A02-05-065 - City of Richmond (City).

In D03-09-023, the Commission authorized The Burlington Northern Santa Fe Railway Company (BNSF) to continue work on changing the warning devices at the Richmond Avenue crossing (Crossing) in the City. In accordance with the joint request of BNSF and the City, today this decision approves the parties’ settlement agreement dated March 29, 2004, which specifies work to be done at the Crossing that differs from that authorized by D03-09-023. This decision modifies D03-09-023 accordingly. The Settlement will allow upgrade of the warning devices and safety improvements to the approaches to the Crossing, and will keep in place but inoperative the wigwag warning devices at the Crossing. The decision also grants the City’s request to withdraw its application for rehearing of D03-09-023. This proceeding is closed.

Energy Orders

19  A03-05-012 - Pacific Gas and Electric Company (PG&E).

PG&E seeks Commission approval pursuant to Pub. Util. Code §851 of certain licenses and leases of PG&E property already in effect (the “agreements” or “transactions”). In total PG&E seeks approval of 256 transactions. Most of these agreements were entered into several years ago. Each permits various uses of PG&E property by third parties. The transactions did not have prior approval of the Commission pursuant to Pub. Util. Code §851. PG&E states that it discovered many of these agreements in various branch office files while conducting an extensive search in the PG&E bankruptcy proceeding. Because the 256 transactions may implicate environmental review or may not meet the criteria for General Order (GO) 69-C transactions, PG&E states that it decided it would be prudent to seek formal approval of the transactions under Section 851. In addition, PG&E asserts that Commission environmental review under the California Environmental Quality Act (CEQA) is unnecessary because the majority of the transactions fit within CEQA exemptions, nine received adequate local CEQA review, and six pre-date CEQA and are thus not subject to its requirements.

This decision grants Section 851 approval for 255 of the transactions on a prospective basis. The Commission notes one of the transactions fits within recent Commission decisions finding agreements allowing floating boat docks as appropriate under GO 69-C. Therefore, Commission's approval here is not required. The decision declines to impose a penalty for failure to obtain prior approval of the transactions. With respect to CEQA, the Commission notes that because all of the agreements are several years old, any activity which may have warranted Commission's environmental review has long since occurred. Accordingly, Commission's CEQA review at this time has little value for practical purposes. Nevertheless, the Commission will address the CEQA issues raised by PG&E and determine where possible, the applicability of the claimed exemptions. This proceeding is closed.

19a  ALTERNATE TO ITEM 2910
This alternate differs from the Proposed Decision in the manner in which CEQA concerns are resolved and in its retroactive treatment of the leases. The Proposed Decision approved the leases on a going-forward basis, while declaring them to be void for periods prior to the approval. In response to comments, the ALJ reversed that position, proposing that the Commission grant a retroactive exemption for the leases, pursuant to Section 853. The alternate adheres to the ALJ's original position on this issue.

ALTERNATE TO ITEM 3268

This alternate differs from the Proposed Decision in 3 ways, none of which affect the revenue requirement:

1. It modifies Section 5.5 Service Guarantees to adopt ORA’s proposed 8-part service standard.
2. It modifies Section 6.2.7 Employee Compensation Issues to point out weaknesses in the current Total Compensation Study methodology, order SCE to develop a new study for the next GRC, and adopt Greenlining’s proposal to require SCE to annually report to the Commission on total compensation to its ten most highly-compensated employees.
3. It modifies Section 13.2 The Case for Performance Incentives. CCUE had proposed benchmarks and incentives. SCE and CCUE then reached a settlement adopting modified benchmarks and incentives. The PD rejects both, stating that incentives are inconsistent with Cost of Service ratemaking. The alternate adopts CCUE’s proposal.

There are changed Findings, Conclusions and Ordering Paragraphs to match these text changes. In all other respects, the drafts are the same.

ALTERNATE TO ITEM 3268

I02-06-002 - Related matters. This Alternate Decision of Commissioner Kennedy makes changes to the Proposed Decision of ALJ Wetzell and does not incorporate any modifications from Commissioner Wood's Alternate Decision. Additionally, the changes made to ALJ Wetzell's PD represent an increase in SCE's current rate base of $129 million. Specifically, this Alternate Decision would change the Proposed Decision by:

- Modifying Section 4.5 to increase Transmission and Distribution Operation and Maintenance Expenses by $1.9 million.
- Modifying Section 5.2.3.4 to fully fund the Economic and Business Development Program - $2.514 million.
- Modifying Section 5.4.2 to grant Edison's request to recover $10.8 million associated with Real Time Energy Metering;
- Modifying Section 6.5.2 to increase Information Technology Expenses by $9.969 million.
- Modifying Section 6.5.3 to increase Information Technology Capital Expenditures by $6 million.
- Modifying Section 8.5 to reduce TURN's proposal to treat customer deposits as an offset to rate base to the 1996 - 2001 five-year average of $80 million rather than the PD's use of a 2000 - 2001, 13 month average of $117 million.
- Modifying Section 9.2 to approve SCE's request for an increase in depreciation rates for certain accounts.

R01-10-024  - Order Instituting Rulemaking to establish policies and cost recovery mechanisms for generation procurement and renewable resource development.

This decision approves the five proposals that SDG&E presented to meet its short-term and long-term grid reliability needs. These proposals were the result of an open and competitive Request for Proposal (RFP) process that solicited bids from all qualified resources, including turn-key natural gas-fired generating units, power purchase agreements (PPA), demand response programs, and renewable resources. Out of 22 bids received, these five proposals were identified as conforming to the RFP specifications and were found to be the least cost/best fit choices for meeting the utility’s need to have a diversified portfolio of resources to meet its customers grid reliability needs, are consistent with SDG&E’s long-term resource plan, benefit consumers, and are in the public interest. The proposals include a demand response program from Comverge, a renewable resource contract with Envirepel, and contracts for three gas-fired facilities, Ramco, Palomar, and Otay Mesa. Ramco is a turn-key combustine turbine intermediate unit, Palomar is a turn-key 500/555 MW combined-cycle power plant, and Otay Mesa is a 10-year PPA for a 485/573 MW combined cycle facility. This proceeding is closed.

ALTERNATE TO ITEM 3438

Like the ALJ’s Proposed Decision (PD), this Alternate also approves the five proposals that SDG&E presented to meet its short-term and long-term grid reliability needs. However, unlike the ALJ’s PD, this Alternate approves certain ratemaking mechanisms that SDG&E proposed, specifically, a higher return on equity for generation assets that will be utility-owned, and a debt equivalency premium in connection with the proposed Otay Mesa long-term power purchase agreement (PPA) to compensate SDG&E for the negative impact on its credit profile that will result from entering into the PPA.

Closed Session

This notice is furnished under Government Code Sections 11125 and 11126.3. The Commission will meet in Closed Session following the Public Session of its regularly scheduled meeting. In the Closed Session, the Commission may consider personnel matters as provided under Government Code Section 11126(a), institution of proceedings or disciplinary actions against any person or entity under the jurisdiction of the Commission as provided under Government Code Sections 11126(d)(2) and 11126(e)(2)(C)(i), and pending litigation as provided under Government Code Section 11126(e). Additional items may be added to the closed session agenda pursuant to Gov. Code Section 11126.3(d). If in Closed Session the Commission votes to appoint, employ, or dismiss a public employee, the Commission will thereafter reconvene in Open Session to make the disclosures required by Government Code Sections 11125.2 and 11126.3(f).

30  [2636]

R01-09-001 - Order Instituting Rulemaking on the Commission’s own motion to assess and revise the new regulatory framework for Pacific Bell (Pacific) and Verizon California Incorporated.

I01-09-002 - Related matters. This proposed decision addresses Phase 2B audit issues. The proposed decision sustains most of the findings of an audit of Pacific’s intrastate financial results for the period 1997-1999 that were considered during Phase 2B. Despite the audit adjustments, this decision, read in combination with the findings reached by the Commission in Phase 2A of this proceeding, does not increase Pacific’s earnings to a level requiring it to make refunds to its ratepayers.

ALTERNATE TO ITEM 2636

I01-09-002 - Related matters. This alternate proposed decision resolves Phase 2B audit issues. The alternate proposed decision sustains the analysis in the audit conducted by Overland on 51 of 68 issues, and reverses its findings on 17. The alternate proposed decision accepts Pacific’s claim of lawyer-client confidentiality concerning certain information, but prohibits the booking of contingent liability accruals that rely on this information. The alternate resolves ambiguities in the Commission’s process for resolving discovery disputes. Consistent with D01-06-077, the alternate orders Pacific to pay interest on the amounts due to customers at the 90-day commercial paper rate.

A01-02-035, A02-02-031, A02-02-032, A02-02-034, A02-03-002 - Related matters. This decision adopts revised monthly recurring unbundled network element (UNE) rates for several UNEs that Pacific Bell Telephone Company dba SBC-California sells to competitive local exchange carriers. The UNEs for which revised monthly recurring rates are adopted are loops (including 2-wire, DS-1 and DS-3), switching, dedicated transport, signaling system 7 (SS7) links, and the DS-3 entrance facility without equipment. The rates in today’s order replace interim rates for loops and switching that were set in D02-05-042 and replace rates for other UNEs originally adopted in D99-11-050. This order adopts a statewide average 2-wire loop rate of $12.92 and a flat rate for switching usage of $2.64 per port. These rates result in a UNE-Platform rate of $16.90 per month. The Commission sets these rates based on the average of the results of the models proposed by SBC-CA and the HAI Model, Version 5.3, proposed by AT&T Communications of California and WorldCom, Inc. An average of the two competing models is used based on the finding that both models are flawed. These proceedings are closed.

This alternate decision adopts revised monthly recurring unbundled network element (UNE) rates for several UNEs that Pacific Bell Telephone Company dba SBC-California sells to competitive local exchange carriers. The alternate adopts a statewide average 2-wire loop rate of $13.26 and a flat rate for switching usage of $2.77 per port. These rates result in a UNE-Platform rate of $17.38 per month. The rates are based on the average of the results of the models proposed by SBC-CA and the HAI Model, Version 5.3, proposed by AT&T Communications of California and WorldCom Inc. Res T-16818 - SBC California (SBC).
This resolution dismisses without prejudice SBC's request to waive the installation service charge for eligible residence and business customers returning from facilities-based carrier service. This resolution finds that it is inappropriate to use the informal 'burden test' in SBC's advice letter filings addressed in this resolution. The imputation tests required under the Implementation Rate Design Decision are used in this resolution. This resolution does not require any retroactive changes to rates and charges set based on the informal burden test and does not trigger any price increases for services which were approved previously through the use of the informal burden test. A02-07-021 - Southern California Water Company (SCWC).

In Interim Decision 03-05-001 on May 8, 2003, the Commission approved a settlement between the City of Santa Monica (City) and SCWC that conveyed SCWC water rights to the City and relieved SCWC from its participation in a number of pending lawsuits related to the Charnock Groundwater Basin. The issue of ratemaking treatment of the settlement proceeds and the issue of contamination payments made to SCWC by oil companies were deferred to this phase of the proceeding. This decision resolves those issues. The application is closed.
