By Electronic Filing

The Honorable Kimberly D. Bose Secretary Federal Energy Regulatory Commission 888 First Street, NE Washington, DC 20426

Re: BP Pipelines (Alaska) Inc., Docket Nos. IS07-75-000, et al.

Dear Ms. Bose:

Pursuant to Ordering Paragraph A of the "Order on Motion for Summary Disposition and Directing TAPS Carriers to Submit Compliance Filing Establishing Rates for 2007 and 2008 Consistent with Opinion No. 502," issued on December 29, 2008, *BP Pipelines (Alaska) Inc.*, 125 FERC ¶ 61,367 (2008), the TAPS Carriers hereby submit their compliance filing establishing 2007 and 2008 rates. The compliance filing, which is being filed electronically, consists of the following:

- Cover Pleading
- Attachment A (the 2007 rate calculation is contained in Statement A2)
- Attachment B (the 2008 rate calculation is contained in Statement A2)
- Attachment C (the Affidavit of J. Peter Williamson)

Thank you for your assistance with this filing. Please contact me if you have any questions.

Respectfully submitted,

Eugene R. Elrod Counsel for ExxonMobil Pipeline Company on behalf of the TAPS Carriers

cc: All Parties Commission Staff (w/ CDs)

Docket Nos. IS07-75-000 and IS08-78-000 Docket Nos. IS07-56-000 and IS08-62-000 Docket Nos. IS07-55-000 and IS08-65-000 Docket Nos. IS07-48-000 and IS08-64-000 Docket Nos. IS07-41-000 and IS08-53-000

COMPLIANCE FILING OF THE TAPS CARRIERS CALCULATING RATES FOR 2007 AND 2008 CONSISTENT WITH OPINION NO. 502

Pursuant to Ordering Paragraph A of the "Order on Motion for Summary Disposition and Directing TAPS Carriers to Submit Compliance Filing Establishing Rates for 2007 and 2008 Consistent with Opinion No. 502," issued on December 29, 2008, *BP Pipelines (Alaska) Inc.*, 125 FERC ¶ 61,367 (2008) ("December 29 Order"), the TAPS Carriers¹ hereby submit their compliance filing calculating 2007 and 2008 rates in accordance with Opinion No. 502. *BP Pipelines (Alaska) Inc.*, 123 FERC ¶ 61,287 (2008) ("Opinion No. 502"). The 2007 rate calculation is set forth in Attachment A, and the 2008 rate calculation is set forth in Attachment B.

The December 29 Order directs the TAPS Carriers "to submit compliance filings calculating 2007 and 2008 rates in conformity with the ratemaking methodology established in Opinion No. 502." December 29 Order at P 19. The TAPS Carriers have filed for judicial review of Opinion No. 502. In addition, some TAPS Carriers have sought rehearing and some have filed for judicial review of the Commission's November 20, 2008, order that addressed requests for rehearing of Opinion No. 502. *BP Pipelines (Alaska) Inc.*, 125 FERC ¶ 61,215

¹ The TAPS Carriers are the owners of the Trans Alaska Pipeline System ("TAPS"): BP Pipelines (Alaska) Inc. ("BPPA"), ConocoPhillips Transportation Alaska, Inc. ("ConocoPhillips"), ExxonMobil Pipeline Company ("EMPCo"), Koch Alaska Pipeline Company LLC ("KAPCO"), and Unocal Pipeline Company ("Unocal").

(2008) ("November 20 Order"). This compliance filing reflects the rulings in Opinion No. 502 and the November 20 Order. The TAPS Carriers reserve all of their objections to Opinion No. 502 and the November 20 Order, and nothing in this compliance filing is intended to waive, compromise or withdraw any issues raised in the TAPS Carriers' requests for rehearing or on judicial review.

Section I below explains the TAPS Carriers' calculation of 2007 and 2008 rates under the approach set forth in Opinion No. 502. Section II sets forth the TAPS Carriers' position with respect to the refund floor, which the December 29 Order recognizes the Commission must address in determining the refunds that may be due for 2007-2008. *E.g.*, December 29 Order at P 13. The December 29 Order states that the parties will be allowed to present their views with respect to the refund floor. *Id.* at P 19.

I. COMPLIANCE FILING REGARDING 2007 AND 2008 RATES

A. Overview of Approach to Calculating 2007-2008 Rates

The TAPS Carriers have calculated rates for 2007 and 2008 that are consistent with Opinion No. 502:

• *Single uniform rate.* The TAPS Carriers have calculated a single, uniform rate for all TAPS Carriers for 2007 and for 2008. Opinion No. 502 at P 242.

- *154-B rate methodology*. The TAPS Carriers have calculated the 2007 and 2008 rates using the Commission's 154-B rate methodology. Opinion No. 502 at P 63.
- *Barrel-mile rate design*. The TAPS Carriers designed the rates using a barrel-mile rate design.²

² The barrel-mile rate design was endorsed by the initial decision in Docket No. IS05-82. *BP Pipelines* (*Alaska*) *Inc.*, 119 FERC \P 63,007 at P 228 (2007).

The TAPS Carriers present the rate calculations for 2007 and 2008 through Statements A-F, as described in Section 346.2 of the Commission's cost of service regulations. 18 C.F.R. § 346.2 (2008).

The TAPS Carriers prepared the 2007 and 2008 rate calculations using actual costs and throughput for those years. The starting point for the 2007 rate calculations is the TAPS Carriers' 2007 FERC Form 6 reports. Since the TAPS Carriers' 2008 FERC Form 6 reports have not yet been filed, the starting point for the 2008 rate calculations is the actual 2008 operating results taken from the books and records of the TAPS Carriers and Alyeska Pipeline Service Company ("Alyeska"), the TAPS Carriers' agent for the operation of TAPS. These results will, in due course, be incorporated into the TAPS Carriers' 2008 FERC Form 6 reports. Because the December 29 Order directs the TAPS Carriers to calculate 2007 and 2008 rates "based on circumstances *relevant to those periods*" December 29 Order at P 19 (emphasis added), the 2007 and 2008 rates are prepared using a locked-in period approach. ³ The TAPS Carriers have, however, made certain adjustments to their 2007 and 2008 costs to comply with Commission ratemaking policy, as described below.

B. Rate Base and Cost of Capital

The TAPS Carriers calculated the rate bases for 2007 and 2008 by starting with the rate base balances prescribed in Opinion No. 502 (at P 65 n.46),⁴ and calculating the rate bases for subsequent periods in accordance with 154-B. The TAPS Carriers used a mid-year convention

³ As the December 29 Order notes (at P 12), the TAPS Carriers stated in their August 5, 2008 answer to the motion for summary disposition that they would prepare the 2007 rate calculations using actual 2007 data and prepare the 2008 rate calculations using 2007 data, adjusted for known and measurable changes. *See* "Answer of the TAPS Carriers to Motion for Summary Disposition of Anadarko Petroleum Corporation, Tesoro Corporation and Tesoro Alaska Company," Docket Nos. IS07-75-000, *et al.*, filed Aug. 5, 2008 at p. 6. At the time that answer was filed, the TAPS Carriers did not have actual data for 2008. The TAPS Carriers have prepared the 2008 rate calculations using actual 2008 cost and throughput data because that information is now available.

⁴ The starting points for ADIT and AFUDC are prescribed in paragraph 103 of Opinion No. 502.

for calculating rate base. Thus, for example, the 2007 rate base was calculated by averaging the rate base as of the beginning and the end of 2007.

The cost of capital for 2007 and for 2008 was prepared by Professor J. Peter Williamson, following the principles established by Opinion No. 502 and the Commission's *Policy Statement on the Composition of Proxy Groups for Determining Gas and Oil Pipeline Return on Equity*, 123 FERC ¶ 61,048 (2008) ("Proxy Group Policy Statement"). Attachment C to this compliance filing is a statement prepared by Professor Williamson in which he explains his calculation of the cost of capital, including the capital structure, cost of debt, and return on equity. Professor Williamson prepared the capital structure and cost of debt for 2007 and 2008 based on the capital structure and cost of debt of the proxy group. Opinion No. 502 at PP 178, 197. Professor Williamson calculated equity return for both years in accordance with the Proxy Group Policy Statement.

C. Operating Expenses

Operating expenses for 2007 and for 2008 are calculated using the TAPS Carriers' actual operating expenses, with the following adjustments:

- *Depreciation expense*. Form 6 depreciation was removed and replaced with depreciation expense calculated in accordance with Opinion No. 502 (at PP 126 & n.198).
- Asset retirement obligations. Costs associated with asset retirements were removed.
- *Adjustments to remove accruals.* In accordance with Commission ratemaking policy for oil pipelines, the TAPS Carriers have adjusted operating expense to remove accruals for future obligations made by Alyeska and by the TAPS Carriers and inserted the cash expenses actually incurred in order to present 2007 and 2008 costs on an actual cost basis.
- *Removal of adjustments of prior period costs.* The TAPS Carriers removed from operating expense adjustments made for amounts recorded in a prior year.

- Post-Employment Benefits Other than Pensions ("PBOP's"). Operating Expense was adjusted for PBOP's in compliance with a settlement approved by the Commission. See Amerada Hess Pipeline Corp., 82 FERC ¶ 61,134 (1998) (letter order approving settlement). Under the settlement, the TAPS Carriers reduce operating expenses by the earnings imputed on the cumulative after-tax balance of net PBOP accruals for prior years.
- *Taxes on Imputed Management Fees.* Operating expenses recorded by Alyeska include amounts for federal and state income taxes on imputed management fees. The TAPS Carriers removed these amounts because the costs are already reflected in the revenue requirement as part of the income tax allowance.
- *Normalized project expense.* The TAPS Carriers normalized costs associated with the relocation of Alyeska's operations control center. These costs, incurred from 2005 through 2008, were normalized over a five-year period.
- *Rate case litigation costs.* Rate case litigation costs were adjusted to ensure that rate case litigation costs incurred in connection with the litigation of interstate rates are allocated only to interstate shipments, and that rate case litigation costs incurred in connection with the litigation of intrastate rates are allocated only to interstate shipments.

II. THE 2004 FILED RATES CONSTITUTE THE APPLICABLE REFUND FLOOR FOR 2007 AND 2008

A. The Statute and Applicable Commission Authority Establish That the 2004 Rates Set the Refund Floor

The December 29 Order provided that the TAPS Carriers would make a compliance filing on January 28, 2009, and other parties would have the opportunity, within 15 days, "to file comments on all issues, including the refund floor." The TAPS Carriers have previously set forth their position that the 2004 filed rates (which were the "last clean rates" at the time the 2007 and 2008 rate filings were made) must be the refund floor for 2007 and 2008. *See* Answer of TAPS Carriers to Motion for Summary Disposition of Anadarko Petroleum Company, Tesoro Corporation and Tesoro Alaska Company at 13-17 (Aug. 5, 2008). However, to assure that the TAPS Carriers' position is provided to the Commission along with the comments of the other parties, this section will explain the legal basis for the conclusion that the 2004 rates must set the refund floor in 2007 and 2008.

In Opinion No. 502, the Commission recognized that when the 2005 and 2006 rate increases took effect, the last clean rates in effect were the TAPS Carriers' filed rates that were effective, without suspension or investigation, through December 31, 2004. Opinion No. 502 at P 226. As explained below, that finding applies in equal measure to the rate filings for 2007 and 2008.

The Commission's power to award refunds in oil pipeline rate cases is derived from Section 15(7) of the Interstate Commerce Act ("ICA"). 49 U.S.C. app. § 15(7) (1988). That section authorizes the Commission to suspend a new or changed rate (whether an increase or a decrease) for a period of up to seven months and, at the expiration of the suspension period, to permit the new or changed rate to take effect. In Opinion No. 502, the Commission explained that Section 15(7) defines the power of the Commission to award retroactive rate relief, and that

such relief is limited to the amount of the rate increase:

"[I]n the case of a proposed increased rate or charge," the Commission may require the carrier to keep account of "all amounts received *by reason of such increase*," and may after hearing require a refund of "*such portion of such increased rates*... as by its decision shall be found not justified."

Opinion No. 502 at P 230 (citing Section 15(7)) (emphasis added). Consistent with that statutory provision, the Commission's regulations confirm that the Commission's power to order retroactive refunds is limited to the amount of the rate increase. *See* 18 C.F.R. § 340.1(b) (1)-(4) (2008) (requiring oil pipelines whose rates are suspended to keep track for refund purposes of the difference in revenues from each shipper at the "rates in effect immediately prior to the date the proposed change becomes effective" and at the "proposed increased rates"); *see also FPC v. Sunray DX Oil Co.*, 391 U.S. 9, 22-25 (1968) (analyzing analogous provisions of the Natural Gas Act ("NGA")); *Amoco Production Co. v. FERC*, 271 F.3d 1119, 1121-22 (D.C. Cir. 2001) (same); *Distrigas of Massachusetts Corp. v. FERC*, 737 F.2d 1208, 1224 (1st Cir. 1984) ("*Distrigas II*") (same); *Distrigas of Massachusetts Corp. v. FERC*, 751 F.2d 20, 25 (1st Cir. 1984) ("*Distrigas II*") (same); Opinion No. 502 at PP 230-236 (describing the "general rule that refunds are limited to the increase from the pre-existing rate," and noting that "[g]iven the explicit terms of [the ICA], as reflected in the Commission's oil pipeline refund regulations, there is no basis for an exception" to that rule).

In the "pancaked" rate filings involved in the instant case, the sequential increases must be measured against the last clean rate (*i.e.*, a pre-existing lawful rate). As the Commission has explained, "the last clean rate is the last rate in effect not subject to any refund obligation." *Pacific Gas & Electric Co.*, 87 FERC ¶ 61,218, at 61,861 n.18 (1999) (citing *Sunray DX*, 391 U.S. at 21-24). The 2005, 2006, 2007, and 2008 rate filings were all suspended and made "subject to [a] refund obligation;" therefore none of those rates could have constituted a "clean rate" at the time the succeeding rate took effect. *See BP Pipelines (Alaska) Inc.*, 109 FERC ¶ 61,376, at Ordering Paragraph (A) (2004) (accepting and suspending the 2005 rate filing); *BP Pipelines (Alaska) Inc.*, 113 FERC ¶ 61,322, at Ordering Paragraph (A) (2005) (accepting and suspending the 2006 rate filing); *BP Pipelines (Alaska) Inc.*, 117 FERC ¶ 61,352, at PP 14-15 (2006) (accepting and suspending the 2007 rate filing); *Unocal Pipeline Co.*, 121 FERC ¶ 61,300, at Ordering Paragraph (A) (2007) (accepting and suspending the 2008 rate filing). Thus, for refund purposes, the 2004 filed rates constitute the applicable refund floor until a new just and reasonable rate is established, which then becomes the refund floor for purposes of rate filings after that date.⁵

Accordingly, the 2007 and 2008 rate increases must be measured (as the 2005 and 2006 increases were, Opinion No. 502 at P 236) against the 2004 filed rates, with the amount of such increase (but no more) subject to refund.⁶ To do otherwise – for example, by setting the refund floor at the 2006 TAPS rate resulting from Opinion No. 502, as urged by Anadarko/Tesoro⁷ – would leave the pipeline "considerably worse off than if it had not' made the [intervening rate] filings," contrary to the Supreme Court's decision in *Sunray DX*. *Amoco Production*, 271 F.3d at 1122 (quoting *Distrigas I*, 737 F.2d at 1224); *see also Sunray DX*, 391 U.S. at 24 (explaining that

⁵ For that reason, Opinion No. 502, which was issued *after* the rates for 2007 and 2008 were filed and made effective, could not lower the refund floor for those years.

⁶ As the Commission recognized in Opinion No. 502, this statutory regime does not leave shippers without a remedy if they believe the just and reasonable rate is lower than the pre-existing lawful rate. Section 13 of the ICA provides that a shipper can obtain reparations for a past period if it can show that the rate it was charged was higher than the just and reasonable rate and can specifically demonstrate the amount of its damages. However, Section 13 does not authorize the Commission to order general refunds to all shippers, nor does it abrogate the pre-existing lawful rate with respect to refunds issued under Section 15(7).

⁷ See Anadarko/Tesoro Motion for Summary Disposition, Docket Nos. IS07-62-000, *et al.*, at 11 n.27 (filed July 21, 2008).

"[i]t would be anomalous to [allow] a refund obligation which would leave the producer with a smaller net return than if it had never increased its price at all"). Here, if the TAPS Carriers had not submitted new rates in 2007 and 2008, the Commission could not have later ordered refunds for those years below the last clean rate that was in effect in 2004. The fact that the TAPS Carriers *did* make rate filings for 2007 and 2008 cannot lawfully change the outcome and result in greater refunds for those years.

The Commission's analysis in Wyoming Interstate Co., 89 FERC ¶ 61,303 (1999) (one of the Commission decisions reviewed by the D.C. Circuit in Amoco Production), is particularly relevant here. In that case, Wyoming Interstate Company ("WIC") filed a rate increase (to be effective December 1, 1997) which was above the level of rates set by a Commission-approved settlement in its last previous rate case. WIC then reached a settlement with most of its customers, resulting in rates that were either equal to or lower than the pre-existing rates in effect before December 1, 1997. Subsequently, it filed another rate increase to be effective January 1, 2000. While that rate filing was pending (but had not yet become effective), a non-consenting party (Amoco) challenged the settlement, arguing that the settlement rate should be even lower. The Commission refused to address that challenge, reasoning that it could not order any greater refunds for the period from December 1, 1997 through December 31, 1999 than those the settling parties had already agreed to, because the pre-December 1, 1997 rates set a refund floor for that period. Amoco nonetheless argued that it should be allowed to litigate the rate for the locked-in period ending with December 31, 1999, because the result of that litigation could be a lower refund floor for the 2000-forward rate.

The Commission rejected that argument, emphasizing the significance of the "preexisting lawful rate": The only way the Commission could reach a litigated result in this case below the Settlement rates is by acting under NGA section 5 to order a rate decrease even greater than that reflected in the Period II rates. However, a merits decision pursuant to NGA section 5 in this case could not establish the refund floor for the new rate case. Action under NGA section 5 must be prospective only. Such action in this case could not take place until after the rates in the new rate case took effect on January 1, 2000, and therefore could not establish the requisite "*pre-existing* lawful rate" to constitute the refund floor for the new rate case.

89 FERC at 61,989 (emphasis in original, footnote omitted), aff'd Amoco Production, 271 F.3d

at 1122. Thus, the Commission expressly recognized that only a pre-existing lawful rate (*i.e.*, a rate in effect prior to the filing of the suspended rate) can constitute the "last clean rate" for purposes of determining refunds in the later case. Here, the TAPS Carriers' 2007 and 2008 rate filings all became effective well before the issuance of Opinion No. 502 – thus, any rate prescribed in that decision could not constitute the "pre-existing lawful rate" for purposes of the refund floor for the periods in question.⁸

In *Distrigas I* and *Distrigas II*, the First Circuit adopted a similar stance in the context of Section 4 of the NGA. As discussed in the first decision, Distrigas Corporation initially reached a settlement agreement with its customers that governed rates between 1978 and 1979 (the

⁸ *Wyoming Interstate* does recognize the possibility that, where the pipeline seeks a rate increase and part, but not all, of the rate increase is disallowed, the resulting just and reasonable rate can reset the refund floor for future rate periods in which refunds are ordered after that date. As the Commission explained:

If the Settlement rates were *higher than* the pre-existing refund floor, and a new rate case were filed, the Commission could order a retroactive reduction in the Settlement rates under NGA section 4 since the Commission's action would simply be disallowing some portion of the proposed rate increase. That decision would establish the refund floor for the new rate case.

Id. at 61,939 (emphasis added). However, that principle did not apply in *Wyoming Interstate* because in that case the settlement rates did not constitute an increase above the pre-existing rate level and the Commission did not prescribe a lower prospective rate before WIC's January 1, 2000 rate filing became effective. *Id.* Similarly, in the case of the TAPS rates, if the Commission were to determine just and reasonable rates for 2007 and/or 2008 higher than the pre-existing refund floor, those higher rates would thereafter constitute the new refund floor, but the Commission could not retroactively lower the pre-existing refund floor because doing so would require refunds in excess of the rate increase at issue.

"settlement rates"). *Distrigas I*, 737 F.2d at 1210. In 1979, the company applied for a rate increase, and the Commission accepted and suspended the rates subject to refund. In 1981, while that proceeding was still pending before the Commission, Distrigas filed for a further rate increase. *Id.* The Commission then found that major portions of the 1979 rate increase were not just and reasonable; subsequently, in 1983, it specified a just and reasonable rate for the "locked-in" period from 1979 to 1981.

Thus, the question in regard to refunds for the locked-in period was whether the Commission-determined just and reasonable rates for that period (which were lower than the settlement rates) should constitute a new refund floor, or whether the refund floor was instead set by the settlement rates. *Id.* at 1222-24. The court found that the settlement rates established the refund floor: "the pre-existing lawful rate provides a refund floor in a section 4 proceeding" and [FERC's] "section 4[] refund authority [is] limited to the 'amounts received by reason of such *increase.*" *Id.* at 1224 (citing 15 U.S.C. § 717c(e); *Sunray DX*, 391 U.S. at 22-25) (emphasis in original). The court later re-affirmed its holding:

We conclude that the Commission has acted unlawfully in ordering a refund that, in effect, requires [Distrigas] to refund more money than its rate change brought it. . . . § 4's refund authority is "limited to" what § 4 describes in statutory language as the "amounts received by reason of such *increase*," namely the increase in rates for which the utility sought FERC approval . . .

Distrigas II, 751 F.2d at 22 (emphasis in original). Thus, the *Distrigas* decisions support the notion that the TAPS Carriers' "pre-existing lawful rates" (*i.e.*, the 2004 filed rates) must constitute the refund floor for the purposes of the 2007 and 2008 rate filings, and that any refund must be "limited to the amount received by reason of such increase."⁹

⁹ For the period beyond 1981, rates were settled by an agreement and stipulation approved by the Commission. The court confirmed the Commission's holding that the settlement rate did not provide a refund floor (cont'd...)

In short, the law on this issue is clear. The refund floor is determined by the last clean rate in effect at the time the rates in question were filed. For both 2007 and 2008, the last clean rates were the 2004 filed rates. The 2006 rate, which Anadarko/Tesoro argues should constitute the refund floor for 2007 and 2008, was not established even in principle until Opinion No. 502 was issued on June 20, 2008, which was well after the filing of the 2008 rates (and *a fortiori* after the filing of the 2007 rates). Moreover, the actual 2006 rate resulting from Opinion No. 502 was not established until the TAPS Carriers' 2006 compliance filing was accepted in the November 20 Order. The Commission should therefore determine that the 2004 filed rates properly set the 2007 and 2008 refund floor.

B. The Commission Should Rule on the Refund Floor Question As a Threshold Issue

The refund floor question constitutes an important threshold issue in this proceeding because, to the extent the 2004 refund floor applies, there are currently no rate issues to litigate for 2007.¹⁰ As shown in Attachment A, Statement A3 of the attached compliance filing, the uniform rate calculated for 2007 using the Opinion No. 502 methodology is lower than the 2004 filed rates of the TAPS Carriers. Presumably, none of the other parties will argue that the Opinion No. 502 rates for 2007 should be *higher* than those calculated by the TAPS Carriers. As a result, any disputes about the 2007 rates under Opinion No. 502 cannot affect the refunds, since such disputes could only serve to lower the compliance rates, which are already lower than the

^{(...} cont'd)

for the post-1981 period because "[Distrigas] had *agreed* to the larger refund; it had *agreed* to set aside the preexisting floor. It did this in the future-period settlement agreement itself" *Id.* (emphasis in original). That finding is inapposite to the instant situation, as the TAPS Carriers and shippers have not entered into any similar agreement.

¹⁰ The conclusion that there are no rate issues to litigate in 2007 is contingent on Opinion No. 502 ultimately being upheld on judicial review in its current form. The TAPS Carriers expressly reserve their rights on rehearing and/or judicial review with respect to Opinion No. 502, including its application to 2007 and 2008.

refund floor. Accordingly, a proper determination that the 2004 filed rates constitute the refund floor for 2007 would render any further proceedings regarding 2007 (other than those that may occur pursuant to judicial review) purely academic.

By comparison, as shown in Attachment B, Statement A3 of the attached compliance filing, the uniform rate for 2008 calculated under Opinion No. 502 is higher than the 2004 filed rates of each of the TAPS Carriers. Therefore, to the extent other parties take issue with the 2008 rates calculated herein, those disputes would not be mooted by the 2004 refund floor. However, the financial impact of any such disputes would be limited to the difference between the Opinion No. 502 compliance rate for 2008 and each Carrier's 2004 filed rate.

For these reasons, a threshold ruling on the refund floor question would be of considerable value to all parties, since it would potentially avoid unnecessary litigation over issues that might ultimately prove to be moot. Accordingly, the TAPS Carriers urge the Commission to determine this issue before addressing any of the specific rate case issues that may be raised by other parties.

III. CONCLUSION

Without waiving any legal objections or arguments they might have regarding Opinion

No. 502, the TAPS Carriers hereby submit their compliance filing in accordance with the

December 29 Order.

Notes:

Alyeska 1/ To remove severance accruals recorded in 2007 and to reflect severance payments Alyeska made during 2007

Alyeska 2/ To normalize Alyeska project costs (see Workpaper 8)

Alyeska 3/ To exclude expenses incurred for federal and state income taxes on imputed management fees. This adjustment accounts for BPPA adjustment to Alyeska amounts of (\$1,062) thousand recorded in BPPA 2007 FF6.

- Alyeska 4/ To reflect the PBOP earnings credit (see Workpaper 7), based on the PBOP Settlement Agreement
- BPPA 5/ To adjust for difference between prior period accrual and actual payment made in 2007
- EMPCo 6/ To exclude reallocation of Alyeska variable costs from Carrier-direct operating expenses
- EMPCo 7/ To exclude reversal of a prior period accrual
- EMPCo 8/ To exclude reversal of a prior period accrual and to adjust for difference between accrual and actual payment for 2007 ad valorem taxes. Adjusted amount reflects actual 2007 ad valorem tax payment
- CPTAI 9/ To exclude prior period amounts reported in 2007
- UPC **10**/ To exclude prior period amounts reported in 2007 and amounts mistakenly recorded in 2007 and subsequently adjusted for in 2008
- KAPCO 11/ To exclude accrual for Alaska Petroleum Profit Tax ("PPT"). KAPCO has not yet made any payments related to Alaska's PPT, and the actual amount is not yet known.

Notes:

Alyeska	1/	To remove severance accruals recorded in 2008 and to reflect severance payments Alyeska made during 2008
Alyeska	2/	To normalize Alyeska project costs (see Workpaper 8)
Alyeska	3/	To remove expenses incurred for federal and state income taxes on imputed management fees. This adjustment accounts for BPPA adjustment to Alyeska amounts of (\$1,094) thousand.
Alyeska	4/	To reflect the PBOP earnings credit (see Workpaper 7), based on the PBOP Settlement Agreement
BPPA	5/	To adjust for difference between prior period accrual and actual payment made in 2008
EMPCo	6/	EMPCo adjustment of \$330 thousand to Alyeska amount for Operating Fuel and Power (340) removed to maintain correct Alyeska total
EMPCo	7/	To exclude reversal of a prior period accrual. Adjusted amount reflects actual 2008 ad valorem tax payment
UPC	8/	To exclude amounts mistakenly recorded in 2007 and subsequently adjusted for in 2008
КАРСО	9/	To exclude accrual for Alaska Petroleum Profit Tax ("PPT"). KAPCO has not yet made any payments related to Alaska's PPT, and the actual amount is not yet known.

AFFIDAVIT OF J. PETER WILLIAMSON

J. Peter Williamson, being duly sworn, deposes and states as follows:

1. My name is J. Peter Williamson. My business address is 89 Main Street, West Lebanon, New Hampshire 03784, and P.O. Box 5160, Hanover, New Hampshire 03755. I am the Laurence F. Whittemore Professor of Finance Emeritus at the Amos Tuck School of Business Administration, Dartmouth College. I have retired from teaching and continue to act as a consultant to various organizations, both business and nonprofit institutions, on matters pertaining to corporate finance and investments. I have testified in numerous proceedings before the Federal Energy Regulatory Commission ("FERC" or "Commission") and other regulatory agencies regarding cost of equity, capital structure and other financial matters. In particular, I filed affidavits in Docket No. PL07-2-000, the proceeding leading to the *Composition of Proxy Groups for Determining Gas and Oil Pipeline Return on Equity*, 123 FERC ¶ 61,048 (2008) ("Policy Statement"). The Policy Statement itself, dated April 17, 2008, describes in Paragraph 76 my review of historical IBES five-year growth forecasts as a basis for the conclusion that IBES reports are

Affidavit of J. Peter Williamson Docket No. IS07-75, *et al.* Page 2 of 8

acceptable as a component of the Discounted Cash Flow ("DCF") model used in the determination of the cost of equity for a pipeline. My education and qualifications are set out in detail in my Exhibit No. JPW-1.

- 2. I have been requested to prepare the cost of capital analysis to be used in the preparation of a cost of service as part of the TAPS Carriers¹ compliance filing required for 2007 and 2008 by the Commission in its December 29, 2008 order in the above-captioned dockets ("December 29 Order").² The cost of capital analysis has three components the cost of equity, the cost of long-term debt, and the capital structure from which a weighted average cost of capital may be determined.
- 3. My determination of the cost of equity for 2007 is contained in my Exhibit No. JPW-2. The same for 2008 is contained in Exhibit No. JPW-3. The cost of long-term debt for both 2007 and 2008 is contained in Exhibit No. JPW-4. And the capital structures for both 2007 and 2008 are contained in Exhibit No. JPW-5. The weighted average cost of capital for 2007 and 2008 is contained in Exhibit No. JPW-6.
- Paragraph 19 of the December 29 Order requires that I follow the ratemaking methodology established in *BP Pipelines (Alaska) Inc.*, 117 FERC ¶ 61,352 (2006) ("Opinion No. 502").
- 5. The determination of the cost of equity requires the use of DCF analysis, and the first step in applying the model is the selection of a set of proxy companies. The eight proxy companies I use in my DCF model for both 2007 and 2008 are: Buckeye Partners, L.P.,

¹ The TAPS Carriers are the owners of the Trans Alaska Pipeline System ("TAPS"): BP Pipelines (Alaska) Inc., ConocoPhillips Transportation Alaska, Inc., ExxonMobil Pipeline Company, Koch Alaska Pipeline Company LLC, and Unocal Pipeline Company.

² BP Pipelines (Alaska) Inc., 125 FERC ¶ 61,367 (2008).

Docket No. IS07-75, *et al.* Page 3 of 8

Enbridge Energy Partners, L.P., Enterprise Products Partners, L.P., Kinder Morgan Energy Partners, L.P., Magellan Midstream Partners, L.P., NuStar Energy, L.P., Plains All American Pipeline, L.P., and TEPPCO Partners, L.P. The Policy Statement sets out a number of criteria to be used in selecting the proxy companies. The criteria have been further discussed in a recent gas pipeline decision: Opinion No. 486-B, Kern River Gas Transmission Co., 126 FERC ¶ 61,034 (2009) ("Kern River"). My understanding is that the proxy companies in the present case must be substantially engaged in the oil pipeline business, either directly or through subsidiaries. This engagement can be demonstrated from the contents of a Form 10-K and/or from a report from the Value Line Investment Survey. I provide both segment analyses for the proxy companies derived from data in Forms 10-K and Value Line reports to support my conclusion that my selection of the eight proxy companies is appropriate. The proxy company must be publicly traded, and all of my proxy companies are listed on the New York Stock Exchange ("NYSE"). They must also have been engaged in the oil pipeline business for at least five years, and this is true of all eight of my proxy companies. In addition, the DCF model requires earnings growth forecasts, and the five-year growth forecasts from IBES for each proxy company. I provide these forecasts in Exhibit Nos. JPW-7 and JPW-8. And, of course, in order to determine the yield component of the DCF model, price and distribution information must be available. These, too, I provide in Exhibit Nos. JPW-7, JPW-8, and JPW-9.

6. In *Kern River*, the Commission considered the bond ratings of proxy companies to be an important indication of risk and indicated that a rating below investment grade might disqualify a company from serving as a proxy company. I have checked both Moody's and Standard & Poor's bond ratings to confirm that all eight of my proxy companies

Affidavit of J. Peter Williamson Docket No. IS07-75, *et al.* Page 4 of 8

enjoyed investment grade ratings in 2007 and 2008. I have further checked the Value Line safety ratings of the proxy companies to determine that for each of my proxy companies the rating indicates no extreme risk.

COST OF EQUITY

- 7. My DCF analyses in Exhibits Nos. JPW-2 and JPW-3 show, in the first eight lines (one for each proxy company) for six months July through December of 2007 (Exhibit No. JPW-2) and 2008 (Exhibit No. JPW-3), the high and low unit prices in trading on the NYSE. The averages of the prices across the six months are also shown. I understand the Commission to require six month averaging. The average price column is followed by a column showing the annualized distribution per unit to unitholders for each proxy company. These are the distributions at the end of the year (the fourth quarter distributions) reported in public releases by the proxy companies. From these data, the yield figures in the last column are determined as unit price divided by the average of the 12 prices.
- 8. In the lower half of each exhibit I tabulated for each proxy company first the yield as determined above, next the IBES median growth forecast for the company, next the long-term growth forecast for gross domestic product ("GDP") (to be described more fully below), next the weighted average growth (giving the IBES growth rate forecast a 2/3 weight and the GDP growth rate forecast a 1/3 weight), next the adjusted dividend yield determined as the yield in the first column multiplied by (1+ one half the adjusted growth rate). This adjustment is prescribed by the FERC to allow for the fact that distributions are paid four times a year. Finally, the last column shows for each proxy company the sum of the adjusted yield and the adjusted growth rate, thus completing the standard DCF

Affidavit of J. Peter Williamson Docket No. IS07-75, *et al.* Page 5 of 8

analysis for each proxy company. This yield plus growth figure is the investors' expected rate of return for that company, meeting the standards of the *Hope* and *Bluefield* Supreme Court decisions.³

- 9. Below the calculations so far described are the average, the median, the high and the low measures of the eight "Yield Plus Growth" figures. The policy of the Commission, as I understand it, is to use the median as the most representative measure of the cost of equity for an oil pipeline unless it can be shown by strong evidence that a higher or lower number, within the range from low to high, is more appropriate than the median. In Docket No. IS05-82 the Commission rejected the TAPS Carriers' evidence supporting a higher than median rate of return. That being the case, I have not made any adjustment to the median in this case.
- 10. Finally, further down the page, a "real" median is calculated. The procedure for ratemaking for an oil pipeline requires separating the cost of equity into a "real" component that is used to establish the cost of capital that goes into the cost of service and an inflation component that is treated as deferred earnings. The "real" component becomes part of my weighted average cost of capital in Exhibit No. JPW-6.

COST OF LONG-TERM DEBT

11. In my experience, the cost of long-term debt for an oil pipeline is normally determined from the cost of long-term debt of the pipeline itself (in this case, a Carrier) or from the cost of long-term debt of the entity that provides the pipeline's financing. In Opinion No.

³ FPC v. Hope Natural Gas Co., 320 U.S. 591, 605 (1944); Bluefield Water Works v. PSC, 262 U.S. 679, 692-93 (1923). These decisions hold that a regulated entity must be allowed the opportunity to earn a return sufficient to enable it to compete for capital in a free and unregulated marketplace.

Docket No. IS07-75, *et al.* Page 6 of 8

502, however, the Commission decided to use the long-term debt cost of the proxy companies, and I am following that procedure. The results appear in Exhibit No. JPW-4.

12. Exhibit No. JPW-4 shows the calculation of the cost of long-term debt for each of the eight proxy companies. For 2007, the figures are taken from the proxy company's Form 10-K (Form 40-F for Enbridge) for 2007. For 2008, the figures are taken from the September 30, 2008 Form 10-Q, if they are available in that Form. (A 2008 Form 10-K will generally be filed In March 2009.) Otherwise, the 2007 long-term debt cost, the most recently available, is substituted. From the listing of long-term debt in each proxy company's financial report I have identified the issues of long-term debt that are available to support an oil pipeline. I do not include short-term debt, because I understand the Commission's policy is to include only long-term debt, that is debt with a maturity greater than one year. This is consistent with a general principle that long-term assets, including pipelines, are financed with long-term debt and equity, while short-term assets, such as inventory and receivables, are financed with short-term debt. The distinction is important, because short-term debt generally presents less risk to lenders than does long-term debt, and hence the typical cost of short-term debt is lower, and often much lower, than that of long-term debt. I also exclude special purpose debt, generally tax exempt debt that must be used for a specific project for which tax exempt debt is permissible. Tax exempt debt is cheaper than regular debt because investors will pay more for a dollar of tax exempt interest than for a dollar of taxable interest. Municipal bonds are an example of tax exempt debt, and yields to investors in municipal bonds are generally much lower than yields on U.S. government bonds despite their obviously higher risk. Generally, the proceeds of tax exempt debt issues may not legally be used to

Affidavit of J. Peter Williamson Docket No. IS07-75, *et al.* Page 7 of 8

finance a pipeline and therefore do not belong in the kind of long-term debt the cost of which is relevant to pipeline ratemaking. Exhibit No. JPW-4 shows the calculation for each proxy company of the weighted average cost of long-term debt. Each debt issue's cost is weighted by the outstanding amount of that issue. Finally, the overall average of the weighted average cost of each company's long-term debt is determined for 2007 and 2008. These overall costs, for 2007 and 2008, in turn enter into the determination of the weighted average cost of capital in Exhibit No. JPW-6.

CAPITAL STRUCTURE

- 13. Exhibit No. JPW-5 shows the determination of the average equity and debt ratios in the capital structures of the proxy companies for 2007 and 2008. For 2007, the source of the numbers is the balance sheet for each proxy company as of 12/31/07, found in the 2007 Form 10-K. For 2008, the most recent balance sheet appears in the Form 10-Q, dated 9/30/08. The long-term debt and equity balances are shown in the exhibit, together with the average of the debt and equity ratios over all eight companies. These averages are in turn incorporated in the weighted average cost of capital in Exhibit No. JPW-6.
- 14. I note here that the total long-term debt numbers in Exhibit No. JPW-4 do not all match the total long-term debt number in Exhibit No. JPW-5. The differences are intentional. The capital structures reflect the unadjusted figures on each proxy company's balance sheet, since investors rely on these data to judge the amount of leverage in the company, and hence the financial risk. The latter should be consistent with the unit prices in the market place. The debt cost calculations, on the other hand, are for purely regulatory purposes, and are generally not of significance to equity investors.

Affidavit of J. Peter Williamson Docket No. IS07-75, *et al.* Page 8 of 8

WORKPAPERS

15. I attach a number of workpapers in support of my exhibits described above. Exhibit No. JPW-7 provides workpapers for Exhibit No. JPW-2, and includes unit prices, IBES growth forecast tables, and Value Line Reports.⁴ Exhibit No. JPW-8 provides the same support for Exhibit No. JPW-3.⁵ Exhibit No. JPW-9 provides support for both Exhibits Nos. JPW-2 and JPW-3, including a segment analysis demonstrating the suitability of the proxy companies, announcements of distributions from the proxy companies (Exhibit No. JPW-9(a)), inflation data (Exhibit No. JPW-9(b)), and the development of the GDP growth forecasts (Exhibit No. JPW-9(c)).

⁴ The Value Line reports are included in Exhibit No. JPW-7(a).

⁵ The Value Line reports are included in Exhibit No. JPW-8(a).

EDUCATION, TEACHING, RESEARCH AND PROFESSIONAL EXPERIENCE OF J. PETER WILLIAMSON

Education

University of Toronto, B.A. in 1952, Mathematics, Physics & Chemistry; Harvard Business School, MBA in 1954, DBA in 1961; Harvard Law School LL.B. in 1957.

Teaching and Research

From 1957 to 1961, Assistant Professor of Business Administration at the Harvard Business School. In 1961 joined the faculty of the Amos Tuck School of Business Administration at Dartmouth College as Associate Professor. On the Amos Tuck School faculty since 1961 and Professor since 1966 (except for one year on the faculty of the University of Toronto Law School). Currently the Laurence F. Whittemore Professor of Finance, Emeritus, at the Amos Tuck School.

Teaching at the Amos Tuck School included courses in corporation finance, financial institutions, investments and federal taxation. Research in these fields has led to a dozen or so books and monographs and to articles in the *Journal of Finance*, the *Financial Analysts Journal*, the *Journal of the Eastern Financial Association*, the *Journal of Bank Research*, the *Journal of Portfolio Management* and other professional journals.

Consulting and Research

Consulting activity, in addition to work for regulated utilities, has included valuations of businesses, advice on investment portfolios and specifically on investment expectations; and several publications have been specifically concerned with investment strategies, risk and likely rates of return. Author of four books that are largely concerned with this subject and a number of articles.

Exhibit No. JPW-1 Docket No. IS07-75, *et al.* Page 2 of 17

The book, Performance Measurement and Investment Objectives for *Educational Endowment Funds*, was published by the Common Fund in 1972. The book, Funds for the Future, published by the Twentieth Century Fund in 1975, consists chiefly of a discussion of investment of college and university endowment funds, including investment risk and expected rates of return. A revised and updated edition of this book, entitled Funds for the Future: College Endowment Management for the 1990s, was published by the Common Fund in 1993. The book, Spending Policy for Educational Endowments, co-authored with Richard Ennis of Ennis, Knupp & Gold, Inc., was published by the Common Fund in 1976. It deals with the relationship between spending plans and expectations of risk and return. Author of chapters in The Handbook of Financial Markets and Institutions (6th ed. 1986) and in The Investment Manager's Handbook (1980) entitled, respectively, "Performance Measurement" and "Educational Endowment Funds." Editor of, and author of two chapters in the Investment *Banking Handbook* published by John Wiley & Sons in 1988. Author of a chapter in the Handbook of Modern Finance, published by Warren Gorham Lamont in 1993.

Trustee of the Common Fund 1978-90, and Chairman of its Short-term Fund Committee. Participated as a trustee in the hiring, reviewing and replacement of over thirty investment managers who managed 5.5 billion dollars invested long-term. Worked more closely with three managers who managed another 4.5 billion dollars short-term funds of the Common Fund.

In 1966-67 and 1977-79, retained by the Canadian Government's Department of Consumer and Corporate Affairs to consider appropriate federal regulation of securities markets in Canada. One of four authors of *Proposals for a Securities Market Law for Canada* (1979) and the author of two working papers published as part of the *Proposals*: "Canadian Capital Markets" and "Canadian Financial Institutions."

Prepares summaries for publication of all the presentations made at the semi-annual seminars of the Institute for Quantitative Research in Finance and

Exhibit No. JPW-1 Docket No. IS07-75, *et al.* Page 3 of 17

has done so for 33 years. The set of summaries for each seminar is published following the seminar, and in addition six volumes of summaries organized by topics have been published, covering 1976 through 2005.

Regulatory Proceedings

Has testified on behalf of a number of utilities and on behalf of several consumer representatives. Testified in 1980 on behalf of the Public Service Company of New Hampshire before the New Hampshire Board of Taxation in connection with the franchise tax paid by utilities in New Hampshire. Testified over several years in electric utility rate cases before the Vermont Public Service Board at the request of the Counsel for the Public, the Department of Public Service and the Public Service Board).

Testified, at the request of the Vermont Public Service Board, on a proposed amendment by Central Vermont Public Service Corporation to its first mortgage bond indenture (Docket 4206), and on the proposals by Green Mountain Power and Central Vermont to purchase participations in the Seabrook nuclear plant in the summer of 1979. Also testified before the Board at the request of the Department of Public Service on a proposal by Central Vermont Public Service corporation to sell its participation in the Seabrook plant (Docket 5045). Testified at the request of Central Vermont Public Service Corporation on a proposal to classify its Board of Directors (Docket 5103), and at the request of the Vermont Electric Cooperative on a proposed restructuring of its debt (Docket 5630/5632).

Testified before the Rhode Island Public Utilities Commission at the request of the Rhode Island Division of Public Utilities and Carriers in connection with an application for rate relief made by Narragansett Electric Company (Docket 1288).

Testified before the New Hampshire Public Utilities Commission at the request of the New Hampshire Electric Cooperative in rate cases (Dockets DR 77-83, DR 78-24, DR 79-178, DR 80-189, DR 81-340 and DR 98-025) and in a financing

Exhibit No. JPW-1 Docket No. IS07-75, *et al.* Page 4 of 17

case (Docket DF 83-360). Also testified before the New Hampshire PUC at the request of the Consumer Advocate on a petition for rate relief filed by Public Service Company of New Hampshire (Docket DR 79-187), at the request of Public Service Company of New Hampshire on its petitions for rate relief (dockets are listed below), and at the request of EnergyNorth Natural Gas in its petition for rate relief (Docket DR91-212).

Testified before the California Public Utilities Commission in dockets listed below.

Testified before the Regulatory Commission of Alaska on behalf of TAPS Carriers, Case No. P-03-4, December, 2003. Filed testimony with the Commission on behalf of Northstar Pipelines. December 1, 2003.

Filed testimony with the Federal Energy Regulatory Commission in dockets listed below

Testified before the Public Service Commission of Utah in Mountain Fuel Supply and Questar Gas Company (Cases Nos. 89-057-15 and 02-057-02).

Filed testimony with the State of New York Public Service Commission in Empire State Pipeline, Case No. ____ (9/30/95).

Filed testimony with the Michigan Public Service Commission at the request of Dominion Midwest Energy, Inc., in Case No. U-12342, March 2000.

Testified three times before the Ontario Securities Commission, once in July 1982 in hearings on diversification in the Canadian securities industry, again in June 1983 in hearings on the entry of banks into the brokerage business, and again in December 1984 in hearings on ownership of securities firms.
