Southern California Water Company, for an Order pursuant to Public Utilities Code Section 851 approving a Settlement Agreement that will convey water rights in the Culver City Customer Service Area.

Summary: On May 5, 2003, James Scarff, counsel for the Office of Ratepayer Advocates (ORA), met with Belinda Gatti, advisor to Cmmr. Brown, in San Francisco. Also present was Natalie Walsh, ORA assistant director. Scarff stated that ALJ Evans’ proposed decision (PD) erred badly in not addressing ORA’s $4.2 million audit adjustment to flow through the payments received from polluters for the higher costs of purchased water to the ratepayers who have paid the high costs for the purchased water. Scarff noted that Southern California Water Company has already been fully compensated for the costs of the purchased water and has not suffered any damage to its water rights; it is the ratepayers who have been damaged, and the PD does nothing to redress that problem. Scarff urged that an alternate be issued or the existing PD amended to credit these payments from polluters to ratepayers. Scarff explained that there is no need to hold additional hearings on the question. Walsh stated that ORA felt that the water rights being sold in the settlement could have value to ratepayers in the future, and it would be inappropriate for the Commission to just assume that there were no longer used and useful because they currently are impacted by MTBE pollution. Scarff also stated that it might be possible to separate the Public Utilities Code Section 790 issues from the settlement and audit issues to be decided later if the Commission wanted to vote on the settlement prior to resolving the Section 790 policy questions. Scarff noted that ORA urges an interpretation of Section 790 that would reinvest the gain on sale of appropriate items sold as a contribution to capital.

San Diego Gas & Electric Company, for a Certificate of Public Convenience and Necessity for the Valley-Rainbow 500 KV Interconnect Project
**Summary:** LATE FILED. On April 18, 2003, James Scarff, counsel for the Office of Ratepayer Advocates (ORA), met with Kevin Coughlan, advisor to Pres. Peevey, in San Francisco. Scarff discussed San Diego Gas & Electric Company’s (SDG&E) petition for modification of D02-12-066. Scarff stated that the alternatives initially proposed by SDG&E had with one exception been rendered irrelevant due to the acquisition of the Great Oak property in trust by the Pechanga tribe. Scarff noted that the new alternatives discussed in the summary analysis had not yet been subjected to scrutiny by the public or the parties. Scarff also said that the cost data used in the need hearings was now likely to be far too low for any Valley-Rainbow project since the route whose cost was estimated in the economic analyses is now no longer feasible. With regard to the Reliability-Must-Run (RMR) costs, Scarff pointed out that the ‘evidence’ SDG&E presented was nothing more than SDG&E’s request to the Federal Energy Regulatory Commission (FERC) for a higher revenue requirement; it was not FERC final decision on what RMR costs are reasonable. Scarff also noted that the cost estimate referenced by SDG&E is for 2003 tariffs. Scarff stated that it was inappropriate for the Commission to assume that RMR costs would remain the same from 2003 or necessarily increase from then until Valley-Rainbow became operational. Scarff noted that everyone involved in this case wanted either Otay-Mesa or the Palomar Energy Center to be built, yet SDG&E seemed to be focusing all of its efforts on building this transmission project instead of encouraging new power plants. Scarff noted that the California Energy Commission was considering the Otay-Mesa project as likely to be built. ORA argued that ALJ Cooke’s draft decision denying SDG&E’s petition for modification reached the correct conclusion and should be adopted.
