

Decision 04-12-005 December 2, 2004

**BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA**

Application of Tuyen Xuan Tran and SOS Shuttle for authority to operate as a charter, prearranged passenger stage corporation between points in San Francisco International Airport, Oakland International Airport, and San Jose International Airport and to establish a Zone of Rate Freedom.

Application 04-07-019  
(Filed July 9, 2004)

**O P I N I O N**

**Summary**

This decision grants the application of Tuyen Xuan Tran (Applicant), an individual, pursuant to Pub. Util. Code § 1031 et seq., for a certificate of public convenience and necessity to operate as a passenger stage corporation (PSC), as defined in Pub. Util. Code § 226, and to establish a zone of rate freedom (ZORF) pursuant to Pub. Util. Code § 454.2.

**Discussion**

The application requests authority to operate as an on-call PSC to transport passengers and their baggage between points in San Francisco, San Mateo, Alameda, Santa Clara and Santa Cruz Counties, on the one hand, and San Francisco (SFO), Oakland (OAK), and San Jose (SJC) International Airports, on the other hand. Applicant states that an improved economic climate has caused an increase in business and pleasure travel, which has resulted in greater demand for door-to-door shuttle service. Higher gasoline prices have added to the demand. Applicant's goal is to provide safe and dependable transportation at competitive rates.

Applicant has more than two years of experience working as a shuttle driver. He believes that as a small operator he can provide better customer service than larger shuttle services. He will operate a 5-passenger van and an 8-passenger van. The application includes an unaudited balance sheet as of July 10, 2004, that discloses assets of \$18,933 (including cash of \$8,329), liabilities of \$5,928, and net worth of \$10,928.

The proposed fares, as listed in Exhibit A of the application, range between \$22 (San Jose – SJC) and \$95 (Ben Lomond - SFO). Applicant requests authority to establish a ZORF of \$10 above and below the proposed fares of \$30 and under and \$20 above and below the proposed fares over \$30. Applicant will compete with other PSCs, taxicabs, limousines, buses, and automobiles in her service area. This highly competitive environment should result in Applicant pricing his services at a reasonable level. Many other PSCs have been granted ZORFs. The requested ZORF is generally consistent with the ZORFs held by other PSCs.

Notice of filing of the application appeared in the Commission's Daily Calendar on July 15, 2004. Applicant requests a waiver from the provisions of Rule 21 of the Commission's Rules of Practice and Procedure which require service of a notice of the application on all city and county officials within whose boundaries the passengers will be loaded or unloaded. Applicant served a notice to the five involved counties, five major cities, the affected airports, and public transit operators in the service area. Applicant states that all parties that have an interest in Commission proceedings subscribe to or have access to the Commission's Daily Calendar. We shall exercise the discretion accorded to us by Rule 87 and grant the waiver requested by Applicant because he will be providing on-call service, not scheduled service, and service on all cities in the service territory would be burdensome.

In Resolution ALJ 176-3137 dated August 19, 2004, the Commission preliminarily categorized this application as ratesetting, and preliminarily determined that hearings were not necessary. No protest has been received. Given this status, public hearing is not necessary, and it is not necessary to alter the preliminary determinations made in Resolution ALJ 176-3137.

This is an uncontested matter in which the decision grants the relief requested. Accordingly, pursuant to Pub. Util. Code § 311(g)(2), the otherwise applicable 30-day period for public review and comment is being waived.

### **Assignment of Proceeding**

Richard Clark is the assigned Examiner in this proceeding.

### **Findings of Fact**

1. Applicant requests authority to operate as an on-call PSC to transport passengers and their baggage between points in San Francisco, Alameda, San Mateo, Santa Clara, and Santa Cruz Counties, on the one hand, and SFO, SJC, and OAK, on the other hand.
2. Public convenience and necessity requires the proposed service.
3. Applicant requests authority to establish a ZORF of \$10 above and below the proposed fares of \$30 and under and \$20 above and below the proposed fares over \$30, shown in Exhibit A of the application.
4. Applicant will compete with PSCs, taxicabs, limousines, buses, and automobiles in his operations. The ZORF is fair and reasonable.
5. Applicant requests a waiver of the notice requirements of Rule 21 of the Rules of Practice and Procedure as she has served notice to five counties, five cities, the affected airports, and public transit operators in the service area.
6. No protest to the application has been filed.
7. A public hearing is not necessary.

8. It can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment.

### **Conclusions of Law**

1. Public convenience and necessity has been demonstrated and the application, as amended, should be granted.
2. The request to waive the notice requirements of Rule 21 should be granted.
3. The request for a ZORF should be granted.
4. Before Applicant changes any fares under the ZORF authorized below, Applicant should give this Commission at least ten days' notice. The tariff should show the high and low ends of the ZORF and the then currently effective fare between each pair of service points.
5. Since the matter is uncontested, the decision should be effective on the date it is signed.
6. Only the amount paid to the State for operative rights may be used in rate fixing. The State may grant any number of rights and may cancel or modify the monopoly feature of these rights at any time.
