Consent Agenda - Orders and Resolutions

1 **Preliminary Categorizations for Recently Filed Formal Applications**

[24455]
Res ALJ-176-3589

PROPOSED OUTCOME:

- Ratification of preliminary determination of category for proceedings initiated by application. The preliminary determinations are pursuant to Rule 7.1 of the Commission's Rules of Practice and Procedure.

ESTIMATED COST:

- None.

2 **Pacific Gas and Electric Company Electric Transmission Interconnection Agreement for Google LLC**

[24254]
Res E-5455, Advice Letter 7785-E filed December 18, 2025 - Related matters.

PROPOSED OUTCOME:

- Approves, with modifications, an agreement to facilitate the energization of a new 250 megawatt data center load through transmission-level retail electric service for customer Google LLC.
- Modifies the energization-related capital advance and refund process, limiting annual refunds to the annual net revenues received from the customer plus an adjustment for the Income Tax Component of Contribution (ITCC).
- Requires special treatment of costs associated with broader transmission network upgrades, determined through a Tier 2 Advice Letter.
- Requires additional clarifications and reporting regarding the proposed binding cost cap for the portion of the project built by Google LLC, including separate calculation of the cost cap for refundable versus non-refundable costs, and a Tier 1 information-only Advice Letter filing when the cost cap is finalized.

SAFETY CONSIDERATIONS:

- There are no safety considerations associated with this resolution.

ESTIMATED COST:

- Facilitates the energization of a new customer including both the associated costs of energization and the expected future revenues from the customer. The customer pays some upfront costs to connect to the grid, and could then be refunded for these costs after sufficient revenue is generated. Limits refunds to the annual net revenue generated by the customer plus an adjustment for the ITCC and accounts for broader transmission network upgrades, reducing risks for ratepayers.

20 **Electric Rule 2 Exceptional Case Request for Special Facilities Serving Customer Project in Cupertino, California**

[24555]
Res E-5484, Advice Letter 7936-E filed June 30, 2026 - Related matters.

PROPOSED OUTCOME:

- Approves Pacific Gas and Electric Company (PG&E) Advice Letter requesting approval of an Electric Rule 2 Exceptional Case Agreement which will result in PG&E designing and installing Special Facilities, require that actual costs (rather than estimated costs) are paid for upgrades, and ensure that the Customer is not entitled to a refund for the Special Facilities installed.

SAFETY CONSIDERATIONS:

- There are no safety considerations associated with this resolution.

ESTIMATED COST:

- There are no direct cost impacts to ratepayers associated with this Resolution. Authorizing PG&E to enter into this Agreement will result in costs being borne by the Customer and will not be recovered from existing customers through rates. This Agreement allows for progress billing during the course of the work.

[24546]
A.24-10-002
Application of Southern California Edison Company for Authority to Recover Costs Related to the 2018 Woolsey Fire Recorded in the Wildfire Expense Memorandum Account and Catastrophic Event Memorandum Account.

PROPOSED OUTCOME:

- Awards Small Business Utility Advocates (SBUA) $10,975.50 for substantial contribution to Decision 25-12-023. That Decision adopted the multi-party settlement resolving Southern California Edison Company's (SCE) request for cost recovery related to the 2018 Woolsey Fire recorded in its Wildfire Expense Memorandum Account and Catastrophic Event Memorandum Account. SBUA originally requested $18,008.50.

SAFETY CONSIDERATIONS:

- Substantial contribution by intervenors, as found here, enhances the Commission's ability to resolve safety and other issues under Public Utilities Code Section 451 for each public utility, by taking all actions "necessary to promote the safety, health, comfort, and convenience of its patrons, employees, and the public."

[24537]
I.23-03-008
Order Instituting Investigation on the Commission's Own Motion into Natural Gas Prices During Winter 2022-2023 and Resulting Impacts to Energy Markets.

PROPOSED OUTCOME:

- Awards The Utility Reform Network (TURN) $66,648.75 for substantial contribution to Decision (D.) 26-02-058. In D.26-02-058, the Commission determined that the 2022–2023 gas price spike was caused by prolonged below-normal temperatures and high precipitation levels, interstate pipeline constraints, reduced natural gas flows, reduced storage supplies, and bidweek events, and found that California gas public utilities, their procurement divisions, and Independent Storage Providers did not take improper or intentional actions that caused or contributed to the spike, while adopting measures to mitigate future impacts on ratepayers, including requiring gas utilities to cap the Core Procurement Charge, amortize any resulting under collection, provide timely customer notice during defined gas price spike events, enhance transparency and oversight of procurement incentive mechanisms, incorporate lessons learned into procurement and hedging strategies, and require Independent Storage Providers to publicly report monthly storage levels. TURN originally requested $72,956.25.

SAFETY CONSIDERATIONS:

- Substantial contribution by intervenors, as found here, enhances the Commission's ability to resolve safety and other issues under Public Utilities Code Section 451 for each public utility, by taking all actions "necessary to promote the safety, health, comfort, and convenience of its patrons, employees, and the public."

ESTIMATED COST:

- $66,648.75, plus interest, to be paid by Pacific Gas and Electric Company, San Diego Gas & Electric Company, Southern California Gas Company, and Southwest Gas Corporation.

48A **President Reynolds Alternate to Agenda ID # 24513**
[24514]
R.22-12-011
Order Instituting Rulemaking to Address Biomethane Procurement Cost Allocation.

PROPOSED OUTCOME:

- Directs the allocation of the above-market costs of the Renewable Gas Standard (RGS) program to all customers on an equal-cents-per-therm basis within transportation rates.
- Requires the gas utilities to implement a Biomethane Emissions-Intensive Industry Exemption Workshop process and file a subsequent application regarding whether the allocation of RGS above-market costs to non-core customers should be implemented with an exemption for emissions-intensive, trade-exposed customers.
- Closes the proceeding.

SAFETY CONSIDERATIONS:

- There are no safety considerations associated with this decision.

ESTIMATED COST:

- There are no costs associated with this decision.

49 **Pacific Gas and Electric Company Interim Rate Recovery**
[24547]
A.25-05-009
Application of Pacific Gas and Electric Company for Authority, Among Other Things, to Increase Rates and Charges for Electric and Gas Service Effective on January 1, 2027.

PROPOSED OUTCOME:

- Authorizes Pacific Gas and Electric Company to recover, on an interim rate basis, no more than $456 million in revenue requirement, beginning January 1, 2027, to remain in effect until implementation of a final decision.

SAFETY CONSIDERATIONS:

- There are no safety considerations associated with this decision.

ESTIMATED COST:

- Up to $456 million.

50 **San Diego Gas & Electric Company's Consolidated Test Year 2024 General Rate Case Track 3**

[24560]
A.22-05-015, A.22-05-016 - Related matters.
Application of Southern California Gas Company for Authority, Among Other Things, to Update its Gas Revenue Requirement and Base Rates Effective on January 1, 2024.

PROPOSED OUTCOME:

- Approves a partial settlement agreement addressing San Diego Gas & Electric Company's (SDG&E) wildfire mitigation and drone program costs recorded in its Wildfire Mitigation Plan Memorandum Account (WMPMA) for years 2019-2022. Recovery of the balance of the undercollected revenue requirement for 2019-2023 wildfire mitigation costs will be amortized over a three-year period.
- Authorizes partial cost recovery for SDG&E's and Southern California Gas Company's (SoCalGas) Pipeline Safety Enhancement Program (PSEP) work conducted from August 2014 to July 2019 and December 2015 to December 2020, respectively. Recovery of the balance of the undercollected revenue requirement owed for PSEP costs through 2026 will be amortized over a one-year period.

SAFETY CONSIDERATIONS:

- The recovered costs compensate for wildfire mitigations and pipeline enhancements that help provide safe and reliable electrical and gas services.

ESTIMATED COST:

- Authorizes a WMPMA revenue requirement of $620.552 million, which is a reduction of $145.569 million or 19% below SDG&E's request. As a result of this revenue requirement recovery, the average non-California Alternate Rates for Energy (CARE) customer bill will increase by $6.76 or 3.7%.
- Authorizes an SDG&E PSEP revenue requirement of $17.2 million, which is $32.8 million (66%) below SDG&E's request, and a SoCalGas PSEP revenue requirement of $19.8 million, which is $112.4 million (85%) below SoCalGas' request. This will increase the average monthly non-CARE customer gas bill for SoCalGas and SDG&E, respectively, by $0.22 or 0.3% and $1.19 and 1.9%.

51 **Southern California Gas Company's Request for Microgrid Optional Tariff**

[24561]
A.25-04-006
Application of Southern California Gas Company for Adoption of a Microgrid Optional Tariff.

PROPOSED OUTCOME:

- Denies, without prejudice, Southern California Gas Company's request for authorization to offer the Microgrid Optional Tariff.
- Closes the proceeding.

SAFETY CONSIDERATIONS:

- There are no safety considerations associated with this decision.

ESTIMATED COST:

- There are no costs associated with this decision.
