March 26, 2003 10 am - 2 pm
--------------------------------

PG&E's Pacific Energy Center 851 Howard Street San Francisco
--

Pacific Gas and Electric Company, San Diego Gas & Electric Company, Southern California Edison Company, and Southern California Gas Company are sponsoring a public workshop to obtain public comment on the draft final report for the PY2001 Low Income Energy Efficiency (LIEE) Program Evaluation. The evaluation entailed both a process and impact evaluation of the PY2001 program with emphasis on the Rapid Deployment efforts and measures. The draft final evaluation report includes two parts: the process evaluation report and the impact evaluation report and will be sent electronically to parties on the service list for R.01-08-027 and A.00-05-002, the newly created service list for the consolidated Annual Earnings Assessment Proceeding (AEAP), no later than March 19, 2003. The workshop presentation will highlight key results addressed in both parts of the draft final report, but since the preliminary study findings and the basic study approaches were discussed in detail at the public workshop held in August 2002, this workshop will be dedicated, primarily, to soliciting and obtaining public comment on the information contained in the written reports. Interested parties can offer comments at the March 26, 2003 workshop as well as submit written comments on the report through March 31, 2003 (send to [Angela.Jones@sce.com](mailto:Angela.Jones@sce.com)).

Commission's own motion into open access and network architecture development of dominant carrier networks.

**Summary:** On February 28, 2003, Tim McCallion, President-Pacific Region, Verizon California Inc. (Verizon), met with Cmmr. Brown in San Francisco. Also present were Robert Wullenjohn, advisor to Cmmr. Brown, and Jenny Wong, Director – Regulatory Affairs, Verizon. Written material (attached to the notice) was used. McCallion expressed great concern about the interim UNE rates recommended by the draft decision (DD), particularly the magnitude of the reductions on loops and switching costs. McCallion also pointed out that the DD proposed to adopt New Jersey UNE rates, characterizing them as one of the more recent UNE cost decisions by a state commission. McCallion argued that New Jersey rates are one of the lowest Verizon rates in the country, are not cost based, and have other fundamental differences, which make them inappropriate for California. McCallion stated that the reasonableness of Verizon's proposal for interim rates is supported by the recent Florida decision, which produced rates similar to those proposed by Verizon. McCallion concluded that the Verizon proposal is the more reasonable proposal and should be adopted.

3/10/03            R02-01-011            Order Instituting Rulemaking regarding the implementation of the suspension of direct access pursuant to Assembly Bill 1X and Decision 01-09-060.

**Summary:** On March 5, 2003, Christopher J. Mayer, Assistant General Manager Planning and Marketing, Modesto Irrigation District (Modesto), met with Cmmr. Wood in San Francisco. Also present were Steven Weissman, advisor to Cmmr. Wood, and Joy A. Warren, Modesto's Senior Staff Attorney. Mayer and Warren explained that Modesto may not provide electric service to retail customers within Pacific Gas and Electric Company's (PG&E) territory except as defined in Section 9610; thus, any customers departing PG&E's electric service to take service from Modesto would be within Modesto's own electric service area. Warren noted that pursuant to the Rate Agreement decision adopted by the Commission, Modesto's customers, by definition, cannot be subject to bond charges. Mayer and Warren concluded that no exit fees should be imposed upon the departing load within Modesto's statutory defined electric service area or load that departs PG&E's service to take service from Modesto. However, Mayer and Warren also noted that should the Commission attempt to impose such fees, they should be applied only prospectively and any caps and/or exemptions applicable to other categories of customers should be equally applicable to municipal departing load customers.
