Consent Agenda - Orders and Resolutions (continued)**3 Pacific Gas and Electric Company Electric Transmission
Interconnection Agreement for Google LLC**

[24254]

Res E-5455, Advice Letter 7785-E filed December 18, 2025 - Related matters.

PROPOSED OUTCOME:

- Approves, with modifications, an agreement to facilitate the energization of a new 250 megawatt data center load through transmission-level retail electric service for customer Google LLC.
- Modifies the energization-related capital advance and refund process, limiting annual refunds to the annual net revenues received from the customer plus an adjustment for the Income Tax Component of Contribution (ITCC).
- Requires special treatment of costs associated with broader transmission network upgrades, determined through a Tier 2 Advice Letter.
- Requires additional clarifications and reporting regarding the proposed binding cost cap for the portion of the project built by Google LLC, including separate calculation of the cost cap for refundable versus non-refundable costs, and a Tier 1 information-only Advice Letter filing when the cost cap is finalized.

SAFETY CONSIDERATIONS:

- There are no safety considerations associated with this resolution.

ESTIMATED COST:

- Facilitates the energization of a new customer including both the associated costs of energization and the expected future revenues from the customer. The customer pays some upfront costs to connect to the grid, and could then be refunded for these costs after sufficient revenue is generated. Limits refunds to the annual net revenue generated by the customer plus an adjustment for the ITCC and accounts for broader transmission network upgrades, reducing risks for ratepayers.

7 **Administrative Consent Order and Agreement between
Consumer Protection and Enforcement Division and Lyft, Inc.
Regarding the 19-Point Inspection Compliance**

[24414]

Res TEB-002

PROPOSED OUTCOME:

- Approves an Administrative Consent Order and Agreement entered into the Commission's Consumer Protection and Enforcement Division and Lyft, Inc. to resolve all issues involving Lyft's 19-Point Inspection Compliance between September 1, 2019 and August 31, 2022.

SAFETY CONSIDERATIONS:

- The ACO identifies corrective actions necessary to improve compliance with rules and regulations intended to promote public safety.

ESTIMATED COST:

- Lyft agrees to pay \$1,250,000 in penalties to the State's General Fund to resolve the alleged violations.

9 **BART Oakland Airport Connector 2019 Triennial Safety
Review Final Report**

[24418]

Res ST-237

PROPOSED OUTCOME:

- Approves the Final Report of the Bay Area Rapid Transit District Oakland Airport Connector (BART OAC) 2019 Triennial Safety Review.

SAFETY CONSIDERATIONS:

- This resolution considers the safety and security of the public and employees who might be affected by the BART OAC system. The resolution approves a review report required every three years to comprehensively assess, evaluate, and improve safety and security of a rail transit system.

ESTIMATED COST:

- There are no costs associated with this resolution.

Consent Agenda - Orders and Resolutions (continued)**11 Emergency Disaster Relief and Program Updates for
California LifeLine Participants**

[24421]

R.25-11-005

Order Instituting Rulemaking to Update the California LifeLine Program.

PROPOSED OUTCOME:

- Adopts a permanent disaster relief program for participants of the California LifeLine program.
- Makes program changes and provides guidance regarding program implementation following federal revocation of California's ability to make federal LifeLine eligibility determinations.
- Updates General Order 153-A.

SAFETY CONSIDERATIONS:

- Protects participant access to affordable essential communications services following certain declarations of a state of emergency.

ESTIMATED COST:

- The cost estimate is dependent on the frequency and locations of qualifying declared emergencies, which are unknown at this time. During the Covid-19 pandemic, in Decision 20-05-043, the California Public Utilities Commission waived the same California LifeLine provisions that would be waived during qualifying emergencies pursuant to this decision. The cost estimate for extending the waivers through June 30, 2020, via that decision was approximately \$10 million.

Petition for Modification of Decision 17-12-024

[24423]

R.15-05-006

Order Instituting Rulemaking to Develop and Adopt Fire-Threat Maps and Fire-Safety Regulations.

PROPOSED OUTCOME:

- Partially grants Southern California Edison Company's (SCE) proposed changes to the California Public Utilities Commission's (Commission) High Fire-Threat District.
- Directs SCE Company to implement the Commission's fire-safety regulations in new areas of the High Fire-Threat District no later than January 1, 2027.
- Closes the proceeding.

SAFETY CONSIDERATIONS:

- Adopted changes to the High Fire-Threat District are consistent with enhancing safety in areas with elevated and extreme risk of utility-associated wildfires.

ESTIMATED COST:

- Some incremental costs may result from implementation of the Commission's fire-safety regulations; cost recovery for any such costs is consistent with Decision 17-12-024.

Avoided Cost Calculator Methodology Updates

[24425]

R.22-11-013

Order Instituting Rulemaking to Consider Distributed Energy Resource Program Cost-Effectiveness Issues, Data Access and Use, and Equipment Performance Standards.

PROPOSED OUTCOME:

- Adopts a single electricity-based value to represent both electricity and natural gas greenhouse gas (GHG) values in the Avoided Cost Calculator (ACC) and removes the GHG rebalancing component.
- Adopts a simplified implementation of the Integrated Calculation for Generation Capacity and GHG Costs.
- Adopts loss of load hours rather than expected unserved energy for calculating ACC capacity allocation factors to measure the frequency of loss of load events.
- Uses energy prices rather than temperature to allocate generation capacity value to specific days of the year.
- Represents reliability risk differences of weekdays versus weekends in the ACC's capacity value allocation.
- Updates the peak capacity allocation factors calculations for transmission avoided costs to use the Integrated Energy Policy Report load forecast for future years, as used in the Strategic Energy & Risk Valuation Model modelling for calculating energy avoided costs, instead of historical loads.
- Uses the Discounted Total Investment Method approach to calculate marginal transmission costs for all electric utilities.

SAFETY CONSIDERATIONS:

- There are no safety considerations associated with this decision.

ESTIMATED COST:

- There are no costs associated with this decision.

Intervenor Compensation to Green Power Institute

[24353]

R.18-07-003

Order Instituting Rulemaking To Continue Implementation and Administration, and Consider Further Development, of California Renewables Portfolio Standard Program.

PROPOSED OUTCOME

- Awards Green Power Institute (GPI) \$15,222.00 for substantial contribution to Decision 23-12-008. That Decision adopted, with modifications, the Draft 2023 Renewables Portfolio Standard Procurement Plans. GPI originally requested \$90,210.00.

SAFETY CONSIDERATIONS

- Substantial contribution by intervenors, as found here, enhances the Commission's ability to resolve safety and other issues under Public Utilities Code Section 451 for each public utility, by taking all actions "necessary to promote the safety, health, comfort, and convenience of its patrons, employees, and the public."

ESTIMATED COST

- \$15,222.00, plus interest, to be paid by the ratepayers of Bear Valley Electric Service, a division of Golden State Water Company, Liberty Utilities, LLC, Pacific Gas and Electric Company, PacifiCorp, San Diego Gas & Electric Company, and Southern California Edison Company.

R.20-05-003

Order Instituting Rulemaking to Continue Electric Integrated Resource Planning and Related Procurement Processes.

PROPOSED OUTCOME:

- Awards Green Power Institute (GPI) \$97,456.25 for substantial contribution to Decision (D.) 23-02-040, and D.24-02-047. Denies GPI contribution to D.22-05-015 for lack of substantial contribution. D.22-05-015 adopted a Modified Cost Adjustment Mechanism to ensure that the net costs of electric resource procurement obligations mandated in D.19-11-016 and D.21-06-035 are allocated and recovered in a fair, economical, and legally-compliant manner. D.23-02-040 required supplemental mid-term reliability procurement of a total of 4,000 megawatts (MW) of net qualifying capacity in addition to the 11,500 MW ordered previously in D.21-06-035 and recommended electricity resource portfolios to the California Independent System Operator to study in its 2023-2024 Transmission Planning Process. D.24-02-047 evaluated the 2022 individual integrated resource plan (IRP) filings of all the load serving entities under the Commission's IRP purview. This decision also adopted a Preferred System Plan portfolio that meets a statewide 25 million metric ton greenhouse gas target for the electric sector in 2035. GPI originally requested \$226,275.00.

SAFETY CONSIDERATIONS:

- Substantial contribution by intervenors, as found here, enhances the Commission's ability to resolve safety and other issues under Public Utilities Code Section 451 for each public utility, by taking all actions "necessary to promote the safety, health, comfort, and convenience of its patrons, employees, and the public."

- Awards Utility Consumers' Action Network (UCAN) \$9,698.75 for substantial contribution to Decision 25-12-042. That Decision designated initial priority neighborhood decarbonization zones, as required by Public Utilities Code (Pub. Util. Code) Section (§) 662(a). UCAN originally requested \$11,421.88.

SAFETY CONSIDERATIONS:

- Substantial contribution by intervenors, as found here, enhances the Commission's ability to resolve safety and other issues under Pub. Util. Code § 451 for each public utility, by taking all actions "necessary to promote the safety, health, comfort, and convenience of its patrons, employees, and the public."

ESTIMATED COST:

- \$9,698.75, plus interest, to be paid by the ratepayers of Pacific Gas and Electric Company, San Diego Gas & Electric Company, Southern California Gas Company, and Southwest Gas Corporation.

Intervenor Compensation to Center for Accessible Technology

[24446]

R.18-07-006

Order Instituting Rulemaking to Establish a Framework and Processes for Assessing the Affordability of Utility Service.

PROPOSED OUTCOME:

- Awards Center for Accessible Technology (CforAT) \$69,181.50 for substantial contribution to Decision 25-12-044. The decision adopted modifications to its affordability framework for essential utility services, including limiting the requirement to provide updated affordability metrics to General Rate Case applications exceeding a one percent revenue increase, transitioning annual Affordability Report updates to periodic staff postings on the Commission's affordability webpage, and requiring continued public release of Cost and Rate Trackers while eliminating Quarterly Revenue Reports. The decision also directed the Communications Division to prepare a staff report on affordability considerations unique to the communications industry, and summarizes prior public hearings, party comments, implementation progress, and next steps to address affordability issues. CforAT originally requested \$78,285.75.

SAFETY CONSIDERATIONS:

- Substantial contribution by intervenors, as found here, enhances the Commission's ability to resolve safety and other issues under Public Utilities Code Section 451 for each public utility, by taking all actions "necessary to promote the safety, health, comfort, and convenience of its patrons, employees, and the public."

ESTIMATED COST:

- \$69,181.50, plus interest, to be paid by the California Public Utilities Commission.
