## Executive Summary

---

The California Public Utilities Commission (CPUC) submits this annual report on the California Advanced Services Fund (CASF) 2022 program activities, pursuant to California Public Utilities (Pub. Util.) Code section 914.7.

Since 2008, the CASF has helped close the Digital Divide in California by providing subsidies to build and expand broadband facilities to unserved areas of the state. The program has funded fiber-optic, fixed wireless, hybrid fiber-coaxial, and copper facility-based projects with a goal for the CASF Infrastructure Account of making broadband available to 98 percent of households in each consortia region by 2032.<sup>1</sup>

This report presents financial and programmatic highlights, including revenues, expenditures, approved projects, plans for 2023, and expected benefits. It also provides updates on unserved/served areas and broadband adoption in the state. In 2022, the CPUC approved 74 adoption grants totaling \$5.9 million, which will provide digital literacy training to 13,970 residents and broadband access to 9,025 residents, 19 public housing grants totaling \$1.4 million and serving 800 living units in publicly supported housing developments, and 31 Tribal Technical Assistance grants to 23 Tribes totaling \$3.1 million for feasibility studies, market studies, and business plans in 2022. The CPUC did not approve any infrastructure projects in 2022 but approved additional funding of \$1,658,198 for an existing CASF project, Lake Davis, providing broadband infrastructure to 125 unserved/underserved households. The CPUC also approved \$205,125 for “kicker” or supplemental funding for a participant in the FCC’s Rural Digital Opportunity Fund (RDOF) program providing broadband infrastructure to 959 unserved and underserved households.

The CPUC continued to implement the new broadband programs and CASF changes set by Senate Bill (SB) 156 (Chapter 112, Statutes of 2021). Specifically, the CPUC acted on the following:

- CASF Broadband Public Housing Account, Broadband Adoption Account, and Rural and Urban Regional Broadband Consortia Account – Issued Decision 22-05-029 on May 24, 2022, implementing SB 156 changes to these accounts. This decision also adopted the total CASF program budget and subaccount budget allocations for Fiscal Year 2022-2023.
- CASF Broadband Infrastructure Grant Account – Issued Decision 22-11-023 on November 18, 2022, amending program rules, consistent with SB 156, regarding project eligibility, performance criteria, project challenges, and other issues.
- Federal Funding Account (FFA) – Issued Decision 22-04-055 on April 22, 2022, setting FFA rules and guidelines consistent with legislation and federal guidelines.
- Local Agency Technical Assistance (LATA) – Issued Decision 22-02-026 on February 25, 2022, setting rules and guidelines for the LATA grant program consistent with legislation.

---

<sup>1</sup> Pub. Util. Code, § 281(b)(1)(A).

## Projects Awarded in 2022

The following table details the CASF total projects and awards in 2022 and since program inception in 2008. The CASF expenditure data, including project payments and administrative expenses, are provided in Table 4.

**Table 1: CASF Projects and Awards as of December 31, 2022**

CASF Account	In 2022		Since 2008	
	Total Projects	Total Awarded	Total Projects	Total Awarded
Infrastructure <sup>2</sup>	0	\$1,863,323	105	\$341,832,205
Infrastructure Loan <sup>3</sup>	0	\$0	1	\$600,295
Infrastructure Line Extension Program	0	\$0	2	\$297,778
Tribal Tech. Assistance	31	\$3,070,800	61	\$4,949,350
Consortia	0	\$0	47	\$18,730,027
Adoption <sup>4</sup>	74	\$5,922,406	282	\$22,592,053
Pub. Housing	19	\$1,398,593	469	\$15,339,219
<b>Total:</b>	<b>124</b>	<b>\$12,255,122</b>	<b>967</b>	<b>\$404,340,927</b>

## CASF Program Goal and Broadband Deployment Progress

The statutory goal of the CASF Infrastructure Grant Account is to provide broadband access to 98 percent of households in each consortia region by December 31, 2032. See Map 1 for the locations of the consortia regions. Data for fixed broadband availability as of December 31, 2021, reveal the following:

- **Infrastructure Grant Account Goal:** Statewide, 93.3 percent of households are served by at least 25 megabits per second (Mbps) downstream and 3 Mbps upstream fixed consumer broadband. This is a lower percentage than the 97.4 percent reported last year. This decrease is due to a change in the CPUC's broadband availability data collection, which now focuses on gathering broadband data from internet service providers at the address level instead of the census block level. The more granular focus shows there are less households served at 25/3 Mbps statewide. See Attachment A for percentage of households served in each consortium.
- **Broadband Adoption at 25 Mbps/3 Mbps:** Approximately 68.5 percent of California households subscribe to broadband speeds at or above 25/3 Mbps.

<sup>2</sup> Awards include \$205,125 in “kicker” funds for the Anza Phase 3 Rural Digital Opportunity Fund (RDOF) project and \$1,658,198 in additional funds for the Lake Davis project.

<sup>3</sup> Assembly Bill 1665 (Chapter 851, Statutes of 2017) eliminated the Infrastructure Revolving Loan Account.

<sup>4</sup> Total awarded amount is inclusive of the \$5 million to the California Department of Education for COVID-19 relief.

## Map 1: California Broadband Consortia Regions

## CASF Team Key Accomplishments

### **Broadband Infrastructure Account:**

- Awarded additional funding of \$1,658,198 for Plumas-Sierra Telecommunications' Lake Davis Project to build broadband infrastructure to 125 households in Plumas County. The proposed project will also provide ancillary benefits, including improved connectivity in a region located in a Tier 2 fire-threat zone of the CPUC Fire Map.<sup>5</sup>
- Awarded a Rural Digital Opportunity Fund "Kicker" grant totaling \$205,125 to build broadband infrastructure to 959 households in Riverside County.
- Approved final reimbursements for 13 completed projects totaling \$8,626,056, 9 for 2022, serving 11,476 households.
- Thirteen projects completed across Placer, Kern, Plumas, San Bernardino, Santa Clara, Lassen, Imperial, and Nevada counties.
- Completed environmental reviews pursuant to the California Environmental Quality Act thereby allowing the release of \$17,422,572 in funding for the Klamath River Rural Broadband Initiative Project.

### **Line Extension Program:**

- Completed a Line Extension project serving 250 low-income residents at the San Jerardo Farmworkers Cooperative in Monterey County on September 7, 2022.

### **Broadband Adoption Account:**

- Awarded grants to 74 projects from 19 applicants in 19 counties serving 23,425 participants.
- Ten Adoption Account funded projects completed in 2022. By way of these completed projects, Adoption Account grantees assisted 4,040 participants in subscribing to low-cost Internet, provided broadband access to 40,315 participants, and provided a minimum eight hours of digital literacy training to 1,567 participants.

### **Broadband Consortia Account:**

- Opened a new solicitation and received fifteen applications from consortia. Reviewed and approved the fifteen applications in January 2023. Consortia grantees assisted 32 project permitting activities and conducted 333 inventories of public assets.

### **Broadband Public Housing Account:**

- Awarded grants to 19 projects for 3 applicants in seven counties serving 800 units.
- Four Public Housing Account funded projects were completed in 2022<sup>6</sup>; 1 infrastructure project which wired up 64 residential units, and 3 adoption projects provided training to 167 residents.

---

<sup>5</sup> <https://www.cpuc.ca.gov/industries-and-topics/wildfires/fire-threat-maps-and-fire-safety-rulemaking>

<sup>6</sup> An additional 5 projects were completed; however, completion reports for those projects have yet to be submitted.

**Tribal Technical Assistance:**

- Awarded 31 grants to 23 Tribes totaling approximately \$3,070,800 for feasibility studies, market studies, and business plans.

**Broadband Mapping:**

- The Broadband Mapping team issued the Annual Broadband Data Request for broadband data as of December 31, 2021, and collected deployment and subscription data at the location level as well as residential pricing data from 158 internet service providers. Through this annual process, the CPUC collects and verifies data to identify California households without broadband internet access service of at least 100 megabits per second download speed. Furthermore, the CPUC, in collaboration with other state agencies and stakeholders, maintains and updates a statewide, publicly accessible, and interactive map showing the accessibility of broadband service in California.

Additionally, the Communications Division held the annual CASF workshop on April 19, 2022, to consult with regional consortia, stakeholders, local governments, existing facility-based broadband providers, and consumers regarding unserved areas and cost-effective strategies to achieve the broadband access goal.

## Introduction

---

The goal of the CASF is to encourage deployment of high-quality advanced communications services to all Californians, which will promote economic growth, job creation, and the substantial social benefits of advanced information and communications technologies. The program consists of the following active accounts:

- The Broadband Infrastructure Grant Account (Infrastructure Account) provides grants to deploy broadband to unserved households.
- Line Extension Program (LEP) provides grants to individual low-income households or property owners to offset the costs of connecting to an existing or proposed facility-based broadband provider.
- The Broadband Adoption Account (Adoption Account) provides grants to increase publicly available or after-school broadband access and digital inclusion, such as digital literacy training programs.
- The Rural and Urban Regional Broadband Consortia Account (Consortia Account) provides grants to regional consortia (typically a group of several contiguous counties) to facilitate the deployment of broadband infrastructure by assisting CASF infrastructure grant applicants in the project development or grant application process or assisting broadband deployment projects related to programs created under SB 156 and Assembly Bill (AB) 164.
- The Broadband Public Housing Account (Public Housing Account) provides broadband connectivity grants to “low-income communities” which includes, but is not limited to, publicly supported housing developments, farmworker housing, and other housing developments or mobile home parks with low-income residents, as determined by the commission. In the past, the account provided grants both for broadband connectivity and adoption<sup>7</sup> in publicly supported communities.
- The Tribal Technical Assistance provides grants to Tribes to develop market studies, feasibility studies and business plans to pursue improved communications.
- The Federal Funding Account provides grants for last mile broadband infrastructure projects to connect unserved and underserved Californians with high-speed broadband service.

Additional background and historical information about each CASF account is available at <https://www.cpuc.ca.gov/industries-and-topics/internet-and-phone/california-advanced-services-fund>.

---

<sup>7</sup> \$5 million was available in grants and loans to a publicly supported community to support programs designed to increase adoption rates for broadband services for residents in publicly supported communities.

## Legislation in 2022 Modifying the CASF

In September 2022, Assembly Bill 2752 (Broadband Infrastructure and Video Service: Mapping Subscriber Information) made the following modifications to the CASF:

- This bill authorizes the CPUC to collect information about broadband service availability from providers of broadband and video services, at the address level.
- The bill prohibits the CPUC from disclosing residential subscriber information, as provided.

## Plans for 2023

- The CPUC will set forth funding allocations for Fiscal Year 2023-24 for the active CASF accounts.<sup>8</sup>
- Staff will implement the changes ordered by Decision 22-11-023, “Decision Adopting Modifications to California Advanced Services Fund Broadband Infrastructure Account,” issued on November 17, 2022, as well as additional programmatic changes to improve program efficacy.
- Staff conducted a CASF workshop in April 2023, to consult with regional consortia, stakeholders, local governments, the federal government, existing facility-based broadband providers, and consumers regarding unserved areas of the state and cost-effective strategies for expanding access to broadband.
- For the Line Extension Program, the CPUC will implement changes established by recent legislation in a new decision to incorporate programmatic changes and improve program efficacy.
- For the Broadband Public Housing Account, the CPUC will address expansion of program eligibility and verification requirements for housing developments and mobile home parks with low-income residents in the CASF Rulemaking 22-08-021. The Rulemaking will also address tenant protections for non-publicly supported housing developments.
- For the Broadband Adoption Account, an application window will open on July 1, 2023.
- For the Consortia Account, staff will implement the newly awarded 15 grants under Resolution T-17778. These grants will facilitate the deployment of broadband services by assisting CASF infrastructure grant applicants in the project development or grant application process or assisting broadband deployment projects related to programs created under Senate Bill 156 and Assembly Bill 164.
- For Tribal Technical Assistance, staff will continue to accept applications quarterly until funds are exhausted.

---

<sup>8</sup> Does not include the Federal Funding Account.

## Overview and Financial Information

This section provides an overview of the CASF financial information including revenues, expenditures, and fund balance. It also provides information about the areas that remain unserved and information on broadband adoption levels, as required by Pub. Util. Code section 914.7 subsections (a) and (g).

### A. Financial Information

The CPUC tracks CASF financial information in the Financial Information System for California (FI\$Cal), which is a statewide information technology system for accounting, budget, and cash management for all state agencies. The following table provides the total authorized budget for each of the CASF accounts as of June 30, 2022.

**Table 2: CASF Total Authorized Budget as of June 2022**

CASF Account	Total Authorized Budget
Infrastructure Grant <sup>9</sup>	\$565,000,000
Infrastructure Line Extension	\$5,000,000
Consortia	\$25,000,000
Broadband Adoption	\$20,000,000
Public Housing	\$25,000,000
Tribal Technical Assistance	\$5,000,000
<b>Total:</b>	<b>\$645,000,000</b>

#### 1. CASF Revenues Collected as of June 30, 2022

The CASF collected and earned approximately \$59.8 million in Fiscal Year (FY) 2021-22 and accumulated a total revenue of approximately \$552.1 million since inception of the program in 2008. A summary of collected revenues is presented in the following table.

**Table 3: CASF Revenues Collected as of June 30, 2022**

Revenues	FY 2008-21	FY 2021-22	Total, as of 06/30/2022
Regulatory Fees	\$474,120,481	\$58,535,063 <sup>10</sup>	\$532,655,544
Investment Income	\$18,106,025	\$1,419,527 <sup>11</sup>	\$19,525,552
Other Revenue	\$44,556	-\$96,334 <sup>12</sup>	-\$51,778
<b>Total Revenues:</b>	<b>\$492,271,062</b>	<b>\$59,858,256</b>	<b>\$552,129,318</b>

<sup>9</sup> Includes the \$5 million budget for the Infrastructure Revolving Loan Account, which was eliminated by Assembly Bill 1665 as of January 1, 2018.

<sup>10</sup> Regulatory Fees includes prior year (PY) revenue adjustments.

<sup>11</sup> Investment Income includes interest from \$60 million GF interfund loan per 2020 Budget Act item 8660-011-3141.

<sup>12</sup> “Other Revenue” of net -\$96,334 is made up of \$9,666 from PY Operating Transfers from Coronavirus Relief Fund 8506 per Executive Order (EO) E 20/21-251 CS 11.90 and -\$106,000 from revised EO E21/22 276.

## 2. CASF Expenditure and Fund Balance in Fiscal Year 2021-22

The following table presents expended funds for each of the CASF accounts as of June 30, 2022. The expenses in the table are grouped into three major categories:

- Local Assistance – payments to grantees for approved CASF projects and services;
- State Operations – staff salaries and benefits, travel, training, consultant services, and administrative overhead costs, etc.; and,
- State Operations of Other State Agencies – statewide general administrative expenditures and supplemental pension payments, etc.

In FY 2021-22, the CASF expended approximately \$25.5 million in funds and expended a total of approximately \$248.6 million since inception of the program as presented in the following table.

**Table 4: CASF Funds Expended and Fund Balance as of June 30, 2022**

Account	FY 2008-21	FY 2021-22	Total as of 06/30/2022
Infrastructure Grant Account – Local Assistance	\$161,323,771	\$16,787,491	\$178,111,262
Infrastructure Grant Account – State Operations	\$19,699,820	\$2,068,455	\$21,768,275
State Operations - Other State Agencies	\$3,461,029	\$441,179	\$3,902,208
Infrastructure Grant Account Sub Total	\$184,484,620	\$19,297,125	\$203,781,745
Infrastructure Line Account – Local Assistance	\$5,241	\$198,425	\$203,666
Infrastructure Line Account – State Operations	\$393,943	\$291,004	\$684,947
Infrastructure Line Account Sub Total	\$399,184	\$489,429	\$888,613
Consortia Grant Account – Local Assistance	\$13,721,963	\$970,044	\$14,692,007
Consortia Grant Account – State Operations	\$2,306,663	\$577,507	\$2,884,170
Consortia Grant Account Sub Total	\$16,028,626	\$1,547,551	\$17,576,177
Pub. Housing Grant Account – Local Assistance	\$11,667,892	\$227,768	\$11,895,660
Pub. Housing Grant Account – State Operations	\$2,085,341	\$826,432	\$2,911,773
Pub. Housing Account Sub Total	\$13,753,233	\$1,054,200	\$14,807,433
Adoption Grant Account – Local Assistance	\$7,263,241	\$1,832,782	\$9,096,023
Adoption Grant Account – State Operations	\$1,181,717	\$553,763	\$1,735,480
Adoption Account Sub Total	\$8,444,958	\$2,386,545	\$10,831,503
Tribal Technical Assistance – Local Assistance		\$589,600	\$589,600
Tribal Technical Assistance – State Operations		\$137,471	\$137,471
Tribal Technical Assistance Sub Total	\$0	\$727,071	\$727,071
<b>Total CASF Funds Expended:</b>	<b>\$223,110,621</b>	<b>\$25,501,920</b>	<b>\$248,612,541</b>

As of June 30, 2022, CASF retained a net fund balance in excess of \$135.8 million as presented in the following table.

**Table 5: Status of CASF Fund Balance as of June 30, 2022**

	FY 2008-2021	FY 2021-2022
<b>Beginning Fund Balance</b>	\$0	<b>\$209,160,442</b>
<b>Total Source of Funds</b>	\$492,271,062	<b>\$59,858,256</b>
<b>Total Disbursement of Funds</b>	-\$223,110,620	<b>-\$25,501,920</b>
<b>Interfund Loan<sup>13</sup></b>	-\$60,000,000	<b>\$60,000,000</b>
<b>Available Fund, Ending</b>	\$209,160,442	<b>\$303,516,778</b>
<b>Outstanding Encumbrances<sup>14</sup></b>	-\$108,068,515	<b>-\$167,633,213</b>
<b>Net Ending Fund Balance:</b>	<b>\$101,091,927</b>	<b>\$135,883,565</b>

### 3. Decision 22-10-021, Surcharge Mechanisms

The CPUC collects CASF funds along with funding for five other Universal Service Public Purpose Programs (PPPs)<sup>15</sup> through surcharges assessed on intrastate telecommunications services, which is commonly referred to as the billing base. On March 4, 2021, the CPUC initiated an Order Instituting Rulemaking 21-03-002 to address the need for a sustainable and cost-effective method to fund the PPPs. The current funding mechanism for PPPs is not sustainable due to the continuing decline of the billing base being reported by service providers. Rulemaking 21-03-002 sought to implement a straightforward and flexible structure for service providers to collect and remit surcharges to support the PPPs.

On October 24, 2022, the CPUC approved Decision 22-10-021 adopting a new surcharge mechanism to fund PPPs.<sup>16</sup> The new mechanism assesses a surcharge rate based on the number of active access lines<sup>17</sup> that a telephone corporation<sup>18</sup> operates in California. The Decision also approved an interim access line surcharge rate of \$1.11 to be allocated among the six PPPs as presented in the following table<sup>19</sup> effective April 1, 2023, until the CPUC updates the rate using its resolution process.<sup>20</sup>

<sup>13</sup> Per 2020 Budget Act item 8660-011-3141, \$60 million was transferred as a loan to the State's General Fund in FY 2020-21. This \$60 million loan was repaid in full in FY 2021-22.

<sup>14</sup> Outstanding encumbrances include outstanding commitments related grants, contracts, and/or unfulfilled purchase orders which will subsequently be recognized as expenditures when goods and services are received.

<sup>15</sup> They include California High-Cost Fund A (CHCF-A), California High-Cost Fund B (CHCF-B), California Teleconnect Fund (CTF), Deaf and Disabled Telecommunications Program (DDTP), and Universal Lifeline Telephone Service (ULTS).

<sup>16</sup> Assurance, MetroPCS, Sprint Spectrum, and T-Mobile West filed a primary injunction in federal court challenging Decision 22-10-021 which authorizes the \$1.11 PPP surcharge.

<sup>17</sup> Decision 22-10-021, at page 21, defines "Access Line" as "a wire or wireless connection that provides a real-time two-way voice telecommunications service or VoIP service to or from any device utilized by an end user, regardless of technology, which is associated with a 10-digit NPA-NXX number or other unique identifier and a service address or Place of Primary Use in California."

<sup>18</sup> "Telephone corporation" is defined in Pub. Util. Code Section 234.

<sup>19</sup> Decision 22-10-021, page 61.

<sup>20</sup> Decision 22-10-021, Ordering Paragraph 8.

**Table 6: New Access Line PPP Surcharge Distribution**

Program Name	Weighted Percent of Authorized Budget
CHCF-A	7.54%
CHCF-B	0.00%
ULTS	53.99%
DDTP	9.62%
CTF	16.04%
CASF	12.82%
<b>Total:</b>	<b>100.00%</b>

Based on directives set forth in Decision 22-10-021, the following table presents the development of CASF projected annual surcharge revenue under the new surcharge mechanism.

**Table 7: Projected CASF Annual Revenue under New Surcharge Mechanism**

Source: Staff Report-Part 2 from Rulemaking 21-03-002 <sup>21</sup>	
Annual Billing Intervals	12
Subscribers	56,954,043
Lifeline Access Lines, Exempted	-1,634,339
Net Subscribers	55,319,704
Total Access-Lines	663,836,448
Source: Decision 22-10-021	
Projected monthly per-access line surcharge	\$1.11
Expected Annual Revenue for All PPP Funds	\$736,858,457
Allocation Factor for CASF	12.82%
Projected Annual Revenue for CASF	\$94,465,254

Furthermore, Decision 22-10-021 directs service providers to continue reporting their billing base through the existing Telecommunications & User Fees Filing System (TUFFS).<sup>22</sup> The following table will be maintained in the legacy TUFFS to facilitate fund payment and applicable surcharge rates until the new mechanism takes effect.

<sup>21</sup> Staff Report – Part 2 (Rulemaking 21-03-002): [draft-staff-report-part-2-publish.pdf \(ca.gov\)](https://www.ca.gov/draft-staff-report-part-2-publish.pdf)

<sup>22</sup> Per Decision 22-10-021, page 62, “starting April 1, 2023, carriers are directed to report and remit PPP surcharges through the new TUFFS portal and to follow all directions in the new TUFFS.”

**Table 8: PPP Surcharge Rates Embedded in Legacy TUFFS**

Program Name	Remittance Rate Percent on Billing Base
CHCF-A	0.70%
CHCF-B	0.00%
ULTS	4.75%
DDTP	1.11%
CTF	0.78%
CASF	1.019%
<b>Total:</b>	<b>8.359%</b>

#### **4. Projected Annual CASF Revenue**

Pub. Util. Code section 281.1, codified by Assembly Bill 14 (Stats. 2021, Ch. 658, Sec. 2, effective October 8, 2021) states, “Beginning January 1, 2022, the CPUC may impose the surcharge pursuant to paragraph (4) of subdivision (d) of Section 281 to fund the California Advanced Services Fund pursuant to Section 281 until December 31, 2032.”

Pub. Util. Code section 281 subsection (d)(4) was codified by Senate Bill 4 (Stats. 2021, Ch. 671, Sec. 2, Effective October 8, 2021) stating, “For the period described in Section 281.1, the CPUC may collect a sum not to exceed one hundred fifty million dollars (\$150,000,000) per year.”

Since the projected revenue under the new surcharge mechanism is less than \$150 million, the new surcharge mechanism adopted in Decision 22-10-021 is consistent with Pub. Util. Code sections 281.1 and 281(d)(4). Based on the current authorized surcharge rate, until further revision by the Commission, the following table presents the projected revenue to be collected each year through December 31, 2032.

**Table 9: Surcharge Revenue and Estimated Collection Through December 31, 2032**

Fiscal Year	Projected Surcharge Revenue
<b>FY 2022-23<sup>23</sup></b>	\$65,800,321
<b>FY 2023-24<sup>24</sup></b>	\$94,465,254
<b>FY 2025-26</b>	\$94,465,254
<b>FY 2026-27</b>	\$94,465,254
<b>FY 2027-28</b>	\$94,465,254
<b>FY 2028-29</b>	\$94,465,254
<b>FY 2029-30</b>	\$94,465,254
<b>FY 2030-31</b>	\$94,465,254
<b>FY 2031-32</b>	\$94,465,254
<b>FY 2032-33 (July – Dec 2032)</b>	\$47,232,627
<b>Total:</b>	<b>\$868,754,982</b>

<sup>23</sup> FY 2022-23 projected revenue is based on a) current mechanism embedded in TUFFS for reporting periods July 2022 through March 2023 based on actual monthly average of July-November 2022, and b) new mechanism for reporting periods April through June 2023 pursuant to the projected revenue reported in Staff Report – Part 2 (<https://www.cpuc.ca.gov/-/media/cpuc-website/divisions/communications-division/documents/high-cost-support-and-surcharges/r-21-03-002/draft-staff-report-part-2-publish.pdf>, at page 20).

<sup>24</sup> Projected revenue for FY 2023-24 and thereafter is based on the new surcharge mechanism. (<https://www.cpuc.ca.gov/-/media/cpuc-website/divisions/communications-division/documents/high-cost-support-and-surcharges/r-21-03-002/draft-staff-report-part-2-publish.pdf> at page 20). The adopted per access line surcharge of \$1.11 will continue until the CPUC updates the rate in a subsequent resolution.

## B. Served and Unserved Areas of the State

Existing statute defines an unserved household as one for which no facility-based provider offers broadband service at speeds of at least 25/3 Mbps. Only unserved locations are eligible for CASF Infrastructure grants. The latest data available as of December 31, 2021, indicate that 93.3 percent of California households have access to fixed (wireline and fixed wireless) broadband service at speeds of 25/3 Mbps and above.

This 93.3 percent is a decrease from 97.4 percent reported in the previous CASF Annual Report. This decrease results from collecting more granular location level deployment and subscription data from providers to determine broadband availability. In previous years, the data were collected at the census block level, but beginning in 2022, the CPUC is collecting location level deployment and subscription data to determine the served status of individual broadband serviceable locations, rather than census blocks. The collected deployment data are processed, validated, and mapped on the CPUC's California Interactive Broadband Map available at <https://www.broadbandmap.ca.gov/>.

### 1. Broadband Availability in Rural and Urban Areas of the State

The table below provides percentages of served and unserved households in California using 2020 Census urban/rural designation. It shows that 84.5 percent of rural households have access to broadband at or above 25/3 Mbps speeds, whereas 93.9 percent of households in urban areas have access at or above 25/3 Mbps. The data show that the Digital Divide between rural and urban areas widens as the speeds increase.

**Table 10: Percentage of Total Households with Broadband Availability**

CALIFORNIA Public Utilities Commission			STATE of CALIFORNIA Fixed Consumer Broadband Availability				
Speed Benchmarks (Mbps)	Percentage of Total Households with Broadband Availability			Unserved Households			Maximum Advertised Speeds As of December 31, 2021
	Urban	Rural	Statewide	Number of Unserved Households	Urban	Rural	
>=10/1	96.4%	89.9%	96.0%	458,813	79,752	538,565	3.6%
>=25/3	93.9%	84.5%	93.3%	776,188	121,791	897,979	6.1%
>=100*	91.3%	69.6%	90.0%	1,109,588	238,198	1,347,786	8.7%

*Sources:*  
Broadband deployment data collected from Internet Service Providers and validated by the California Public Utilities Commission. Household data is based on the 2020 United States Census.

*\*This benchmark measures broadband speeds at 100 Mbps downstream and at any upstream speeds (i.e., no filter was used for upstream speeds, only downstream)*

See Attachment A for additional data on broadband availability at the county level.

**93.3 percent of California households have access to wireline or fixed wireless broadband service at 25/3 Mbps or above as of December 2021.**

## C. Progress in Meeting Broadband Deployment Goals

The table below provides the percentages of served and unserved households by consortium as of December 31, 2021. Served households receive broadband speeds of at least 25/3 Mbps or above, while unserved households receive speeds less than 25/3 Mbps. Priority unserved households receive speeds less than 10/1 Mbps. The table below shows that the Bay Area and the East Bay Consortium Regions meet the 98 percent goal.

**Table 11: Remaining Unserved Households in Each Consortium Region**

Consortium	All Households (CA DoF 1/1/2022)	Maximum Advertised Speeds As of December 31, 2021					
		Served Households (Speeds are at least 25 Mbps down AND 3 Mbps up)		Unserved Households (Speeds less than 25 Mbps down OR 3 Mbps up AND greater than 10 Mbps down AND 1 Mbps up)		Priority Unserved Households (Speeds less than 10 Mbps down OR 1 Mbps up)	
		Number	Percent	Number	Percent	Number	Percent
<b>California</b>	<b>13,612,650</b>	<b>12,706,784</b>	<b>93.3 %</b>	<b>362,517</b>	<b>2.7 %</b>	<b>543,349</b>	<b>4.0 %</b>

Household data are based on the California Department of Finance, January 1, 2022 estimates.

(An enlarged version of Table 10 is available in Attachment A)

## D. Broadband Adoption Levels

The table on the following page provides broadband adoption levels for each county as of December 31, 2021. The subscription data collected from providers at the address level is aggregated to the census block level and from there to the county level for the purposes of displaying adoption of broadband service in the below table. Providers report adoption levels as part of their submission as consumer connections,<sup>25</sup> instead of households.

Pursuant to recent legislation, including Senate Bill (SB) 156, SB 4, SB 28, Assembly Bill (AB) 41, and AB 2752, codified in Pub. Util. Code sections 281 subsection (b)(4), 281.6 and 5895, the CPUC is authorized to collect information from broadband service providers. Specific to video franchise holders, the CPUC is directed to collect data at a more granular level (on the actual locations served by the holder of a state franchise).<sup>26</sup> Given the increasing statewide and national focus on the necessity of more granular data for broadband deployment, adoption, and affordability, the CPUC instituted a more granular data collection from broadband providers in order to identify actual locations served (at the address level).

Map 2 depicts broadband adoption by county at minimum speeds of 25/3 Mbps as of December 31, 2021.

Figure 1: San Jerardo Co-op student flips the switch to celebrate gaining access to high-speed internet with the completion of the San Jerardo Housing Cooperative Line Extension Project. September 7, 2022, Salinas, California.

<sup>25</sup> Consumer connections include subscriptions to housing units, including unoccupied housing units.

<sup>26</sup> Pub. Util. Code, § 5895 (a).

## Broadband Infrastructure Grant Account

As of December 2022, the Infrastructure Account had a total approved budget of \$560 million, not inclusive of the Line Extension Program, to provide grants to eligible applicants to deploy broadband to unserved households.

### A. Infrastructure Grants in 2022

As a result of multiple legislative actions that resulted in changes to the Infrastructure Account and [Executive Director's letter](#)<sup>27</sup> from December 23, 2021, the CPUC did not have an application cycle nor approve any new infrastructure projects in 2022. The letter postponed the Infrastructure Account application deadline from 2021 through 2022 due to the opportunity to leverage funding from the Federal Communications Commission's (FCC) Rural Digital Opportunity Fund (RDOF).

The CPUC approved additional funding for Plumas-Sierra Telecommunications' Lake Davis Project in the amount of \$1,658,198 and for a Rural Digital Opportunity Fund (RDOF) "kicker" project with Anza Electrical Cooperative in the amount of \$205,125.

### B. Infrastructure Funds Expended in 2022 and Expected Benefits

The CPUC made approximately \$14.8 million in payments in 2022 for previously approved infrastructure projects. Table 12 lists the payments made for specific projects. The expected benefits of funds expended in 2022 can be expressed as the number of households that will receive broadband access. An estimated 13,538 potential households are expected to receive broadband access from the payments to projects that are listed in the following table. The grantees for these projects will provide service based on agreed-upon pricing plans for a minimum of two years, in addition to waiving installation fees, in accordance with CASF rules.<sup>28</sup>

**The CPUC made \$14.8 million in payments to 18 projects in 2022. These projects will provide broadband access to an estimated 13,538 households.**

18	Weimar Project	Frontier California, Inc.	Placer	Complete	\$479,495
<b>Total:</b>					<b>\$14,852,188</b>

**C. Total Infrastructure Projects Awarded Since 2008**

The CPUC has awarded \$341.8 million to fund 105 broadband infrastructure projects (not including six withdrawn projects totaling \$7,404,819) since the beginning of the program in 2008 through December 31, 2022. The 105 projects include last-mile, hybrid,<sup>29</sup> and middle-mile projects that provide (or will provide) broadband access to 321,692 estimated potential households.

**Table 14: Total CASF Infrastructure Projects Awarded 2008 – 2022<sup>30</sup>**

	Approved Projects	Completed	Ongoing	Amount Awarded	Estimated Potential Households*
<b>Last-Mile</b>	75	53	22	\$159,001,413	59,822
<b>Middle-Mile</b>	7	6	1	\$53,618,954	256,808
<b>Hybrid</b>	23	7	16	\$129,211,838	5,062
<b>Totals:</b>	105	66	39	\$341,832,305	321,692

\*Based on estimated potential households provided in the CPUC resolutions and letters approving projects.

<sup>29</sup> Hybrid projects are last-mile projects that include middle-mile infrastructure.

<sup>30</sup> Funding for projects withdrawn by grantees is not included.

Map 3: Locations of All CASF Approved Projects as of December 31, 2022

## 1. Project Subscriptions as of December 31, 2022

The CPUC is required to report the number of formerly unserved households subscribed to broadband in CASF project areas.<sup>31</sup> The CPUC collects this information through annual data requests to Infrastructure grantees for all last-mile and hybrid projects. Altogether, the provided data indicated that as of December 31, 2022, there were a total of 34,525 subscribers to completed CASF projects. Attachment B provides the household subscriptions (both projected and actual) for each completed last-mile or hybrid project as well as project funding and status.

## 2. Cost per Household as of December 31, 2022

The CPUC is required to report the cost per household for each Infrastructure project.<sup>32</sup>

Attachment B provides the cost per household of each project as of December 31, 2022. The table below shows the average cost per household for all approved last-mile, middle-mile, and hybrid projects. The cost per household is calculated by dividing the total amount awarded by the total estimated potential households in the project. However, this amount does not reflect the full cost of connecting a household as the CASF awards did not subsidize 100 percent of project costs prior to the passage of Assembly Bill 1665.

**Table 15: Average Cost Per Household of CASF Projects**

Approved Projects	Total Amount Awarded	Total Estimated Potential Households*	Average Cost per Household
Last-Mile 75	\$159,001,413	59,822	\$2,658
Middle-Mile 7	\$53,618,954	256,808	\$208
Hybrid 23	\$129,211,838	5,062	\$25,525

\* Based on estimated potential households provided in the CPUC resolutions/letters approving projects.

## D. Rural Digital Opportunity Fund

Pub. Util. Code, section 914.7(m) requires the CPUC to provide "...[a]dditional details on efforts to leverage non-California Advanced Services Fund moneys." In 2021, the CPUC published rules for the CASF-RDOF "Kicker" Funding Initiative and the "Nearby" RDOF-Funded Project Initiative processes, in Decision 21-01-003. The Decision also set program rules and solicited applications for CASF funding to supplement up to \$2 billion under the Federal Communications

*Figure 3: The San Jerardo Housing Cooperative (customer provided equipment)*

<sup>31</sup> Pub. Util. Code, § 914.7(j).

<sup>32</sup> Pub. Util. Code, § 914.7(h).

Commission's Rural Digital Opportunity Fund (RDOF) program. To further deployment of broadband and realize universal service goals, the CPUC created the Kicker funding program, that utilized existing CASF funds to promote universal service goals for broadband.

In December 2022, the CPUC approved a CASF-RDOF Kicker grant in the amount of \$205,125 for the Connect Anza Phase III Project. The approved project will deploy last mile broadband infrastructure to 959 households in Riverside County.

Additional information on the program is displayed graphically on the California RDOF Map (FCC Rural Digital Opportunity Fund – Phase I Results) at: <https://www.broadbandmap.ca.gov/federalfunding/>.

## E. Line Extension Program

The Line Extension Program (LEP) is a program within the Broadband Infrastructure Grant Account that subsidizes the cost of connecting an individual household or property to an existing or proposed facility-based broadband provider.<sup>33</sup> The program was established by AB 1665, which provided a total funding allocation of \$5 million, and was implemented by Decision 19-04-022.

In September 2021, the CPUC approved funding for Cruzio Media Inc. to build a line extension project to serve 53 extremely low-income residences (average annual income of \$14,359) and two community buildings at the San Jerardo Farmworkers Cooperative near Salinas (Monterey County). The total award of \$292,548 provides internet access to 250 permanent residents and up to 100 additional seasonal farmworkers. The historic employee-owned housing cooperative, located in a remote agricultural region near Salinas, has faced innumerable infrastructure challenges. In addition to the lack of broadband service, the cooperative cannot rely on safe drinking water. This project was completed in September 2022 and provides crucial connectivity for adult residents, a daycare and community center, and enables approximately 70 school-aged students to stay connected with their classwork and studies.

Figure 4: The San Jerardo Housing Cooperative (location of a line extension grant)

<sup>33</sup> Pub. Util. Code, § 281(f)(6).

The following table provides details on the LEP grants awarded as of December 31, 2022.

**Table 16: Grants Awarded for Line Extension Projects**

	Project Name	Payment Recipient	County	Completion Status	Payment
1	Arias Line Extension	Audeamus, dba Sebastian	Fresno	Completed Dec 2020	\$5,230
2	San Jerardo Housing Cooperative	Cruzio Media Inc.	Monterey	Completed Sep 2022	\$292,548
	<b>Total:</b>				<b>\$297,778</b>

## Rural and Urban Regional Broadband Consortia Grant Account

The Consortia Account provides grants to eligible consortia to facilitate broadband deployment by assisting CASF infrastructure grant applicants in the project development or grant application process or assisting broadband deployment projects related to programs created under SB 156 and AB 164.<sup>34</sup> On May 19, 2022, the CPUC adopted Decision 22-05-029, which made programmatic changes to the Consortia Account including allocating \$10.71 million in funding for Fiscal Year 2022-23.<sup>35</sup> The Decision also modified Consortia Account rules, including expansion of allowable consortia activities, increasing the annual maximum funding cap, and clarifying consortia regional boundary requirements.

Since inception, the CPUC has awarded consortia grants in five solicitations to date - in 2011, 2016, 2019, 2020, and 2021. Further, Map 1 of this report illustrates the distribution of the 17 consortia regions both currently and previously funded by county. Four of the 58 counties have not been represented by a regional consortium. They are San Francisco, San Mateo, Santa Clara, and Orange counties.<sup>36</sup>

The CASF funds grantees for the following consortia activities consistent with Pub. Util. Code section 281:<sup>37</sup>

- Collaborating with the CPUC and other state agencies to engage regional consortia, local officials, internet service providers, stakeholders, and consumers regarding priority areas and cost-effective strategies to achieve the broadband access goal.
- Identifying potential CASF infrastructure projects or potential broadband deployment

*Figure 5: City of Isleton, Connected Capital Area Broadband Consortium has been working closely with the city, the Delta Protection Commission, and Sacramento and Yolo counties to initiate an infrastructure project.*

<sup>34</sup> Pub. Util. Code, § 281.

<sup>35</sup> In addition to the \$10.71 million, the Consortia Account was previously authorized \$25 million.

<sup>36</sup> On June 1, 2022, the Communications Division sent a letter to the CASF Distribution soliciting Consortia grant applications for all regions starting in January 2023. Applications were due on July 15, 2022. Subsequently, the CPUC approved fifteen awards on January 12, 2023, to facilitate the deployment of broadband services by assisting CASF infrastructure grant applicants in the project development or grant application process or assisting broadband deployment projects related to programs created under SB 156 and Assembly Bill (AB) 164.

<sup>37</sup> The CPUC approved Decision 18-10-032 adopting revised rules and guidelines for the Consortia Account.

projects related to new programs created under SB 156 and AB 164, along with other opportunities, where providers can expand and improve their infrastructure and service offerings to achieve the goal of reaching 98 percent broadband deployment in each consortia region.

- Assisting potential CASF infrastructure applicants or potential applicants for broadband deployment projects related to the new programs created under SB 156 and AB 164 in the project development or grant application process.
- Conducting activities that will lead to or that can be reasonably expected to lead to CASF infrastructure projects or broadband deployment projects related to new programs created under SB 156 and AB 164, including but not limited to the following examples of allowable activities:
  - Supporting project permitting activities.
  - Engaging local government officials and communities to better understand and explain regional broadband needs and solutions and providing technical assistance to such entities.
  - Conducting an inventory of public assets (e.g., rights-of-ways, publicly owned towers, public utility poles, equipment housing, publicly owned property) and aggregate demand, including speed tests and the identification and updates of priority areas.
- Assisting the CPUC in publicizing requests for wireline testing volunteers in areas, as needed.
- Assisting the CPUC in promoting broadband deployment in California, related to the Federal Funding Account and other programs including Middle-Mile, Broadband Loan Loss Reserve, and Local Agency Technical Assistance created under SB 156 and AB 164.

## A. Consortia Grants Applications Received in 2022

On June 1, 2022, the CPUC released a new solicitation to accept applications representing all regions starting in January 2023. From this solicitation, the CPUC received fifteen applications with approximately \$10,333,173 in total requested funding. Subsequently, the CPUC approved fifteen awards on January 12, 2023, for this round.<sup>38</sup>

The following table provides a list of these fifteen applications. These projects are expected to facilitate broadband deployment by assisting CASF infrastructure applicants in project development or the grant application process or assisting broadband deployment projects related to programs created under SB 156 and AB 164 in the respective consortia regions.

**Table 17: Consortia Account, 2022 Cycle Applications Received**

Consortium	Geographic Area
Broadband Consortium of the Pacific Coast	San Luis Obispo, Santa Barbara, and Ventura counties
Central Coast Broadband Consortium	Monterey, Santa Cruz, and San Benito counties
Connected Capital Area Broadband Consortium	Sacramento, Sutter, Yolo, and Yuba counties
Central Sierra Economic Development District/Broadband Utility Zone	Tuolumne, Calaveras, Amador, Mariposa, and Alpine counties
Gold Country Broadband Consortium	Sierra, Nevada, Placer, and El Dorado counties
Inland Empire Regional Broadband Consortium	San Bernardino and Riverside counties
Inyo-Mono Broadband Consortium	Inyo and Mono counties
Los Angeles Digital Equity Action League Consortium	Los Angeles County.
North Bay/North Coast Broadband Consortium	Mendocino, Marin, Napa, and Sonoma counties
Northeastern California Connect Consortium	Butte, Lassen, Modoc, Plumas, Shasta, Siskiyou, and Tehama counties
Redwood Coast Connect Broadband Consortium	Humboldt, Del Norte, and Trinity counties
San Joaquin Valley Regional Broadband Consortium	San Joaquin, Stanislaus, Merced, Madera, Fresno, Kings, Tulare, and Kern counties
Southern Border Broadband Consortium	San Diego and Imperial counties.
Tahoe Basin Project	Tahoe Basin area in Placer and El Dorado counties.
Upstate California Connect Consortium	Glenn, Colusa, and Lake counties

<sup>38</sup> Resolution T-17778, issued January 12, 2023.

## B. Consortia Funds Expended in 2022

The CPUC disbursed \$1,019,677 to the consortia in 2022, including \$133,701 to 2016 cycle projects, \$809,872 to 2019 cycle projects, and \$76,104 to 2021 cycle projects. The following table shows the payments in 2022 and total payments, as of December 31, 2022, to the consortia groups approved for funding.

**Table 18: Consortia Account, 2016, 2019 & 2021 Cycle Disbursement Summary**

	Consortium	Payments in CY 2022	Total Paid as of 12/31/22
1	Broadband Consortium of the Pacific Coast	\$133,695	\$623,071
2	Central Coast Broadband Consortium	\$0	\$310,861
3	Central Sierra Connect Consortium	\$0	\$249,000
4	Connected Capital Area Broadband Consortium	\$149,893	\$723,800
5	East Bay Broadband Consortium	\$0	\$262,490
6	Eastern Sierra Connect Consortium	\$0	\$65,513
7	Gold Country Broadband Consortium	\$55,232	\$489,232
8	Inland Empire Broadband Consortium	\$124,224	\$724,223
9	Inyo-Mono Broadband Consortium	\$0	\$53,277
10	Los Angeles County Regional Broadband Consortium	\$0	\$594,543
11	North Bay/North Coast Broadband Consortium	\$0	\$503,933
12	Northeast California Connect Consortium	\$0	\$317,047
13	Northeastern California Connect Consortium	\$113,167	\$113,167
14	Redwood Coast Connect Consortium	\$142,498	\$338,039
15	San Joaquin Valley Regional Broadband Consortium	\$0	\$60,330
16	Southern Border Broadband Consortium	\$123,700	\$233,070
17	Tahoe Basin Projects	\$0	\$233,285
18	Upstate California Connect Consortium	\$101,158	\$392,590
19	LA Digital Equity Action League Consortium	\$76,104	\$76,104
	<b>Total:</b>	<b>\$1,019,677</b>	<b>\$6,363,583</b>

## C. Consortia Account Benefits

For 2022, the disbursements to consortia groups were for the following activities:

- Identifying potential CASF infrastructure projects, along with other opportunities, where providers can expand and improve their infrastructure and service offerings to achieve the CASF program goal.
- Providing information and data about broadband availability and demand aggregation to local broadband providers and informing them about the CASF funding opportunity.
- Inventorying regional broadband assets or mapping broadband availability in the area.
- Collaborating with the Commission to engage regional consortia, local officials, ISPs, stakeholders, and consumers regarding priority areas and cost-effective strategies to achieve the broadband access goal.

To assess Consortia Account output, staff sent consortia grantees a data request on January 6, 2023, requesting outcomes of consortia deployment efforts in 2022. The following provides a summary of the responses.

- All 12 active consortia grantees responded detailing their efforts in deployment, as shown in Attachment C.
- 10 of the 12 consortia receiving Consortia grants reported that they worked on potential CASF broadband deployment projects in 2022.

### 1. Consortia Account Performance Metrics

The following table summarizes Consortia Account broadband deployment performance metrics by consortia group,<sup>39</sup> including the number of CASF line extension applications submitted, the number of CASF infrastructure applications submitted,<sup>40</sup> and priority areas identified in 2022. In 2022, consortia grantees continued to facilitate the deployment of broadband services by identifying priority areas and assisting potential CASF broadband deployment projects.

Figure 6: "Fiber in the Forest", Nevada County Fiber Inc. demonstrates to the Rural County Representatives of California, the Central Data Center and underground & fire safe deployment of 25 underground FTTH connections in one of rural Nevada County's most challenging build areas.

<sup>39</sup> Based on performance metrics reported by Consortia grantees.

<sup>40</sup> No CASF infrastructure applications were submitted by consortia groups due to the CASF Infrastructure Account not having an application cycle open in 2022.

**Table 19: Consortia Account Performance Metrics – CASF Line Extension and Infrastructure Applications Assisted<sup>41</sup>**

Consortia / Project Name	Counties Represented	CASF Line Extension and Infrastructure Applications Assisted												# of Project Permitting Activities Supported	# of Volunteers Recruited		
		# of Funding Years	Approved Grant Amount	Per Year Cost	# of CASF Line Extension Applications Assisted and Submitted to date			# of CASF Infrastructure Applications Assisted and Submitted to date			# of Potential CASF Broadband Deployment Projects Identified*

## D. Total Consortia Grants Awarded Since Inception

As of December 31, 2022, the Consortia Account has awarded approximately \$18.7 million since the beginning of the program.<sup>42</sup> It includes all grants awarded in the prior cycles (2011, 2016, 2019, 2020, and 2021). In addition, the CPUC hosted regional consortia learning community summits and CASF public workshops. The Consortia Account reimbursed consortia members \$74,683 for participating in these summits and workshops as of December 31, 2022.<sup>43</sup>

See Attachment D for a list of all grants awarded to consortia in the five cycles. The table below lists the active consortia grants as of December 31, 2022.

**Table 20: List of Active Consortia Grants as of December 2022**

	Consortium	Counties	Active Grant(s)
1	Broadband Consortium of the Pacific Coast	San Luis Obispo, Santa Barbara, Ventura	2019 Cycle Grant
2	Central Coast Broadband Consortium	Monterey, Santa Cruz, San Benito	2019 Cycle Grant
3	Connected Capital Area Broadband Consortium	Sacramento, Sutter, Yolo, Yuba	2019 Cycle Grant
4	Gold Country Broadband Consortium	Sierra, Nevada, Placer, El Dorado, Eastern Alpine	2019 Cycle Grant
5	Inland Empire Regional Broadband Consortium	San Bernardino, Riverside	2019 Cycle Grant
6	Los Angeles Digital Equity Action League Consortium	Los Angeles	2021 Cycle Grant
7	North Bay/North Coast Broadband Consortium	Mendocino, Marin, Napa, Sonoma	2019 Cycle Grant
8	Northeast California Connect Consortium	Butte, Lassen, Modoc, Plumas, Shasta, Siskiyou, Tehama	2019 Cycle Grant
9	Redwood Coast Connect Broadband Consortium	Humboldt, Del Norte, Trinity	2019 Cycle Grant
10	San Joaquin Valley Regional Broadband Consortium	San Joaquin, Stanislaus, Merced, Madera, Fresno, Tulare, Kings, and Western Kern	2020 Cycle Grant
11	Southern Border Broadband Consortium	San Diego, Imperial	2020 Cycle Grant
12	Tahoe Basin Project	Lake Tahoe Basin Area	2020 Cycle Grant
13	Upstate California Connect Consortium	Glenn, Colusa, Lake	2019 Cycle Grant

<sup>42</sup> The \$17.01 million includes approved Consortia awards as of December 31, 2022. The \$17.01 million does not include \$10.33 million new Consortia awards approved under Resolution T-17778 in January 2023. In addition, the \$17.01 million does not include incurred and future state operations.

<sup>43</sup> No additional workshop travel reimbursement in 2022. Due to the COVID-19 pandemic, in-person travel to attend the CASF workshop is not required.

## Broadband Adoption Account

Eligible applicants for the Adoption Account are local governments, senior centers, schools, public libraries, nonprofit organizations (inclusive of public housing nonprofit organizations), and community-based organizations with programs to increase publicly available or after-school broadband access and digital inclusion, such as digital literacy training programs.

The Adoption Account provides funding for two types of projects:

- **Digital Inclusion:** Projects providing digital literacy training and public education to communities with limited broadband adoption including low-income communities, senior communities, and communities facing socioeconomic barriers to broadband adoption.
- **Broadband Access:** Projects providing free broadband access in community training rooms or other public space, such as local government centers, senior centers, schools, public libraries, non-profit organizations, and community-based organizations, as well as funding community outreach, such as analysis, comparison of Internet plans and call centers that will increase broadband access and adoption.

In Decision 22-05-029 (issued May 24, 2022), the CPUC allocated approximately \$20 million to the Adoption Account for FY 22-23 to provide grants for digital inclusion and broadband access projects.<sup>44</sup>

**The Adoption Account approved 74 projects in 2022 awarding approximately \$5.9 million in total grant funding.**

*Figure 7: "Many students that have taken the DLW (Digital Literacy Workshop) were hesitant to even touch a computer because they were scared, they would do something wrong or break it... they have gained the confidence and knowledge of basic computer usage and are experts with logging onto Zoom now."*

*--San Jose Public Library Family Learning Center Coordinator*

<sup>44</sup> Prior to the passage of SB 156 in 2021, the Adoption Account was authorized \$20 million by the Legislature to provide grants for digital inclusion and broadband access projects. Funding was fully committed at the end of the January 1, 2021, application cycle. There were no application cycles in July 2021 or January 2022.

## A. Adoption Grants Awarded in 2022

The Adoption Account had one application window in July 2022. The CPUC approved 74 projects via ministerial review totaling \$5,922,406 in grants.<sup>45</sup> Remaining applications from the July 2022 cycle will be considered in 2023. The following table provides a summary of the approved projects.

**Table 21: Summary of Approved Projects in 2022**

	Digital Literacy	Broadband Access	Call Center	Total Approved
<b>Projects</b>	69	4	1	
<b>Funding</b>	\$5,568,974	\$302,182	\$51,250	<b>\$5,922,406</b>

Attachment E lists the projects approved in 2022 and projects approved since the account inception in 2018. It provides details including project name, grantee, project location, grant amount, payments made, and completion date (if applicable). The following table specifies grants by county.

**Table 22: Grants by County in 2022**

County	Grant Amount
Alameda	\$566,754
Contra Costa	\$93,236
Del Norte	\$143,100
Fresno	\$382,020
Glenn	\$143,100
Humboldt	\$143,100
Imperial	\$143,100
Lake	\$143,100
Los Angeles	\$99,502
Marin	\$338,165
San Bernardino	\$2,247,140
San Diego	\$228,760
San Francisco	\$99,653
Santa Clara	\$567,819
Siskiyou	\$143,100
Stanislaus	\$69,557
Tehama	\$143,100
Trinity	\$143,100
Yolo	\$85,000
<b>Total:</b>	<b>\$5,922,406</b>

*Figure 8: CASF Adoption Account Center for Elders' Independence digital literacy project*

<sup>45</sup> 75 projects were approved through ministerial review with award letters issued on September 23, 2022. One awardee chose not to accept the award.

## B. Adoption Account Funds Allocated and Expended in 2022

The CPUC continued to reimburse for previously approved Adoption Account projects. The following table shows that the CPUC expended \$2,112,746 in funding across 22 counties in 2022.

**Table 23: Funds Expended by County in 2022**

County	Payments
Alameda	\$212,628
Contra Costa	\$136,094
Fresno	\$27,136
Kern	\$23,560
Los Angeles	\$380,596
Madera	\$55,019
Marin	\$2,499
Merced	\$30,584
Multiple	\$370,101
Nevada	\$20,630
Orange	\$8,029
Riverside	\$32,416
San Bernardino	\$423,400
San Diego	\$9,680
San Francisco	\$48,336
San Joaquin	\$39,521
San Mateo	\$4,251
Santa Clara	\$204,872
Santa Cruz	\$1,949
Sonoma	\$10,512
Stanislaus	\$28,168
Tulare	\$42,764
<b>Total:</b>	<b>\$2,112,746</b>

*Figure 9: Adoption Account City of South San Francisco Digital Literacy Project*

## C. Adoption Account Benefits

The Adoption Account benefits can be expressed as the number of people receiving training through the digital literacy projects and the number of people provided broadband access through the broadband access projects. Staff sent grantees data requests to identify the number of people who have benefited from projects.<sup>46</sup> A summary of the data collected is provided below. These numbers will continue to increase as most of the projects are still in progress.

- 1. Digital Literacy:** 22,050 people completed eight hours or more of digital literacy training and 13,004 new broadband subscriptions from the 243 in progress or completed projects awarded as of December 31, 2022.
- 2. Broadband Access:** 110,447 people were provided broadband access and 9,173 new broadband subscriptions from the 33 in progress or completed projects awarded as of December 31, 2022.
- 3. Broadband Call Center:** 14,608 new broadband subscriptions resulted from six in progress or completed projects awarded as of December 31, 2022.

Grantees were also asked how their funded projects helped participants increase employment prospects, connect to others, access the Internet securely, access educational resources, and helped participants access health and government services. Of the 48 grantees who responded, 95.8 percent of the grantees stated that their projects helped participants access the Internet securely and 93.8 percent of the grantees stated that their projects helped participants access educational resources, and helped participants connect to others. Smaller percentages of grantees responded affirmatively to questions on if participants were assisted in helping participants access government and health services (79.2 percent and 72.9 percent, respectively). Increasing participants' employment prospects received the lowest number of affirmative responses from grantees, at 66.7 percent of grantees responding affirmatively.

---

<sup>46</sup> Staff sent out requests to 66 grantees with ongoing projects approved before 2022 and received responses from 50 grantees. Staff acquired project information for 15 grantees who did not respond by referring to recently provided reports. There is no participation information from one grantee (follow-up emails were not responded to). Grantees are not obligated to report.

## D. Total Adoption Account Projects Awarded

Since inception, the CPUC has approved a total of 243 Adoption Account Digital Literacy projects, 32 Adoption Account Broadband Access projects, and 6 Call Center projects throughout California. Of the Digital Literacy projects approved, 13 are completed and 230 are in progress. Of the 32 Broadband Access projects approved, 16 are completed and 16 are in progress. Of the six Call Center projects approved, two are completed and four are in progress.

**Table 24: CASF Adoption Account Grants Summary (As of 12/31/2022)**

Calendar Year	Grant Type	Projects Submitted	Funding Requested	Projects Awarded <sup>47</sup>	Total Awarded <sup>48</sup>	Payments
Pre-2022	Digital Literacy	263	\$17,199,407	174	\$7,179,519	\$1,134,670
	Broadband Access	40	\$4,556,136	28	\$1,068,934	\$338,450
	Call Center	6	\$5,090,889	5	\$3,421,193	\$1,273,665
2022	Digital Literacy	89	\$16,252,987	69	\$5,568,974	\$1,491,116
	Broadband Access	5	\$517,264	4	\$302,182	\$219,113

## Broadband Public Housing Account

---

The Broadband Public Housing Account (Public Housing Account) provides grants and loans to build broadband networks offering free broadband service for residents of low-income communities. The current Public Housing Account rules were implemented by Senate Bill (SB) 156. SB 156 revised Public Housing Account grant eligibility requirements to provide grants for broadband connectivity to low-income communities including but not limited to, publicly supported housing developments, farmworker housing, and other housing developments or mobile home parks with low-income residents, as determined by the CPUC.

Prior to SB 156, from program inception in 2015 through December 2020, the Public Housing Account provided grants for broadband connectivity and adoption in publicly supported housing communities (PSCs). During this period, eligible applicants were limited to PSCs that are wholly owned by a public housing agency or an incorporated non-profit organization (501(c)(3)s that have received public funding to subsidize housing construction or maintenance costs of housing occupied by residents whose annual income qualifies as “low” or “very low” according to federal poverty guidelines. The funds issued from 2015-2020 were allocated into two portions.

- Infrastructure Projects: \$20 million in grant funding to finance infrastructure projects connecting PSCs with Internet.
- Adoption Projects: \$5 million in grant funding to finance broadband adoption projects for residents in PSCs.

With the passage of SB 156, the CPUC issued Decision 22-05-029 on May 19, 2022, to implement the changes to the Public Housing Account and programmatic changes for publicly supported housing developments including farmworker housing and allocated \$15 million funding for Fiscal Year 2022-23. Broadband adoption projects in public housing are no longer funded through the Public Housing Account but can instead be funded through the CASF Broadband Adoption Account.

The following sections detail the Public Housing Account grants awarded and funds expended in 2022 and detail the first round of grants awarded under the new Decision rules.

## A. Public Housing Grants Awarded in 2022

The CPUC held its first application cycle for the Public Housing Account post-SB 156 in July 2022. The Public Housing Account received 19 applications. The table below highlights the 19 applications approved in 2022 under the new rules.

**Table 25: Public Housing 2022 Application Cycle**

CASF Public Housing Account	In 2022		Since 2008	
	Total Projects	Total Awarded	Total Projects	Total Awarded
	19	\$1,398,593	469	\$15,339,219

Attachment F1 and F2 list all projects approved since the Public Housing Account's inception in 2015. These attachments provide project details including project name, grantee, project location, grant amount, payments made, and completion date or projected completion date.

## B. Public Housing Account Funds Expended in 2022

The CPUC continued to reimburse for previously approved Public Housing Account projects. The table below shows that the CPUC expended approximately \$165,220 in funding across four counties in 2022. All payments made in 2022 were to previously funded projects.

**Table 26: Fund Expended by County in 2022**

County	Payments
Alameda	\$82,154
Fresno	\$21,600
Los Angeles	\$6,000
San Francisco	\$54,865
<b>Total</b>	<b>\$165,220</b>

## C. Public Housing Account Benefits

### 1. Infrastructure Projects

Under rules prior to SB 156, the 307 completed infrastructure projects (out of 322 awarded) provide free broadband connectivity to 20,443 public housing units, at an average cost of \$422 per housing unit.<sup>52</sup>

Figure 10: Students at Union Towers, a Housing Authority of the City of Los Angeles.

<sup>52</sup> Grantees may charge up to \$20 per month for broadband service (Decision 20-08-005, Section 1.11, Proposed Pricing). No grantees are known to charge residents for the service.

Completed projects are expected to provide residents Internet service speeds of at least 6 Mbps downstream and 1.5 Mbps upstream.

Under the new SB 156 rules, all projects will provide free broadband connectivity and provide residents with Internet service speeds at an increased rate of 25 Mbps downstream and 3 Mbps upstream.

The Public Housing Account subsidizes project costs for inside wiring installation and equipment required for inside network (both wired and wireless) construction; maintenance or operational costs such as the ongoing cost of an ISP circuit are not subsidized.

The CPUC requires grantees to maintain the installed networks for a five-year period after project completion and to report network performance information.<sup>53</sup> Further, the CPUC requires grantees to submit quarterly post-completion network services performance reports for five years that provide the percentage of uptime,<sup>54</sup> the number of unique log-ons by individuals,<sup>55</sup> and the amount of data used.<sup>56</sup>

## 2. Adoption Projects

The table below summarizes previously funded Public Housing Account Adoption Project participation and costs. The 115 completed adoption projects (out of 128 awarded) provided digital literacy training to 5,435 public housing residents (the total resident population for all completed project locations is 23,047). The total average cost is \$6,999 per resident trained. Grantees are required to provide project outcomes including the number of residents trained and the number of residents trained who subscribe to broadband. Of those who completed the digital literacy training, 93 percent subscribe to broadband.

**Table 27: Summary of Project Participation and Costs**

Projects Completed	Total Awarded	Total Payments	Total Residents	Residents Trained	Percent of Total Residents Trained	Percent Trained that Subscribe to Broadband	Average Cost per Resident Trained
115	\$3,797,234	\$3,158,708	23,047	5,454	24%	86%	\$579

See Attachment K for completed projects costs and participation as of December 31, 2022.

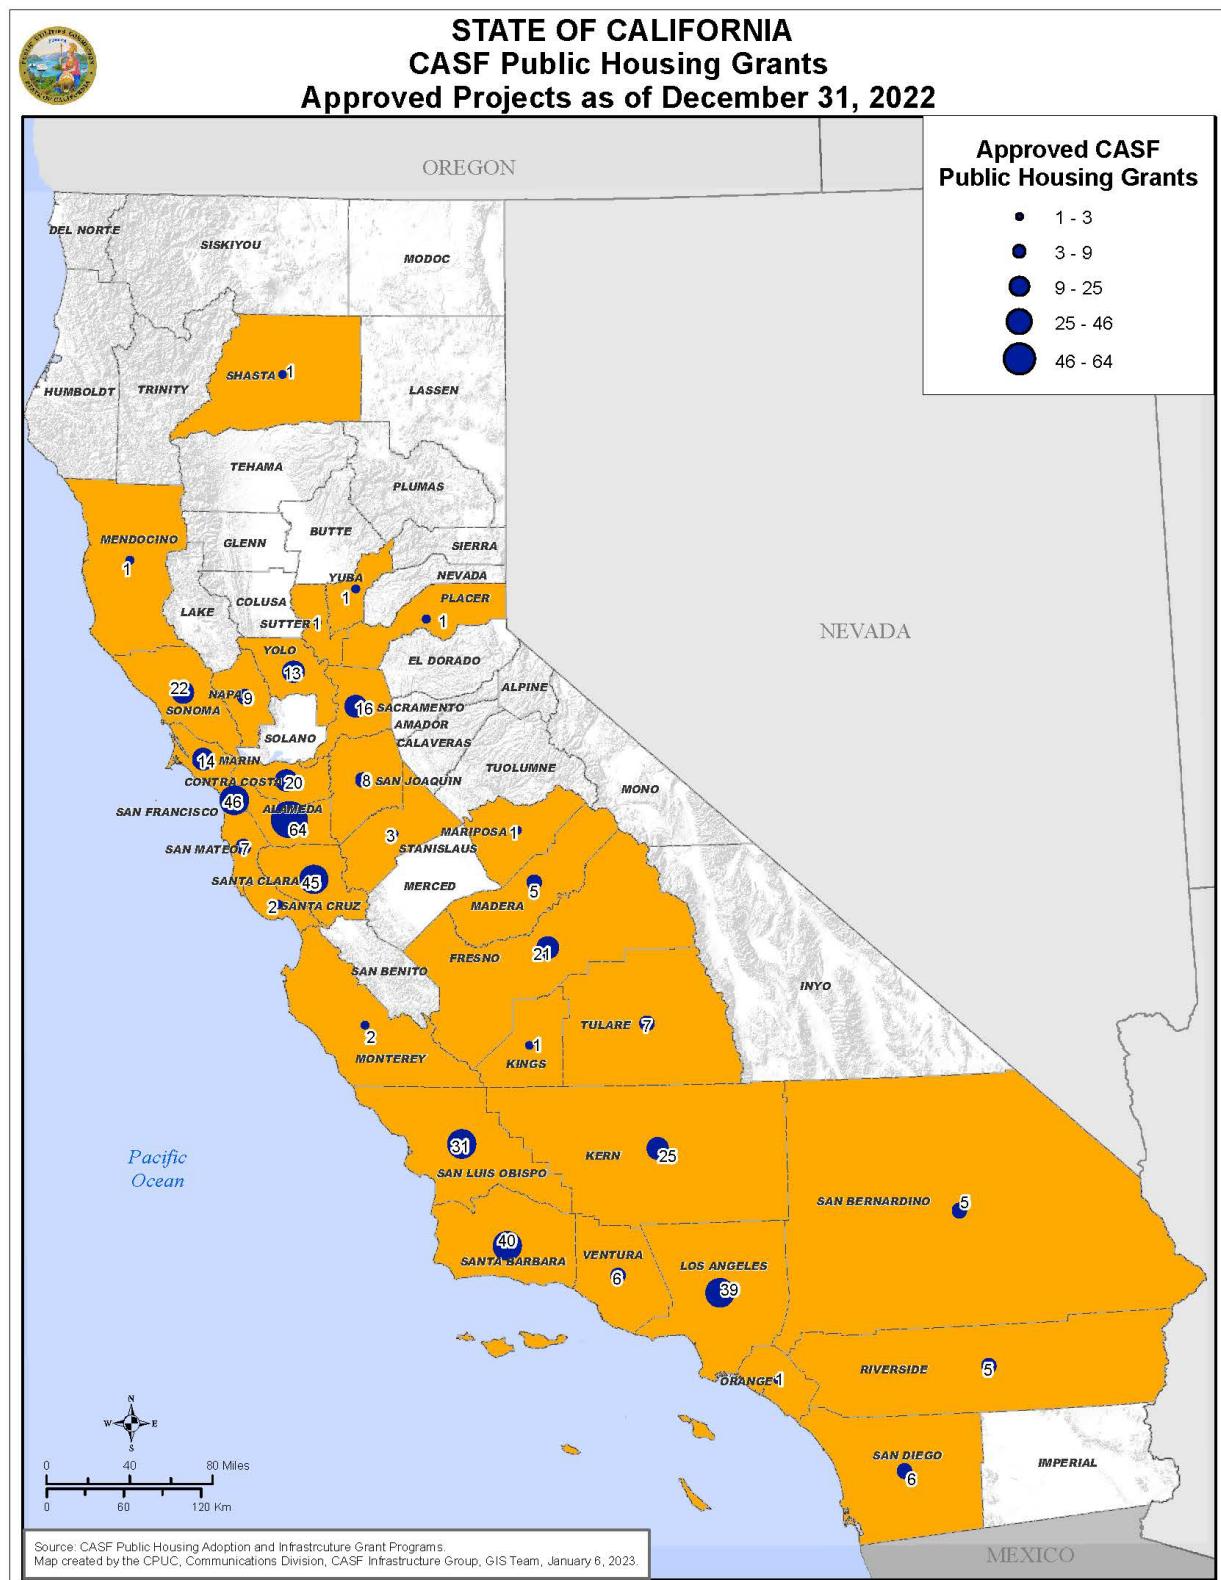

<sup>53</sup> Decision 20-08-005, Section IX, 'Project Status and Reporting', Decision 22-05-029, Section VIII, 'Project Status and Reporting',

<sup>54</sup> The time or percentage the network services are up and operational.

<sup>55</sup> The number of individual devices that have logged-in and accessed the network in a month to use the Internet.

<sup>56</sup> Data usage occurs whenever an individual stream, download, upload, use apps, or open browsers.

Map 5: Location of All Approved Public Housing Account Projects

## D. Total Public Housing Account Projects Awarded

Since 2015, the CPUC has approved a total of 341 Public Housing Account infrastructure projects and 128 Public Housing Account adoption projects throughout California. Of the 341 infrastructure projects approved, 322 were approved in the cycles between 2015 and 2022. Of the 322 infrastructure projects approved, 307 are completed and 15 are in progress (these projects were delayed due to the COVID-19 safety restrictions). Of the 128 adoption projects approved, 115 are completed and 13 are in progress. These in progress projects were often halted and picked up again due to COVID-19 safety restrictions as common areas used for on-site instruction closed and some projects have had to shift to digital training methods.

**Table 28: CASF Public Housing Grants Summary (As of 12/31/2022)**

Calendar Year	Grant Type	Projects Submitted	Total Funding Requested	Projects Awarded	Total Awarded*	Payments
Pre-2022	Infrastructure	496	\$15,159,273	322	\$9,269,606	<b>\$8,671,768</b>
	Adoption	169	\$6,170,389	128	\$4,671,020	<b>\$3,134,141</b>
2022	Infrastructure	19	\$1,398,593	19	\$1,398,593	<b>\$28,200</b>
	Adoption	0	\$0	0	\$4,671,020	<b>\$137,020</b>
<b>Totals</b>	Infrastructure	515	\$16,557,866	341	\$10,668,199	<b>\$8,699,968</b>
	Adoption	169	\$6,170,389	128	\$4,671,020	<b>\$3,271,161</b>
	<b>Total:</b>	<b>684</b>	<b>\$22,728,255</b>	<b>469</b>	<b>\$15,338,219</b>	<b>\$11,971,129</b>

## E. 2022 Public Housing Data Request

As a part of a larger data request and an effort to gather information on the socioeconomic benefits of funded projects, we requested that past grantees respond to an inquiry related to the impact of their funded project. Grantees were asked if their residents had been impacted in any of the following ways:

- Increasing employment prospects
- Accessing educational resources
- Accessing health services
- Accessing government services
- Accessing the Internet securely
- Learning how to connect to others

Staff sent out data requests to 56 past grantees and received 16 responses, 15 of which are represented below in the table. The 16th response, from Oakland Housing Authority, did not respond to the questions for their site, but asked the question to 28 of their residents and received 28 individualized responses. The following two tables represent these responses.

**Table 29: CASF Public Housing Grants Socio-Economic Benefits Summary**

Socio-Economic Benefits	Yes	No	Unknown
Increasing employment prospects	62%	7%	31%
Accessing educational resources	96%	1%	3%
Accessing health services	76%	1%	24%
Accessing government services	71%	1%	28%
Accessing the Internet securely	84%	7%	9%
Learning how to connect to others	68%	1%	31%

**Table 30: Oakland Housing Authority – Resident Responses**

Socio-Economic Benefits	Yes	No	Unknown
Increasing employment prospects	46%	46%	7%
Accessing educational resources	89%	11%	n/a
Accessing health services	71%	25%	4%
Accessing government services	54%	46%	n/a
Accessing the Internet securely	86%	11%	4%
Learning how to connect to others	89%	11%	n/a

## Tribal Technical Assistance Grant Program

In Decision 20-08-005, the CPUC established the Tribal Technical Assistance Grant Program<sup>57</sup> to provide grants to California Tribes to support Tribal broadband needs and increase access. The CPUC adopted guidelines that established quarterly application windows, eligibility, performance, and payment requirements for technical assistance grants. The CPUC authorized up to \$5,000,000 in CASF state operations funds for technical assistance grants up to \$150,000 per fiscal year per Tribe. California Tribes, with or without federal recognition, that demonstrate Tribal leadership are eligible for technical assistance grants. In Decision 22-05-029, the CPUC allotted an additional \$2,000,000 in CASF state operations funds for the Tribal Technical Assistance Grant Program.

Eligible applicants<sup>58</sup> can request funding for the following types of technical assistance, including but not limited to:

- Feasibility Studies;
- Market Studies; and/or,
- Business Plans

**The Tribal Technical Assistance Grant Program approved 31 projects in 2022 awarding approximately \$3.1 million in total grant funding.**

### A. Tribal Technical Assistance Grants Awarded

The CPUC held its first application window starting on October 1, 2020. The CPUC awarded 31 grants to 23 Tribes totaling approximately \$3,070,800 for feasibility studies, market studies, and business plans in 2022. Since the program's inception, 61 grants have been awarded to 32 tribes for a total funding allocation of approximately \$4,949,350. The Tribes have up to 24 months to complete their projects. See Attachment L for a list of funded projects.

### B. Tribal Technical Assistance Program Benefits

These grants were designed to advance the goals of Pub. Util. Code section 281 by providing technical assistance to California Tribes to develop market studies, feasibilities studies, and/or business plans which support Tribes in their pursuit of improved communications. Each approved applicant has attested to advancing the CASF program goals and other program criteria as specified in Decision 20-08-005.

<sup>57</sup> Decision 20-08-005 at pp. 15-17 and Appendix 1 established rules and eligibility criteria for the Tribal Technical Assistance Grant.

<sup>58</sup> Eligible applicants are California Tribes with or without federal recognition, that demonstrates Tribal Leadership support, such as a letter from the Tribal Administrator, chair, or council. (Decision 20-08-005, Appendix 1, p. 3.)

Map 6: Tribal Technical Assistance Grantees

## Federal Funding Account

---

On July 20, 2021, Governor Gavin Newsom signed Senate Bill (SB) 156 into law. Among other things, SB 156 created the Federal Funding Account (FFA). SB 156 directs the CPUC to use state or federal moneys deposited into the FFA to expeditiously connect unserved and underserved communities via last-mile broadband infrastructure. SB 156 further states that the CPUC must allocate one billion dollars (\$1,000,000,000) to urban counties and one billion dollars (\$1,000,000,000) to rural counties. The CPUC must initially allocate five million dollars (\$5,000,000) in each county and the remaining moneys based on each county's proportionate share of the households without access to broadband internet access service with at least 100 megabits per second download speeds.

In 2022, the CPUC issued Decision 22-04-055 implementing FFA rules and guidelines and setting county funding allocations pursuant to SB 156. The Decision outlined scoring criteria and directed staff to identify areas eligible for FFA funding. In late 2022, the CPUC continued to establish program framework, including development of an online grant portal, in preparation for accepting applications in 2023. In December, staff released the draft Priority Areas Public Map and data. The CPUC received feedback from stakeholders on the map regarding unserved locations, equity considerations, and underlying map data. In response to this feedback, the CPUC is working on updating underlying data to better reflect the number of unserved locations, awarding 20 points to applicants based only on disadvantaged community indicators, and removing pre-defined priority areas. Additional information regarding these updates and projected timeline can be found here <https://www.cpuc.ca.gov/ffapriorityareas> and additional information about the FFA can be found at <https://www.cpuc.ca.gov/federalfundingaccount>.

## Sources:

Broadband deployment data collected from Internet Service Providers and validated by the California Public Utilities Commission.

Household data is based on the California Department of Finance, January 1, 2022 estimate.

<sup>1</sup>Under Resolution T-17550 - ESCRBC maintains a three-county region even though responsibility for broadband development in Inyo and Mono counties is currently being managed by a sub-regional consortium, the Inyo Mono Broadband Consortium.

## Attachment B: CASF Infrastructure Account Projects as of December 2022

<sup>†</sup> Primarily a middle mile project approved prior to CASF rule changes pursuant to AB 1665.

<sup>\*</sup> Based on the project completion report (no data received).

<sup>1</sup> Some projects are approved through the Ministerial Review process and are denoted with "Min. Review"

<sup>2</sup> Projects are categorized as last-mile, middle-mile (MM), or hybrid. Hybrid projects are last-mile projects that include middle-mile infrastructure.

<sup>3</sup> Award amounts reflect changes (e.g., supplemental funding awarded) made after original project approval.

<sup>4</sup> Household estimates are from CPUC resolutions approving projects.

<sup>5</sup> Cost per household for each project is calculated by dividing the total award by the estimated potential households.

<sup>6</sup> Subscription data for Last Mile and Hybrid projects gathered via data requests issued to award recipients. Middle Mile and projects not completed are indicated as such.

<sup>7</sup> Completion dates reflect when the CPUC received the completion report. Actual project construction may have completed prior to the completion report.

---

<sup>65</sup> Based on data from 2021.

<sup>66</sup> Based on data from 2021.

## Attachment C: Consortia Account Reported Benefits Funded by CASF

### Outcomes in Deployment

#### 1. Broadband Consortium of the Pacific Coast

- Hosted 10 Broadband Consortium Advisory meetings with tri-county stakeholders from local governments, private industry, internet service providers, and consumers.
- Hosted webinars on Programmatic EIR, and Funding Landscape for Broadband Deployment. Sent weekly email newsletters providing updated information.
- Continued to support the following projects in an advisory role: Ventura County Middle Mile Network planning groups, Santa Barbara County North County Fiber Ring Project, and San Luis Obispo County North County Strategic Plan.
- Identified preferred last mile pilots that align with locally identified communities of need: Ventura County: Saticoy; Santa Barbara County: Guadalupe, Casmalia, Los Alamos, and Cuyama
- Supported potential application planning and vetting for Digital West/Astound and Cox Communication, Comcast.
- Supported project permitting activities. Hosted a webinar for municipalities on Permitting Best Practices.
- Engaged local government officials and communities to better understand and explain regional broadband needs and solutions. Attended monthly economic development roundtable meetings with local government officials and business leaders.
- Conducted an inventory of public assets (e.g., rights-of-ways, publicly owned towers, public utility poles, equipment housing, publicly owned property) and aggregate demand, including speed tests and the identification and updates of priority areas.

#### 2. Central Coast Broadband Consortium

- Provided support to internet service providers (ISPs) and local agencies. Worked with supervisors in all counties to focus on priority projects; conducted meetings regularly with San Benito County task force and Rotary partners to gain traction on potential broadband projects.
- Met with local governments, regional agencies, and ISPs to discuss potential CASF infrastructure projects for 16 priority areas tentatively identified: San Juan Bautista, Buena Vista, San Jerardo, Pajaro Valley, Bonny Doon, Davenport, East Garrison, Seaside, Greenfield Commons, Mills Ranch King City, Camphora, San Benito-San Juan Canyon, San Benito-Aromas, Strawberry Road in N. Monterey County, and Miles Lane-Watsonville.
- Completed market analysis with the latest data available from CPUC. Provided priority areas to all ISPs in the region.
- Assisted with GIS support for one middle-mile project: Cruzio middle-mile project.
- Convened CCBC official meetings, and met with six cities, three counties, and five ISPs regarding federal and state funding opportunities. Assessed highest-need areas with local governments. Explored options through foundations and public sources to supplement CASF funding.
- Established a partnership with Golden State Connect Authority to create a municipal broadband network for all residents.
- Assisted with the completion of the San Jerardo line extension farm working co-op project.

### 3. Connected Capital Area Broadband Consortium

- Convened meetings with elected officials, county administrators, city managers, CIOs, planners, public works directors, economic development, and other senior leadership representing four counties and cities within the region to share updated deployment and adoption data and status updates on State funding and program efforts and identify priority unserved and unserved areas.
- Assisted the California Department of Technology and California Governor's Office of Business and Economic Development (GO-Biz) with input and guidance for its permitting survey for local jurisdictions.
- Prepared issues papers on regional broadband issues, gaps, challenges, and priorities for the region's Prosperity Strategy and Capital to Capital program to share with the legislative delegation and federal agencies including the National Telecommunications and Information Administration (NTIA) and Federal Communications Commission (FCC), in coordination with CPUC.
- Conducted consultations with four counties and nine of the jurisdictions to review broadband speed maps, adoption data, and potential planning and infrastructure resources and validate high-priority areas and potential infrastructure projects.
- Consulted with the Sacramento Area Council of Governments (SACOG), as well as the League of California Cities Sacramento Valley Division, on priority infrastructure projects.
- Met with the Corporation for Education Network Initiatives in California (CENIC) to discuss inventory of assets and collaboration on middle and last-mile deployment.
- Consulted with SACOG, ISPs, and local public utilities, including Sacramento Metropolitan Utility District (SMUD), on potential assets for infrastructure deployment.
- Met with thirteen ISPs on an ongoing basis (i.e., AT&T, Frontier Communications, Comcast, Omsoft, T-Mobile, Entry Point, Digital Path, Race Communications, KwikBit, Succeed Net, Spiral Fiber, Crown Castle, and Google Fiber) to provide information on underserved communities, review maps and deployment data, share information on CASF application requirements to get ready for the next funding cycle, and obtained information on their assets and potential project plans, while facilitating consultation and connections with local jurisdictions.
- Continued working with a local government coalition (i.e., the City of Isleton, counties of Sacramento and Yolo, and the Delta Protection Commission) and several providers to identify project funding for this high-need underserved Delta community and other communities in the Delta.
- Met with the City of Sacramento and Crown Castle on its permitting processes on a periodic basis.
- Assisted Sacramento Metropolitan Utility District (SMUD) on permit processing challenges with ISPs on pole attachment applications, especially for 5-G deployment.
- Disseminated to local jurisdictions through consultation meetings on the "Getting Connected: A Broadband Deployment and Adoption Resource Guide for Local and Regional Government Leaders," prepared by Valley Vision. Prepared case studies on innovative models including new partnerships being developed by various jurisdictions in the region and across the state.
- Collaborated on a statewide webinar hosted by the League of California Cities, including CPUC and NTIA, on permitting strategies, policy ordinances, and best practices for local governments, as well as updates on state and federal broadband planning and resources.
- Distributed broadband availability maps for four counties, including served and unserved areas at standards of 6/1 Mbps, 25/3 Mbps, 100/20 Mbps, and 1Gbps/500 Mbps. Maps and data were provided to local jurisdictions, ISPs, CBOs, and institutional partners, in consultation with each to identify broadband gaps and priorities and identify assets (i.e., towers, antennas, rights of way).

- Proactively promoted CalSPEED tests through e-newsletters, social media, webinars, and meetings with broadband stakeholders. Conducted ongoing distribution of digital flyers with CalSPEED information and stressed the importance of speed testing.

#### **4. Gold Country Broadband Consortium**

- Released blogs, social media blasts, E-news, and updated website info to educate the public, ISPs, government agencies, and other stakeholders about broadband deployment opportunities, including funding, grants, and legislation updates.
- Met with 17 active ISPs across the region to identify various infrastructure projects, and provided support, feedback, and cost-effective strategies for deployment.
- Worked with all counties to further develop priority areas and criteria to determine projects that are best suited for future CASF versus non-CASF funded projects, including county-funded and municipal-owned developments.
- Initiated research and development of the Placer County Strategic Broadband Plan. Updated the Nevada County Strategic Plan to include accomplishments and reset goals and objectives for the 2023 Plan.
- Supported emerging ISPs, reviewed business plans, and provided contacts and resources for pending CASF grant infrastructure projects. Provided ongoing outreach, support, resources, networking, application assistance, and legislative updates.
- Supported ISPs in identifying priority areas, understanding revised CASF guidelines, and upcoming alternative funding opportunities.
- Participated in a monthly county and regional broadband working group to support continued broadband expansion efforts and prioritize county-wide broadband policies.
- Supported CPUC in updating California Broadband Interactive Map through promoted speed tests, and conducting surveys and community outreach, including phone interviews.
- Promoted wireline volunteer testing opportunities through consortium blogs, E-News, and the GCBC website. Partnered with multiple counties to develop and launch speed tests and internet service surveys with interactive live GIS maps including ISPs, speeds, and customer satisfaction.

#### **5. Inland Empire Regional Broadband Consortium**

- Updated the Inland Empire Broadband Plan identifying the following priority unserved areas in need of broadband deployment in the Inland Empire region.
- Updated the Inland Empire Preferred Scenario for unserved households report, which provides a gap analysis to reach the State's 98% broadband deployment goal in Riverside and San Bernardino Counties.
- Assisted the California Middle Mile Network/GoldenStateNet in the inclusion of the Coachella Valley Association of Government (CVAG) broadband project, as well as the two locations (one each) in San Bernardino and Riverside counties, in the first phase of the California Middle Mile Network deployment project.
- Inventoried Inland Empire County Fairgrounds as they are used for emergency evacuation services during wildfires and other disaster events in the region, and could help aggregate broadband demand, especially in unserved areas.
- Assisted 13 ISPs with potential CASF Infrastructure Grant applications.
- Assisted one ISP with one potential CASF Line Extension Grant application.
- Provided information to Caltrans about broadband permitting improvements for broadband deployment in their right-of-way.

- Provided information to the Southern California Association of Governments (SCAG) to help jurisdictions improve broadband permitting processes.
- Participated in the SoCal Transformation Digital Divide Group which helped unify stakeholders, ISPs, cities, all 7 counties in the Southern California region, including Riverside and San Bernardino Counties, regional governments, SCAG, the San Diego Association of Governments (SANDAG), and Regional Broadband Consortia around improved broadband deployment and access including broadband permit streamlining, dig-once policies, CASF Infrastructure grants, and other broadband grant opportunities.

## 6. Los Angeles Digital Equity Action League Consortium

- Convened Consortium Stewardship Group, comprised of sub-regional representatives across Los Angeles County, and met five times to identify emerging infrastructure deployment opportunities including the Los Angeles County Community Wireless Network, Mobile Home Park (MHP) Utility Conversion Program opportunities, relevant CPUC and CASF updates, GoldenStateNet middle-mile network developments, and solutions to existing permitting challenges.
- Conducted a series of presentations with regional stakeholders that provided an overview of the digital divide in Los Angeles County, including GIS maps that detailed the available speeds, levels of broadband access, the number of service providers per census block, and available fiber to the home.
- Hosted 12 infrastructure task force meetings on a monthly basis that were attended by various regional stakeholders including local governments, internet service providers, education providers, community-based organizations, and other regional stakeholders to discuss broadband infrastructure developments in Los Angeles County and explore potential opportunities for collaboration between public and private partners.
- Coordinated a bi-weekly LA DEAL Action Team meeting with GoldenStateNet to provide relevant regional updates to inform the State's proposed middle-mile route in Los Angeles County. These meetings provided the opportunity to update the third-party administrator on proposed last-mile projects, and strategic corridors for infrastructure deployment, and to provide introductions on behalf of the GSN team to relevant LA DEAL partners.
- Hosted the inaugural LA DEAL Summit to elevate the innovative efforts of local leaders to leverage municipal assets, build new relationships and collaborative opportunities across local and state agencies, and support and inform the state's Digital Equity Plan.

## 7. North Bay North Coast Broadband Consortium

- Conducted strategic plan & needs assessment and action plan & governance analysis to identify potential CASF infrastructure projects and engaged local government officials and communities to better understand and explain regional broadband needs and solutions.
- Assisted with project Development with public/private partnerships for potential CASF infrastructure projects.
- Collaborated with CPUC and engaged with Local Governments.
- Worked on improvement in regional asset inventory & assistance in wireline testing, as needed.

## 8. Northeastern California Connect Consortium and Upstate California Connect Consortium

- Sent broadband updates to 3,173 contacts to share information about the consortium's role in facilitating broadband expansion and collaboration across the North State.
- Distributed the California Local Broadband Permitting Survey information in a quarterly newsletter.

- Held quarterly ISP Roundtables to engage ISPs across the 10-county region of NECC and UCCC. ISPs in attendance included AT&T, Comcast, Lake County Broadband Solutions, and Plumas Sierra Telecom.
- Coordinated with regional tribes for broadband expansion. Continued engagement across the U.S. Economic Development Administration (EDA) grant service area and through participation as a member of the Rural Counties Representatives of California (RCRC) Broadband Steering Committee, California Stewardship network partner, Broadband for All initiative, Group Lead for Ensuring Broadband for All, California Broadband Council, and Middle Mile Advisory committee.
- Met/held conference calls with supervisors and staff of counties of Butte, Lassen, Modoc, Shasta, Siskiyou, Plumas, Tehama, Glenn, Colusa, and Lake, to discuss broadband efforts including CASF infrastructure grant projects, implementing policies to support broadband deployment, identify new areas for possible deployment, and broadband service/speed validation.
- Provided supporting economic and demographic data for local ISP CASF funding applications.
- Updated assessment of regional deployment based on CPUC broadband data. Created various maps, including county-served status maps using the 25 Mbps download/3 Mbps upload standard, county CASF and United States Department of Agriculture (USDA) eligibility maps, and ArcGIS online map for comparison of unserved areas versus the Broadband 4 All draft network proposal.
- Continued assessment based on current and future deployments. Introduced ISPs to new areas where they have not worked previously. Assisted ISPs with previously submitted applications: updated data, letters of support, and other requests for resubmittal for further consideration for CASF. Monitored CASF funds, budget-related items, and resubmittal process information and provided information to ISPs and regional partners.
- Continued outreach about the CASF application process and rules, maps of eligible areas, along with other relevant data/information that assisted ISPs to carry out business assessments for potential project applications.
- Continued inventory of public assets.
- Continued CalSPEED outreach by developing social media campaign to promote the CalSPEED app and Home Study. Facilitated volunteer sign-ups.

## **9. Redwood Coast Connect Broadband Consortium**

- Assisted Vero Communication with permitting and stakeholder engagement that helped lead to the CPUC adoption of Resolution T-17766, adopting the Environmental Assessment and Initial Study Mitigated Negative Declaration in compliance with the California Environmental Quality Act and approves the issuance of a notice to proceed for the Digital 299 Broadband Project.
- Conducted a series of meetings with stakeholders and industry leaders online. In total, conducted 30 stakeholder advisory meetings.
- Helped Assemblymember Jim Wood host a meeting between Secretary Amy Tong, California Government Operations Agency, and staff from the Middle-Mile Broadband Initiative with leadership from our five regional Tribes.
- Coordinated meetings with Industry partners, local government, and Tribal leadership.
- Held virtual presentations to municipalities and service clubs on CASF opportunities and implementation of policies to ease permitting.

## **10. San Joaquin Valley Regional Broadband Consortium**

- Conducted ongoing communication with ISPs, local governments, county offices of education, the Rural County Representatives of California, California Partnership for the San Joaquin Valley, San

Joaquin Valley Rural Development Center, Fresno Coalition for Digital Inclusion, Coalition for Digital Health Equity, Fresno State SmartFarm University, San Joaquin Valley Housing Collaborative, and other nonprofits to discuss funding opportunities, as well as areas of need.

- Worked with seven preferred providers, including AT&T, Frontier, Comcast, Sebastian, Unwired, Cal.net, and Vast, on the Technical Advisory Committee for the consortium. Signed a Cooperative Agreement with the providers to identify unserved and underserved San Joaquin Valley communities. The agreement includes how to best utilize current technology to future-proof service in rural communities, suggested funding source(s), estimated cost per mile for deployment for each of the selected areas, identify anchor institutions, the number of underserved and unserved residents, and be willing to partner with the consortium and community-based partners to provide these essential services.
- Identified a future proof broadband plan that includes collaborative regional planning amongst municipalities, including joint development of middle-mile municipal networks and sharing of data to identify priority areas within communities.
- Conducted meetings with ISPs, local governments, the California Emerging Technology Fund (CETF), and Governor's office. Provided mapping data and guidance to relevant entities in the region. Analyzed funding streams for local agencies as well as ISPs.
- Continued participation in the Digital Equity Coalition weekly meetings led by CETF, comprised of regional broadband Consortia, community-based organizations, and Digital Equity Champions (i.e., California School Boards Association and EveryoneOn).
- Collaborated with agencies and ISPs. Participated in the planning of the California Economic Summit 2022 and convened a group of technical experts from across the San Joaquin Valley to develop plans regarding regional middle-mile routes. Continued to be a Broadband lead on CA Forward and CETF broadband workgroups.
- Conducted speed tests and provided mapping of data for unserved and underserved two urban and 16 rural communities.

## 11. Southern Border Broadband Consortium

- Worked with TeamSOS, a small ISP, to discuss possible sites for deployment in San Diego and Imperial Counties. Met with TeamSOS to discuss the needs of the Borrego Springs community and the opportunity to serve the area by extending from Anza-Borrego State Park facilities, as well as the possibility of extending further to the community of Salton City on the western side of the Salton Sea, an isolated and underserved community with unique broadband needs, especially for seniors and K-12 students. Facilitated meetings and conversations between TeamSOS and local agencies with public assets. Public assets included a tower owned by Imperial Irrigation District.
- Participated in planning stages of the southern border region Community Economic Resilience Fund (CERF) proposal (i.e., covering San Diego and Imperial Counties) in planning meetings and community forums throughout the year to ensure that broadband infrastructure needs were included in the overall proposal for the region. Broadband was identified as a priority in the final approved proposal.
- Hosted a broadband breakout session at the Imperial Valley Economic and Energy Summit. The session was presented by AT&T and attended by regional businesses, local government, and members of the community. The group discussed the needs of Lithium Valley and the East Port of Entry area east of Calexico, two areas identified in SBBC's Preferred Scenario for 98 percent deployment in the region.
- Met with Caltrans, San Diego Association of Governments (SANDAG), Imperial County Transportation, and Southern California Association of Governments (SCAG) about the ongoing

statewide middle-mile project. Provided a list of priority routes and advised Caltrans on the short and long-term needs in the region and gave greater context to the priority routes included in the list.

- Actively participated in regular meetings with SANDAG regarding deployment and permitting practices as well as National Core regarding deployment in the southern California region. Made presentations to city council members, city managers, and planning and public works departments in Imperial County and met with counties of Imperial and San Diego planning, public works, and economic development leaders to discuss best permitting practices. Also met periodically with SANDAG and SCAG to coordinate overall efforts to close the digital divide in the region and ensure collaboration without duplicate efforts now and in the future.

## **12. Tahoe Basin Project**

- Continued to convene the Tahoe Regional Broadband committee with representatives from local jurisdictions and relevant planning agencies to discuss regional opportunities for fiber expansion, funding opportunities, and opportunities for collaboration.
- Continued to track speed tests in the Tahoe Basin region and collaborated with neighboring counties to identify gaps in service and eligible project areas.
- Updated maps of existing fiber overlapped with speed test data on an ongoing basis and worked with neighboring jurisdictions to identify areas of opportunity. Also helped advertise for speed test campaigns issued by jurisdictions during planning processes.
- Met with ISPs to discuss priority build-out areas and unserved/under-served communities in the Lake Tahoe region and prepared to assist with funding applications in the coming year with the release of CASF funds.

## Attachment D: Consortia Account Projects as of December 31, 2022

### Grants Approved in 2011, 2016, and 2019 Cycles<sup>67</sup>
