ALJ/CJA/asf **Date of Issuance 11/10/2026**

Decision 26-11-006

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

Order Instituting Rulemaking to Modernize the Electric Grid for a High Distributed Energy Resources Future.	Rulemaking 21-06-017 (Filed June 24, 2021)

ORDER CORRECTING ERROR IN DECISION 26-10-054

The Commission has been informed of errors in Decision 26-10-054 adopting an application process for utility distributed energy resources orchestration and ordering utilities to incorporate load flexibility scenarios into their distribution planning and execution processes. The decision incorrectly references the 2027-2028 Distribution Planning and Execution Process (DPEP) cycle on page 79 and in Ordering Paragraph 36. The correct DPEP cycle, referenced on Page 3 and in Conclusion of Law 38, is the 2028-2029 cycle.

IT IS ORDERED:

1. Page 79 and Ordering Paragraph 36 of Decision 26-10-054 are corrected to replace references to the 2027-2028 Distribution Planning and Execution Process (DPEP) cycle with the 2028-2029 DPEP cycle.
2. Citations to Decision 26-10-054 shall state that it is modified by this decision.

This order is effective today.

Dated November 10, 2026, at San Francisco, California.
