Subject: FW: Hydrogen

Let's ask GE to come in and talk to us about this. We may try to organize some kind of demo where we inject small amounts of H₂ into our fuel and I'd like GE to look at how much we can do without spending money on new combustors.

Subject: Hydrogen

FYI - See attached whitepaper from GE (Feb 2019) on Power to Gas / Hydrogen. Let's keep the ball rolling on this... Thanks!

Miguel
