Docket No.: A.21-05-017 Exhibit No.: TERG-0001 Hearing Date: April 5-12,2022 Witness: Karen L. Miller ALJ: Adeniyi A. Ayoade Commissioner: John Reynolds

TESTIMONY OF KAREN L. MILLER ON BEHALF OF TAHOE ENERGY RATEPAYERS

FEBRUARY 23, 2022

BEFORE THE PUBLIC UTILITIES COMMISSION

OF THE STATE OF CALIFORNIA

Application of Liberty Utilities (CalPeco Electric) LLC (U933E), for Authority to Among Other Things, Increase Its Authorized Revenues for Electric Service, Update Its Energy Cost Adjustment Clause Billing Factors, Establish Marginal Costs, Allocate Revenues, And Design Rates, as of January 1, 2022

A.21-05-017 (Filed May 28th, 2021)

TAHOE ENERGY RATEPAYERS GROUP QUALIFICATIONS AND PREPARED TESTIMONY OF KAREN L. MILLER IN OPPOSTION TO LIBERTY UTILITIES (U 933 E) APPLICATION TO INCREASE ITS AUTHORIZED REVENUES FOR ELECTRIC SERVICE

X.	CONCLUSIONS

I. INTRODUCTION

1	Q.1.	Please state your name and business address.				
2	A.1.	My name is Karen L. Miller. My business address is 1321 Webster Street, D301,				
3	Alameda, California, 94501.					
4	Q.2. By	whom are you employed and in what capacity?				
5	A.2. I a	m self-employed and am testifying on behalf of the Tahoe Energy Ratepayers Group				
6	(Tahoe ERC	b) as an Expert Witness.				
7	Q.3. Oı	whose behalf are you testifying in this proceeding?				
8	A.3. I a	m testifying on behalf of Tahoe ERG.				
9	Q.4. Ple	ease describe your professional and educational experience.				
10	A.4. I h	ave 23 years of experience working in utility regulation. I started with the California				
11	Public Utilit	ies Commission (CPUC), in 1983, as a Public Utilities Regulatory Analyst, working				
12	as an Expert	Witness in Telecommunications Policy and Rate Cases. In 1989, I joined "The				
13	Utility Refo	rm Network" (TURN), a non-profit that represents residential utility customers				
14	before the C	PUC, working as an Expert Witness in Telecommunications Policy and Rate Cases.				
15	From 1991	to 2001, I worked in private industry. I returned to the CPUC in 2001, as a Public				
16	Utilities Reg	gulatory Analyst. In January of 2005, I was appointed Interim Telecommunications				
17	Advisor to C	Commissioner Dian Gruenich, and in December of 2005, I was appointed as the				
18	Public Advi	sor to the CPUC, a position I held until December 2015.				
19	I hol	d a Bachelors' degree in Economics from San Francisco State University.				
20	Q.5.	Have you previously testified before the California Public Utilities				
21	Commissio	n?				
22	A.5.	Yes. While working for the CPUC from 1983 to 1989, I testified in:				

1	A. 83-08-39 – Ponderosa Telephone Company Rate Case
2	D. 85-05-056 – Witness on Rate Design
3	
4	A.85-01-034 – Pacific Bell Marketing Abuse Case
5	D.86-05-072 – Witness on Pacific Bell's Marketing Abuse Activities
6	
7	While working for TURN from 1989 through 1991, I testified in:
8	OII.87-11-033 – Alternative Framework for Local Exchange Carriers
9	D-91-07-044 – Witness on Consumer Education Needs
10	
11	A.90-02-060 – ATT Request to Increase the Price of Directory Assistance Calls
12	D.91-03-016 – Witness on Proposed Cost Increase
13	
14	II. PURPOSE OF TESTIMONY
15	Q.6. What is the purpose of your direct testimony?
16	A.6. Tahoe ERG is a California unincorporated association created for the purpose of
17	representing the interests of residential energy customers before the CPUC and other government
18	or regulatory entities' proceedings. Tahoe ERG advocates for energy rates that unite the
19	interests of Lake Tahoe residential energy users in seeking fair, reasonable, and non-
20	discriminatory electric rates. In this proceeding, Tahoe ERG is advocating for rates that do not
21	discriminate between existing customer classes of (i) Permanent residential customers which
22	Liberty Utilities appears to equate with full-time, existing, or owner-residents of Lake Tahoe on
23	the one-hand, and (ii) Non-permanent residential customers, which Liberty Utilities appears to

equate with temporary, part-time, seasonal, renter, or second home-owner residents of Lake
Tahoe on the other-hand. I say that Liberty Utilities "appears to equate" certain characteristics
with these two customer classes because there is no written document (including Liberty
Utilities' tariff) that provides an exact definition. My testimony will address Liberty
Utilities' flawed proposal to charge Residential-Permanent customers less than Residential-NonPermanent customers for identical energy usage.

7 I will also address additional changes proposed by Liberty Utilities that will have a 8 significant impact on residential customers. These changes are proposed in Liberty Utilities' 9 "Chapter 12: Supplemental Direct Testimony." These changes are a proposal to create a \$28 per 10 customer, per month fixed charge to fund wildfire mitigation, and, to add a proposed third 11 pricing tier for residential customers to Liberty Utilities' Rate Design. Liberty Utilities has not 12 provided notice of these proposed changes to residential customers, and, subsequently, 13 residential customers have not had an opportunity to provide public comment on the proposed 14 changes.

15 III. LIBERTY UTILITIES' PROPOSAL TO BIFURCATE THE CLASSIFICATION OF 16 RESIDENTIAL ENERGY CUSTOMERS INTO TWO CATEGORIES

Q.7. What are your conclusions regarding Liberty Utilities' proposal to bifurcate the classification of Residential Energy Customers into two categories?

A.7. I have concluded that Liberty Utilities' lack of an existing or proposed detailed
definition of "Permanent" and Non-Permanent" residential customers is a serious flaw that
undermines the validity of Liberty Utilities' proposed rate design based on these two customer
classes.

1	Q.8. Why does Tahoe ERG believe that detailed definitions of "Permanent" and					
2	"Non-Permanent" Residential Customers are critical to the accuracy of Liberty Utilities'					
3	rate design proposals?					
4	A.8. Liberty Utilities based its rate design proposal on the following assumptions:					
5	(a) Approximately half of the electricity Liberty delivers is to residential customers and					
6	approximately 60 percent of its residential accounts are second vacation homes or					
7	rentals. ¹					
8	(b) Liberty found that the cost of serving the permanent residential rate class is lower					
9	than the cost of serving the seasonal residential rate $class^2$					
10	(c) That the cost of serving the permanent residential rate class is \$0.230 per 3 kWh,					
11	while the cost of serving the seasonal residential rate class is \$0.251 per kWh, or 4 8.85					
12	percent higher. ³					
13	For Liberty Utilities' rate design to be accurate, the underlying factual assumptions must					
14	be accurate. However, for Liberty Utilities to be able to accurately determine the number of					
15	residential customers that fall into the "Permanent" and "Non-permanent" residential customer					
16	classes, respectively, Liberty Utilities must have definitions that have adequate specificity to					
17	delineate those customer designations without any doubt that the customer is classified correctly.					
18	Without such specificity, Liberty Utilities' proposal is subject to a cascading series of flaws that					
19	undermine its entire proposal.					

¹ Liberty Energy Rate Application, II. Background, A. Liberty's Operations

² Chapter 12 – Marginal Cost and Rate Design, Pg. 8, lines 15 - 16

 $^{^3}$ Chapter 12 – Marginal Cost and Rate Design, Pg. 9, lines 2 – 4

If Liberty Utilities is unable to define the two customer classes, then there is no factual
 basis for Liberty Utilities' finding that "approximately 60 percent of its residential accounts are
 second vacation homes or rentals."

If there is no factual basis for the asserted breakdown of 40% "Permanent" and 60%
"Non-permanent" residential customer findings, then Liberty Utilities' cannot possibly achieve
its asserted policy of basing rates on cost causation principles, or its claim that the "cost of
serving the permanent residential rate class is lower than the cost of serving the seasonal
residential rate class...⁴".

9 If the Commission cannot trust the accuracy of Liberty Utilities' claim that the "cost of 10 serving the permanent residential rate class is lower than the cost of serving the seasonal 11 residential rate class," then we cannot accept Liberty Utilities' critical finding, upon which their 12 entire Chapter 12 Rate Design is based; the finding "That the cost of serving the permanent 13 residential rate class is \$0.230 per 3 kWh, while the cost of serving the seasonal residential rate 14 class is \$0.251 per kWh, or 8.8 percent higher."⁵

Tahoe ERG believes that due to Liberty Utilities' lack of proposed or existing definitions
for "Permanent" and "Non-permanent Residential Customers, Liberty Utilities' rate design
proposal is based upon significantly flawed assumptions and should not be adopted.

Q.9. Did Liberty Utilities include in their Rate Case Application any definitions,
analysis, factual or legal basis for how they determined whether a residential customer was
"Permanent" or "Non-permanent?"

⁴ Chapter 12 – Marginal Cost and Rate Design, Pg. 8, lines 15 - 16

⁵ Chapter 12 – Marginal Cost and Rate Design, Pg. 9, lines 2 – 4

1 A.9. No. On behalf of Tahoe ERG, I carefully reviewed Liberty Utilities' Rate Case 2 Application to find and understand the factual and legal basis for Liberty Utilities' proposal, 3 including definitions, and found no definitions, analysis, factual or legal basis used by Liberty 4 Utilities in their determination of whether a residential customer was "Permanent" or Non-5 Permanent." 6 Q.10. Did Tahoe ERG request that Liberty Utilities provide Tahoe ERG an existing or proposed detailed definition of "Permanent" and Non-Permanent" residential 7 8 customers, or any analysis, data or workpapers used in the determination or such 9 classifications? 10 A.10. Yes. On November 5, 2021, Tahoe ERG served upon Liberty Utilities "Tahoe 11 Energy Ratepayers' Group Second Set of Data Requests to Liberty Utilities (U 93 E)" (Tahoe ERG 2nd DR). The due date for Liberty Utilities' response to the data request was November 19, 12 2021. Tahoe ERG received their late response on December 3rd, 2021, with follow up 13 information provided on January 20th. 14 15 In addition, on January 11, 2022, Tahoe ERG served upon Liberty Utilities "Tahoe Energy Ratepayers' Group Third Set of Data Requests to Liberty Utilities (U 93 E)" (Tahoe 16 ERG 3rd DR). The due date for Liberty Utilities' response to the Data Request was January 27th, 17 18 2022. Tahoe ERG received some partial answers from Liberty Utilities as a result from a "Meet and Confer," requested by Tahoe ERG on January 25th, with additional information on January 19 28th, 2022. However, the full data request response was not received until February 4th, 2022. 20 21 Q.11. Does Liberty Utilities use consistent terminology for their two classes of 22 **Residential Customers throughout their filing?**

1	A.11. No. Tahoe ERG was concerned as the terminology was inconsistent throughout						
2	documents and therefore, asked Liberty Utilities for clarification. Liberty Utilities stated in						
3	response to Request No. 5 and Request No. 6 of Tahoe ERG's 2 nd DR, "As an initial matter,						
4	"Non-Permanent" residential customers are referenced as "Seasonal" residential customers in						
5	certain places. There is no difference between "Non-permanent" residential customers and						
6	"Seasonal" residential customers. They are one in-in-the-same."						
7	Q.12. What terms will Tahoe ERG use in its testimony in this proceeding?						
8	A.12. Tahoe ERG had used the term "Seasonal" in Tahoe ERG 2 nd DR so it may show						
9	up in excerpts in this testimony. However, Tahoe ERG will use the terms "Permanent"						
10	residential customer and "Non-permanent" residential customer, in the non-excerpt portions of						
11	this testimony.						
12	Q.13. Did Liberty Utilities' responses to Tahoe ERG's 2 nd DR and 3 rd DRs,						
13	including the answers provided on January 25 th and January 28 th , provide the						
14	missing/incomplete definitions, analysis, workpapers and data?						
15	A.13. No. Liberty Utilities' responses to Tahoe ERG 2 nd DR and 3 rd DRs, including the						
16	answers provided on January 25 th and January 28 th , did not provide the missing/incomplete						
17	definitions, analysis, workpapers and data.						
18	Q.14. Please elaborate?						
19	A.14. In Tahoe ERG's 2 nd DR, we requested Liberty Utilities provide detailed definitions						
20	of "Permanent" and "Non-Permanent" residential customers. Liberty Utilities' replies to						
21	Requests 2-1 through 2-4 all referred Tahoe ERG to, "Schedule No. D-1, Sheet No. 77, Item 2A"						
22	(Attachment 1) of the Company's tariff that describes the eligibility requirements for						
23	"Permanent" residential and "Non-permanent" residential customers." The referred to section						

1 is as follows:

2	"A. Eligibility. Baseline quantities are available only to separately metered, permanent
3	Residential Customers. Non-permanent Customers such as recreational or vacation home
4	customers are not eligible. The Utility may require Customers to complete and file with it
5	an appropriate Declaration of Eligibility for baseline quantities. The Utility may also
6	require proof of permanent residency, such as voter registration or property tax
7	exemption. The penalty for presenting false information in this declaration shall be any
8	legal action which the Utility might elect to pursue."
9	Q.15. Does Tahoe ERG believe this to be an adequate response?
10	A.15. No. Tahoe ERG does not believe this to be an adequate response, as:
11	(a) Liberty Utilities does not provide a definition of "Permanent Residential Customer."
12	(b) Liberty Utilities does not provide a definition of "Non-Permanent Residential
13	Customer."
14	(c) Instead of a definition, Liberty Utilities uses two, undefined, descriptor terms to
15	describe "Non-Permanent Residential Customer."
16	(d) The wording of the sentence in which the two descriptor terms are presented implies
17	that there are additional, but unmentioned, descriptor terms that are used by Liberty
18	Utilities, i.e., "such as recreational or vacation home customers" creating further
19	lack of specificity.
20	(e) Liberty does not provide definitions for any of the descriptor terms used in "Schedule
21	No. D-1, Sheet No. 77, Item 2A" of the Company's tariff.
22	In addition, Liberty Utilities has not provided definitions of any of the descriptor terms
23	they use for "Non-permanent customers," in their testimony and filed exhibits. Those descriptor

terms are: "recreational home," "vacation home," "second home," "seasonal customer" and
 "rentals."

- 3 Q.16. Did Tahoe ERG attempt to find definitions beyond the responses provided by 4 Liberty Utilities in their Rate Case Application and Data Request Responses? 5 A.16. Yes. In an attempt to find definitions, Tahoe ERG conducted its own review of 6 information available on Liberty Utilities' public website. Tahoe ERG examined the contents of 7 "Liberty Utilities - Detailed Glossary of Terms - California," "Liberty Utilities - Budget 8 Glossary of Terms," and, "Liberty Utilities - Rule 1 - Definitions." In addition, Tahoe ERG 9 reviewed training materials used by customer service representatives who interact with 10 customers to determine whether they should be classified as Permanent or Non-permanent. 11 Tahoe ERG was not able to locate definitions or employee guidance for any of the terms 12 discussed above. 13 Tahoe ERG concludes that the lack of definitions in Liberty Utilities' response to Tahoe 14 ERG's Data Request Responses and the lack of definitions on Liberty Utilities' website and in 15 their tariffs significantly contribute to Liberty Utilities' inability to accurately characterize which 16 residential customer is a "Permanent" or "Non-permanent" customer. 17 Q.17. Did Liberty Utilities provide analysis, workpapers or data on how they 18 determined how many residential customers fell into each class? 19 A.17. No. Not at all. In fact, our Counsel has advised me, and I incorporated into my testimony, that, during a January 20th "Meet and Confer" attended by Tahoe ERGs' Counsel, Ms. 20 21 Anita Taff-Rice, Mr. Timothy Lyons, the Author of Chapter 12 of Liberty Utilities' Rate Design 22 Proposal, and Liberty Utilities' Attorneys, Mr. Lyons stated that "he did not participate in
- 23 dividing customers into the permanent or non-permanent class. He said Liberty Utilities

1 provided to him customer data that already coded customers as being either permanent or non-2 permanent." I found this to be quite shocking. It appears that Liberty Utilities did not even 3 provide definitions, workpapers or analysis on the definitions of "Permanent" and "Non-4 permanent" residential customers to the author of its proposed Rate Design. 5 Tahoe ERG believes that due to Liberty Utilities' lack of proposed or existing definitions 6 for "Permanent" and "Non-permanent Residential Customers, and the complete lack of analysis, 7 data or workpapers documenting how Liberty Utilities' classified its Residential Customers into 8 "Permanent" and "Non-permanent" customers, Liberty Utilities' rate design proposal is based 9 upon flawed assumptions and should not be adopted. 10 **IV. UPON ACQUISITION OF SIERRA PACIFIC IN 2011, LIBERTY UTILITIES** ADOPTED SIERRA PACIFIC'S TARIFF LANGUAGE FOR "SCHEDULE NO. D-1, 11 12 **ITEM 2A" VERBATIM** 13 Q.18. What other concerns does Tahoe ERG have regarding the lack of specific 14 definitions for "Permanent" and "Non-Permanent" resident Customers? A.18. Liberty Utilities' stated in their response to 3.a. of Tahoe ERG's 3rd DR, "The 15 16 tariff provisions that in question [sic] were part of the CPUC-approved Sierra Pacific Power Co 17 ("SPPC") Tariffs that were in place and subsequently adopted by Liberty after its acquisition of 18 the service territory in 2010, included in the tariff package provided and approved by the CPUC 19 in D.10-10-017, OP 6, which called for the filing of AL 1-E on November 1, 2010." 20 Tahoe ERG compared the "Schedule No. D-1, Item 2A" of Liberty Utilities' tariff to the 21 "Schedule No. D-1, Item 2A" (Attachment 2) included in Sierra Pacific Power Companies' 22 tariffs and adopted by Liberty Utilities on January 1, 2011. The wording is verbatim. And, 23 although the numbering system on Liberty Utilities' tariff sheet indicates that changes have been

made to Schedule No. D-1, since the purchase of the company, Liberty Utility has not added
clarity or specific definitions to Section 2.A. Liberty Utilities has not provided Tahoe ERG with
anything from Sierra Pacific Power Company documenting why and how Sierra Pacific
bifurcated their Residential Customer Rate into "Permanent" and "Non-permanent." It appears
that Liberty Utilities is unaware what analysis and reasoning went into Sierra Pacific's
bifurcation of its Residential Customer Class.
V. LIBERTY UTILITIES REVEALS THEIR "80% DETERMINATION PRACTICE"

Q.19. Did Liberty Utilities provide any additional criteria that they use to

8

9 determine whether a customer's dwelling is classified as a "permanent residential unit?" 10 A.19. Yes. Tahoe ERG continued to press for a further detailed explanation in Tahoe 11 ERG DR 3-4f., and asked Liberty Utilities to "Identify any criteria, besides the eligibility 12 requirements in Schedule No. D-1, Sheet No. 77, 2A that You use to determine whether a 13 customer's dwelling is classified as a "permanent residential unit." The first sentence in Liberty 14 Utilities' response was "See generally, Rule 1 definition of "Permanent Service." The definition 15 provided reads: "Permanent Service: Service which, in the opinion of the Utility, is of a 16 permanent and established character. This may be continuous, intermittent, or seasonal in nature." 17

Q.20. Does Liberty Utilities' definition of "Permanent Service" provide clarification
 for the further use of the terms "Permanent" and "Non-permanent" to classify residential
 customers?

A.20. No. In fact, the remainder of Liberty Utilities' response to Tahoe ERG DR 3-4.f.,
creates even more confusion about how Liberty Utilities defines "Permanent" and "Nonpermanent" residential customers. Liberty Utilities reveals for the first time, a nonwritten

1 practice that uses an unsubstantiated 80% determination factor to divide residential customers 2 into "Permanent" and "Non-permanent" classes. Liberty states that: "Liberty will typically rely 3 on information related to the premises, the applicable zoning for the structure, information from 4 the time service is established from the prospective Customer as to the nature of activity at the 5 Premises. If the customer intends to reside in the dwelling more than 80% of the time, the 6 dwelling is considered 'Permanent Service.' The 80% determination is not a written policy 7 but a current practice. The customer is provided the form 'Declaration of Eligibility for 8 Permanent Residential Baseline Rates' (Attachment 3) that states they are signing under oath and 9 will need to have the form notarized. The form also states it is unlawful for an individual to 10 receive a Permanent Residence Baseline Allowance for more than one residence in the state of 11 Californian. The CSR is not required to calculate the 80% since the customer is signing the 12 document under oath." (Emphasis added.)

Q.21. What is Tahoe ERG's response to Liberty Utilities' additional criteria that
"If the customer intends to reside in the dwelling more than 80% of the time, the dwelling
is considered 'Permanent Service?"

A.21. Tahoe ERG was quite surprised and concerned about Liberty Utilities revelation of
an unwritten "80% Determination Practice." The "80% Determination practice" was not
mentioned at all in Liberty Utilities' Rate Application or testimony. It is not mentioned on
Liberty Utilities' website, or in Liberty Utilities' tariffs, nor reflected in any of the limited
Customer Service training documentation provided by Liberty Utilities in discovery.
However, most concerning was that it was not mentioned at all in Liberty Utilities'

However, most concerning was that it was not mentioned at all in Liberty Utilities' response to Tahoe ERG 2nd DR, even though Requests No. 2-1 to 2–4 all requested "detailed definitions of 'Residential-Permanent" and "Residential-Seasonal customer" as used in the

1 original Chapter 12 of their filing, the Chapter 12: Supplemental Direct Testimony, the overall 2 Rate Case filing and, in all versions of the Marginal Cost Study. In fact, in Liberty Utilities' response to Request No. 1, to Tahoe ERG 2nd DR it refers to 3 4 "Schedule No. D-1, Sheet No. 77, Item 2A of the Company's tariff that describes the eligibility 5 requirements for Permanent Residential and Non-Permanent Residential customers." And 6 Liberty Utilities' responses to Requests No. 2-2 to 2-4, all state, "Please refer to the Company's 7 response to 2-1. The eligibility requirements for Permanent Residential and Non-Permanent 8 Residential customers are the same...". (Emphasis added.) 9 The "80% Determination practice" is not included in "Schedule No. D-1, Sheet No. 77, 10 Item 2A, of the Company's tariff, despite Liberty Utilities' claims that Schedule No. D-1 11 describes the eligibility requirements for Permanent Residential and Non-Permanent 12 Residential customers." However, as the "80% Determination practice" is clearly an eligibility 13 requirement, and apparently the key determinate of how Liberty Utilities classifies "Permanent" 14 vs "Non-Permanent" residential service, it certainly should have been provided to Tahoe ERG in Liberty Utilities' responses to Tahoe ERG 2nd DR. It just came out of nowhere, suddenly 15 appearing in Liberty Utilities' response to Tahoe ERG's 3rd DR. Therefore, Tahoe ERG must 16 conclude that the "80% Determination practice" was created by Liberty Utilities in between the 17 date Liberty Utilities answered Tahoe ERG's 2nd DR and the date Liberty Utilities answered 18 Tahoe ERG's 3rd DR. (Emphasis added.). 19 20 Liberty Utilities' "80% Determination practice" revelation was not accompanied by 21 documentation as to when and why it was developed and implemented. The was no indication as 22 to the legal and policy analyses upon which it is based. Liberty Utilities states that it is "not a

23 written policy but a current practice" and provides no details as to how the practice is used

within Liberty Utilities' Residential Customer Application Process. It is not known if and how
Consumer Service Representatives apply the "80% Determination practice" during the
Residential Customers Application Process. (Emphasis added.) It is not known whether this
"80% Determination practice" was used to derive the asserted customer breakdown of 40%
Permanent and 60% Non-permanent residential customers that underlies Liberty Utilities' entire
rate design and pricing proposal.

7 Tahoe ERG is flabbergasted that Liberty Utilities would roll out such a controversial "not
8 a written policy but a current practice" at this time. (Emphasis added.)

9 Liberty Utilities is in the middle of a Rate Case proceeding, near the end of discovery and 10 on the cusp of testimony being served. Tahoe ERG cannot even come up with any hypothetical 11 suggestions as to why Liberty Utilities believes using an unwritten practice of unknown origin 12 and application could possibly serve as a proper basis for rate design – particularly one that 13 seriously penalizes Non-permanent residents with an extremely large rate increase.

14 Tahoe ERG has numerous concerns.

15 First, the "80% determination practice" appears to be quite stringent and aggressive. 16 Tahoe ERG again notes that there are no citations as to the policy or legal basis for using the 17 "80% determination practice." To stay within the 80% requirement, a resident could only be 18 away from their residence a total of 73 days per year, which equates to a total of 2.43 months per 19 year. Tahoe ERG can think of a myriad of situations where any resident's cumulative vacations, 20 business trips and other life situations, such as receiving medical treatment, could in any given 21 year, have them away from their residence for more than a total of 2.43 months in a year. The 22 Federal government and many states use a minimum 183-day rule for establishing residency 23 requirements for the purposes of taxes. Yet, Liberty Utilities' uses a minimum 292-day rule for

establishing residency requirements for Baseline Energy service, without a known legal or policy
 basis.

3 Second, Tahoe ERG believes that this newly introduced "80% Determination practice" 4 adds an additional and significant level of confusion to the already extremely nonspecific process 5 of how Liberty Utilities attempts to classify Residential Customers into "Permanent" and "Non-6 permanent" Customers. Given that the practice is, "not a written policy but a current practice," 7 and was introduced with no documentation or explanation, it is not known where or how in the 8 Customer Application process the application of the practice occurs. It is not known if Customer 9 Service Representatives are even trained on this practice. There is literally nothing that has been 10 provided by Liberty Utilities that provides any detail on anything about the "80% Determination 11 practice" other than that it exists and that it is "not a written policy but a current practice." Tahoe 12 ERG argues that there is clear opportunity for a selective application of the "80% Determination 13 practice." There are no written rules or limits here. The potential harm to Residential customers 14 overall is grave.

15 Third, it is wrong that customers have no knowledge that Liberty Utilities uses the 16 punitive "80% Determination practice" in the Customer Application Process. It is not hard to 17 imagine that some customers have been placed in the wrong customer class due to a lack of 18 understanding of the "80% Determination practice" and by almost certain inconsistent 19 application by untrained customer service representatives applying an unwritten practice. A 20 customer is entitled to know if there are criteria that are being used to determine their eligibility 21 for Baseline Service. A customer is entitled to "just and reasonable rates." A customer should 22 have the opportunity to think about their answer before they are somehow classified as a Non-23 permanent residential customer and forced to pay significantly higher utility bills. The customer

might be confused by a question or led on by a Customer Service Representative. Given that it is
 "not a written policy but a current practice" creates a situation ripe for mischief.

2

3 Fourth, Tahoe ERG finds it confusing and contradictory that Liberty Utilities created 4 their "80% determination practice" under the auspices of their Rule 1 Definition of "Permanent 5 Service: Service which, in the opinion of the Utility, is of a permanent and established character. 6 This may be continuous, intermittent, or seasonal in nature." If "permanent service...may be 7 continuous, intermittent, or seasonal in nature," it seems wrong that a customer, who has their 8 service on for the entire year, but is gone from the premises less than 80% of the year, is a 9 classified as a "Non-permanent" customer? It is also confusing that the definition of permanent 10 service uses the term "seasonal" even though Liberty Utilities stated that for purposes of this rate 11 case, the term Non-permanent is synonymous with Seasonal.

12 Finally, Tahoe ERG is extremely concerned about Liberty Utilities' built-in incentive to incorrectly categorize their Residential customers as "Non-permanent" customers. Liberty 13 14 Utilities' proposed rate design would charge "Non-Permanent" customers a significantly higher 15 rate than "Permanent" customers. The more residential customers designated "Non-permanent," 16 the greater Liberty Utilities' ability to earn their proposed revenue requirement. The last-minute 17 announcement of a "80% determination practice (that) is not a written policy but a current 18 practice," adds to Tahoe ERG's concerns that Liberty Utilities' determination of "Non-19 permanent" residential customers may not be fair and equitable.

Tahoe ERG concludes that Liberty Utilities should be required to present its legal and policy basis used to justify the "80% determination practice" as well as provide clarification and documentation as to when the "80% determination practice" went into effect and exactly how it is being applied when residential customers request new service or request changes made to their

service. Liberty Utilities should be required to have its "80% Determination practice" formalized
 through the CPUC Tariff process.

3 VI. LIBERTY UTILITIES' "APPLICATION FOR RESIDENTIAL SERVICE" 4 PROCESS

- 5 Q.22. Would Tahoe ERG like to address Liberty Utilities' "Application for
- 6 Residential Service" Process?

7 A.22. Yes. Tahoe ERG reviewed Liberty Utilities' Public Website, their Tariffs, Rules, 8 Definitions and the "CSR Frontline – Service Request" form (Attachment 4) and other process 9 documents. (I believe CSR means Consumer Service Representative. CSR process documents were sent to Tahoe ERG on January 25th, without explanations as to how they are used.) (See 10 11 Attachments.) Tahoe ERG cannot identify a specific point in the "Application for Residential 12 Service process" whereupon Liberty Utilities provides a detailed definition to a potential or 13 existing customer of what is meant by Liberty Utilities when the customer is asked whether they 14 will be, or already are, a "Permanent" or "Non-permanent" resident in their dwelling or informs 15 the customer about the "80% Determination practice". Tahoe ERG cannot identify a written 16 application for a customer to review and fill out online. Liberty Utilities' website states that all 17 offices are closed to customers due to Covid. It appears that to initiate or change service, a 18 potential/existing customer must place a call to Liberty Utilities.

19 Tahoe ERG reviewed Liberty Utilities' "CSR Frontline – Service Request," which Tahoe 20 ERG believes is the script that a service representative uses when initiating or changing service 21 for a customer. Included in the script are questions, such as "Are you Purchasing or Renting?" 22 "Have you had service with us before?" There is a lengthy set of prompts for discussion about 23 the ways a deposit can be waived. There are spaces for personal information, service address,

1	date to start service, employer, etc. And, then there is the line for Primary or Non Primary					
2	Residence, which shares the line with a question about there being a dog on the premise. Here is					
3	how it appears on the form:					
4	PRIMARY or NON PRIMARY RESIDENCE / IS THERE A DOG ON THE PREMISE?					
5	YES NO					
6	There are no prompts to clarify with the customer what is being asked. There is no information					
7	on the difference between "Primary" and "Non Primary Residences." There is no prompt of the					
8	"80% Determination practice" to assist the service representative in their discussion.					
9	Here, Tahoe ERG makes three "observations" rather than "statements" as the company process					
10	information provided to Tahoe ERG by Liberty Utilities is very limited and not conclusive.					
11	Observations:					
12	(a) It appears that Liberty Utilities bases the initial classification on whether a residence is					
13	"permanent" or "non-permanent" on whatever discussion the customer service					
14	representative has with the customer. It is not clear what circumstances would cause the					
15	Service Representative to classify a customer as "Non-permanent." It is not clear when					
16	and how they apply the "80% Determination practice." The discussion between the					
17	customer and Customer Service Representative may or may not be reflected in notes					
18	taken by a Service Representative.					
19	(b) It does not appear that Liberty Utilities informs customers that they use an "80%					
20	Determination practice" to classify the customers into "Permanent" or Non-permanent"					
21	categories.					
22	(c) It does not appear that Liberty Utilities informs customers who are classified as "Non-					
23	permanent" residential customers that they can apply to change their classification if their					

1

residence status changes.

2 Q.23. What does Tahoe ERG conclude from their review of Liberty Utilities'

3

"Application for Residential Service" Process?

4 A.23. Tahoe ERG concludes that Liberty Utilities' "Application for Residential Service" 5 process, as presented by Liberty Utilities in the documents provided to Tahoe ERG, is an 6 additional example of the extremely nonspecific process of how Liberty Utilities attempts to 7 classify Residential Customers into "Permanent" and "Non-permanent" Customers. The lack of 8 detailed processes is very concerning. Tahoe ERG again concludes that the resulting lack in 9 Liberty Utilities' ability to accurately characterize which residential customer is a "Permanent" 10 or "Non-permanent" customer results in significant flaws in Liberty Utilities' rate design 11 proposal.

12 VII. LIBERTY UTILITIES' "DECLARATION OF ELIGIBILITY FOR PERMANENT
 13 RESIDENTIAL BASELINE RATES

Q.24. Would Tahoe ERG like to address Liberty Utilities' "DECLARATION OF ELIGIBILITY FOR PERMANENT RESIDENTIAL BASELINE RATES."

16 A.24. Yes. Liberty Utilities' "DECLARATION OF ELIGIBILITY FOR PERMANENT 17 RESIDENTIAL BASELINE RATES" ("Baseline Declaration") appears to be the key document 18 used by Liberty Utilities to enforce its policies on "Permanent" and "Non-permanent" residential 19 customers. It does not appear that Liberty Utilities provides the "Baseline Declaration" to 20 customers when they initially sign up for residential energy service. However, a change in 21 billing address to an address outside of Liberty Utilities' service area will trigger a letter 22 informing a customer that Liberty Utilities knows that the customer's address has been changed 23 to one that is outside of the service area (See Attachment 5); or that Liberty Utilities has received

1	a Mailing address change for the account from the United State Postal Service. (See Attachment						
2	6.). The letter also states, in part: "therefore we will be changing your rate from a permanent to a						
3	non-permanent baseline status. If this is your primary residence and the status change is in error,						
4	please complete the enclosed form, have your signature <u>notarized</u> and return in the envelope						
5	provided. The primary baseline rate will be reinstated upon our receipt of the completed form."						
6	Tahoe ERG has the following concerns about the "Baseline Declaration:"						
7	(a) It requires the applicant to "hereby declares under oath that the quantities of electric						
8	energy which are being requested are for use at a permanent, full time, primary residence						
9	of the applicant. The applicant also declares that this residence is not a recreation,						
10	vacation or second home."						
11	Liberty Utilities should not be requiring customers to swear under oath, and then get the						
12	oath notarized, when what they are swearing to are undefined terms.						
13	(b) The applicant is not notified that Liberty Utilities is applying an "80% Determination						
14	practice."						
15	(c) It states: "WARNING: It is unlawful for an individual to receive a Permanent						
16	Residential Baseline Allowance for more than one residence in the State of California."						
17	Tahoe ERG has done an extensive on-line search and has not been able to find any law in						
18	California related to receiving a Permanent Residential Baseline Allowance. Tahoe ERG						
19	was not able to find a citation to such a law on the "Declaration" document or on Liberty						
20	Utilities' website. If there is such a law, Liberty Utilities' must provide a cite. If no law						
21	exists, Liberty Utilities must be immediately stopped from sending out the "Baseline						
22	Declaration" and threatening customers with a non-existent law.						
23	(d) It states: "In the event Liberty Utilitiesdiscovers that a customer is receiving more than						

1 one allowance, (either from Liberty or another electric utility), the company is required 2 by its rules and regulations to prosecute said customer to the full extent of the law." 3 This statement is false. In "Schedule No. D-1.2. A., it states in part: "The Utility may 4 require Customers to complete and file with it an appropriate Declaration of Eligibility 5 for baseline quantities. The Utility may also require proof of permanent residency, such 6 as voter registration or property tax exemption. The penalty for presenting false 7 information in this declaration shall be a legal action which the Utility might elect to 8 **pursue.**" (Emphasis added.) The company is **NOT** required by its rules and regulations 9 to prosecute said customer to the full extent of the law.

In addition, in Tahoe ERG 3rd DR, Request 3-9(c), Tahoe ERG requests that Liberty 10 11 Utilities: "Identify the type of legal action that might be taken against an individual who You 12 have determined provided false information." Liberty Utilities responded: Upon establishing 13 services, Liberty gathers information from the customer and does a positive identification check 14 through Equifax-Full Name, Social Security number, mailing address, phone number, date of 15 birth and email address. If the customer's information matches, then they are established. If the 16 information that the customer provided does not match, then 2 notarized governments IDs are 17 needed before proceeding."

18 The action Liberty Utilities takes in response to a customer who may be providing 19 incorrect information is hardly as severe as Liberty Utilities implies when it states that "the 20 company is required by its rules and regulations to prosecute said customer to the full extent of 21 the law."

Tahoe ERG believes that Liberty Utilities is taking an unnecessarily harsh and
 threatening position with residential customers. Intimidating customers is not good policy.

Indeed, it is not fair nor correct to deem the information false if the terms of that information are
 not defined or not communicated to the customer.

3

VIII. LIBERTY UTILITIES' TRACKING CAPABILITIES

4

Q.25. Would you like to comment on Liberty Utilities' lack of tracking capabilities?

A.25. Yes. In response to Tahoe ERG 3rd DR, Liberty Utilities stated in response to 5 6 Request No. 3-7(d) that they do not track the number of customers from whom they requested a 7 "Declaration of Eligibility" in 2020 and 2021 respectively. Liberty Utilities stated in response to 8 Request No. 8(e) that they do not track the number of customers from whom they requested 9 "proof of permanent residency" in 2020 and 2021 respectively. Finally, Liberty Utilities stated 10 in response to Request No. 9(d) that they do not track the number of customers They 11 "determined provided false information" in 2020 and 2021 respectively. 12 Tahoe ERG recommends that the CPUC direct Liberty Utilities to track the data listed 13 above. Tahoe ERG believes that it would provide valuable insight into the extent of any problem 14 Liberty Utilities customers are having with being placed into an incorrect category and their 15 effort to correct the error. 16 IX. SIGNIFICANT CHANGES TO LIBERTY UTILITIES' RATE DESIGN PROPOSAL, **PRESENTED IN "CHAPTER 12: SUPPLEMENTAL DIRECT TESTIMONY" WILL** 17 HAVE SIGNIFICANT IMPACT ON RESIDENTIAL CUSTOMERS, HOWEVER, 18 19 **CUSTOMERS HAVE NOT BEEN PROVIDED NOTICE OF THE PROPOSED** 20 **CHANGES**

21 Q.26. Would you like to address significant proposed changes to Liberty Utilities'

22 Rate Design Proposal on which customers have not been provided notice?

1	A.26. Yes. In Liberty Utilities "Chapter 12: Supplemental Direct Testimony" it proposes						
2	significant changes to its original Rate Design Proposal that had been previously submitted in						
3	Liberty Utilities' initial Rate Case Application "Chapter 12: Marginal Cost and Rate Design."						
4	The proposed changes include: a proposal to create a \$28 per customer, per month, fixed charge						
5	to fund wildfire mitigation; and, to add a proposal to add a third pricing tier for residential						
6	customers. As far as Tahoe ERG has been able to ascertain, Liberty Utilities has not provided						
7	notice of these proposed changes to residential customers, and, subsequently, residential						
8	customers have not had an opportunity to provide public comment on the proposed changes.						
9	Tahoe ERG knows that Liberty Utilities provided notice to customers on their initial Rate						
10	Case Application and held a Public Participation Hearing on August 23, 2021, in South Lake						
11	Tahoe. I have read the Public Comments posted online in the record for this proceeding, of						
12	which there are 160 as of February 20, 2022. The comments show that many customers had						
13	issues and concerns with the initial Rate Design Proposal, such that they took the time to send						
14	their comments to the CPUC. The last of the comments posted to this proceeding record is dated						
15	October 28, 2021. It appears that the comments were made in response to the customer notice						
16	and Public Participation Hearings.						
17	No. 10 of the Rate Design Principles, set forth by the CPUC in D.15-07-001, ⁶ states: "10.						
18	Transitions to new rate structures should emphasize customer education and outreach that						
19	enhances customer understanding and acceptance of new rates and minimizes and appropriately						
20	considers the bill impacts associated with such transitions."						

To be consistent with the Rate Design Principles, Liberty Utilities should, at a minimum,
be required to provided notice on the new proposed changes to its Rate Design Proposal.

⁶ D.15-07-001, at p. 28 (July 3, 2015) (mimeo)

1 Customers should be given an opportunity to provide the CPUC and Liberty Utilities with their 2 comments on the revised proposal, prior to the CPUC decision on Liberty Utilities' revised Rate 3 Design Proposal.

4 X. CONCLUSIONS

5

Q.27. What are your conclusions?

6 A.27. Tahoe ERGs' Conclusions are:

7 1. Liberty Utilities was not able to provide definitions for "Permanent" and "Non-permanent" 8 Residential Customers that included adequate details and specificity to determine, without 9 question, that a customer met one of the classifications, and that the customer understood exactly 10 why they were put into a specific classification. A correct and documented breakdown of the 11 number of residential customers classified as "Permanent" and "Non-Permanent" is critical to the 12 accuracy of Liberty Utilities' Rate Design Proposal. Liberty Utilities' complete inability to 13 accurately characterize which residential customer is a "Permanent" or "Non-permanent" 14 customer results in significant flaws in Liberty Utilities' Rate Design Proposal. Liberty's Rate 15 Design Proposal should be rejected.

16 2. In Liberty Utilities' responses to Tahoe ERG Data Requests and in a "Meet and Confer" 17 with Tahoe ERG's Counsel, Liberty Utilities provided multiple examples of the inexactness of 18 the process and policies it uses to attempt to characterize which residential customer is a 19 "Permanent or "Non-Permanent" customer. Liberty Utilities' complete inability to accurately 20 characterize which residential customer is a "Permanent" or "Non-permanent" customer results 21 in significant flaws in Liberty Utilities' Rate Design Proposal. Liberty's Rate Design Proposal 22 should be rejected.

1	3. Liberty Utilities "Chapter 12: Supplemental Direct Testimony" proposed significant						
2	changes to the Rate Design Proposal it had previously submitted in Liberty Utilities' initial Rate						
3	Case Application "Chapter 12: Marginal Cost and Rate Design." The proposed changes include:						
4	a proposal to create a \$28 per customer, per month, fixed charge to fund wildfire mitigation; and,						
5	to add a proposal to add third pricing tier for residential customers. It does not appear that						
6	Liberty Utilities has provided notice of these proposed changes to residential customers, and,						
7	subsequently, residential customers have not had an opportunity to provide public comment on						
8	the proposed changes.						
9	No. 10 of the Rate Design Principles, set forth by the CPUC in D.15-07-001, ⁷ states:						
10	"10. Transitions to new rate structures should emphasize customer education and outreach that						
11	enhances customer understanding and acceptance of new rates and minimizes and appropriately						
12	considers the bill impacts associated with such transitions."						
13	To be consistent with the Rate Design Principles, Liberty Utilities should, at a minimum, be						
14	required to provide customer notice on the new proposed changes to its Rate Design Proposal.						
15	5. Liberty Utilities revealed, very late in the Discovery process, a new practice instituting						
16	new eligibility requirements for customers in determining whether to classify the customer as						
17	"Permanent" or "Non-permanent." The practice, which we have coined as the "80%						
18	Determination practice" states: If the customer intends to reside in the dwelling more than						
19	80% of the time, the dwelling is considered 'Permanent Service.' The 80% determination						
20	is not a written policy but a current practice. This practice was revealed in response to Tahoe						
21	ERGs' 3rd DR and was not accompanied by documentation as to when and why it was developed						
22	and implemented. The was no indication as to the legal and policy analyses upon which it is						

⁷ D.15-07-001, at p. 28 (July 3, 2015) (mimeo)

based. Liberty Utilities states that it is "not a written policy but a current practice" and
 provides no details as to how the practice is used within Liberty Utilities' Residential Customer
 Application Process. It is not known if and how Consumer Service Representatives apply the
 "80% Determination practice" during the Residential Customers Application Process.

5 (Emphasis added.)

6 Tahoe ERG concludes that Liberty Utilities should be required to present its legal and 7 policy basis used to justify the "80% Determination practice" as well as provide clarification and 8 documentation as to when the "80% Determination practice" went into effect and exactly how it 9 is being applied when residential customers request new service or request changes made to their 10 service. Liberty Utilities should be required to have its "80% Determination practice" formalized 11 through the CPUC Tariff process.

12 6. Tahoe ERG concludes that the inexactness of Liberty Utilities' definitions and lack of 13 clarity and consistency in Liberty Utilities' processes for determining whether a residential 14 customer qualifies for "Permanent" or "Non-permanent" rates creates an opportunity for harm to 15 Liberty Utilities' residential customers. Liberty Utilities claims that the number of "Non-16 Permanent" residential customers is increasing, but provides no data, documentation, or analysis to support that claim⁸. Liberty Utilities has a built-in incentive to incorrectly categorize their 17 18 Residential customers as "Non-permanent" customers. Liberty Utilities' proposed rate design 19 would charge "Non-Permanent" customers a significantly higher rate than "Permanent" 20 customers. The more residential customers designated "Non-permanent," the greater Liberty 21 Utilities' ability to earn their proposed revenue requirement.

⁸ This issue is being addressed in the testimony of James D. Wood; testimony being submitted contemporaneously with mine.

1	7. Tahoe ERG concludes that due to Liberty Utilities' lack of proposed or existing						
2	definitions for "Permanent" and "Non-permanent Residential Customers, the complete lack of						
3	analysis, data or workpapers documenting how Liberty Utilities' classified its Residential						
4	Customers into "Permanent" and "Non-permanent" customers, the inexactness of Liberty						
5	Utilities' "Application for Residential Service" processes and policies, and that Liberty Utilities						
6	has a built-in incentive to incorrectly categorize their Residential customers as "Non-permanent"						
7	customers, Liberty Utilities' rate design proposal is based upon significantly flawed assumptions						
8	and should not be adopted.						
9	Liberty Utilities should be required to submit to the CPUC a new Rate Design Proposal that						
10	has sufficient definitions, documentation, data, legal and policy analysis to stand up under						
11	scrutiny by the CPUC and parties. Liberty Utilities should be required to submit new, proposed						
12	tariffs, for review and approval by the CPUC, that include detailed and specific definitions for						
13	"Permanent" and "Non-permanent" residential service, detailed service application processes and						
14	documents, including the "80% Determination practice," and a detailed process by which						
15	residential customers will be classified as "Permanent" or Non-Permanent" customers.						
16	Q.28. Does this conclude your written, prepared testimony?						
17	A.28.						
18	Yes, it does, but I reserve the right to supplement this testimony if relevant information						
19	becomes available.

4th Revised 3rd Revised CPUC Sheet No. 77 CPUC Sheet No. 77

SCHEDULE NO. D-1 DOMESTIC SERVICE (Continued)

SPECIAL CONDITIONS

- 1. Service hereunder shall only be single-phase as described in Rule 2, Description of Service, and supplied to electric motors no larger than 10 horsepower.
- Baseline Quantities. Each residential customer in a single-family dwelling consisting of a
 permanent residential unit is eligible for a baseline quantity of electricity which is necessary
 to supply a significant portion of the reasonable energy needs of the average residential
 customer. Residential Customer means a customer who is eligible for service on a domestic
 service rate schedule, and excludes general, commercial, industrial, and every other
 category of customer.
 - A. Eligibility. Baseline quantities are available only to separately metered, permanent Residential Customers. Non-permanent Customers such as recreational or vacation home customers are not eligible. The Utility may require Customers to complete and file with it an appropriate Declaration of Eligibility for baseline quantities. The Utility may also require proof of permanent residency, such as voter registration or property tax exemption. The penalty for presenting false information in this declaration shall be any legal action which the Utility might elect to pursue.
 - B. Different Baseline Quantities. Different baseline quantities are established for a) basic use, and b) all-electric only or electric space heat or both, as follows:

kWh Per Day Quantity¹

Season	<u>Basic Use (E02, E06)</u>	All-Electric Use (E04, E08)
Summer ²	14.5 (I)	16.4 (R)
Winter ³	19.0 (I)	31.4 (R)

- 1. Per day baseline quantities for each monthly billing cycle shall be equal to the daily baseline quantities (including Medical Baseline Quantities as appropriate) multiplied by the number of days in the billing cycle.
- 2. Summer baseline quantities will be used for six consecutive billing periods beginning on or after May 1.
- 3. Winter baseline quantities will be used for six consecutive billing periods beginning on or after November 1.

<u>SPECI</u>	<u>AL</u>	CONDITIONS (Continued)		
2.	Ba	seline Quantities. (Continued)		
	C.	Standard Limited Quantity. A standard limited Medical Baseline Quantity in addition to those quantities listed in B. above of 16.5 kWh per day is available for Residential Customers who demonstrate that one of the following conditions exist: a) regular use in the Customer's residence of one or more medical life-support devices that is essential to maintain the life of a full-time resident of the household, or b) there is a full-time resident of the household, or b) there is a full-time sclerosis, or scleroderma patient.		
		(1) A supplemental quantity of 16.5 kWh per day will be provided to multiple sclerosis patients for air conditioning during the six summer months of May 1 through October 31. Customer applications for this quantity must be accompanied by a licensed doctor's certification.		
		(2) Additional baseline quantities are available to Residential Customers who qualify for baseline usage, who require the use of a life support device (e.g., kidney dialysis machine or iron lung). Upon certification of need by the Customer, the Utility will estimate daily kWh for the life support device for inclusion in the total allowable baseline quantity.		
		(3) Life support devices means those devices which utilize mechanical or artificial means to sustain, restore, or supplant a vital function, or mechanical equipment which is relied upon for mobility both within and outside building. Life support devices or equipment include those listed in PUC Section 739.2		
	D.	 Limitation. Space heating quantities shall be available only where a minimum of 80% of available living area is heated by permanently installed electric space heating equipment. Partial quantities will not be offered.

SCHEDULE NO. D-1 DOMESTIC SERVICE (Continued)

SPECIAL CONDITIONS (Continued)

- 3. Notice of Change. It is the responsibility of the customer to advise the Utility within fifteen (15) days of any changes in the type of space heaters in the residence and of changes in residential status.
- 4. Consumption for separately metered water heating service shall be billed in combination with other domestic consumption under the rates set forth in this schedule, except that an additional customer charge shall not be made.
- 5. Service hereunder shall not be provided to multiple dwellings or multiple units of multiunit complexes, which are service through a common meter, or for domestic water pumping where water is delivered to more than one living unit.
- 6. Billing.
 - A. Bundled Service Customers receive supply and delivery services solely from the Utility. The customer's bill is based on the Total Energy Rate set forth above. The energy supply component is determined by multiplying the offset rate for Schedule D-1 during the last month by the customer's total usage.
 - B. Direct Access Customers purchase energy from an energy service provider and continue receiving delivery services from Liberty. The energy supply component is determined as specified for a Bundled Service Customer. The bill will be calculated as for a Bundled Service Customer, but the customer will receive a credit for the energy supply component. If the energy supply component is greater than the amount of the Bundled Service bill, the minimum bill for a Direct Access Customer is zero.

CPUC Sheet No. RENO, NEVADA Revised <u>2</u>448-E Canceling <u>Revi</u>sed CPUC Sheet No. 2356-E SCHEDULE NO. D-1 DOMESTIC SERVICE (Continued) **SPECIAL CONDITIONS** (Continued) 2. Baseline Quantities. (Continued) C. Standard Limited Quantity. A standard limited Medical Baseline Quantity in addition to those quantities listed in B. above of 16.5 kWh per day is available for Residential Customers who demonstrate that one of the following conditions exist: a) regular use in the Customer's residence of one or more medical life-support devices that is essential to maintain the life of a full-time resident of the household, or b) there is a full-time resident of the household who is a paraplegic, hemiplegic, guadriplegic, multiple sclerosis, or scleroderma patient. (1) A supplemental quantity of 16.5 kWh per day will be provided to multiple sclerosis patients for air conditioning during the six summer months of May 1 through October 31. Customer applications for this quantity must be accompanied by a licensed doctor's certification. (2) Additional baseline quantities are available to Residential Customers who qualify for baseline usage, who require the use of a life support device (e.g., kidney dialysis machine or iron lung). Upon certification of need by the Customer, the Utility will estimate daily kWh for the life support device for inclusion in the total allowable baseline quantity. (3) Life support devices means those devices which utilize mechanical or artificial means to sustain, restore, or supplant a vital function, or mechanical equipment which is relied upon for mobility both within and outside building. Life support devices or equipment include those listed in PUC Section 739.2 D. Limitation. Space heating quantities shall be available only where a minimum of 80% of available living area is heated by permanently installed electric space heating equipment. Partial quantities will not be offered. (Continued) (To be inserted by utility) (To be inserted by CPUC) Issued by Advice Letter No. **315-E** Michael J. Carano Date Filed 08-30-06

Liberty Utilities' "Declaration of Eligibility for Permanent Residential Baseline Rates"

DECLARATION OF ELIGIBILITY FOR PERMANENT RESIDENTIAL BASELINE RATES

, applicant, hereby declares under oath that the quantities of electric energy which are being requested are for use at a permanent, full time, primary residence of the applicant. The applicant also declares that this residence is not a recreation, vacation, or second home.

WARNING: It is unlawful for an individual to receive a Permanent Residential Baseline Allowance for more than one residence in the State of California. In the event Liberty Utilities (CalPeco Electric) LLC ("Liberty") discovers that a customer is receiving more than one allowance, (either from Liberty or another electric utility), the company is required by its rules and regulations to prosecute said customer to the full extent of the law.

Liberty Utilities' "CSR Frontline - Service Request" Form

CSR Frontline - Service Request

Greeting

Good Morning / Good Afternoon

Thank you for calling Liberty my name is _____ how may I

assist you?

Customer states they would like to establish service(s) in their name.

Are you PURCHASING or RENTING?

Have you ever had service with us before?

NO – since you never had service with us before a deposit will be required.

There are ways that a deposit can be waived;

Allow me to run a credit check via Equifax. I will run your name and social security number. The system will tell me whether a deposit will be required or not.

Provide a Letter of Credit from a current or previous utility that states you had 12 months of service within the past 2 years with excellent payment history.

Establish EFT (Bank Draft) – An application will be sent to you. Return the application with a voided check – upon receipt the deposit will be removed from the account.

YES - May I have your Last Name, First Name, Middle initial – Social Security Number

If the customer's previous credit rating is unsatisfactory – A deposit will be required

Liberty Utilities' Letter to Residential Customer Requiring That Customer submit "Declaration of Eligibility for Permanent Residential Baseline Rates" Due to Mailing Address Outside of Service Area

Date: 1/25/2022

MARIA ELIZARRARAZ PO BOX 3369 INCLINE VILLAGE, NV 89450

Account Number: 88545986-88215866 Service Address: 501 NATIONAL AVE UNIT 48 TAHOE VISTA, CA 96148

Dear MARIA ELIZARRARAZ:

Enclosed is a Declaration of Eligibility form for Permanent Residential Baseline Rates.

Permanent Residential Baseline Rates are given to permanent, full-time residential customers at their primary place of residence. Primary Residential Baseline customers receive a daily kilowatt-hour allowance at a discounted rate, determined by the season and the type of electric service in the home.

Your current mailing address is located outside our service area; therefore we will be changing your rate from a permanent to a non-permanent baseline status.

If this is your primary residence and the status change is in error, please complete the enclosed form, have your signature **<u>notarized</u>** and return in the envelope provided. The primary baseline rate will be reinstated upon our receipt of the completed form.

If further information or assistance is required, please contact Customer Service at (800)782-2506.

Sincerely,

Liberty Customer Service

ATTACHMENT 6

Liberty Utilities' Letter to Residential Customer Requiring That Customer submit "Declaration of Eligibility for Permanent Residential Baseline Rates" Due to Receiving a Mailing Address Change for the Account from the United States Postal Service

Date: 1/25/2022

JUNE FINUCAN 1295 SUSIE LAKE RD SOUTH LAKE TAHOE, CA 96150

Account Number: 88538717-88145480 Service Address: 1295 SUSIE LAKE RD SOUTH LAKE TAHOE, CA 961508331

Dear JUNE FINUCAN:

Enclosed is a Declaration of Eligibility form for Permanent Residential Baseline Rates.

Permanent Residential Baseline Rates are given to full-time residential customers at their primary place of residence. Primary Residential Baseline customers receive a daily kilowatt-hour allowance at a discounted rate, determined by the season and the type of electric service in the home.

We are in receipt of a mailing address change for your account from the United States Postal Service. Your new mailing address is located outside our service area; therefore we will be changing your rate from a permanent to a non-permanent baseline status.

If this is your primary residence and the status change is in error, please complete the enclosed form, have your signature **<u>notarized</u>** and return in the envelope provided. The primary baseline rate will be reinstated upon our receipt of the completed form.

If further information or assistance is required, please contact Customer Service at (800)782-2506.

Sincerely,

Liberty Customer Service

933 Eloise Avenue, South Lake Tahoe, CA, 96150 1-800-782-2506 www.liberty.com

17. Modify current mailing address per customer request.

NOTE: "Primary" must always be the "Address ID" type.

- i. Is current mailing address M1? STOP! Review account does this customer have multiple locations in their name?
- ii. Does "Primary" address exist in addressing table?

Yes – Select "Primary" – do not change your customer note. Change "Primary" to M1 or next sequential number, i.e. M2 etc.

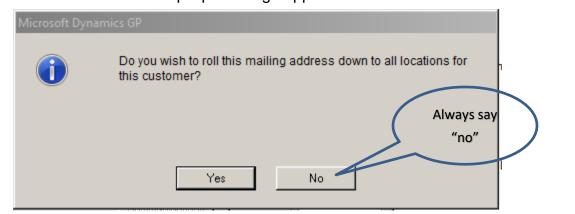

No - Select "Primary" from Address ID field in next step ("a").

a. If current mailing address is "Primary" change address ID from "Primary" to "M1" If M1 has been used – move to next sequential number; i.e M2.

Title / Name: Mailing Address Change – One Location

GP System #:	8800	Discipline:	700 Customer Care
Sub-Category:	900 Work Instruction	Sequential Doc. #	0761
State:	California	Commodity:	Electric

Purpose: To provide the Customer Service Representative step by step instructions of how to change a customer's current mailing address. Pre-Requisite: Customer must have an existing customer record.

- 1. Prior to changing the customers mailing address it is important to know if the new mailing address will have an effect on the customer's rate. Primary / Non Primary
- 2. From Microsoft Dynamics GP use the following path: Cards > CSM > Account

3. Enter the Location Number. Press Tab to update the screen. *NOTE:* If you do not know the Location Number, use the Search a button

16. Click Attach

17. Modify current mailing address per customer request.

NOTE: "Primary" must always be the "Address ID" type.

- i. Is current mailing address M1? STOP! Review account does this customer have multiple locations in their name?
- ii. Does "Primary" address exist in addressing table?

Yes – Select "Primary" – do not change your customer note. Change "Primary" to M1 or next sequential number, i.e. M2 etc.

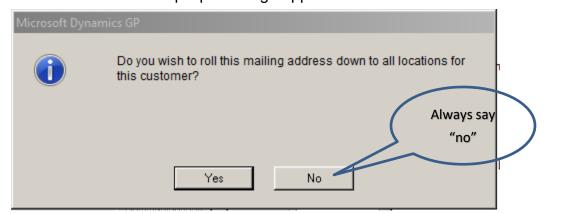

No - Select "Primary" from Address ID field in next step ("a").

a. If current mailing address is "Primary" change address ID from "Primary" to "M1" If M1 has been used – move to next sequential number; i.e M2.

Document Name/Title: Return Mail

GP System #:	8800	Discipline:	700 Customer Care
Sub-Category:	900 Work Instruction	Sequential Doc. #	0871
State:	California	Commodity:	Electric

Purpose: To provide instructions to ensure proper handling of all returned mail. Pre-Requisite: Customer's billing statement or other related mail has been returned from the United Postal Service.

Designated employee for incoming mail within the contact center is responsible to document the amount of returned mail to be processed.

Senior or Foreman is to sort and deliver the return mail, including returned bills and letters.

RETURNED CHECKS

- 1. Returned checks will be delivered to the Billing Department to be placed in safe.
- 2. Billing CSR to place note on customer card

Note Format: RFND CHK – RTM – Last Name, First Name – state status of check.

RETURNED MAIL

Forwarding Address: USPS placed sticker on the item

- 1. CSR will review current mailing address and current rate code.
- 2. CSR will take the appropriate actions when applicable.
 - a. Change the current mailing address on the customer record within CSM
 - b. Change the rate code
