Application 99-04-011
(Filed April 14, 1999)

Daniel W. Douglass, and Philip L. Chabot, Jr.,
Attorneys at Law, for VarTec Telecom, Inc.,
applicant.

Cleveland W. Lee, Attorney at Law, for the
Consumer Services Division, interested party.

I. Summary

VarTec Telecom, Inc. (Applicant) seeks a certificate of public convenience and necessity (CPCN) under Public Utilities Code Section 1001 for authority to provide limited facilities-based and resold local exchange telecommunications services as a competitive local carrier (CLC).¹ In addition, it requests approval of

¹ A CLC is a common carrier that is issued a CPCN to provide local exchange telecommunications service for a geographic area specified by such carrier.

its purchase of Choctaw Communications, LLC. (Choctaw).² By this decision, we grant the requested CPCN subject to the terms and conditions set forth below. In addition, we adopt a settlement between the Commission's Consumer Services Division (CSD) and Applicant.

Pursuant to the settlement, Applicant³ admits that the following four violations occurred:

1. Applicant sold U.S. Republic Communications, Inc. (USRC) without prior Commission authorization.
2. USRC failed to provide USRC customers with notice of the sale of USRC.
3. Applicant purchased Choctaw without prior Commission authorization.
4. Applicant sold Choctaw to 1-800-Reconex without prior Commission authorization.

Applicant will pay a fine of \$20,000 for each of the above violations, for a total fine of \$80,000. In addition, Applicant will pay restitution of \$25 to each of 101 former long distance customers of USRC who alleged unauthorized long distance charges by USRC.

² By D. 00-01-036, the Commission approved the conversion of Choctaw Communications, LLC to Choctaw Communications, Inc. d/b/a Smoke Signal Communications.

³ With regard to the violations discussed herein, Applicant and VarTec Telecom Holding Company, a wholly owned subsidiary of Applicant (VarTec Holding), are collectively referred to as "Applicant." This is not intended to alter the settlement in which the parties stipulate that VarTec Holding was the entity that owned and controlled USRC and Choctaw from the time the companies were acquired to the time they were sold.

II. Background

In prior decisions, we authorized the provision of competitive local exchange service within the service territories of Pacific Bell Telephone Company (Pacific), Verizon California Inc. (Verizon), Roseville Telephone Company (RTC) and Citizens Telecommunications Company of California, Inc. (CTC).

Applicant, a Texas corporation, has its principal place of business located at 1600 Viceroy Drive, Dallas, Texas 75235.

Applicant was granted authority to resell interexchange services by Decision (D.) 94-05-053 (U-5384-C).

In this application, Applicant requests authority to provide limited facilities-based and resold local exchange services within Pacific and Verizon's service territories, as well as approval of its acquisition of a controlling interest in Choctaw. Applicant and CSD filed a joint motion on March 8, 2002 requesting approval of a settlement. We will address the settlement first, and the request for a CPCN second.

III. Facts Relating to the Proposed Settlement

On December 24, 1999, Applicant⁴ sold USRC⁵ to Alliance Group Services, Inc. (Alliance).⁶ On January 6, 2000, Applicant notified the Commission of the sale by letter. Applicant also asked that USRC's CPCN be cancelled. USRC

⁴ VarTec Holding Company, a wholly owned subsidiary of Applicant, owned a controlling interest in USRC, and sold it to Alliance Group Services, Inc. It also purchased and subsequently sold a controlling interest in Choctaw.

⁵ USRC was granted authority to resell interexchange services by Decision (D.) 97-04-070 (U-5773-C).

⁶ Alliance was granted authority to resell interexchange services by D.98-08-069 (U-6047-C).

subsequently filed Advice Letter No. 4 on February 3, 2000, requesting approval of the sale and requesting cancellation of its CPCN. The Advice letter was approved. Applicant's sale of USRC violated Section 851 that requires prior Commission approval of the sale. In addition, USRC failed to provide its customers with notice of the sale as required by Section 2889.3(a).

In addition to its interexchange operations, USRC sold Internet World Wide Web site hosting (web-hosting) services. On March 7, 1999, USRC stopped offering web-hosting services, and in July 1999, it stopped soliciting interexchange customers. On October 5, 1999, USRC sold its web-hosting business and assets, and stopped operating web-hosting services.

CSD received complaints from 1,590 USRC customers in 1998 and 1999 alleging that USRC charged them for web-hosting and/or interexchange services that the customers did not authorize.⁷ Pursuant to an agreement with CSD, Applicant provided web-hosting customers with \$80,277.88 in reimbursements or credits for web-hosting charges and internet related fees.⁸ Applicant also remitted to the Commission a check for \$9,141.23, which is the amount of undeliverable restitution, for deposit in the State General Fund.

⁷ This includes Pacific Bell complaint records listing 1,468 complaints.

⁸ On August 15, 2001, CSD filed a motion for approval of a proposed settlement with Applicant. The settlement was signed by Applicant on May 25, 2000, and by CSD on June 5, 2000. However it was not filed until after the web-hosting restitution had been made. The settlement also provided for \$25 in restitution to 101 customers who alleged only unauthorized long distance charges. CSD subsequently discovered additional violations by Applicant. As a result, the additional restitution was not made, and the motion was not pursued. The settlement is included as Exhibit 1 to Attachment A of this decision.

On October 19, 1998, Applicant purchased a controlling interest in Choctaw,⁹ six months before this application was filed. On August 31, 2001, Applicant sold its interest in Choctaw to Reconex Acquisition Corporation (Reconex). On September 6, 2001, 1-800-Reconex, the parent of Reconex, filed Advice Letter No. 14 requesting approval of the transaction.¹⁰ The Advice letter was approved. Applicant's purchase of Choctaw violated Section 852 that requires prior Commission approval of the acquisition. In addition, Applicant's sale of Choctaw violated Section 851 that requires prior Commission approval of the sale.

IV. Settlement

On March 8, 2002, CSD and Applicant filed a motion for adoption of a settlement. The settlement is included as Attachment A to this decision.

Pursuant to the settlement, Applicant admits that it did the following:

- Applicant sold USRC to Alliance without prior Commission authorization.
- USRC failed to provide USRC customers with notice of the sale of USRC.
- Applicant purchased Choctaw without prior Commission authorization.
- Applicant sold Choctaw to Reconex without prior Commission authorization.

⁹ Choctaw was granted authority to resell local exchange and interexchange services by Decision (D.) 98-07-028 (U-6008-C).

¹⁰ 1-800-Reconex was authorized to resell local exchange services by D.97-09-034 (U-5835-C), and interexchange services by D.01-06-013 (U-6546-C).

Applicant will pay a fine of \$20,000 for each of the above violations, for a total of \$80,000. In addition, Applicant will pay restitution of \$25 to each of 101 former long distance customers of USRC who alleged unauthorized long distance charges by USRC.

Rule 51.1 (e) of the Commission's Rules of Practice and Procedure says that the Commission will not approve settlements unless they are reasonable in light of the whole record, consistent with law, and in the public interest.

Applicant and CSD jointly sponsor the unopposed settlement. While not determinative of the reasonableness of the settlement, this fact lends support to such a conclusion.

CSD's charge in this proceeding is to protect the interests of ratepayers. Applicant represents its own interests. Therefore, the parties to the settlement are fairly reflective of the affected interests. This fact supports an inference that the settlement is reasonable.

The record contains the results of CSD's investigation as well as information provided by Applicant. The settlement is the result of negotiations between CSD and Applicant, and represents their final recommendation to the Commission. The settlement contains an admission by Applicant to four violations, and Applicant's agreement to pay an \$80,000 penalty and \$25 restitution to 101 customers. In addition, Applicant has already paid \$80,277.88 in restitution to customers, and \$9,141.23 in undeliverable restitution to the General fund. Considering these factors, the lack of opposition to the settlement, and the fact that all necessary interests were at the bargaining table, we find that the settlement is reasonable in light of the whole record.

Regarding the lawfulness of the settlement, Applicant and CSD represent that no term of the settlement contravenes any statute or Commission decision. We agree, and find that the settlement is consistent with law.

The settlement provides for the payment of a penalty for four admitted violations, and provides restitution to customers. The penalties send an important message to Applicant and other telecommunications carriers that we will not tolerate such violations. The record contains a full explanation of the parties' positions, and a full explanation of their obligations under the settlement. As a result, the settlement contains sufficient information for the Commission to carry out its future regulatory obligations with respect to the parties and their interests. Therefore, the settlement is in the public interest, and we will approve it.

Rule 51.8 of the Commission's Rules of Practice and Procedure (Rule 51.8) provides that its adoption of a settlement does not establish a precedent unless the Commission expressly provides otherwise. The settlement states that it does not establish a precedent, and we confirm that to be the case.

V. Approval of Applicant's Sale of USRC, and Purchase and Sale of Choctaw

Applicant sold USRC to Alliance. Both USRC and Alliance were authorized to resell interexchange services. Therefore, Alliance was qualified to purchase USRC. USRC filed an advice letter in February 2000 requesting approval of the sale, and cancellation of its CPCN. The advice letter was approved. USRC has been dissolved, although it is winding up the dissolution in some states. The fact that the advice letter was approved does not eliminate the fact that it was filed after the sale had taken place, and that customers were not given proper notice. However, the settlement addresses the errors. In addition, given the amount of time that has passed since the sale, and the fact that USRC no longer exists, attempting to provide notice to the affected customers at this time would serve no purpose, and would likely not be feasible. Therefore, we confirm our earlier approval of the sale.

Applicant purchased and subsequently sold Choctaw. Applicant, as discussed below, is technically and financially qualified as a limited facilities-based and resale provider of local exchange services. Choctaw is authorized to resell local exchange and interexchange services. Since the requirements for authorization to provide limited facilities-based and resold local exchange services exceed the requirements to resell local exchange and interexchange services, Applicant was qualified to purchase Choctaw. 1-800-Reconex is authorized to resell local exchange and interexchange services. Therefore, it is technically qualified to purchase Choctaw. 1-800-Reconex filed an advice letter requesting approval of its purchase of Choctaw. The Advice letter was approved. The fact that the advice letter was approved does not eliminate the fact that (1) Applicant purchased Choctaw prior to the filing of this application, (2) the sale of Choctaw took place prior to the Commission's approval of the initial purchase by Applicant, and (3) the sale to Reconex took place before the advice letter was filed. However, since the settlement addresses these errors, we will approve the purchase of Choctaw, and confirm our earlier approval of the sale.

VI. Financial Qualifications for a CPCN

To be granted a CPCN for authority to provide facilities-based and resold local exchange service, an applicant must demonstrate that it has \$100,000 cash or cash equivalent to meet the firm's start-up expenses. The applicant must also demonstrate that it has sufficient additional resources to cover all deposits required by other telecommunications carriers in order to provide service in

California.¹¹ Applicant provided audited financial statements that demonstrate that it meets the financial requirements.

VII. Technical Qualifications

To be granted a CPCN for authority to provide local exchange service, an applicant must make a reasonable showing of technical expertise in telecommunications or a related business. Applicant supplied biographical information on its management that demonstrates that it has sufficient expertise and training to operate as a telecommunications provider.

Applicant represents that no one associated with or employed by Applicant as an affiliate, officer, director, partner, or owner of more than 10% of Applicant was previously associated with a telecommunications carrier that filed for bankruptcy or went out of business, or was sanctioned by the Federal Communications Commission or any state regulatory agency for failure to comply with any regulatory statute, rule, or order, except as follows:

1. Applicant

In 1994, Applicant determined that some of its independent sales agents had submitted unauthorized service orders. Applicant terminated the sales agents. Subsequently, the office of the Texas Attorney General learned of the situation, and requested information about it. Applicant entered into an agreement with the Texas Attorney General whereby it must comply with Federal Communications Commission (FCC) rules regarding changing of a customer's primary long distance carrier.

¹¹ The financial standards for certification to operate as a CLC are set forth in D.95-12-056, Appendix C, Rule 4.B.

On January 5, 1999, the Texas Attorney General issued a Civil Investigative Demand to Applicant regarding one of its service offerings. Applicant supplied the requested information, and has received no further communications regarding the matter.

On February 19, 1999, the FCC and the Federal Trade Commission (FTC) issued a joint inquiry into the advertising practices of telecommunications providers. Applicant was one of the companies asked to provide marketing documents. Applicant provided the documents, and has received no further communications regarding the matter.

2. Choctaw

On May 5, 2000, the Utility Consumer's Action Network (UCAN) filed a complaint against Choctaw alleging that, among other things, it did not properly provide Universal Lifeline Telephone Service. The parties reached a settlement resolving most of the concerns. The Commission, in D.01-04-038, imposed a penalty of \$5,000 for violation of the Commission's rules regarding measured rate service. Choctaw also paid UCAN \$7,848.01 for legal expenses.

In December 2000, the Texas Attorney General issued a directive requiring Choctaw to produce documents regarding its services. Applicant responded, and has heard nothing further on the matter.

3. USRC

On November 3, 1998, USRC received a Notice of Intent to Assess an Administrative Penalty from the Public Utility Commission of Texas (PUCT), because it had determined that USRC had changed the primary long distance carrier of ten customers without authorization. USRC subsequently met with PUCT staff and, on April 30, 1999, submitted an affidavit saying that the mistakes were inadvertent and that it had credited all fees associated with the ten

complaints. The matter was subsequently resolved by the parties, and no penalty was assessed.

On April 19, 1999, USRC was notified by the Oregon Department of Justice (ODOJ) that it was under investigation for unfair and deceptive business practices. On July 21, 1999, USRC signed an Assurance of Voluntary Compliance (Assurance) affirming that it was in compliance with the requests made by the ODOJ, and that the Assurance did not constitute an admission of wrongdoing or liability. The Assurance also required that it pay restitution to customers, and a \$14,750 administrative penalty.

In June 1999, the Arkansas Attorney General filed a complaint against USRC alleging that it violated the Arkansas Deceptive Trade Practices Act. The parties reached a settlement that provided for restitution to customers, and a \$75,000 administrative penalty.

In the Fall of 1999, the FTC conducted an inquiry into USRC's marketing and billing practices for design and hosting of web sites. In July 2000, USRC and the FTC reached a settlement in which USRC agreed to modify certain internal procedures, and pay refunds to customers who were billed for unauthorized services. No penalty was assessed.

In June 1999, the North Carolina Attorney General filed a complaint alleging unfair and deceptive business practices by USRC regarding web page services. The parties reached a settlement that provided for restitution to customers, a \$75,000 administrative penalty and reliance on the settlement previously reached between USRC and the FTC.

On July 29, 1999, the Tennessee Regulatory Authority met with USRC regarding customer complaints about web services. The parties reached a settlement that provided for restitution to customers, a \$45,200 administrative

penalty, and reliance on the settlement previously reached between USRC and the FTC.

In 1999, USRC was notified by the Alabama, Idaho and Illinois Attorneys General, and the Wisconsin Department of Agriculture, Trade and Consumer Protection that it was under investigation regarding customer complaints. The investigations were closed based on reliance on the settlement previously reached between USRC and the FTC.

On June 18, 1999, the Kansas Attorney General launched an investigation of customer complaints against USRC. The parties reached a settlement that included a \$75,000 administrative penalty, and reliance on the settlement previously reached between USRC and the FTC.

In August 1999, the Texas Attorney General launched an investigation of customer complaints against USRC. USRC provided the requested information and documentation, and in April 2000, requested that the matter be closed. USRC is awaiting response and further investigation by the Texas Attorney General.

On September 16, 1999, the Florida Public Service Commission notified USRC that it was being investigated regarding customer complaints. The parties resolved the matter based upon reliance on the settlement previously reached between USRC and the FTC, and withdrawal of USRC's authority to provide service in Florida subsequent to approval of its sale to Alliance.

On May 16, 2000, the Tennessee Attorney General filed a complaint against USRC alleging violations of the Tennessee Consumer Protection Act. The parties reached a settlement that included restitution to customers, payment of an administrative penalty of \$4,000 and investigative costs of \$5,000, an Assurance of Voluntary Compliance, reliance on the settlement previously

reached between USRC and the FTC, and reliance on the previous settlement between USRC and the Tennessee Regulatory Authority.

Applicant no longer owns Choctaw or USRC, and none of Applicant's current management was part of the management of Choctaw or USRC. Given the above actions by other states, the FCC, and the FTC, as well as the fine and restitution imposed herein, we expect Applicant to avoid such errors in the future. Therefore, we find that Applicant has sufficient experience and knowledge to operate as a telecommunications carrier.

VIII. Tariffs

Commission staff reviewed Applicant's draft tariffs for compliance with Commission rules and regulations. The deficiencies are noted in Attachment B to this decision. In its compliance tariff filing, Applicant is directed to correct these deficiencies as a condition of our granting approval of its tariffs.

IX. California Environmental Quality Act (CEQA)

The CEQA requires the Commission as the designated lead agency to assess the potential environmental impact of a project in order that adverse effects are avoided, alternatives are investigated, and environmental quality is restored or enhanced to the fullest extent possible. Since Applicant states that it will not be constructing any facilities for the purpose of providing local exchange services, except for equipment to be installed in existing buildings or structures, it can be seen with certainty that there is no possibility that granting this application will have an adverse impact upon the environment. Applicant must file for additional authority, and submit to any necessary CEQA review, before it can construct facilities except as noted above.

X. Conclusion Regarding CPCN

Given the actions by other states, the FCC, and the FTC, and the restitution and fines included in the settlement, we see no reason not to grant the requested CPCN. We conclude that the application conforms to our rules for certification as a CLC. Accordingly, we shall grant Applicant a CPCN to provide limited facilities-based and resold local exchange service in Pacific and Verizon's service territories subject to compliance with the terms and conditions set forth herein. However, we remind Applicant that we expect full compliance with all Commission rules and orders as well as applicable statutes.

In order that customers may be paid restitution as soon as possible, and because of the public interest in competitive local exchange services, this decision should be effective immediately.

XI. Request to File Under Seal

Applicant requests that the financial information filed with this application, and on August 22, 2001, be filed under seal. The financial information consists of audited financial statements for Applicant and Choctaw, the purchase agreement between Applicant and Choctaw, and Applicant's estimated customer bases for its first and fifth years. Applicant represents that the information is proprietary and sensitive. The information, if revealed, would place Applicant at an unfair business disadvantage. We have granted similar requests in the past and will do so here.

XII. Categorization and Need for Hearings

In Resolution ALJ 176-3014 dated April 22, 1999, the Commission preliminarily categorized this application as ratesetting, and preliminarily determined that hearings were not necessary. CSD filed a protest in this proceeding. The Assigned Commissioner's January 4, 2002 ruling and scoping

memo determined that hearings were necessary. Hearings were held on March 12, 2002, and the matter was submitted.

XIII. Comments on Proposed Decision

Section 311(d) provides that this decision must be served on all parties and subject to at least 30 days public review and comment prior to a vote of the Commission. Pursuant to Section 311(d), all parties have stipulated to reduce the comment period to three days. Comments were filed on April 2, 2002. All comments were considered. No substantive changes were made to the decision.

THE SETTLEMENT OF THE PARTIES

I. THE PARTIES
