**CPUC SED Data Request 2.5**

For each of the following 2020 WMP initiatives, state whether any work was due in 2020 but not completed as of February 25, 2021, at the location where the Fort Jones fire ignited on that date:

(a) Initiative 5.3.5.20 Vegetation Cycle Clearing;
(b) Initiative 5.3.5.2 Distribution Vegetation Detailed Inspection;
(c) Initiative 5.3.5.3 Transmission Vegetation Detailed Inspection;
(d) Initiative 5.3.5.21 Expanded Pole Clearing; and
(e) Initiative 5.3.3.3 Covered Conductor Installation.

**1st Revised Response to CPUC SED Data Request 2.5**

Further to the Company's response to CPUC SED Data Request 2.5 dated May 15, 2024, the Company provides the following revised response to subpart (a):

(a) The Fort Jones fire occurred on circuit 5G41. Patrol inspection and correction work was conducted on circuit 5G41 in 2020. In addition, the majority of the line miles on the circuit received a detailed inspection, and the majority of the resulting corrective work was completed within calendar year 2020. The remaining work associated with the detailed inspection was rolled over to 2021 and completed prior to February 25, 2021.

Please refer to Attachment CPUC SED 2.5 1st REVISED, specifically file "Work ID Dates_5G41" which shows the week-ending dates when invoices were received. These dates correspond with the timeframe the inspection and maintenance activities occurred. Invoices are received weekly. The "FPD" work code represents the patrol inspection and maintenance activity. The "DNT" and "DST" work codes represent the detailed inspection and maintenance activities, respectively.

The last maintenance action associated with these work codes occurred during the week of February 27, 2021. While that date is after February 25, 2021, the invoiced work occurred earlier. Please refer to Attachment CPUC SED 2.5 1st REVISED, specifically file "PpWorkComplete_2021_5G41", rows 118 through 125, which aligns with rows 25 through 28 of file "Work ID Dates_5G41" and represents the work conducted that was invoiced for. File "PpWorkComplete_2021_5G41" shows that the work was finished on February 23, 2021.
