District: Yreka Project #: 32252
Contractor: Tree's Incorporated LLC Supervisor: Ruben Deleon
Bid Structure Firm Bid

- X **Distribution Cycle Maintenance** Feeder/Grid #: 5G40
Work according to PacifiCorp *Standard Operating Procedures*. Identify and correct all climbable trees, tree house hazards and remove danger trees.
- X **Tree Removals:** Limit removals to cases where removal time equals twice the pruning time. Forester approval is required for removals outside of this constraint.
- X **Tree Replacement:** Use coupons to pursue removals as needed. Foresters authorization required for amounts in excess of \$250.00
- X **Substations:** Assess and mitigate any vegetation and/or trees that could potentially impact the substation. Any vegetation growing inside the substation fence should be reported and removed. Contact area forester to obtain work order number for required work.
- X **Brush:** Pursue removal on non-landscape trees 6" dbh or less in all spans on feeder.
- X **FPI's:** Pull, complete and close all climbable and "A" priority FPI's while completing feeders. Attach releases upon return to Area Forester.
