7/5/07 **A07-04-003** – WesPac Pipelines – Los Angeles LLC, for an order granting it public utility status as a common carrier pipeline corporation and authorizing it to file a tariff with market-based rates for its jet fuel pipeline transportation services.

Summary: On June 29, 2007, Ben Thompson, Vice President of WesPac Pipelines-Los Angeles LLC (WesPac -Los Angeles) participated in a community meeting hosted by Assemblyman Curren Price, of California's 51st Assembly District, and attended by Timothy Sullivan, advisor to Cmmr. Simon, at Hawthorne Memorial Auditorium in the City of Hawthorne, California. Also participated in the meeting were Tom Jensen, Vice President, and Jose E. Guzman, Jr., counsel, for WesPac-Los Angeles. WesPac-Los Angeles representatives provided a presentation on the proposed jet fuel pipeline to Los Angeles International Airport. Thompson presented a Power Point-based presentation (copy of the slides are attached to the notice) and a video. The representatives discussed issues of the project and stated that WesPac-Angeles is both a common carrier and a public utility. Jensen stated his understanding that public utility pipeline corporations possess the power of eminent domain.

Program, an Increasing Block Rate Design and a Water Revenue Adjustment Mechanism.

A07-03-019 – San Jose Water Company, for an Order approving its Proposal to Implement the Objectives of the Water Action Plan.

Summary: On July 3, 2007, Natalie Wales, counsel, Division of Ratepayer Advocates (DRA) met with Laura Krannawitter, advisor to Cmmr. Bohn in San Francisco. Also present was Tatiana Olea, Analyst, DRA. Written materials (attached to the notice) were used and later emailed to the advisor. DRA representatives stated that winter usage is an accepted proxy for indoor water usage in developing conservation rate designs and discussed the dangers of implementing aggressive conservation rate designs in districts in which customers are still being transitioned from flat rates to metered rates. DRA raised issues unique to specific districts that complicate the development of conservation rates noting that it could be appropriate to consider adopting alternate rate structures which could be implemented if extreme circumstances dictate a greater need for water conservation in an area.
