RE: Data Request 5 – PacifiCorp Responses

Date: June 3, 2021

Information to support data request number five is outlined below and provided by way of attachment. Consistent with article 36 of the executed contract please treat all information provided as confidential.

Geographic Location of Initiative Activities

- For reference, see “Data Request 5 – 2020 Activities and Location Information Summary_6.1.21.xlsx.” This document, which was adapted from Attachment A in the final Scope of Work issued on 4.21.21, indicates whether initiatives are classified as small/large and field verifiable in columns J and K and includes reference to where 2020 specific location information can be found for each initiative in scope in columns N and O. This information has been reproduced in the responses below. However, the excel document has been provided as a general overview.

Please list your 2020 initiatives by the following characteristics:

1) Large Volume Quantifiable Goal/Target – Field Verifiable

PacifiCorp completed 2020 mitigation activities on two large volume, quantifiable, field verifiable initiatives.

WMP Table # / Category	2020 WMP Initiative #	Initiative activity	Utility Initiative Name	2020 WMP Page Number	Type of Target (Qualitative vs Quantitative)	Type of Quantitative (Financial vs Program Target)	Units	2020 Target (2020 WMP)	IE Category (Small or Large)	Field Verification Required? (Yes/No)
Grid Design & System Hardening	5.3.3.6	Distribution pole replacement and reinforcement, including with composite poles	Targeted Pole Replacement	145	Quantitative	Program Target	Poles	189	Large	Yes
Vegetation Management & Inspections	5.3.5.5	Fuel management and reduction of “slash” from vegetation management activities	Expanded Pole Clearing	224	Quantitative	Program Target	Poles	15,060	Large	Yes

Details regarding location information for these two initiatives is included below:

1. Grid Design and System Hardening: Distribution Pole Replacement
See – Tab 3.j Pole Replacements in "IE Data Request 3.xlsx" per Data Request 3.
2. Vegetation Management & Inspections: Fuel Management
See – Tab 3.h. Pole Clearing in "IE Data Request 3.xlsx" per Data Request 3.

2) Large Volume Quantifiable Goal/Target – Not Field Verifiable

PacifiCorp completed 2020 mitigation activities on nine large volume, quantifiable, non-field verifiable initiatives.

It is important to note that PacifiCorp considers many of its inspections as “non field verifiable.” While the poles and surrounding infrastructure can be field verified, the quality of a year-old inspection is not necessarily field verifiable as many aspects of the facility and surroundings can change throughout the year as a part of normal use and environmental impact. However, location information has been provided for inspection data and, if needed, the facilities could be visited to support this effort.

See summary table below.

WMP Table # / Category	2020 WMP Initiative #	Initiative activity	Utility Initiative Name	2020 WMP Page Number	Type of Target (Qualitative vs Quantitative)	Type of Quantitative (Financial vs Program Target)	Units	2020 Target (2020 WMP)	IE Category (Small or Large)	Field Verification Required? (Yes/No)
Asset Management & Inspections	5.3.4.1	Detailed inspections of distribution electric lines and equipment	Distribution Detailed Inspections	178	Quantitative	Program Target	Line Miles / Facilities	605	Large	No
Asset Management & Inspections	5.3.4.2	Detailed inspections of transmission electric lines and equipment	Transmission Detailed Inspections	180	Quantitative	Program Target	Line Miles / Facilities	122	Large	No
Asset Management & Inspections	5.3.4.5	Infrared inspections of transmission electric lines and equipment	LiDAR/Infrared Transmission Lines	185	Quantitative	Program Target	Line-Miles	232	Large	No
Asset Management & Inspections	5.3.4.6	Intrusive pole inspections	Intrusive Pole Inspections	189	Quantitative	Program Target	Line Miles / Facilities	250	Large	No
Asset Management & Inspections	5.3.4.11	Patrol inspections of distribution electric lines and equipment	Distribution Patrol Inspections	198	Quantitative	Program Target	Line Miles / Facilities	1,941	Large	No
Asset Management & Inspections	5.3.4.12	Patrol inspections of transmission electric lines and equipment	Transmission Patrol Inspections	200	Quantitative	Program Target	Line Miles / Facilities	657	Large	No
Vegetation Management & Inspections	5.3.5.2	Detailed inspections of vegetation around distribution electric lines and equipment	Distribution Detailed Inspections of Vegetation	217	Quantitative	Program Target	Line-Miles	825	Large	No
Vegetation Management & Inspections	5.3.5.3	Detailed inspections of vegetation around transmission electric lines and equipment	Transmission Detailed Inspections of Vegetation	220	Quantitative	Program Target	Line-Miles	345	Large	No
Vegetation Management & Inspections	5.3.5.20	Vegetation management to achieve clearances around electric lines and equipment	Vegetation Cycle Clearing	243	Quantitative	Financial Reporting	\$	\$3,288,977	Large	No

Details regarding these programs and the locational information is included below.

1. Asset Management & Inspections: Detailed inspections of distribution electric lines and equipment
See – “Data Request 5s – Inspections tab 2.1i (Detail Dist).xlsx” for Distribution Detailed Inspections.
 - *Each data point provided reflects an inspection record associated with the facility point or pole/structure*
 - *Lat/Long provided in Columns Q and R.*
 - *FPNO in Column G maps to “AssetID” in the GIS Data.*
2. Asset Management & Inspections: Detailed inspections of transmission electric lines and equipment
See – “Data Request 5 – inspections tab 2.2 (Detail Trans).xlsx” for Transmission Detailed Inspections
 - *Each data point provided reflects an inspection record associated with the facility point or pole/structure*
 - *Lat/Long provided in Columns Q and R.*
 - *FPNO in Column G maps to “AssetID” in the GIS Data.*
3. Asset Management & Inspections: Infrared inspections of transmission electric lines and equipment
See – Tab 3.g. Lidar Inspections in “IE Data Request 3.xlsx” per Data Request 3.
4. Asset Management & Inspections: Intrusive pole inspections
See – “Data Request 5- Inspections tab 2.4 (Intrusive).xlsx” for Intrusive Inspections
 - *Each data point provided reflects an inspection record associated with the facility point or pole/structure.*
 - *This initiative includes transmission and distribution facilities.*
 - *Lat/Long provided in Columns Q and R.*
 - *FPNO in Column G maps to “AssetID” in the GIS Data.*
5. Asset Management & Inspections: Patrol inspections of distribution electric lines and equipment
See – “Data Request 5 – Inspections tab 2.5 (Patrol Dist).xlsx” for Distribution Patrol Inspections
 - *Each data point provided reflects an inspection record associated with the facility point or pole/structure*
 - *Lat/Long provided in Columns Q and R.*
 - *FPNO in Column G maps to “AssetID” in the GIS Data.*

6. Asset Management & Inspections: Patrol inspections of transmission electric lines and equipment

See "Data Request 5 – Inspections tab 2.6 (Patrol Trans).xlsx" for Transmission Patrol Inspections.

- Each data point provided reflects an inspection record associated with the facility point or pole/structure
- Lat/Long provided in Columns Q and R.
- FPNO in Column G maps to "AssetID" in the GIS Data.

7. Vegetation Management & Inspections: Detailed inspections of vegetation around distribution electric lines and equipment

See Tab 3.h. Distribution in "IE Data Request 3.xlsx" per Data Request 3.

8. Vegetation Management & Inspections: Detailed inspections of vegetation around transmission electric lines and equipment

See Tab 3.h. Transmission in "IE Data Request 3.xlsx" per Data Request 3.

9. Vegetation Management & Inspections: Vegetation management to achieve clearances around electric lines and equipment.

No location information provided due to financial target.

3) Small (less than 100 items) Volume Quantifiable Goal/Target

PacifiCorp completed 2020 mitigation activities on four small volume, quantifiable initiatives.

WMP Table # / Category	2020 WMP Initiative #	Initiative activity	Utility Initiative Name	2020 WMP Page Number	Type of Target (Qualitative vs Quantitative)	Type of Quantitative (Financial vs Program Target)	Units	2020 Target (2020 WMP)	IE Category (Small or Large)	Field Verification Required? (Yes/No)
Situational Awareness & Forecasting	5.3.2.1	Advanced weather monitoring and weather stations	Weather Information	122	Quantitative	Program Target	Weather Stations	10	Small	Yes
Grid Design & System Hardening	5.3.3.3	Covered conductor installation	Covered Conductor	139	Quantitative	Program Target	Line-Miles	38	Small	Yes
Grid Design & System Hardening	5.3.3.9	Installation of system automation equipment	Relay/Recloser Replacement	153	Quantitative	Program Target	Devices / Projects	31	Small	Yes
Grid Design & System Hardening	5.3.3.18	Other corrective action	Small Diameter Conductor Replacement	164	Quantitative	Program Target	Line-Miles	3	Small	Yes

Details regarding the location information for these initiatives is included below.

1. Situational Awareness & Forecasting: Advanced weather station monitoring and weather stations

See Tab 3.b. weather stations in "IE Data Request 3.xlsx" per Data Request 3.

2. Grid Design & System Hardening: Covered conductor installation

See "Radio Tower Feed 5G69.kmz" file per Data Request 3.

3. Grid Design & System Hardening: Installation of System Automation
See Tab 3.c. Sectionalizing Devices in "IE Data Request 3.xlsx" per Data Request 3.
4. Grid Design & System Hardening: Other corrective action (Small Diameter Conductor Replacement)
No 2020 actuals to report. No location information provided at this time as no activities were performed

4) Qualitative Goals/Target

PacifiCorp did not have any planned initiatives with qualitative targets in 2020 as included in the 2020 WMP.

5) Provide PacifiCorp's Illness and Injury Prevention Plan

See PacifiCorp Accident Prevention Manual provided as an attachment with data request four question one (APM_2019_Final) (NTD: section IV, page 31, references PPE); section V, page 48 referenced minimum approachable distance).

See attachment "1.03.01.17.001v4" for PacifiCorp personal protective equipment policy.
