Resolution M-4884. Adopts Public Utilities Commission Utilities Reimbursement Account User Fees, effective January 1, 2027.

SUMMARY

This Resolution adopts the Public Utilities Commission Utilities Reimbursement Account (PUCURA), Fund 0462, user fees as follows:

User Fees for Public Utilities Commission Utilities Reimbursement Account		
Electric Corporations	0.001	\$/kwh
Gas Corporations	0.0035	\$/therm
Heat Corporations	0.00	\$/thousands lbs. steam
Water System Corporations	0.007 (0.7 percent)	x Revenue
Sewer System Corporations	0.045 (4.5 percent)	x Revenue
Telecommunication Corporations	0.018 (1.8 percent)	x Revenue

BACKGROUND

The California Public Utilities Commission (CPUC or Commission) uses the Public Utilities Code as the basis for its methodology to annually assess user fees for energy, water, sewer, and telecommunication utilities.

Public Utilities Code Section 431:

- (a) The commission shall annually determine a fee to be paid by every electrical, gas, telephone, telegraph, water, sewer system, and heat corporation and every other public utility providing service directly to customers or subscribers and subject to the jurisdiction of the commission other than a railroad, except as otherwise provided in Article 2 (commencing with Section 421)
- (b) The annual fee shall be established to produce a total amount equal to that amount established in the authorized commission budget for the same year, including adjustments for increases in employee compensation, other increases

appropriated by the Legislature, and an appropriate reserve to regulate public utilities less the amount to be paid from special accounts or funds pursuant to Section 402, reimbursements, federal funds, and any other revenues, and the amount of unencumbered funds from the preceding year.

(c) This article shall not apply to any electrical cooperative as defined in Chapter 5 (commencing with Section 2776) of Part 2.

(d) On and after January 1, 1985, this article shall apply to radiotelephone utilities as defined in Section 4902 as those provisions read on December 31, 1984.

(e) This section shall become operative on January 1, 2020.

Public Utilities Code Section 432:

The commission shall establish the fee pursuant to Section 431 with the approval of the Department of Finance and in accordance with all of the following:

(a) In its annual budget request, the commission shall specify both of the following:

(1) The amount of its budget to be financed by the fee.

(2) The dollar allocation of the amount of its budget shall be financed by the fee by each class of public utility subject to the fee. The fee allocation among classes of public utilities shall reflect expenditures by the commission on regulatory and other authorized activities affecting each respective class, and shall bear the same ratio that the commission's workload for each class of public utility subject to the fee bears to the commission's total workload for all public utilities subject to the fee.

(b) The commission may establish different and distinct methods of assessing fees for each class of public utility, if the revenues collected are consistent with paragraph (2) of subdivision (a), except that the commission shall establish a uniform charge per kilowatt hour for sales in kilowatt hours for the class of electrical corporations and a uniform charge per therm for sales in therms for the class of gas corporations.

(c) Within each class of public utility subject to the fee, the commission shall allocate among the members of the class the amount of its budget to be financed by the fee using the following methods:

(1) For electrical corporations, the ratio that each corporation's sales in kilowatt hours bears to the total sales in kilowatt hours for the class.

(2) For gas corporations, the ratio that each corporation's sales in therms bears to the total sales in therms for the class.

(3) For telephone and telegraph corporations, the ratio that each corporation's gross intrastate revenues bears to the total gross intrastate revenues for the class. If the commission determines that there is a need for consultants or advisory services to assist in determining the reasonableness of capital expenditures for a telephone corporation, the commission may

adjust the fees within the class so that the expenses for the consultants and advisory services are fully allocated to that telephone corporation.

(4) For water and sewer system corporations, the ratio that each corporation's gross intrastate revenues bears to the total gross intrastate revenues for the class.

(5) For all other public utilities, an appropriate measurement methodology determined by the commission.

(d) Every public utility belonging to more than one class shall be subject to the fee for each class of which it is a member.

(e) For every public utility with annual gross intrastate revenues of seven hundred fifty thousand dollars (\$750,000) or less, the commission shall annually establish uniform fees to be paid by each such public utility, if the revenues collected thereby are consistent with paragraph (2) of subdivision (a) and subdivision (c).

DISCUSSION

Revenue and Expenditure Analysis

The Governor's Budget structures PUCURA's authorized expenditures by Program and Subprogram, as shown below in Table 1. Subtasks, the most granular level of detail by utility class (electricity, gas, sewer, steam), are not displayed in the Governor's Budget but tracked internally by the CPUC.

Table 1: Governor's Budget structure, PUCURA

Program	Subprogram	Subtask (Utility Class)
Regulation of Utilities (6680)	Energy (6680055)	Electric Corporations Gas Corporations Steam Corporations
	Water/Sewer (6680064)	Water Corporations Sewer Corporations
	Communications (6680073)	Telephone and Telegraph Corporations Video Franchise

In addition to the CPUC's budgeted expenditures from PUCURA, the fund supports expenditures of the Public Advocate's Office (PUBADV) within the CPUC, the Office of Energy Infrastructure Safety (Org 3355), the Energy Resources Conservation and Development Commission (Org 3360), the Air Resources Board (Org 3900), the Office of Environmental Health and Hazard Assessment (Org 3980), and statewide fund assessments.

Table 2 shows PUCURA's 2026-27 total budgetary expenditures distributed by Utility Class per Table 1.

Table 2. PUCURA Expenditures

Utility Class	CPUC Budgetary Expenditures ¹	PUBADV Budgetary Expenditures ²	Other Departments Budgetary Expenditures ³	Total Budgetary Expenditures 2026-27
Electric	\$168,728,000	\$38,237,000	\$39,166,000	\$246,131,000
Gas	\$33,200,000	\$6,325,000	\$46,000	39,571,000
Steam	\$3,000	\$1,000	\$0	4,000
Water	\$17,103,000	\$3,908,000	\$29,000	21,040,000

Telco.	\$52,177,000	\$11,337,000	\$84,000	63,598,000
Total	\$271,357,000	\$59,864,000	\$39,325,000	\$370,546,000

Table 3 shows comparison between 2026-27 estimated user fee revenue at current rates and 2026-27 total budgetary expenditures, distributed by Utility Class per Table 1.

¹ From the 2026-27 Enacted Governor's Budget; estimated expenditures include fund assessments allocated by utility class.

² From the 2026-27 Enacted Governor's Budget; PUBADV (Fund 3089) estimated expenditures include fund assessments allocated by utility class.

³ From the 2026-27 Enacted Governor's Budget; estimated expenditures for other departments.

Fund Reserve Analysis

⁴ Amounts in Column (a) represent the estimated user fee revenues using user fee rates from the PUCURA Resolution M-4879, estimated other revenues, and estimated beginning fund reserve.

The CPUC's fund reserve requirement for PUCURA requires a minimum fund reserve of 25 percent of expenditures. At the current rates, the projected revenue plus the current available reserve is sufficient to support total estimated expenditures and maintain adequate total fund reserve. The fund reserve balance is projected to gradually decrease in the subsequent year.

Fee Change Analysis

The proposed fee rates are reasonable as they will continue to support the CPUC's program, maintain the appropriate fund reserve, and ensure short-term stability of the user fee.

Based on the analysis of user fee revenue, compared to total estimated expenditures, fund reserve requirements by utility class, and accounting for the beginning fund reserve balance, it is reasonable for the CPUC proposes the below necessary rate adjustments.

Table 5. User Fee Rates Comparison, Current vs Proposed

Utility Class	Current User Fee Rates	Proposed User Fee Rates	Base	Difference	Percent Change
Electric	0.001	0.001	\$/ kwh	0	0 percent
Gas	0.0035	0.0035	\$/therm	0	0 percent
Steam	0	0	\$/thousands lbs. steam	0	0 percent
Water	0.007	0.007	x Revenue	0	0 percent
Sewer	0.045	0.045	x Revenue	0	0 percent
Telco	0.018	0.018	x Revenue	0	0 percent

COMMENTS

Public Utilities Code section 311(g)(1) provides that this resolution must be served on all parties and subject to at least 30 days public review and comment prior to a vote of the Commission.

This draft resolution was emailed or mailed to parties (Attachment A – 0462 Contact List) for comments on 10/08/2026 and will be placed on the Commission's agenda no earlier than 30 days from today. Comments are due on 11/08/2026.

FINDINGS AND CONCLUSIONS

1. Public Utilities Code Section 431(a) requires the Commission to annually determine a fee to be paid by each utility class subject to the Commission's jurisdiction.
2. The fee assessments are calculated giving consideration to the total estimated expenditures and available fund reserves by utility class.
3. Based on the 2026-27 fiscal year analysis of projected PUCURA revenues to program expenditures and the PUCURA fund reserve attributable to electric, it is reasonable to maintain the rate for Electric Corporations at 0.001.
4. It is reasonable to maintain the rate for Gas Corporations at 0.0035, which will be sufficient to support the Commission's regulatory activities for this class and maintain an adequate fund reserve by utility class.
5. It is reasonable to maintain the rate for heat corporations without change. The current rate is sufficient to support the Commission's regulatory activities for this class and maintain an adequate fund reserve.
6. It is reasonable to maintain the rate for Water System Corporations at 0.007, which will be sufficient to support the Commission's regulatory activities for this class and maintain an adequate fund reserve by utility class.
7. It is reasonable to maintain the rate for the sewer utility class at 0.045. The proposed rate is projected to be sufficient to support the Commission's regulatory activities for this class and fund reserve balance is projected to increase gradually to meet the minimum fund reserve requirement for this utility class.
8. It is reasonable to maintain the rate for Telephone and Telegraph Corporations at 0.018, which will be sufficient to support the Commission's regulatory activities for this class and maintain an adequate fund reserve by utility class.

Therefore it is ordered that:

1. Effective January 1, 2027, the current PUCURA user fees will be as follows:

User Fees for Public Utilities Commission Utilities Reimbursement Account		
Electric Corporations	0.001	\$/kwh
Gas Corporations	0.0035	\$/therm
Heat Corporations	0.00	\$/thousands lbs. steam
Water System Corporations	0.007 (0.7 percent)	x Revenue
Sewer System Corporations	0.045 (4.5 percent)	x Revenue
Telecommunication Corporations	0.018 (1.8 percent)	x Revenue

This Resolution is effective today.

The foregoing resolution was duly introduced, passed and adopted at a conference of the Public Utilities Commission of the State of California held on 12/17/2026; the following Commissioners voting favorably thereon:
