PacifiCorp Vegetation Management

Contractor Work Release

This work release authorizes Tree's Incorporated LLC to proceed with the specified maintenance project. All work shall conform to PacifiCorp's Transmission & Distribution Vegetation Management Program Standard Operating Procedures. Following project completion, a Tree's Incorporated LLC representative shall sign this work release and return it to PacifiCorp. Refusals or any work performed that does not conform to PacifiCorp specifications shall be noted.

District: Yreka **Project #:** 32252

Contractor: Tree's Incorporated LLC **Supervisor:** Ruben DeLeon
Bid Type: Time and Materials

Distribution Cycle Maintenance **Feeder/Grid #:** 5G41

- X Work according to PacifiCorp Transmission & Distribution Vegetation Management Program Standard Operating Procedures. Identify and correct all climbable trees, tree house hazards and remove high risk trees that could strike facilities.
- X **Tree Removals:** Limit removals to cases where removal time equals twice the pruning time. Forester approval is required for removals outside of this constraint.
- X **Tree Replacement:** Use coupons to pursue removals as needed. Foresters authorization required for amounts in excess of \$250.00
- X **Substations:** Assess and mitigate any vegetation and/or trees that could potentially impact the substation. Any vegetation growing inside the substation fence should be reported and removed. Contact area forester to obtain work order number for required work.
- X **Brush:** Pursue removal on non-landscape trees 6" dbh or less in all spans on feeder.
- X **Post Inspection (Section 4.5 of Contractor Project Completion in PacifiCorp Transmission and Distribution Vegetation Management Standard Operating Procedures):** Inspect all work for compliance with specifications and any additional inspections included in work release. Any exceptions to specifications, for any reason, must be noted on work release.
- X **FPI's:** Pull, complete and close all climbable and "A" priority FPI's while completing feeders.
- X **Project Closure:** Scan and send signed/dated work release. Send electronic vegetation management activity and work completed reports with scanned work release to area foresters.
