Carl –

I'm happy to answer your questions. Do you want to send them via email, or would you prefer to set-up a call to discuss?

Regards,

Jeff

Subject: RE: Hydrogen for Power Generation

Hi Carl,

I am copying Jeffrey Goldmeer who is the author of the attached document. Jeffrey has also been in contact with other power producers in California and he should be able to provide you with more details regarding hydrogen for power generation.

Jeffrey,

Carl LaPeter is the power plant manager at Palomar Energy Center located in Escondido California. He is requesting more details regarding the attached document.

Regards,

Denise Tomeh
Account Sales Manager

Subject: EXT: Hydrogen for Power Generation

Denise,

Please see the attached GE document.

Is there someone we can speak with to determine if there is an opportunity for us to use “Hydrogen for Power Generation”, at our combined cycle or peaker plants?

Thanks,
Carl
