth on Schedule No. LA-AS.
