

Decision 02-10-053 October 24, 2002

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

Application of ACN Communication Services, Inc. for a Certificate of Public Convenience and Necessity to Operate as a Provider of Facilities-Based and Resold Local Exchange Service Within the State of California.

Application 02-08-011
(Filed August 12, 2002)

O P I N I O N

I. Summary

ACN Communication Services, Inc. (Applicant) seeks a certificate of public convenience and necessity (CPCN) under Pub. Util. Code § 1001 for authority to provide limited facilities-based and resold local exchange telecommunications services. By this decision, we grant the requested authority subject to the terms and conditions set forth below.

II. Background

In prior decisions we authorized the provision of competitive local exchange service, by carriers meeting specified criteria, within the service territories of Pacific Bell Telephone Company (Pacific), Verizon California Inc. (Verizon), Roseville Telephone Company (RTC), and Citizens Telecommunications Company of California, Inc. (CTC).

Applicant, a Michigan corporation, seeks authority to provide limited facilities-based and resold local exchange services as a competitive local carrier (CLC) throughout Pacific and Verizon's service territories. On April 14, 2000 we

granted applicant a CPCN to provide interexchange services with the Commission corporate identification number U-6342-C.

Applicant's principal place of business is located at 32991 Hamilton Court, Farmington Hills, Michigan 48334.

III. Financial Qualifications

To be granted a CPCN, an applicant for authority to provide facilities-based and resold local exchange and / or interexchange services must demonstrate that it has a minimum of \$100,000 of cash or cash equivalent to meet the firm's start-up expenses.¹ An applicant must also demonstrate that it has sufficient additional resources to cover all deposits required by local exchange carriers (LECs) and / or interexchange carriers (IECs) in order to provide the proposed service.² Applicant provided audited financial statements and bank statements that demonstrate that it has sufficient cash to satisfy the financial requirement, including any required deposits.

IV. Technical Qualifications

Applicants for CLC authority are required to make a reasonable showing of technical expertise in telecommunications or a related business. Applicant submitted biographical information on its officers that demonstrates that it possesses sufficient experience and knowledge to operate as a telecommunications provider.

¹ The financial requirement for CLCs is contained in D.95-12-056, Appendix C. The financial requirement for NDIECs is contained in D.91-10-041.

² The requirement for CLC applicants to demonstrate that they have additional financial resources to meet any deposits required by underlying LECs and / or IECs is set forth in D.95-12-056, Appendix C. For NDIECs, the requirement is found in D.93-05-010.

Applicant represents that no one associated with or employed by Applicant as an affiliate, officer, director, partner, or owner of more than 10% of Applicant was previously associated with any telecommunications carrier that filed for bankruptcy or went out of business, or was sanctioned by the Federal Communications Commission or any state regulatory agency for failure to comply with any regulatory statute, rule, or order.

V. Tariffs

Commission staff reviewed Applicant's draft tariffs for compliance with Commission rules and regulations. The deficiencies are noted in Attachment A to this decision. Applicant shall correct these deficiencies in its tariff compliance filing as a condition of our approval of its tariffs.

VI. California Environmental Quality Act (CEQA)

CEQA requires the Commission as the designated lead agency to assess the potential environmental impact of a project in order that adverse effects are avoided, alternatives are investigated, and environmental quality is restored or enhanced to the fullest extent possible. Applicant represents that it will not be constructing any facilities for the purpose of providing local exchange services. Therefore, it can be seen with certainty that there is no possibility that granting this application will have an adverse effect upon the environment. Applicant must file for additional authority, and submit to any required CEQA review, before it can construct facilities other than equipment to be installed in existing buildings or structures.

VII. Categorization and Need for Hearings

In Resolution ALJ 176-3093 dated August 22, 2002, the Commission preliminarily categorized this application as ratesetting, and preliminarily determined that hearings were not necessary. No protests have been received.

There is no apparent reason why the application should not be granted. Given these developments, a public hearing is not necessary, and it is not necessary to disturb the preliminary determinations.

VIII. Comments on Draft Decision

This is an uncontested matter, in which the decision grants the relief requested. Accordingly, pursuant to Pub. Util. Code Section 311(g)(2), the otherwise applicable 30-day period for public review and comment is being waived.

IX. Conclusion

We conclude that the application conforms to our rules for authority to provide competitive local exchange telecommunications services. Accordingly, we shall approve the application subject to the terms and conditions set forth herein.
