SoCalGas Supplemental Response to Sierra Club Data Request 1-20 (Apr. 24,
2026)

The non-confidential excel spreadsheet mentioned in and attached to the original response under Supplemental Response 20 is included in this exhibit.

**APPLICATION OF SOUTHERN CALIFORNIA GAS COMPANY IN COMPLIANCE WITH
ORDERING PARAGRAPH 6 OF DECISION 24-12-076 (A.26-01-009)**

(DATA REQUEST #1 OF SIERRA CLUB)

Date Requested: February 27, 2026

Supplemental Response Submitted: April 24, 2026

QUESTION 20:

Provide the subscription process and costs for companies that use the Unbundled Storage.

RESPONSE 20:

SoCalGas objects to this request as vague and ambiguous, particularly with respect to the phrase “cost for companies.” Subject to and without waiving the foregoing objections, SoCalGas responds as follows. SoCalGas interprets this request to seek the costs to subscribe to the Unbundled Storage Program. The subscription process for the Unbundled Storage program involves market based bilateral negotiations between companies and SoCalGas. These negotiations determine the costs to companies to subscribe to the program.

SUPPLEMENTAL RESPONSE 20:

Pursuant to the meet and confer held on April 6, 2026, the parties agreed that SoCalGas will supplement its response with UBS Program costs, revenues, and net revenues to ratepayers from the beginning of the UBS Program if available and additional information regarding how SoCalGas identifies and reaches out to potential UBS Program subscribers. SoCalGas conducted a reasonable and diligent search within the time allotted and is producing UBS program costs, revenues, and net revenues to ratepayers for the period 2000 to 2025. See attached file. UBS program costs, revenues, and net revenues to ratepayers prior to 2000 has not been identified. SoCalGas reserves the right to supplement this response if additional information becomes available.

Updated Response
to Sierra Club DR #20

SoCalGas identifies and reaches out to potential Unbundled Storage Program subscribers by posting notices on ENVOY and through direct communications whenever marketable storage capacity is available. For example, on November 11, 2025, SoCalGas posted a notice on ENVOY titled "Natural Gas Storage Rights for 2026 Storage Year," offering storage capacity rights for the April 1, 2026 through March 31, 2027 storage period under the G-TBS tariff. The notice invited interested parties to submit bids via email specifying the desired volume and demand charge.
