UTILITIES COMMISSION

Stipulation Waiving Cross of Cal Advocates Witnesses Hunter and Kang

BEFORE THE PUBLIC UTILITIES COMMISSION
OF THE STATE OF CALIFORNIA

May 2026

SDG&E and Cal Advocates have stipulated to the introduction of this exhibit in exchange for the waiver of cross examination of Cal Advocates witnesses Hunter and Kang.

1. Cal Advocates recognizes that SDG&E's requested revenue requirement and costs in this proceeding is reflected in SDG&E's supplemental testimony (errata) and supporting workpapers, which supersede SDG&E's direct testimony as submitted in April 2025. Cal Advocates thus acknowledges that some amounts in SDG&E's request are different than the amounts represented in Cal Advocates' prepared testimony as SDG&E's Track 3 request;
2. Cal Advocates' recommended reductions as presented in Cal Advocates' prepared testimony may require revision or no longer be applicable, because they are based upon SDG&E's direct testimony that has since been revised as presented in SDG&E's supplemental testimony (errata); and
3. Cal Advocates acknowledges that SDG&E is no longer requesting the recovery of any O&M and/or capital expenditures for assets placed in service in 2024—including the Wildfire and Climate Resilience Center. Thus, Cal Advocates' prepared testimony regarding any costs after 2023 is no longer applicable to SDG&E's Track 3 request in this proceeding.
