GENERAL METERED SERVICE (continued)SPECIAL CONDITIONS (Continued)

2. Any residential Customer who has installed a Residential Fire Sprinkler System (RFSS) as part of their regular domestic service at their place of residence will be eligible to request to have their monthly service adjusted to reflect the increased service size necessary for operation of the RFSS. To be eligible for the monthly service charge reduction, the customer must request the adjustment and the Company must then verify that the lower size of meter would be large enough to provide adequate service to the residence. If eligible, customers who have a 1" or  $\frac{3}{4}$ " meter in lieu of a  $\frac{5}{8}$ " meter, will be billed a monthly service charge equal to that of the  $\frac{5}{8}$ " meter. If eligible, any other residential customer with an RFSS and a meter size greater than 1" will have their monthly service charge reduced by one meter size. The RFSS is not considered a fire service by the Company, but is considered an oversized general metered service and therefore, only the rules and conditions of service for general metered service apply.
3. Per the final decision of A. 07-01-037, a surcharge of \$0.0720 per ccf will be applied to each bill to fund conservation efforts. The surcharge will be applied beginning the effective date of the final decision and will remain in effect until otherwise directed by the Commission. (N)
